> ISTR that the Plesiochronous Digital Hierarchy of BT ran
> via a single master oscillator.

Plesiochronous refers to a system with signals having a common data rate
(within defined limits) which are sychronised to different clocks. Sometimes
referred tp as 'nearly synchronised'.

ie no 'master clock', with or without a remontoire ;-).

In a plesiochronous switched data system, the signals may be synchronised
at a given instant permitting switching withourt loss of frames but, when
the signals drift apart, the switches must compensate by a process known as
'frame slip'- not required in a system synchronised to a master oscillator.

I've no doubt you will respond with 'rubbish' etc. but I invite the others
on the NG to look up the term and decide who is correct.

Works pretty good, but let me give a piece of advice. When a wave is played, it should begin at the start of the sinusoide, as well as end. If a wave is cut off at it's maximum, or any non-zero value, there appear some higher frequency distortions, heard as clicks at the end of an element (dash or dot). I have spotted this effect in some other CW-programs, only one of them, by G4FON, generated clear, clicks-free CW signals. Try using not a pure sinusoide, but rather a harmonics-rich signal, however avoiding a square wave (a distorted sinusoide would do).

Cheers,

It's all about overpaid high-profile liberals (whether Hollywood or
D.C.) who feel that they are better than the rest of us.

The fact is, THEY WORK FOR US AND THEY HAVE FORGOTTEN IT. As Mark Twain
said, "what this country needs is more unemployed politicians". I would
add "...and less overpaid actors."

Douchebag,

You never mentioned that although "none of them had any
idea who wrote them", all who signed did read and agree with the
content. Look it up.

Do you know who wrote the drivers license statement that you may sign
when you will be old enough to drive? No. When you are incarcerated,
will you know who wrote the property disposal statement when they take
the crack pipe, vasolene tube, and gerbil feces and duct tape from your
pockets? No. It is the content of the signed document, not the author,
that you should worry about.

Many soldiers read them and did not sign them, for whatever reason.
And, no penalty.

What our brave soldiers are doing is telling all of us back here (here,
where it's safe), that the media is not representing things correctly.
Our men and women are proud to be there, and they know we support them.

Well, most of us support them.

Here is one who doesn't:

I have obtained some surplus linear regulated power supplies. The
date code for the electrolytic caps in the filter section are late
1993. I've not powered these
supplies up. I know that these caps have a limited life. These caps
are also
harder to come by due to the proliferation of switch mode power
supplies and
their lower values. Any ideas/suggestions to minimize stress to these
caps
or even rejuvinate, if possible, these caps. I'm aware of inrush
current at
supply turn on and I plan to minimize that. Any other ideas or
suggestions???

You have three choices:

1. Bring the things up slowly, on a variac. This allows the capacitors
to slowly reform.

2. Bring the things up for a while with a 60W light bulb in series, then
apply full power. Same basic principle, if you don't have a variac, but
slower.

3. Apply full power. If any caps blow, they were marginal and should have
been replaced anyway.

I tend to be a fan of method #3, but I can understand the arguments in favor
of the first two. But caps that are only a decade old? Don't sweat it.

Something about a broken clock being correct twice a
day.....

I lost interest because of all the old farts who couldn't talk about
anything except the good old days.....Took me 25 years to get
to that point, but it did happen.

Take yer homebrew 6L6 transmitter and show it to Hiram Percy Maxim so he can
see how LITTLE progress you have made in the last 65 years.

THAT is what will make him turn over in his grave.....

We now have "Ham Radio" magazine, and "73 Magazine" both now defunct.

Would you like the adjective "defunct" in front of ARS???

Whereas your explanation offers further information (it was
an in-joke at the time to state that the derivation came from
the Plessey company, rather than from the Greco prefix, "Plesio"
meaning "nearly" as you say (also used in, "Plesiosaur", nearly a
lizard)), it does not give the lie to what I said, despite your
childish desperation to claim that it does.

There was a single master oscillator AIUI, but when service
finally came into exchanges via different links, it would result
in many phases of the frame dependant upon the route
by which signals had transited through the network, each link
being subject to frame slip, as you state.

The links were configured such that one end was the master
clock, and as such gave rise to a single master oscillator at
some point in the network. My memory may be in error on this
matter, but I am only human, I have never claimed omniscience
and it is 8 or 9 years since I worked on such system. No doubt
this will pass you by, and we can expect your usual childish broadcast
(CB) sneering at some minor error. How is it ever possible to
hold a technical discussion with you when you exhibit such a
personality defect, OM?

Why do you have to turn every technical discussion into
a pissing contest? Are you that desperate to save the face that
you have undoubtedly lost by being a proponent of the
M3/CB Fool's Licence? You would certainly seem to be one
of the fools for whom the licence was intended.

Brilliant is an adjective in the above sentence as he was not referring to a
precious gem.

brili¿½liant
adj.
Full of light; shining. See Synonyms at bright.
Relating to or being a hue that has a combination of high lightness and
strong saturation.
Sharp and clear in tone.
Glorious; magnificent: the brilliant court life at Versailles.
Superb; wonderful: The soloist gave a brilliant performance.
Marked by unusual and impressive intellectual acuteness: a brilliant mind; a
brilliant solution to the problem. See Synonyms at intelligent.
n.
A precious gem, especially a diamond, finely cut in

So the sentence in question has the following structure.
This - pronoun, subject of sentence
is - verb, state of being
really, really [expletive] - string of adverbs modifying the adjective
that follows.
[expletive] referred to is a special case where the adverb has
been formed from a verb.
brilliant - a characteristic and thus an adjective not a noun.

It has the same nature as the sentence "John is tired" which uses an
adjective to describe John. It is not the nature as the sentence "John is a

boy". The first sentence is noun-verb-adjective where the latter is noun-verb-noun.

Thanks for the filler, Dan. Haven't had much time to listen to the
latest events on 313 lately. But it was fun listening to KC1ZQ/KB1EVE
in his discussions with Bro. John a few years ago. ZQ/EVE would claim
to be an agnostic homosexual and Bro. John would preach at him to beat
the band. Don't reckon David ever "got saved", though. Maybe he'll
win his case with the FCC and Bro. John can preach at him some more to
mend his sorry ways.

There was no 'sneering' - merely an attempt, which seems to have worked, to
limit you from responding a tirade of pointless and abuse posts.

Wow, something you don't know! Imagine that. But a doctor could
quite possibly understand his level of pain and most certainly
would know what painkillers were prescribed, which is what I said.

> I believe Rush was in a lot of pain, that is why people
> seek drugs -
> to relieve pain. Are you aware that this is why all addicts
> seek drugs, to relieve or eliminate pain? It's not just those
> poor folk who take those "illegal" drugs that are trying to
> 'escape.'

Why do you keep asking me such simple questions when I keep
demonstrating that you barely know what you're talking about? Is
this how you maintain an inflated ego? Yes, I am well aware of the
uses for drugs, legal and illegal. And while many people use them
for physical or emotional pain, many just think they aren't "happy
enough." I've known more than one perfectly healthy person who
snorted cocaine just for the euphoria.

> But I assume, not being an addict yourself, and not having any

The speed's only going to be as good as the slowest connection along the line. And I do admit that downloading a full copy of a magazine isn't going to be feasible for everyone, at least until broadband is widely available (via some other means than BPL!), but it's nice to have the option. Or perhaps it'll be possible to distribute magazines on CD-ROM?

Here's a business idea: set up an outfit as a clearing-house for radio-related magazines. Subscribe through the clearing-house and they burn a CD with all of the mags you get (CQ, PopComm, MT, whatever) each month and send it off to you. Just a thought....

Hey, I was just poking a little fun. (Unless you were responding to the originator of the thread, in which case you replied to the wrong message.) And I've used some off-track phonetics myself from time to time. My callsign suffix, OJS, sometimes doesn't get picked up correctly when I spell it out using the standard phonetics, so I occasionaly resort to "OJ Simpson" to get it across. ;-)

LOL> You take this stuff way more seriously than I do. Sorry if I offended you. The buying illegally is most likely not a lie. Rush didn't deny it, which is a near admission. That fact has been confirmed by Newsweek Magazine and others through the Florida investigative team.

Oxycontin is not prescribed for cancer? Huh? Can you show any information where this is verifiable? In the mean time, as far as I know, Oxycontin is not the drug prescribed for back pain. If you can show otherwise, I will certainly revise my view. Ok?

> So we're supposed to believe that YOU are or were a heroin
> addict? And this somehow gives you MORE credibility?

Supposed to believe? No, absolutely not. But, on careful investigation and conversation, checking my information with what you are certain to be true, you can come to a conclusion.

And yes, it does give me more credibility that I was an addict and have recovered. Sorry.

> Wow, something you don't know! Imagine that. But a doctor could
> quite possibly understand his level of pain and most certainly
> would know what painkillers were prescribed, which is what I said.

Listen, I can be really difficult sometimes on categories of words, sorry. Understand to me means that he has felt his pain. To me that is only possible if he has had the same pain. Empathizing is the word I would use. The doctor has to take Rush Limbaugh on his word and react accordingly.

> Why do you keep asking me such simple questions when I keep

You're in a world of make-believe. (Make-believe that the
M3/CB is a Ham licence, perhaps?) I have not behaved in the
way that you accuse. I have merely responded to defend myself
against your gratuitous and somewhat childish outbursts.

You seem to be more and more desperate to save the
face that you have undoubtedly lost by your support for
the gangrenous degeneration that is the M3/CB licence,
and you are increasingly making it up as you go along. Yesterday
you sneered that I would not have the strength of character to
express my view points face-to-face; yet you've never met
me and you therefore do not know that my viewpoints
are the same whether in speech or in Usenet. You have no
basis for such a gratuitous and childish sneer. You accuse
me of diverting attention away from points in discussion, but
it is you who is creating silly diversions with your straw men.

Take your battles to "prove" that I am always wrong - I foster
technical discussion based upon the things that I am interested in
and the things that I have done. It seems that each time I come up
with a new topic, you rush off to a reference somewhere to prove
me wrong; the style of what you produce when you do that is very
much that of a quotation from a reference site and not the plethora
of grammatical and syntactical errors that is your norm that would result
from a demonstration that your knowledge is better then mine. The
conclusion to this is obvious - as a typical M3/CBer, you
have widespread ignorance and can only prolong these battles
by quoting a reference - evidence of your ignorance, and evidence
that the battle that you engender to "prove" me wrong leaves you
as the loser through ignorance.

You really are a prize chump.

# 3399. Publishing a bogus letter

Newsgroup: rec.radio.amateur.misc
Date: 2003-10-16 11:26:37 UTC
From: starwars <nobody@tatooine.homelinux.net>
Message-ID: <ec4044040f8857aa322797ed050ac55e@tatooine.homelinux.net>
Source record: 62271

Publishing a bogus letter

One of the best-read features in this newspaper is the daily compilation of letters to the editor.

They represent The Herald's and every newspaper's responsibility to provide a voice to citizens and facilitate public debate.

Occasionally, though, the voice in a published letter is bogus.

Such was the case with a letter we ran as a guest commentary on Sept. 6, which was supposedly from Army Sgt. Chris Shelton of Snohomish, who also happened to be the first Snohomish County soldier wounded in the Iraq war.

The piece, which spoke in support of the U.S. role in Iraq, turned out to be a form letter.

Shelton may have agreed with the thoughts expressed, but he didn't write them.

Weeks after publishing it, we received two identical letters with different signatures.

We had been duped.

Form letters are submitted to newspapers frequently, and our policy is to reject them.

The problem is, we can't always recognize form letters unless we receive more than one or catch wind of it in some other way.

Our first instinct is to get local voices into the paper, not to keep them out.

So from time to time, most newspapers fall for a form letter and run it.

This one raised our antennae, though, and we're on guard for more.

If you're ever tempted to consider sending us a form letter, please resist.

The message will mean much more if it's delivered in your own words.

Good job Kevin !

To complete Kevin's post, I received a mail from Valentin Strashinski, the project manager, saying this. That could convince you in participating in this project.

Thierry
ON4SKY

"After catastrophe of Columbia some things on ISS and also scientific activity come with additional difficulty. However the Shadow project in its "cold" phase may use available equipment on board and takes minimal time of astronauts, so it may begin, say, this autumn (or winter) if we will be fast in managing of the receiving network. Under the current circumstance it will be not only a particular scientific task, but also a distinct public support of space researches in general. So if we can do it, I think we must do this job together in memory of Columbia and its crew.
Your participation is thus warmly welcome in measuring field."

I recently swapped my old radio for an MT2000. I thought I had the RSS software for it, but don't. If anyone could help me with the software, I'd appreciate it.

I have the RIB and cables .. just need the actual software for it.

Thanks in advance!!

> Good idea really, with the PDF subscription. I'll have to take a look at
> Monitoring Times site.

Or on a mailed CD.. Both QST and Monitoring Times are available that
way, (among others) though unfortunately only with the whole year's
issues on a single disk. (i.e., it's only available at the end of the
year) Fantastic idea, I love it! No more realizing the article I want
is in the July issue - and I can only find June and August...

I wonder if broadband prices will ever drop to dialup levels?
Personally I have a very hard time justifying the (very) roughly
$200/year difference.

On the other hand, we may be fast approaching the point where the sum
total of the malicious executable emails being spammed into our
mailboxes and the critical updates necessary to protect against them
every day will take more than 24 hours to download via dialup!

Roger, roger. Sorry about that, Steve. The original message in the thread wasn't showing, so I missed the picture. As you might be able to tell, I've received some "correctives" for using "handle" and cute phonetics. Usually the "experts" have been in ham radio less than two years, and I have also overheard such "experts" chewing out newbies over things that either are not wrong, or are too trivial to worry about. So it's a bit of a hot button for me. I just need to aim better. HI As a side note: when teaching from the latest Q&A manual for the Tech license, I have noted that there are exam questions requiring knowledge of good practice; letter phonetics and standard calling procedures being part of it. That's fine, except it does not make clear what is "good practice" and what is legally required. The legal stuff should be emphasized, and the words "It is better (or best) practice to ...." should be used in questions where practice rather than rules are being tested. In any case, I think we are on the same wavelength Steve, and forgive me for being too quick to pounce. (Guilty of the same thing I was criticizing.) 73, AK K4YKZ

Many manufacturers of aluminum electrolytic caps recommend they be reformed
after 18 months of storage, others say 2 years, and others say 3 years.

I am not disappointed. If Rush doesn't do time, so what? The
loud-mouthed, holier-than-thou was caught breaking the law! After
years and years of running his mouth about how real honest to goodness
American conservatives would never do such a thing.

> Second, if he is arrested, it will be for possession (not sale).
> Apparently, he took 'em all when he acquired them.

The justice system will crank it's gears and do to him what it would
do to anyone else in his situation. No more, no less. I hope.

> completion of the program.

Big deal. BTW, Robert Downey, Jr., is not a self-righteous right
winger who runs his mouth about how only conservatives are real
Americans and they would never break the law. He is a self-righteous
left winger who is constantly being used as a straw man fallacy by
conservatives who want to win arguments or make points.

Remember, one of Rush's "Truths" is: If you did it, you are guilty.
Period.

# 3409. PIC as "intelligent" voice processor/receiver ?

Newsgroup: rec.radio.amateur.misc
Date: 2003-10-16 18:05:33 UTC
From: testing_h@yahoo.com
Message-ID: <2c2cf14c.0310161005.76452e6a@posting.google.com>
Source record: 62279

Hi group -

Given that the PIC series has gotten a LOT more powerful, has anyone ever considered using one to do real time vocal processing of incoming signals ? Something along the lines of reading three signals, the two sidebands (if present) and the main carrier, processing in real time and extrapolating the vocal data out of the heavily distorted/noisy signal and presenting it at the output ?

This was inspired by reading up on data recovery from damaged hard disks :)

Thanks for your assistance on this one ,

-Andre

>
> I have the RIB and cables .. just need the actual software for it.

Motorola will be happy to sell you the appropriate software if you
will execute their license agreement and pay up. I recall it runs about
$270. This will work a lot better than risking the wrath of mother 'M's
lawyers (yes, they can and will go after individuals or large
corporations alike -- it makes not the slightest difference to them if
they think their sacred-cow RSS is at stake).

If you just need a programming job, I can also help. Assuming
you're planning to program all 160 channels, it'll probably run you
between $40-$50, ground shipping included.

So prove it. Quit acting like a victim and stand up for your name calling. Go on . . . you said I am a liar for the claims I made below . . . do you have the character to back up your hysterics? You get one more chance and then I am moving on. Here is the original post:

------

> Oh, you lowlife, lying bastard. Snipped your "He had to get it illegally" lie and your "Oxycontin is prescribed for cancer. Not back pain" lie and pretend I am the kneejerk?? Screw you!

LOL> You take this stuff way more seriously than I do. Sorry if I offended you. The buying illegally is most likely not a lie. Rush didn't deny it, which is a near admission. That fact has been confirmed by Newsweek Magazine and others through the Florida investigative team.

Oxycontin is not prescribed for cancer? Huh? Can you show any information where this is verifiable? In the mean time, as far as I know, Oxycontin is not the drug prescribed for back pain. If you can show otherwise, I will certainly revise my view. Ok?

> So we're supposed to believe that YOU are or were a heroin addict? And this somehow gives you MORE credibility?

Supposed to believe? No, absolutely not. But, on careful investigation and conversation, checking my information with what you are certain to be true, you can come to a conclusion.

And yes, it does give me more credibility that I was an addict and have recovered. Sorry.

> Wow, something you don't know! Imagine that. But a doctor could quite possibly understand his level of pain and most certainly would know what painkillers were prescribed, which is what I said.

Listen, I can be really difficult sometimes on categories of words, sorry. Understand to me means that he has felt his pain. To me that is only possible if he has had the same pain. Empathizing is the word I would use. The doctor has to take Rush Limbaugh on his word and react accordingly.

> Why do you keep asking me such simple questions when I keep demonstrating that you barely know what you're talking about? Is this how you maintain an inflated ego? Yes, I am well aware of the uses for drugs, legal and illegal. And while many people use them for physical or emotional pain, many just think they aren't "happy enough." I've known more than one perfectly healthy person who snorted cocaine just for the euphoria.

So have I. But we are talking about people with chronic addictions, are we not?

> Pass. And you can stop your condescending crap. It's not fooling anybody.

I hope not, as I am not trying to fool anybody. You seem very upset by my opinion, is there something you haven't said here?

Although I don't dispute the origin of the name, I did hear him in a conversation once talking about having visited Ruth Hoffman in Florida and that she needed some tree trimmed. He said, "Porkbutt don't climb trees."

Those were nearly the exact words. I almost drove off the road when I heard it. He didn't slip into the vernacular very often, but to say he "never called himself 'Porkbutt'" is inaccurate.

Oxycontin: Frequently Asked Questions
What kind of drug is OxyContin?
OxyContin contains oxycodone, a derivative of opium. It is similar in effect to morphine. It is a time-released medication that provides pain relief by acting upon the brain's opioid receptors. It is very powerful.

What kind of pain is OxyContin used for?
OxyContin is used to relieve severe to moderate levels of pain. It is very effective in treating chronic pain. OxyContin is usually prescribed for pain relief associated with injuries, bursitis, dislocations, fractures, cancer, arthritis, migraines, and back pain.

How do I know if I should use OxyContin?
Your doctor can determine if you should use OxyContin.

Should I avoid certain activities when I take OxyContin?
You should not operate a car or heavy machinery while under the influence of OxyContin.

Can I drink alcohol while I am taking OxyContin?
You should not drink any kind of alcoholic beverage while taking OxyContin. Fatalities have been reported as a result of alcohol and OxyContin use.

Will daily use of OxyContin make me an addict?
Daily use of OxyContin will result in physical dependence - withdrawal symptoms occur when the drug is suddenly removed. This is not the same as addiction, which results in a person taking a drug because of psychological dependence, rather than for treatment of a painful condition.

Brother John has basically vacated 313. Some say at the behest of certain FCC officials. But we do know this for a fact. His old call was KC3AU, and after moving to Georgia he vanitied into N4FZ. Then swore on a stack of bibles he didn't choose it.....lets take a vote.....how many believe that one? Right.

Now back to summers eve. I think Riley has a sense of humor. Because after it was pointed out that a general class operater has a Advanced class call, Mr. H. had it changed. Hmmmmmm.

IMHO Mr. Tolassi will fight the system by saying he is gay and that is why he is being persecuted. If/when he does I'm quite sure many individuals will make a trip to DC. Similar like what happened to the original FZ. Just some thoughts.

WB2OTK/W2OTK never called himself 'Porkbutt'. That name was stuck him by Al Abernathy, and the BARF/Stumpjumper crown on 20 and 75.

Rich turned in his license in 99 as I recall.

Thanks Star. I was wrong about Oxycontin being prescribed mostly for cancer. I was so certain that I didn't go check it out. Glad to have that cleared up.

You see, Jim, that wasn't so hard, was it? I asked you to show me where Oxycontin was prescribed for back pain, willing to change my mind if you showed me; and now Starkiller did. I am happy to have learned something new today.

It's that simple . . . with people who actually care about the truth more than being right, there is a world of endless fun and learning.

I believe he still lurks around this newsgroup. I put out a query a few weeks ago and he is live and well. I believe he had a misunderstanding with the FCC over on air procedures. I have a WAV file of the misunderstanding. Send me an E-Mail and I will send you the file. I agree. Not much exciting on the band except for the perpetual audio testers on 14.180 Mhz. That is a good laugh sometimes.

Good idea. I think I was prescribed Hydrocodone for a kidney stone;
the nurse who brought me my first dose in the emergency said something
about giving me Oxycontin if this didn't work, but that it is only used
for cancer pain treatment.

I was willing to believe anything at that point ;)

I have friends that have had problems with Kidney Stones and gathering
from what they tell me, I think I'll keep my herniated discs. I
understand that they are way up there on the intense pain scale.

Since we're on the subject. I wonder just how bad RLs initial injury
was. When I blew mine out back in 1993 I went to one of the top
orthopedic specialists in the world. Mind you I make less than $40k
per year but insurance does wonders. Anyway, my Dr. was very careful
about the painkiller aspect of treatment. Maybe because of what I do
for a living but his attitude was if you are medicated with
painkillers with such an injury you could possibly do further damage
due to not feeling any pain when you should. He did prescribe some
anti-inflammatory medication as well as mild muscle relaxers. It
initially took me around 6 months to finally walk without limping(due
to the sciatica caused from pressure from the herniation on nerves).
But since I followed his regime of PT and also found a very good
Chiropractor(the sports Dr. for the USA Baseball Team) I haven't had
any problems with my back(other than old age). So it makes me curious
as to the extent of RLs injury as well as wonder why he was prescribed
one of the most potent painkillers on the market. Granted he may very
well have had a serious, bone against bone, herniation which probably

would be extremely painful and would warrant such treatment. But to my knowledge there hasn't been much detail about it in the news. Of course me living in Memphis, home of "The King" I look at Dr.s prescribing heavy medication with a bit more skepticism than a lot of folks.

BTW, may as well give my Dr a plug while I'm at it. :-)

"With Half His brain tied behind his back"

Ann Coulter

So liberals have finally found a drug addict they don't like. And unlike the Lackawanna Six - those high-spirited young lads innocently seeking adventure in an al-Qaida training camp in Afghanistan - liberals could find no excuses for Rush Limbaugh.

After years of the mainstream media assuring us that Rush was a has-been, a nobody, yesterday's news - the Rush painkiller story was front-page news last week. (Would anyone care if Howell Raines committed murder?) The airwaves and print media were on red alert with Rush's admission that, after an unsuccessful spinal operation a few years ago, he became addicted to powerful prescription painkillers.

Rush Limbaugh's misfortune is apparently a bigger story than his nearly $300 million radio contract signed two years ago. That was the biggest radio contract in broadcasting history. Yet there are only 12 documents on LexisNexis that reported it. The New York Times didn't take notice of Rush's $300 million radio contract, but a few weeks later, put Bill Clinton's comparatively measly $10 million book contract on its front page. Meanwhile, in the past week alone, LexisNexis has accumulated more than 50 documents with the words "Rush Limbaugh and hypocrisy." That should make up for the 12 documents on his $300 million radio contract.

The reason any conservative's failing is always major news is that it allows liberals to engage in their very favorite taunt: Hypocrisy! Hypocrisy is the only sin that really inflames them. Inasmuch as liberals have no morals, they can sit back and criticize other people for failing to meet the standards that liberals simply renounce. It's an intriguing strategy. By openly admitting to being philanderers, draft dodgers, liars, weasels and cowards, liberals avoid ever being hypocrites.

At least Rush wasn't walking into church carrying a 10-pound Bible before rushing back to the Oval Office for sodomy with Monica Lewinsky. He wasn't enforcing absurd sexual harassment guidelines while dropping his pants in front of a half-dozen subordinates. (Evidently, Clinton wasn't a hypocrite because no one was supposed to take seriously the notion that he respected women or believed in God.)

Rush has hardly been the anti-drug crusader liberals suggest. Indeed, Rush hasn't had much to say about drugs at all since that spinal operation. The Rush Limbaugh quote that has been endlessly recited in the last week to prove Rush's rank "hypocrisy" is this, made eight years ago: "Drug use, some

might say, is destroying this country. And we have laws against selling drugs, pushing drugs, using drugs, importing drugs. ... And so if people are violating the law by doing drugs, they ought to be accused and they ought to be convicted and they ought to be sent up."

What precisely are liberals proposing that Rush should have said to avoid their indignant squeals of "hypocrisy"? Announce his support for the wide and legal availability of a prescription painkiller that may have caused him to go deaf and nearly ruined his career and wrecked his life? I believe that would have been both evil and hypocritical.

Or is it simply that Rush should not have become addicted to painkillers in the first place? Well, no, I suppose not. You've caught us: Rush has a flaw. And yet, the wily hypocrite does not support flaws!

When a conservative can be the biggest thing in talk radio, earning $30 million a year and attracting 20 million devoted listeners every week - all while addicted to drugs - I'll admit liberals have reason to believe that conservatives are some sort of super-race, incorruptible by original sin. But the only perfect man hasn't walked the Earth for 2,000 years. In liberals' worldview, any conservative who is not Jesus Christ is ipso facto a "hypocrite" for not publicly embracing dissolute behavior the way liberals do.

In fact, Rush's behavior was not all that dissolute. There is a fundamental difference between taking any drug - legal, illegal, prescription, protected by the 21st Amendment or banned by Michael Bloomberg - for kicks and taking a painkiller for pain.

There is a difference morally and a difference legally. While slamming Rush, Harvard Law professor Alan Dershowitz recently told Wolf Blitzer, "Generally, people who illegally buy prescription drugs are not prosecuted, whereas people who illegally buy cocaine and heroin are prosecuted." What would the point be? Just say no to back surgery?

I haven't checked with any Harvard Law professors, but I'm pretty sure that, generally, adulterous drunks who drive off bridges and kill girls are prosecuted. Ah, but Teddy Kennedy supports adultery and public drunkenness - so at least you can't call him a hypocrite! That must provide great consolation to Mary Jo Kopechne's parents.

I have a rule about not feeling sorry for people worth $300 million, but I'm feeling sentimental. Evan Thomas wrote a cover story on Rush for Newsweek this week that was so vicious it read like conservative satire. Thomas called Rush a "schlub," "socially ill at ease," an Elmer Gantry, an actor whose "act has won over, or fooled, a lot of people." He compared Rush to the phony TV evangelist Jim Bakker and recommended that Rush start to "make a virtue out of honesty." (Liberals can lie under oath in legal proceedings and it's a "personal matter." Conservatives must scream their every failing from the rooftops or they are "liars.")

As is standard procedure for profiles of conservatives, Newsweek gathered quotes on Rush from liberals, ex-wives and dumped dates. Covering himself,

Thomas ruefully remarked that "it's hard to find many people who really know him." Well, there was me, Evan! But I guess Newsweek didn't have room for the quotes I promptly sent back to the Newsweek researchers. I could have even corrected Newsweek's absurd account of how Rush met his current wife. (It's kind of cute, too: She was a fan who began arguing with him about something he said on air.)

Thomas also made the astute observation that "Rush Limbaugh has always had far more followers than friends." Needless to say, this floored those of us who were shocked to discover that Rush does not have 20 million friends.

So the guy I really feel sorry for is Evan Thomas. How would little Evan fare in any competitive media? Any followers? Any fans? Any readers at all? And he's not even addicted to painkillers! This week, Rush proved his motto: He really can beat liberals with half his brain tied behind his back.

OxyContin is a slow-release painkiller and doctors prescribe it for
people suffering from intense back pain, arthritis or complications
resulting from cancer. So you are wrong on that point.

When the Food and Drug Administration approved OxyContin in 1995, it
required drug maker Purdue Pharma to manufacture Oxy in a time-release
formula. More than 1 million people depend on their one dose of Oxy
every 12 hours to dull life-threatening pain.

I put in the last statement because you are so full of misinformation.

> - Rush Limbaugh

Let's use the whole quote (One quote he made 8 years ago), not just
the part you find juicy:

"Drug use, some might say, is destroying this country. And we have
laws against selling drugs, pushing drugs, using drugs, importing
drugs. ... And so if people are violating the law by doing drugs, they
ought to be accused and they ought to be convicted and they ought to
be sent up."

Would you say drugs are destroying this country? If you answered no to
the question then you are being hypocritical in chastising Limbaugh
for his drug use. If you answered yes, you are in agreement with
Limbaugh.

> If Rush actually demands to be 'sent up,' whether he is or not, I
>will alter my opinion of him as a hypocrite.

Limbaugh, admitted on his show his drug use, he is not portraying
himself as a victim, and he takes responsibility for his actions.

I guess you're a hypocrite when it comes to the Fifth Amendment. You
expect him to go into a court of law and incriminate himself.

Limbaugh has neither been accused by law enforcement nor convicted. It
would be honest on your part to hold off the hypocrite label until it
has been resolved. Then you can make a valid judgment.

> Until he walks the way he talks, he is just another snake oil
>salesman, and you know it.

Until there is hard evidence, an arrest warrant and a court case, you would just be another Rush hater spewing venom who is hoping his one quote from eight years ago will invalidate every opinion he has had on the issues the last fifteen years.

It's not that easy.

This was previously established later in the thread. But thanks
again. Again, Rush did not say he was prescribed Oxycontin. Perhaps
because he bought it illegally.

I am full of all kinds of things, wouldn't be the first time. Again,
this is one piece of my argument that was only half true .. . it is
prescribed for the pain of cancer . . . I was under the impression that
this was its function.

There were many points in this argument that you neatly ignored. So,
unless you have some other information to refute what I said, the
argument still stands.

I also learned some time back that it's not smart to just
assume I'm right and the other guy's wrong, and to state such
categorically, telling the other guy to go look it up and prove me
wrong.

> is in the July issue - and I can only find June and August...

It certainly beats storing piles of QSTs but at least at this point
one glitch is the cost. ~$40 for the membership then another ~$40 per
stale CD. No biggie but it's annoying. Our club monthly bulletins are
usually 10-12 pages long and are now being posted in the club website
as archived .pdf's. Saves a real bundle in publishing and mailing
costs and it eliminates the drudge labor in addressing, stamping and
mailing. With only a few pages per issue I don't even bother
downloading 'em, I just read 'em online and move on. More 'puter files
eliminated. Been hugely successful Dick.

http://www.gofrc.org/newsletter.shtml

Somehow the magazines will get into this game too. The QST product
reviews in the members-only website are a step in the right direction.
Maybe someday we'll be able to dump 'em in on a pay-by-article basis.

> I wonder if broadband prices will ever drop to dialup levels?

There is no doubt, if taken in quantities as alleged, Limbaugh did
acquire the drug illegally, but in order for prosecutors to charge him
they must have evidence to charge him. Limbaugh, being a user, would
have to have the drug in his possession to be charged.

Nope. I'd say people like Limbaugh are destroying it.

> If you answered no to
> the question then you are being hypocritical in chastising Limbaugh
> for his drug use.

Sorry, but did you just try to explain the meaning of "is?" How in
the do you arrive at this premise?

I am not chastising Rush for his drug use, I am chastising him for
being a hypocrite who profits off of fear and prejudice, and does not
walk the way he talks. There is a lot of evidence of how Rush talks, but
very little of how he walks. WIth so little to go on, something like
this is huge.

>> If Rush actually demands to be 'sent up,' whether he is or not, I

Is that a question? If it is, my answer is: I expect him to live by
what he expects of others.

> Limbaugh has neither been accused by law enforcement nor convicted. It
> would be honest on your part to hold off the hypocrite label until it
> has been resolved. Then you can make a valid judgment.

Like I said from the very beginning of this issue and post . . . I am simply applying Limbaugh's principles to himself. My principles do not weigh in here. The meaning of a hypocrite is one who expects others to live in a way that the preacher does not.

And, as Newsweek has verified with the Florida authorities, Rush limbaugh has bought these drugs illegally. So much for him talking full responsibility.

>> Until he walks the way he talks, he is just another snake oil

There is more evidence here already, than in many of Rush's personal attacks. As for invalidating Rush's opinions, he has done a good job of that himself.

So there is. Measuring pain on a scale of 1 to 10, 10 being the worst pain, does not enable the measurer to feel the persons pain, does it? If there is a way to do this, my wife would like to have it for me for when she has those monthly cramps.

Much has been written and published on the net on this topic but just to add my two cents and perhaps summarize. I've had good luck with a variable HV DC supply. I bring up the voltage, albeit slowly, while monitoring current with a microamp meter. It's nice to watch the current gradually go lower, then I step up about another 50 volts or so then watch it go lower again until I reach the rated voltage of the cap. I let it "Cook" there for awhile then use the cap. There's a formula for the "Cook Time" based on the age of the cap. Do a net search for that one. Someone in G land I think. I have restored and recapped a lot of older HF radios this way and it has saved me a tremendous amount of cash.The new Electrolytics are a lot smaller/better but we're talking about five bucks each here. I wait till they show up at the Flea Market or local surplus outlet then scoop em up for .25 each. Oooops! Maybe I shouldn't have told you about that.

Amateur Radio Newsline™ Report 1366 October 17 2003

Amateur Radio Newsline report number 1366 with a release date of Friday, October 17th 2003 to follow in 5-4-3-2-1.

The following is a QST. A chance for pro-code to speak out to the FCC and a warning to firefighting officials about the hazard of BPL. Find out the details on Amateur Radio Newsline report number 1366 coming your way right now.

(Billboard Cart Here)

**

RESTRUCTURING: MORSE CODE AND THE FCC - ROUND II

Well we told you it was going to happen and it has. We are talking about the next round of rule making requests to the FCC on the topic of what to do about Morse code testing. Most of this group want to keep some form of CW test. Amateur Radio Newsline's Bruce Tennant, K6PZW, takes a look at what the FCC wants you to read and comment on:

--

If you were not happy with the first round of Morse code rule making requests, maybe you will find something more to your liking in this latest batch of seven that the FCC has released for public comment.

We have already covered the most prominent of them. That being the one from FISTS -- the international Morse code preservation society. FISTS wants the code retained and all aspects of the ham radio exam process made allot tougher. And in this area, FISTS is not alone.

In is petition, Frank Napurano, K2OKA, calls Morse the purest, most accurate, efficient, reliable and economical form of radio communications ever devised. He tells the FCC that its essential to keep at least the current 5 word per minute CW test in the interest of public safety, the preservation of a radio art and as a tribute of support for a prized and respected avocation.

Also in favor of keeping some form of Morse exam is the Puerto Rico Amateur Radio League. While it wants the FCC to do away with the current 5 word per minute test for General class it says to keep it for those going for an Extra ticket.

James Roux, W4YA, wants the FCC to eliminate the 5 word per minute code test for a General class license, but like the Puerto Rico Amateur Radio League would require Extra class applicants prove they

can do Morse at 15 words per minute. Roux also wants to cut the number of licenses to only two. Under his proposal nobody would loose current privileges but only the General and Extra class would continue to be issued.

Meantime, Robert Rightsell, AE4FA and Harry Kholer, NZ0PU also want 5 word per minute Morse testing continued but would institute a points score system for passing a ham radio exam. Under the Rightsell / Kholer plan, an applicant could earn up to 24 points on Morse testing.

And Joseph Speroni, AH0A, has a novel idea. Only test hams in Morse who want to use the mode. Speroni would have the FCC delete the CW exam for those who want to operate only phone. If a ham wants to operate High Frequency Morse, Speroni says they should pass the current 5 word per minute exam.

Last but by no means least comes Charles Young Jr, AG4YO. He is asking the FCC to delete the 5 word per minute Morse exam for the Technician Plus license, but keep it as a requirement for General and Amateur Extra exams. And like the other petitioners, Young has some specific ideas regarding other aspects of ham radio licensing as well.

These seven petitions have been designated as RM 10805 through 10811. Commentary cutoff on all of them is Friday, November 7th.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, reporting.

--

You can comment on one or all of these rule making petitions by taking your browser to the FCC Electronic Comment Filing System. Its in cyberspace at www.fcc.gov/cgb/ecfs. (ARNewsline™ from FCC website)

**

RESTRUCTURING: QRZ SAYS KEEP THE DISCUSSION ON TRACK

In a related story, the operators of the QRZ.com website have drawn a proverbial line in the sand. They say that any attempts to take a Forum discussion that is not directly related to the code versus no code debate and turn it into such will result in those posting being removed. The operators of the website say that this is not a stance by QRZ.com either for or against Morse code. Rather it is a their way to keep a given subject being discussed on track. The QRZed website is in cyberspace at www.qrz.com. (QRZ)

**

RESTRUCTURING: PNG GOES CODE-FREE

I'm Don Wilbanks, AE5DW, with breaking news out of the South Pacific. Dateline Papua New Guinea where that nations Telecommunications Administration, PANGTEL, has declared Papua New

Guinea to be the latest nation to become code free. This as it orders the deletion of Morse Code from the qualifications necessary for its amateurs to have access to the High Frequency bands.

According to Rick Warnett, P29KFS, the decision to drop Morse was actually made back on June 10 th but not widely publicized until now. June 10 th was before the 2003 World Radiocommunications Conference that decided Morse testing was no longer mandatory world wide and retaining it would be the decision of each individual administration.

Warnett, who is the IARU representative for the Papua New Guinea Amateur Radio Society says that the official announcement will take place within the next few days. When it comes, Warnett says that some 30 to 40 new Papua New Guinea full call hams will have international communication available to them. (Q-News)

**

DX PROBLEMS: A FOLLOW-UP ON ANNOBON ISLAND - 3C0V

A little more information has surfaced on why a long awaited Dxpedition suddenly left the air. Jeramy Boot, G4NJH, has the details:

--

The Spanish and German group that had been operating as 3C0V from Annobon Island off the West Coast of Africa were forced to close down early in the morning of last Saturday, the 4th of October. The DXpedition was scheduled to have continued until the 10th of October.

Gabriel 'Gaby' Mardiros, OD5NJ, the 'pilot' for the 3C0V DXpedition, says that the group is "fine" but that they had received "a serious warning not to use any of their radios". The reason for the enforced closure was not yet known."

--

Some reports indicated that local authorities had given the DXpeditioners less than 24 hours to pack up and get off the island. More on this story as information is made available. (GB2RS)

**

Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world including Peoria Amateur Radio Club net serving Peoria Illinois.

(5 sec pause here)

**

WRTC: 2006 GAMES IN BRAZIL

It has been announced that the next World Radiosport Team Championship, or 'WRTC', will be held in Brazil in 2006. The last WRTC event took place in Finland in July last year.

WRTC brings together the top HF contesters from all over the world to compete on - as far as is possible - a 'level playing field'. WRTC 2006 will take place in Florianopolis, capital of Santa Catarina State in southern Brazil. The event is open to everyone: competitors and spectators alike.

I'm Jeramy Boot, G4NJH, in Nottingham. (GB2RS)

**

RADIO RULES: WORLD'S BROADCASTERS JOIN ANTI-BPL CHORUS

A subcommittee of an International Telecommunication Union panel of technical experts responsible for terrestrial broadcasting issues has joined a growing chorus of concerned parties about the interference potential of power line telecommunication. According to the ARRL Letter, ITU Radiocommunication Sector Sub Working Group 6E1 has been looking at BPL. Now it has expressed the view that interference produced by systems employing powerline data transmission as well as by Industrial, Scientific and Medical equipment and short-range devices, will compromise broadcast reception. (ARRL, CGC)

**

RESCUE RADIO: BPL VS. FIRE RADIO COMMUNICATIONS

Meantime, hams who are also firefighters or have access to the local fire Department should consider enlisting their help in fighting the rollout of Broadband over Powerlines. This, due to the heavy use of the 33 and 45 MHz radio bands by fire departments.

Writing to the QRZ.com super site, Jim Walsh, K3JIM, says that some fire departments are not technically savvy and think that interference is really blind spots in the radio coverage. Walsh, who is a firefighter and truck engineer Red Lion, Pennsylvania, says that broadband interference is not easily recognizable to fire personnel as say an interfering DX station may be to the trained ear of a ham radio operator. He says that the fire service is used to dead spots and may not know why they exist.

Walsh cites one situation in the area where he lives and works. He says that it is well known that when in the vicinity of certain gas station convenience stores in his area that one cannot use the radio for a few hundred meters. He says that in this case the problem is the Point of Sale system that records the gas transactions and that the lines running to the pumps are not shielded and radiate computer hash like an antenna.

K3JIM has lots more to say about the problem BPL can be to low-band fire radio systems. You can read it all on line at www.qrz.com (K3JIM via qrz.com)

**

ENFORCEMENT: YOU ARE NOT SUPPOSED TO OPERATE THERE

In regulatory news, two hams have been asked to explain why they have been heard operating on law enforcement frequencies. The FC's Daryl Duckworth, NN0W, has more:

--

Duckworth: "Tom Christman, KB2NAV, of Albany New York, has received an inquirey as to operations on the Albany County Sheriff's Department emergency frequencies without legitimate purpose last December.

Along similar lines, Joseph Hutchins, KG4SXD, of Swannanoa, North Carolina, is being asked about operations on police frequencies in February of this year. That of the Black Mountain Police Department in Black Mountain North Carolina."

--

Both hams were given 20 days to respond to the FCC's query. If the agency finds that rules have been violated, each ham could face a fine of $7,500 to $10,000, license suspension and revocation.

**

ENFORCEMENT: AMATEUR TOLD TO KEEP HAM GEAR OFF CB

The FCC has written to James Perryman, KC8KOU, of Toledo Ohio. This, regarding continued complaints involving his alleged operation of non type accepted radio gear on the 11 meter band. Again, the FCC's Daryl Duckworth, NN0W:

--

Duckworth: "The letter went on to say that the operation of non-certified equipment on CB frequencies, such as Amateur equipment and linear amplifiers will result in a monetary forfeiture in the $7500 to $10,000 area, as well as the in-reim seizure of all non-certified equipment in cooperation with the United States Attorney in his jurisdiction."

--

The FCC also told Perryman that his station is subject to inspection at any time by Commission personnel.

**

ENFORCEMENT: YOU CANNOT SAY THAT ON THE RADIO

Meantime, Federal regulators have announced plans to fine a Detroit radio station $27,500. This, for an allegedly indecent broadcast on a popular afterboon show back in January of 2002.

In a Notice of Apparent Liability to Monetary Forfeiture, the FCC said a broadcast on Infinity Broadcasting's WKRK-FM included explicit and graphic sexual and excretory references during separate discussions with nine separate people. Such language is banned under FCC rules.

Infinity was given 30 days to contest the notice. In earlier filings with the FCC, the company argued that no penalty could be assessed. This is because Infinity believes that the FCC's definition of indecency is unconstitutional.

**

ENFORCEMENT: LA REPEATER OWNERS ORGANIZE AGAINST ALLEGED UNLICENSED OPERATOR

Repeater owner operators in the Los Angeles Californias area are taking action to keep transmissions allegedly coming from Jack Gerritsen, the former KG6IRO, from being retransmitted. In are rare show of cooperation, system owners and their control operators are taking repeaters off of the air rather than permit the signals from a station identifying with the call sign KG6IRO call sign from being rebroadcast.

If the name Jack Gerritsen sounds familiar its because we have reported on hin several times before. Gerritsen was licensed for a very brief period back in 2001. His ham ticket was set aside by the FCC's Wireless Telecommunications Bureau after the agency learned that Gerritsen had been convicted in 2000 on charges of interfering with Los Angeles Police Department radio transmissions. Gerritsen recieved a jail term for the interference conviction. He was paroled but sent back to prison after allegations surfaced that he had been operating a radio transmitter without a license. He was released before serving his full sentence as the result of a Federal court order dealing with overcrowding in California state prisons. His application for a ham radio license remains in the FCC's pending file and a hearing on the matter will be scheduled at some future date.

Be that as it may, Los Angeles area repeater owners are not waiting for the FCC to move in the matter. They have taken matters into their own hands and are acting to keep the signal claiming to be KG6IRO from being repeated. (ARNewsline™)

HAM RADIO BUSINESS: 73 MAGAZINE FOLDS

73 Magazine is the latest casulty in the weak world-wide ham radio business economy. On Monday, October 6th, founder Wayne Green, W2NSD, e-mail several friends to tell them that 73 Magazine has

ceased publication after completing 43 years.

The reason for 73 going away? Green claims that the hobby is slowly dying as a result of a lack of new hams. In turn the the industry that supports Amateur Radio is fading away as well. Green says that without sufficient advertising the magazine couldn't continue.

--

Green: "The book sales have kept 73 going for the last few years, but book sales have dwindeled way, way down and there was no way to keep 73 going. The ad sales are down and the reciepts from the ad sales are down even weorse than the ads."

--

W2NSD says that it was an interesting 43 years and that he hopes to write about it some time. In the meantime he plans to continuing his essays on his website for those subscribers who mainly bought the magazine to read them. Thats in cyberspace at www.waynegreen.com.

No word what will happen to those with outstanding subscriptions to 73, especially hams who bought lifetime subs at a bargain price when the magazine first started up. Green always said it would last through his lifetime or that of the purchaser, but it looks as if W2NSD and a number of lifetime subscribers may have outlived 73. We expected it of Green. His phonetics are W-2-Never-Say-Die.

You can hear W2NSD talk about the demise of 73 on this weeks RAIN Report. Its available on-line at www dot rainreport dot com or by telephone at 847-827-7246. (ARNewsline™)

**

HAM RADIO BUSINESS: NEW KIDS HAM RADIO MAGAZINE TO BE PUBLISHED

If the ham business is as bad as Wayne Green says, you would not know it by Larry Mahlberg AA0BY. As 73 sails into the sunset, Mahlberg has announced his own new ham radio magazine targeting the younger generation.

According to Mahlberg, he and his crew are putting together a brand new monthly publication called "Hamtastic Kids" that will debuet on November 15th and be available by subscription. To get it started, AA0BY is asking your help by submitting material for publicatoon such as Amateur Radfio poems, stories, puzzles and even ham radio recipes. He is also looking for articles written by kids on such topics as Morse code, DX'ing, ragchewing, fox hunting, contesting and hamfests.

But thats not all. The Hamtastic Kids is offering a free years subscription for best logo that a youngster submits for use in the Magazine. Submissions of logos, articles and information requests go to Hamtastic Kids, in care of Larry Mahlberg, AA0BY, P.O Box 1634

Eugene, Oregon, 97440 (W8HDU)

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

RESCUE RADIO: APRS JOINS THE CHARLES REGATTA

Almost two decades after it was developed by an Amateur Radio operator, Automatic Position Reporting System equipment is being used for the first time by the hams on board the rescue launches at the Head of the Charles Regatta. Amateur Radio Newsline's Norm Seeley, KI7UP, reports:

--
Bob Bruninga, WB4APR, is considered the father of the Automatic Position Reporting System thats known in ham radio circles by the acronym of four letters APRS. And from October 17th through the 19th a team of up to 30 operators will be on the air using it and other modes to operate a safety communications net for the annual Head of the Charles Regatta.

According to Bruce Pigott, KC1US, the addition of APRS is very significant because it allows automatic tracking of a ham radio station by sending Global Positioning Satellite information along with the voice or other data on the radio signal. This should permit precise dispatch of land and river emergency units to rendezvous with the launches.

KC1US says that communications coverage begins three hours before the first race on Saturday and an hour before the first race on Sunday. This, will allow medical and public safety communications coverage of practice runs and gathering crowds of spectators.

For the Amateur Radio Newsline, I'm Norm Seeley, KI7UP.

--

This year's communications support covers all aspects of the regatta. This includes preparations, practice and competition for all three days of the event. (KC1US)

**

HAM RADIO CONFERENCES: SVHFS IN GEORGIA IN 2004

The 8th Annual Southeastern VHF Society Conference will be held in Georgia on April 23 and 24, 2004. This, at the Holiday Inn Hotel & Suites in Marietta on the outskirts of Atlanta. More information will be posted the Society webpage. The u-r-l is www.svhfs.org. Qustions go by e-mail to rover@wireco.netb (SEVHFS)

**

HAM RADIO IN SPACE: VU-SAT LAUNCH DELAYED

Turning to ham radio in space, the expected launch of India's VU-Sat has been delayed indefinitely. The AMSAT News Service quoting a release from the launch agency says that during the thermo vacuum test deviations in the performance of the ham radio payload were. Because of the need to correct these abnormalities, the launch will take place at some later date. VU-Sat was to be a passenger with a remote sensing satellite being orbited onboard from Sriharikota launch range later this month. (AMSAT)

**

HAM RADIO IN SPACE: HAPPY BIRTHDAY AO-40

AMSAT is sponsoring an AO40 Birthday Bash to celebrate the satellites 3rd Birthday. The party continues through November 17th. Email Bruce Paige, KK5DO, for more details. His e-mail address kk5do@amsat.org (AMSAT)

**

INTERNATIONAL - GERMANY: DL3KWF RESIGNS AS DARC VP

On the international scene, word from Germany that Hardy Zenker, DL3KWF has resigned from his post as Deutscher Amateur Radio Club vice president He has been replaced by Ingobert Dittrich, DK9MD, who was elected to the post. Dittrich is well known as a former representative of the broadcasters to numerous committees across Europe. The Deutscher Amateur Radio Club which is Germany's natioonal ham radio society holds elections every two years. (DARC)

**

INTERNATIONAL - HOLLAND: ARTIFICIAL BROADCAST ISLAND TO DISAPPEAR

A significant piece of Dutch broadcasting history may soon cease to exist. Media Network reports that the Hollands Department of Public Works has announced its decision to dismantle the artificial platform in the North Sea known as R-E-M Island. The island was constructed in 1964 at a cost of 9 million guilders by a team of entrepreneurs who used it to broadcast radio and television programs to the Netherlands under the name Radio Noordzee and TV Noordzee.
The full story is on-line at http://www.rnw.nl/realradio/features/html/rem031009.html (Media Network)

**

INTERNATIONAL - BRAZIL: CELEBRATING SCOUTING ON THE AIR

And Brazillian club station PY3ARD is on the air as ZW90S for the renmainder 2003. This, to celebrate the 90th anniversary of the Gerge Black Scout Group which happens to be the oldest Scout Group in Brazil. According to the RSGB, the ZW90S call will be aired for the first time during the upcoming CQ World Wide contest. If you work it, QSL via PY3ARD. (G2RS)

**

ON THE AIR: W6AQ AND K6IPV TO RAROTONGA OCT. 21

Hollywood producer Dave Bell, W6AQ and his close friend Don Lisle, K6IPV are headed to Rarotomga. This for a combined mini-D-Xpedition and contest operation. The pair will arrive on the island at about 9:00 PM local time on October 20th. They hope to be on the air by the afternoon of the 21st operating mostly SSB with some CW and possibly RTTY and PSK-31.:

--

Bell: "They will hear us calling CQ on whatever the highest frequency where there is propagation which is going to be during the daytime perhapps 10 meters; 15 meters hopefully and 20 meters certainly. Nighttime we will probably be dealing with 20 meters, 40 meters, 80 meters and perhapps even 160 meters. We will see if we can talk to anybody on that band."

--

Bell will operate as ZK1AQT and Lisle will be on using ZK1IPV. Both will be on as ZK1SSB for the CQ World Wide SSB Contest and will tear everything down on the afternoon of October 28th. Their QSL Manager is Norm Friedman W6ORD whose address is good in just about any Callbook. (ARNewsline™)

**

DX

In D-X, TM9AF will be on the air through October 26th to celebrate the 25rh anniversary of the Auxerre Ham-Expo. About 20 operators will be on the air with the special callsign on 160 to 6 metres using CW, SSB, PSK, RTTY, and Slow Scan TV. They will also operate 2 meters to 1.2GHz on CW, SSB FM, RTTY, and ATV. If you make contact, Q-S-L as directed on the air. (GB2RS)

Stefano Frau, IS0WBT, says by way of e-mail that special event station ISZ0A will be on air during the upcoming CQ World Wide SSB contest. This on the on 25th and 26th of October. Stefano says that the operation will take place from Mt. Cresia in grid square JM49QG. Operation will be in the multi-multi catagory and the operators will

be looking to talk to all of you. QSL direct to IS0MYN. (GB2RS)

**

THAT FINAL ITEM: DUTCH STUDY SUGGESTS ISSUES ACCOMPANY 3G CELL STATIONS

And finally, can cellular telephones make you more alert? Some researchers in the Netherlands think so. Bill Pasternak, WA6ITF, has more:

--
A study by Dutch researchers has found some interesting side effects from certain cellular telephone base station radiation. Initial results show that electromagnetic energy transmitted by base stations for the new third generation or 3 G wireless networks caused subjects in double-blind test groups to experience tingling sensations, get headaches and have feelings of nausea. On the other hand, when the same subjects were exposed to signals from current mobile networks, no negative impacts were found.

But here's the kicker. When the same people were exposed to both types of fields -- that being 3 G plus current networks -- cognitive functions including memory and response times showed measurable improvement. Put simply, the subjects became more alert when exposed to both fields. The report did not discuss the modulation schemes nor the specific RF power densities that were involved in the study, and obviously allot more research needs to be done before anything conclusive can be known.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF

--

Now it has to be pointed out that these are early results. As such, while they are interesting, are yet to be confirmed. You can read more in cyberspace at www.msnbc.com/news/974005.asp (CGC)

**

NEWSCAST CLOSE

With thanks to Alan Labs, AMSAT, the ARRL, the CGC Communicator, CQ Magazine, the FCC, the Ohio Penn DX Bulletin, Radio Netherlands, Rain, the RSGB and Australia's Q-News, that's all from the Amateur Radio Newsline(tm). Heil microphones are good but I feel very overpriced.
You would do just as well with a Shure 444, 526T
or an Electro-Voice with a Dynamic Cartridge element.

Also, an old ham told me to remove the earpice from
an Western Electric or AT&T vintage telephone
then un-solder the capacitor and use this "earpiece
cartridge" as your "microphone" back in the mid-80's.

Works like a charm and costs *next to nothing* as
you can find these old W.E. phones for cheap at yard sales.

The foreign made phones earpiece also will work
but not have the fidelity of a genuine W.E. made
earpiece unit.

Try it!!

How does it go? Never say never ???

I never heard him call himself 'porkbutt'. Is that better ?

Dan/W4NTI

## 3452. wireless radio question

Newsgroup: rec.radio.amateur.misc
Date: 2003-10-17 19:44:15 UTC
From: tuluvasudeva@yahoo.com
Message-ID: <e191756.0310171144.29de0e68@posting.google.com>
Source record: 62222

Could someone help and provide some direction or input on the
following....

I have an application that consists of 2 sensors on each floor of a 10
floor concrete building which has open sides (e.g. Parking deck) ,
collecting a sample of data randomly roughly at the rate of 10
messages a minute.

The data needs to be remotely transferred to a computer on the 1st
floor. A message block is 8-16 bytes in size. In a day roughly 25,000
messages will be sent from the sensors.

The data should be guaranteed to reach the computer(although packets
can be resent if there is an error).

Any kind of radio transmission may be used(AM,FM,802.1x,..). It should
be in an FCC approved band whereby licensing is not required.

The transmitters should transfer the data from the sensors. Only 1
transmitter should be attached to each sensor. The transmitter should
have enough range to transmit the message from the 10th floor to the
1st floor. The transmitter should be roughly the size of a cigarette
packet.

Please provide your suggestions and ideas as I am not a electronics
whiz.
thanx
vivek

Yes, on the kidney stone pain . . . many of the female nurses were grinning at me with a bit of glee, saying things like: "Now you know what it feels like to have a baby." I think I do.

I agree with your take on powerful pain killers. When I was prescribed Hydrocodone, the doctors and nurses were explicit with me about the potential for abuse. In treatment, we only saw the people who stayed addicted, or returned to that addiction, after they were initially weaned off by their attending physician.

A good back Doctor is always a blessing; I'll keep his name in mind!

Thanks for your input.
I have a Shure 444D with no wire/lead to it and no diagram so no way of
wiring the ptt switch or the microphone to the radio.
I did read some ware that the audio sounds muddy on the Yaesu using the
444D.
I will give what you said ago with the earpiece cartridge if I can find one
in the shed.

I guess you get reports with your feelings. Former prosecutors and
prosecutors from other jurisdictions have been interviewed on tv and
print media have said when it comes to end users buying legal
prescriptions in illegal quantities their case would have much more
bearing if law enforcement officials if they found the drugs in his
possession.

Limbaugh has opined on several issues throughout the years. Your
chastising him for a part of a statement to invalidate everything he
has said in the past. Why don't you just say you disagree with him at
every turn and argue the things he says. He does get paid for being a
commentator, not a newsman. Commentators have their biases in case you
didn't know that.

I was making a statement. You can do with it whatever you chose.
Again, you are going with a few choice words. He does say several
things the way people should live and he lives by them. You're acting
as if you need him to tell you how to live your life. I may be a fan,
but I don't my life based on his words.

Howdy, folks.

I'm inviting you to come visit http://hfradio.org/forums/ - where I have created special forums about Propagation. These forums are for beginners as well as experts. Do you have quesitons about propagation? Wonder about current conditions? Want to discuss Aurora? This is an online community where you can explore these topics.

Also in the forums area are sections for Shortwave Listening, including equipment topics, logging, and more.

Come by and check it out. Don't be shy. Post your questions, observations, logs. Of course, it does not replace this invaluable forum, but it does provide an additional resource for all of us.

See you there,

Hi,

Do you remember the problem caused by broadcasting tests via the power line
?
A lot of radio amateur have to support the RFI causes by these tests
everywhere in Europe.
All hope is not lost.
ITU officially recognized this was unacceptable...

Dear friends,

Recently I purchased an ICOM IC-706MKIIG transceiver. Right now it is mounted in my vehicle and is mobile. However with winter approaching i would like to bring it inside so i can listen to DX stations. I have now power supply for it, however i have 2Amp variable power supply on my bench. Do you think that would be enough power just for RX? I do realize if i transmit with it i will blow the fuse in the power supply.

Someone also recommended using a car battery charger. However i think if it comes to that, i should just purchase a power supply made for the job. Wanted to know you comments...

Thanx,

Jon B. KB3KGS

Hard to answer. Read your book on it and see what it consumes in RX mode.
Thats the answer.

Dan/W4NTI

SO WHY has Barry E. Krischer the State's Attorney for Palm Beach County
changed the 'focus' of the Investigation from 'actual' Drug Dealers to
the Conservative Talk Show Host Rush Limbaugh ?

The original Drug Dealing and Drug Suppliers 'investigation' began as
a probe into the illegal sale of prescription painkillers in South
Florida area that targeted dealers and suppliers. But investigators
came across Rush Limbaugh through clues gathered in a bust of a Drug
Dealer in Palm Beach County this year, that revealed Rush Limbaugh's
name as a possible drug buyer.

During this investigation Rush Limbaugh's former housekeeper (Wilma
Cline) was caught along with her husband (David Cline). After the
Clines were caught, they then 'traded' audio tapes and eMails that
they claimed were from Rush Limbaugh to the police and was "Granted
Immunity from Prosecution". The Clines are/were in-fact Drug Dealers
and evidently had kept records and evidence on their drug dealing
business to 'trade' with the police, if and when they got caught.
TBL: So now the Clines are FREE of All Drug Dealing Charges [.]
* NOTE: The National Enquirer paid the Clines a six-figure fee for
their story.
* PLUS: Certain individuals connected with the Palm Beach County
State
Attorney's Office and the investigation, have been providing selected
information to the National Enquirer and other friendly news
organizations.

? So the "QUESTION" becomes: WHY did the the Palm Beach County State
Attorney's Office let Wilma and David Cline 'the Drug Dealers' go Free
in exchange for Rush Limbaugh 'the Drug User' ?

Has Barry E. Krischer the State's Attorney for Palm Beach County,
choosen to Go After Rush Limbaugh as a high profile drug user simply

for "Political" Reasons.
* NOTE: Barry E. Krischer (Democrat) is the 'elected' State's Attorney for Palm Beach County, was a supporter of Bill Clinton's two presidential campaigns and of Al Gore's presidential run in 2000.

I 'repeat' WHY has Barry E. Krischer the State's Attorney for Palm Beach County changed the 'focus' of the Investigation from 'actual' Drug Dealers to the Conservative Talk Show Host Rush Limbaugh ?

The Seriousness of the Charges of "Political" Reasons for the selective 'naming' of Rush Limbaugh 'leaks' of information in this investigation by Barry E. Krischer the State's Attorney for Palm Beach County, demand an investigation by the Florida State Attorney General's Office.

The problem in the States is that the ITU does not pay PAC bribes to Congress for overlooking the obvious, and political hack FCC commissioners have no concept of the technology they are supposed to be regulating. But, what do expect out of a group of lawyers who were hired based on what they could do to bring home the bacon to Congress from rich special interest groups? But who knows, maybe a bunch of US hams buying 10 KW linear amplfiers will help the economy out and return Congress to a balanced budget for one more blue-moon occasion? Yeah, sure - that's it, BPL will save the U.S. economy.

Hello,
I was wondering if you could help me. I would like to do the
following:
Put a small transmitter onto a product for this example lets say a
model hobby rocket that will be launched using a standard hobby rocket
engine you can buy in any store. They usually don't go more than
100-200 yards or so but I would need the device to be able to locate
it in dense tree cover (woods) without being able to see exactly where
it went.
Is there a receiver that can direct me exactly to the spot where the
rocket is? (containing the beeping transmitter).
Of course there are some constraints:
- the size of the transmitter has be very small (approx 4mm wide or
less, it can be several mm's longer in length). Also the battery has
to be this small as well, possible cylindrical in shape.
- the receiver that will direct me to the transmitter also has to be a
relatively small device (like the size of a walkie talkie, if
possible)
- each of these units should be somewhat inexpensive to produce (under
$20?)
- no FCC or other federal licenses required
- relatively easy to learn and accurate if within the 100-200 yard
range

Is this possible? Does anyone know where I can find these components
or companies that can produce them?
If not, are their plans that are available where we can build our own
receiver?

If you have any questions, please contact me.

Michael

This may be true.
But if we (the USA) are treaty bound to the ITU; this treaty is
first in the heirarchy of laws in the USA (it is in the Constitution) ;-)
Thomas Jefferson and other "founding fathers" were very serious when they
warned the new nation to take making treaties very seriously.

Maybe these political are reading this post, I hope. In all cases we all hope that the ITU WP 6E's report will be in favor of spectrum users without modifying our rights to use amateur bands as we already observed in UHF, 1.2 and 2.4 GHz some years ago, that were partly reassigned....

Correct. The best solution to ensure our defense should be to have in our
camp a Congressist and OM (like K4TPJ and others) or a big spectrum user
(like K6EWP directing the US Strategic Command) who could speak for us all.
It should be interesting to get their opinion. Affair to be followed.

<snip remainder of self-righteous indignation>

well, I have another perspective; did you ever stop to think that there
wouldn't be
such a prevailing anti-french notion if they would not only QUIT trying to
halt our
attempts to fight & end terrorism in the world, not only STOP being nothing
more
than a nation that uses the UN... (which, by the way, if you didn't know, we
fund
a quarter of the UN's budget; our total basic input, ASIDE of all the extra
few billions here and there we give, adds up to MORE than contribution of
France, Germany and Russian COMBINED?).... to thwart so many of our
righteous and morally correct war against the islamic extremists that, if
given thier
way, would have YOU killed? Did you ever stop to think that maybe if France
began standing up for herself and HELPING in this dreadful ordeal, along
with the
other sniveling weasel nations of europe, that we could wrap this up quicker
and
faster instead of them being a root cause of what is one of the darkest
periods
in human history to be stretched out FUTHER in terms of time and bloodshed?
Just what did all of France's attempts to thwart our removal of saddam and
put another knife in the back of terrorism GET them, huh? Another bomb in
Paris! And did you EVER think that that maybe if France finally began to
learn
her lesson about appeasement, along with all the other nations in Europe
that

had to bear the dreadful weight of world war II on thier backs, just *maybe*
relations between that nation and a few others would improve with us? That
just
*maybe* we would truly be the allies instead of this mass-perpetrated
delusion
that we are already?

Kuddos to the axis of weasels for coming around on the last UN vote... I
know
they didn't do it because of a change of heart, but at least it's a start in
the right
direction. I'll give them *that* much. Now if they'll just open thier eyes
and
wake up to the world as it really is and begin to help us, things will be
much better
for everybody; Civilized Nations: 1, Islamic Extremist bloodthirsty
murderers: ZERO.

Indeed and lobbying are often link to financial interests. Noone broadcaster (and still less with the future DRM, the digital AM) will never accept that its spectrum be reduced but the one of hams could be...

There is maybe one way to fight against a potential reduction of our bands or increasing of the noise level.
A good way to make the pressure on ITU in order that they protect our rights, IMHO, should be to request the help of some famous people. There are so many celebrities whose voice carries around the world and who are licensed hams (statemen, royalties, CEO of telecomm and Internet companies, TV producers, Gen. of US forces and scientists Nobel prices) that if ITU could have their support, the conclusions of their future report could change a lot...

All these hams want that our bands be preserved but there are also involved in the use of the spectrum. They could arg in our side.
See some names on : http://www.astrosurf.com/lombry/qsl-rfi-bpl.htm (first half).

But maybe that I dream alive

Hi,
I want to use my Kenwood TM-741 transceiver as an APRS transmitter in my car. I plug my APRS system on Ignition 12v power, so it powers on automatically when I start the engine.

The problem I have is with the TM-741: when 12v DC power is applied to it, it doesn't power up automatically; i have to press on "power" button every time. TM-741 CPU doesn't memorise power state when 12v power is cut.

Is there a modification or a programmation I could do to allow it to power up automatically when 12v supply is applied to it? Any idea ?

Thank you in advance.

I assume that remark stems from the fact that you live in one of the
yellow-bellied gutless coward nations over there. Hey, here's an idea;
why don't you guys start demanding your leaders quit bowing down
and kissing the rear end of terrorists and middle eastern dictators? Just
how can you *stomach* to live in a nation that just sits around and
gets hammered and attacked and blasted instead of standing up for
yourself and doing something about it? Or is making remarks about
newgroup people having no brains simply *safer* because you're
on the other side of the globe at a computer terminal and the terrorists
are right up in your face?

You'll have to excuse me, I just can't fathom why anybody would
take the path that you guys over there have. Perhaps that is why europe
is slowly being left behind economically in the world and the shift of
industrial & economic strength is headed away from you guys and towards
eastern asian nations. I guess they'll be the future, if you're going to be
*the
past* in your hemisphere.

Yea, i've been noticing more and more old movies that at one time had
certain words or phrases either blanked out or replaced by more "family
oriented" ones (I prefer not to be insulted myself and just head about a
quarter
of a second of diead air, it's less condescending) are now just letting the
words
go by.

New shows are taking advantage, too. I don't write the names down of shows
that
use these words, as i have better things to do, but for quite while you can
hear
the phrase "kick ass", "pissed off", etc.

Clint

well, I don't know why MF is not allowed if the FCC ruled
that it was okay for Bono of U2 to say "fuck" on television.

geez, does it really matter? It's the same word... if the FCC is going
to stoop to THAT low of a level to let certain words "slide" now, why not
just do away with all censoring all at once?

it'll degenerate one day to the type of television they have in europe and
australia, where I hear just about anything goes.

Clint

Right after talking to Texas on 11 meters, I caught up to a buddy on 2 meters and told him of the conditions. He also could hear beacons from Texas on 10.

If 10 is dead, it's only because no one is trying.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 12th/October, through Sunday, 19th/October there were 233 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3D2/r, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4U1U, 4W, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5Z, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A6, A7, AP, BV, BV9P, BY, C5, C6, C9, CE, CE0A, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HC8, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J6, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T2, T32, T7, T9, TA, TF, TG, TI, TJ, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9C, VK9N, VK9X, VP2E, VP2M, VP2V, VP5, VP6, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, XW, XZ, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZK2, ZK3, ZL, ZL8, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations. As always, you never know - "Work First Worry Later" (WFWL).

SV/A, MOUNT ATHOS. By the time you read this, Monk Apollo, SV2ASP/A, should be on the air (or close to being back on) in a "BIG WAY". Over the last several months, George Varvitsiotes, K6SV, has been communicating with Monk Apollo since his radio went down (off the air - broke) and

began the project to help him get back on the air. George informed OPDX on Tuesday, October 14th, that he was leaving the next morning for Greece and would be taking Monk Apollo a new Icom IC-756 ProII and power supply donated by Icom. He stated that he had all the necessary papers (that Monk Apollo sent him) to enter Mount Athos and deliver the new radio. George also told OPDX that it is his intentions (with Monk Apollo's approval) to install all the antennas that were previous donated and get Monk Apollo back on the air in a big way. George informed OPDX of his plans back in July once OPDX announced that the Northern Ohio DX Association (NODXA) was looking into collecting funds to buy Monk Apollo a new radio. At that time he told OPDX he was going to Greece on family business and wanted to keep his plans a secret until the radio was delivered. OPDX and NODXA agreed to his wishes. Once again, OPDX and NODXA would like to thank the many "who wanted to help". We hope you get a chance to work Monk Apollo and welcome him back on the air. ADDED NOTE: George, K8SV, will also participate in the CQWW SSB Contest (See J43).

4L, GEORGIA. Imeda, 4L4AJ, will be active in the CQWW SSB DX Contest. Activity will be on 40-10 meters using High Power.

4X6, ISRAEL. Operators Seth/4X1DX and Zvi/4X6FR will be active as 4X6FR in the CQWW DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL via 4X6OM.

9U, BURUNDI. The "DX Newsletter" reports that Richard, F8LPX, is working at the French embassy in Bujumbura for the next three years. He is expected to be active, but the callsign is not known yet.

AH2, GUAM (Update). Aki, JI3ERV/NH2C, Chairperson of Guam Contest Club (GCC), informs OPDX that members of the GCC will be on the air during the CQWW SSB Contest next weekend (October 25- 26th) as AH2R. This time they plan to set a target as the Oceanic leader in the Multi-OP 2-TX category and the World's Top 5. Also, they are trying to build an Oceanic record in this category. Operators are: Aki, JI3ERV/NH2C; Toshi, JR7OMD/WI3O; Osamu, JP1JFG/N2IU; Kaz, JG3RPL/N1BJ; Kou, JH7QXJ; Sam, JR8VSE/NH2N; and Noz, JE8KKX/AH2K. Guam Island's (KH2, Zone 27 and IOTA OC-026) sunrise and sunset are: 2013z and 0756z. QSL via JH7QXJ (Direct - See QRZ.com) or the JA bureau (NOT the KH2 bureau). SPECIAL NOTICES: Due to the band plan, their operation on 40m is limited between 7075 and 7100 kHz. Please listen carefully!! They are also planning participation in the CQWW CW Contest next month. Details will be released later.

BEWARE OF CLUSTER PIRATES. This has become a growing problem over the last few years. Laurent, F8BBL, informs OPDX that over the past few weeks someone has been pirating his callsign and causing problems on the DXclusters as well as QRM in pile ups. He is sorry, but it's not him, and he is confused/troubled about the problem. He also mentions that the French authority is informed.

BQ9P, PRATAS ISLAND. The Pratas Island DXpedition is now QRT as of 6:00 am (local time) on October 16th. The group made some 27000 QSOs.

For more details, please visit their Web page at:
http://www3.ocn.ne.jp/~iota/newpage64.htm

CE0Y, EASTER ISLAND. Wojciech/SP9PT and Jerzy/SP9EVP are now active as CE0Y/homecall until November 1st. Both have been very active on 40 meters CW this past weekend, but there has been some activity on 20 and 17 meters as well. Keep a lookout for some digital and SSB activity. OPDX has also seen a spot from them on 6 meters. QSL via their home callsigns.

CT8, PORTUGAL. Timo, OH1NOA, will be active from CT1DVV/CT1ESV's QTH as CT8T in the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/ All Band/High Power entry. QSLs will be sent out automatically via the Bureau.

EA6, BALEARIC ISLANDS. Look for a Hungarian team to be active between November 2-9th and also participate in the HA-QRP Contest as EA6/HA5RT/p. The contest station will be on 3511 kHz using around 10 watts. The operators will use their home callsigns on the other bands as follows: EA6/HA6NL/p (Laci), EA6/HA6PS/p (Zsolt), EA6/HA6ZV/p (Tibor) and EA6/HA7JJS/p (Sanyi). Their main mode is CW, but some digital activity will also take place. QSLs should go via the bureau by their home calls, and for EA6/HA5RT/p via HA6NL.

FR/E, EUROPA. La GAZETTE du DX announced that the team which will be active from Europa has put online an Internet Web site where you can find all the necessary information about this DXpedition. The URL address is: http://europa2003.free.fr

FY, FRENCH GUIANA. Operators Didier/FY5FY, Marc/F1HAR, Herve/F5HRY, Romuald/F5LND, Olivier/F5MZN, Gerard/F6FGZ and Larry/F6FVY will be active from Zone 9 as FY5KE (Zone 9) in the CQWW SSB Contest as a Multi-Single category. QSL to FY5KE direct or via bureau.

HB0, LIECHTENSTEIN. Members of the Hungarian Pannon DX Club and P.V.R. Klub Puspokladany will operate from Liechtenstein again this fall. The operation will take place between November 2-10th from a rented house at Masescha 1350m ASL. Activity is planned for the HF bands (160-10 meters, with the main focus on lower bands) including the WARC bands, on CW/SSB and RTTY. They will have two stations on 24 hours a day. Operators are: HB0/HA0HW/p (Laci), HB0/HA4DX/p (Tomi) and HB0/HA4XG/p (Geza). They will be using a FT-840 and a TS-450 with groundplanes and wire antennas sponsored by DunaX. Cards can be sent to their home callsigns direct or via the HA bureau. Suggested Web pages to view:
Pannon DX Club - http://www.pannondxc.hu/
P.V.R.Klub Puspokladany - http://www.c3.hu/~ha0khw/
DunaX - http://www.pannondxc.hu/dunax
Liechtenstein (HB0)
http://www.odci.gov/cia/publications/factbook/geos/ls.html

HC8, GALAPAGOS ISLANDS. Dan, NN1N, will be active as HC8N during the CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/All Band entry. QSL via W5UE.

HC8, GALAPAGOS ISLANDS. Trey/N5KO and other operators will be active as HC8N during the CQ World Wide DX CW Contest (November 29-30th) as a Multi-Multi entry. QSL via W5UE.

IOTA NEWS.....
AS-085. Operators Han/DS2GOO, Chae/DS5BSX, Ryu/DS4NYE and possibly others will be active from Soan Island between November 1-4th. They will use their homecall/4 or D90HE/4 with 100w transceivers and various wire antennas. QSL via operator's homecall. They said that a log search will be available after the trip.

EU-092. Jim, MM0BQI, is now active as MM0BQI/P from Summer Isles (IOSA SC10) until October 27th. Activity will be on all bands 80-6 meters with particular emphasis on 80m looking for DX around his sunrise and sunset. His activity will also include entries in the CQWW SSB Contest. Look for him to sign as MM0BQI/P as a Single Band 80m entry and as MM0Q as an All Band/Low Power entry. QSL via RSGB or direct to MM0BQI:
Jim Martin, 3 Lismore Ave, Edinburgh, EH8 7DW SCOTLAND.

OC-012. Cal/WF5W and Paul/W5PF will arrive on Yap Island on November 22nd. They will operate as V63WC and V63PF, respectively, until November 29th. They will use 100 watt radios, wire dipoles for 30 and 40 meters and a 2 element SteppIR yagi for 20-6 meters. Operation will be CW and SSB with no digital modes planned at this time. Some limited operation in the CQWW CW Contest may be possible. QSL via W5PF.

OC-203. Chris, ZL1CT (GM3WOJ), will be active as ZL1CT/4 from Stewart Island from January 11-15th. Activity will be on CW/SSB on 40-20 meters only. He will use 400w into vertical antennas.
For more info, please visit his Web page at:
http://www.qsl.net/gm3woj/
Chris states,
"Please work ZL1CT/4 as well as the 3Y0 DXpedition!"

J43, GREECE. Operators George/K6SV, Xenofon/SV3BEF, Dimitris/SV3BEH, and Vangelis/SV3BEG-Vangelis will be active from Southern Greece (Grid Locator: KM17ek) as J43GRC in the CQWW SSB Contest as a Multi-Op/Low Power entry. The team will use a 3 element Tribander for 20/15/10m, and wires for the lower bands. QSL Manager is K6HRO.

KP2/WP2, U.S. VIRGIN ISLANDS. Operators John/K3TEJ and Darrell/AB2E will be active as WP2Z in the CQ World Wide DX CW Contest (November 29-30th) as a Multi-2 entry. QSL via KU9C. Operators will be on the WARC bands before the contest, and 160m after the contest signing KP2/K3TEJ and KP2/AB2E. QSL via their home calls.

KP3, PUERTO RICO. Felipe, NP4Z, will be active as KP3Z in the CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/All Band entry. QSL via WC4E.

LX, LUXEMBOURG. Two stations from LX have announced that they will be active from here during the CQWW SSB Contest. Look for the following stations:
1. LX5A (operator: LX1AQ - Phil) as SOSB HP 80m
2. LX9SW (operator: LX1RQ - Robert) as SOSB HP 20m
QSL both callsigns to LX1RQ or via the LX bureau.

PY0F, FERNANDO DE NORONHA. Jos&#65533;, CT1BOH, will be active from the station and QTH of PY0FF as PT0F from October 19-28th to take part in the CQWW SSB Contest as a Single-Op/All Band entry. QSL PT0F via W3HC.

QSL INFO AND NEWS.....
NEW QSL MANAGERS FOR A61AJ! QSL via K2UO for North, Central, South America, the Caribbean and U.S. territories (such as KH0, KH2, etc.). K2UO address: George Oliva, 5 Windsor Drive, Eatontown, NJ 07724, USA QSL via DJ2MX for Europe/Asia/Africa/Pacific. DJ2MX address: Mario Lovric, Kampenwandstrasse 13, D-81671 Munich, Germany. George, K2UO, informs OPDX that QSLs will be printed shortly; please be patient. K2UO also promises prompt returns once all logs have been received and organized and the backlog has been eliminated. Direct cards (with proper postage or green stamp or IRC) will be given the highest priority; all bureau cards will be answered. A message from Robert/S53R, Sejo/T97C, and Ghis/ON5NT also states that they are in the process of putting a database together for the QSOs before October 2003. As they are doing this in their spare time over the weekends; this could take a couple of weeks. They will keep us posted on this matter. For the moment, please only send your cards to the above managers for QSOs from October 2003 onwards.

Pete, K3PD, informs OPDX that he is now the new QSL Manager for YO2LEA. He now has all the logs, 1990 to present. QSL direct or via the Bureau (Mark all cards YO2LEA VIA K3PD). Requests without return postage or envelope will be returned via Bureau. USD preferred over IRCs. K3PD's address is: Pete DeVolpi, 408 Hillside Ave., New Cumberland, PA, U.S.A. 17070-3036.

Silvano, I2YSB, informs OPDX that the new QSL Manager for the TX4PG bureau cards is only to IK2DIA. Direct requests should still be sent to I2YSB. Silvano, I2YSB, is also the QSL Manager for 5U7B, 5U7DW, 5U7JK, 5U7JW and 5U7RW. QSL direct only to Silvano Borsa, P.O. Box 45, 27036 Mortara - PV, Italy. Online logs are available at: http://digilander.libero.it/i2ysb

RM0, ASIATIC RUSSIA. Andy, UA0ANW, will be active as RM0A in CQWW SSB Contest as a Single-Op/All Band/High Power entry from Zone 18. QSL via the bureau or direct (address on QRZ.com).

SILENT KEY. Zik, DL/VE3ZIK, informs OPDX that Ron, KZ5RO, became a Silent Key on October 13th. He states that Ron was a great HAM, QSL Manager and helped alot people with QSL information. OPDX and its readers would like to send out our deepest sympathy to Ron's family and friends.

SPECIAL ACTIVITY/EVENT. Take, JI3DST, informs OPDX that he and Joe, JA4PXE, are going to go to Manchester, UK, for the RSGB HFC 2003 International HF & IOTA Convention from Japan on October 30th. They plan to be active from the HF & IOTA Convention event station, MB2HFC, on November 2nd (From 800z to 9:00z) for Asia (JAPAN).

SPECIAL EVENT. To celebrate the Centennial of the Republic of Panama (1903-2003), look for special event station HP100RCP to be activated by the Radio Club de Panama from November 1-3rd. Activity will be on all bands and all modes (CW-SSB-RTTY & PSK31). A special commemorative QSL will be issued to all cards received with one green stamp or two IRCs to the following postal address: RADIO CLUB DE PANAMA, P.O. Box 10745, Panama, PANAMA.

TM7, FRANCE. Laurent, F8BBL, will be active with a special callsign, TM7W, from November 16-30th. Activity will included the CQWW CW Contest. QSL to the bureau via F8BBL.

TY4, BENIN. Jean-Marc, ON4JM, will be here for 2 months starting November 2nd because of his work. He has requested the callsign TY4JM from the Benin's Post and Telecommunication Office. Jean-Marc mentions that his activity will be limited because of his work Monday through Saturday, however, look for him possibly during his evening hours and on Sundays. He will be heading back to Belgium on December 23rd. QSL via ON4JM. Bureau cards are OK and it's preferred.

V55, NAMIBIA (Update/Change). Vlado/ZS6MG and Emil/ZS6EGB will be active as V55V and V55E, respectively (instead of V5/homecall as reported in OPDX.628), from October 23-27th. Also, they decided to use the callsign V55V for CQWW SSB Contest (instead of V51E). QSL via ZS6MG. They inform OPDX that they are not sure if this V55 prefix was used before from Namibia, and it may be of interest for the hams around the world.

VK9X, CHRISTMAS ISLAND. The YL group is now active from here as VK9XYL until October 27th. Most of their activity has been on 20/15 meters CW/SSB. However, there have been some QSNs on 40/17/12/10 meters. QSL via VK3DYL.

VP9, BERMUDA. Operators William/N1HRA, Matt/WE1H, Foster/N3KCJ and Joe/K1JN will be active from October 23-28th and will take part in the CQWW DX SSB Contest. Outside of the contest, they will be active on 160-6 meters as homecall/VP9. The contest callsign has yet to be determined. QSL to homecall outside of the contest and to K1JN for contest QSOs.

VP9, BERMUDA. Kurt, W6PH, will be active as VP9/W6PH from VP9GE's QTH in Hamilton Parish during the ARRL DX CW Contest (February 21-22nd) and the ARRL DX Phone Contest (March 6-7th). His entry in both contests will be Single-Op/All Band/Low Power. QSL only via W6PH direct.

WRTC 2006 (in Brazil!). Steve Morris, K7LXC, WRTC Sanctioning Committee Chairman, released last weekend: "The World Radiosport Team Championship Sanctioning Committee, LABRE - Liga de Amadores de Radio Emisspo, and the GADX Araucaria DX Group are pleased to announce the next WRTC competition in 2006 in Brazil. Following in the footsteps of previous WRTC competitions held in Seattle, San Francisco, Slovenia, and Finland, the WRTC showcases

amateur radio competition at the highest level. The competitors are among the best operators in the world in this ham radio Olympic-type event. The previous WRTC competitions have demonstrated the high degree of friendship in ham radio activity, together with an enormous sense of ethical competitiveness. The competition will be in Florianopolis, capital of the Santa Catarina State in Southern Brazil in July 2006. This event is open to everyone - competitor and spectator alike. Everyone is invited to attend the WRTC2006."

XU, CAMBODIA (Also IOTA op). Jaak, ES1FB, is once again here and will be active as XU7ACE until October 28th. He is currently staying in Sihanoukville and plans to be in next weekend's CQWW DX SSB Contest. Look for him to sign XU7ACV from Koh Poah Island (AS-133) between October 21-23rd. QSL via ES1FB. For more information, please visit the Web page at: http://www.hot.ee/xu7ace

YA, AFGHANISTAN. Masa, JG1OWV, QSL Manager and an operation's pilot for YA1D/YA0J, informs OPDX that Sada, YA1D, is now on a leave back in Japan. Masa and Sada are currently discussing what antennas beside his existing wire dipoles to take back to YA. Sada will be active again from Kabul after October 30th with probably a HexBeam for the high bands and a vertical for lower bands. Masa mentions that some QSLs came to him via his very old "Flying Horse" Callbook address (These take a long time to reach him). Please use his current address to QSL. His address is: Masahiro Wada, 391-C-1204, Shibacho, Kanazawa-ku, Yokohama, 236-0012, Japan.

ZS5, SOUTH AFRICA. Edwin, ZS5BBO, informs OPDX that he will be active in the upcoming CQWW SSB Contest as ZS5T as a Single-Op/Single Band (20m) entry. QSL via ZS5BBO.

-=-=-=

same phone line as BARF-80 BBS using a data/fax/phone switch. To access:
1) Dial Number. 2) Wait for first ring (the second ring should be a false
ring from the fax/data switch box) and then dial four quick ones ("1111").
(NOTE: Some FAX machines that send single "BEEPS" every second will not
have to do this step.) 3) The phone will pick up and after the "BEEP"
leave your voice message or FAX.

Yes even at the bottom of the sunspot cycle, the flux can often be just high enough for 10 to open up for a while each day. Also sporadic E can occur at any time day or night regardless of where we are in the sunspot cycle. So it is worthwhile to check it out. Call CQ and see if you get a response. A lot of people may be just too shy to call it themselves but are just waiting to answer a call.

Check the beacons but even if you can't hear the beacons, there may still be limited openings to certain areas just not to the source of the beacons.

What???!!! Do you mean to tell me that there were no WMDs found, weak
and embargoed Iraq posed no imminent threat to anyone, Hussein's nuclear
program was a work of fiction *and* there was absolutely no connection
to 9/11?

[Gasp!]... but that could mean one thing only: president Wolf... I mean
president G.W.Bush and his cronies lied to the American people!!!

Hmm, politicians lying to their constituents to the point of having
hundreds of lost lives in order to satisfy the lobby of a foreign
country, while filling their pockets in the process? No fucking way!
There's gotta be a more rational explanation. This must be a vast
liberal-anti-Christian-communist-leftist-atheist-terrorist-Clinton-UN-Franco-German
conspiracy. Yeah, that's what it is. Whew! Life makes sense again.

NO.....the Icom 706MKII-G is a power monger..draws about 1.5 amps on RX. A few good power supplies that will power it nicely are the Samlex 1223 (20 amps) and the Alinco supplies. If you want RX only look into a small analog (quieter) 5 amp supply..Eddie P.S. battery chargers have noise and voltage spiking and NO voltage regulation at all.

What is the problem here? _REAL_ Radio Hams work with
signals that are deep in the noise all the time. There might be
a concern here by CBers who want S9 BBC quality, but
not for Radio Hams!

The problem is that this particular noise source produces 40dB OVER S-9 QRM
at 150 feet from the source... IIRC what I have read correctly..

# 3504. Re: RFI caused by BPL soon resolved ?

I'm not sure that it would possible Gareth to the extent needed.
The problem is that local noise depends on the activity of local PLC
modems, each of which is going to produce an additive but independent QRM.
You wouldn't know beforehand when data was going to be requested or sent.
It just sounds like random data bursts spread over a wide spectrum.
Yes, some suppression might be possible by taking a wide bandwidth and
somehow using cancellation. But getting 40dB or more of rejection I
think would be very difficult.

The galling thing about PLC/BPL is that the vested interests (i.e. the
power companies) seem to think that they can ignore all other spectrum
users. Yet the bandwidth they're offering will soon be insufficient
to meet the broadband demands. At least with ADSL line bandwidth can be
shared among a small number of subscribers. Greater bandwidth can be
achieved by reducing that contention ratio. But I wonder how many houses
are served by the same power substation on average. IMO, PLC/BPL is
the wrong technology too late. Even ADSL is going to struggle to meet
the bandwidth for on-demand video streaming.

As a final irony, now that the ITU has dropped mandatory CW, CW with
its much lower bandwidth offers the best chance in the presence of
such wide spectrum noise. Looks like my pursuit of CW as a mode was
worth it after all ;-)

Cross-posted to: rec.radio.amateur.misc, rec.radio.amateur.equipment, rec.radio.amateur.homebrew, uk.radio.amateur, uk.tech.broadcast

The PIC STV5730A on screen display project board provides a simple platform for the development of microcontroller driven text over video applications. It is ideal for creating on screen displays for ATV applications such as callsign generation.

For the non-programmer a PC keyboard interface version allows easy creation of on screen displays.

The PIC STV5730A on screen display project board is available from http://www.STV5730A.co.uk

Features:
* 16F628 microcontroller for flexible development
* STV5730A on screen display IC gives 28 character by 11 row screen
* 128 text and graphics characters defined in ROM
* Text over video or self generated video signal
* 10 i/o lines on the 16F84 for easy interface to sensors, keypads, etc
* Power supply 5V dc or 9 - 12dc via on board regulator
* Free PIC-STV5730A demo software in assembler & BASIC
* Screen display routines available
* Simple PC serial interface, ATV callsign and GPS display examples
* Enclosures available
* Accessories and connecters

Cut out the tedium of project development and get straight to the fun of making your idea work with proven hardware and well commented easy to understand example code.

Hi Corkscrew,

Unfortunately, the 741 doesn't have a setting for "auto-power-on". My first thought would be to add something that would parallel the power-on button and perform the function you describe.

But be careful how you implement this: you can design a one-shot using a 555 or 74123 (I'm showing my age), but remember that when the power is coming up, some devices' behavior may be unpredictable.

If I were designing something like that, I would do at least two things: a) don't apply power to your circuit until it's been up for (say) 2 seconds, and b) if the 741 doesn't come to life (check backlighting voltage, etc.) then re-cycle the power switch.

Another possibility, although primitive, would be to use a solenoid that would physically press the power button, which wouldn't require electrical modifications to the radio.

My two cents.....

73, good luck, and let us know what you do!

Conventional wisdom would say that this isn't possible.
But, they said that about the airplane. I'm sure they also
said that about the light bulb--you just need another Edison
to invent it--Zack Lau W1VT

BTW--there is a huge fortune awaiting the inventor--just
imagine how many parents would pay for such a device
to keep track of their kids.

The majority of the Senators are lawyers, and over 1/4th of the House members are lawyers. Incapable of learning 5 w.p.m. Morse code. Maybe when everything is no-code, a few of them could memorize enough right answers to get a ticket. Maybe the FCC should just give out free Extra-class licenses to all of Congress in hopes they might learn something about communications. Better yet, give out free licenses to the FCC commissioners. Heck, they are all lawyers without a clue on communications or technology.

Mmm?
There is a software accessible to amateurs that can detect signal 10 dB
below the noise : FFTDSP
See my commentaries on http://www.astrosurf.com/lombry/soft-calc.htm#FFTDSP
and a small review in French at the end of this page,
http://www.astrosurf.com/lombry/satellites-artificiels5.htm
It is not much different from a SETI application.

From acient times the theory holds that the world behaves in a mathematical fashion, and only later was it understood that (x,y) could be represented in a pure or refined form. The theories of Galeleo, Newton, and Einstein are all true as we know them, but mathematics that gave raise to them are inconsistant... Is science a religion?

Press and hold the N.R. + USB/LSB buttons while turning the rig on. The display will show the word "ADJUST" and then go into the service menu. Make sure you write the settings down before making any changes. This menu allows you to adjust individual band output, s-meter calibration, squelch, ALC and so on. You know, all the things that should be left alone. That is why is is called the SERVICE MENU. However if your output power is low, you can fix it here. On a tone my 570SG will put out 110W. I wouldn't go much higher and it won't make a difference on the other end anyway. Also you can adjust the carrier points for USB and LSB. Handy if you run a wider bandwidth with a good mic and EQ setup. With the stock filter replaced I can get about 3.5 KHz wide or 2.4 with the stock filter.

The preceding question reflects an ignorance of what constitutes science. Science is distinguished by its METHODS, rather than the mathematics chosen by those practicing science. The SCIENTIFIC METHOD is now taught at the junior high school level, and it appears that you somehow missed those lessons.

Until the scientific method was developed (which is roughly to experimentally observe; then postulate a theory; then make a prediction using the theory, and then experimentally test the prediction, ... and iterate) attempts at understanding nature were often completely erroneous -- mathematics notwithstanding. Roger Bacon and Galileo are usually credited with its development, although others think that the scientific method may have first appeared in the ancient Islamic world.

Religion and philosophy do not employ the scientific method; neither does mathematics. Confusing the domain of each discipline is an amateurish mistake. Not even a junior high school graduate should make such a mistake these days.

The "Woodpecker" wasn't "supposedly" random, it was pseudo random - not the same thing at all.

In fact, successive pulses even had 'glitches' in the same position - an artefact of the way the short pulses were generated from a long (31 or 33- it was along tome back) bit sequence.

As the whole idea was to give a predictable "compressed pulse" the thought that is could be "supposedly" random is not creditable.

Innovative Web access to shock Manassas
SARI KREIGER
skreiger@potomacnews.com
Saturday, October 18, 2003

Manassas residents will soon be the first in the United States
to buy Internet access over city power lines.
The City Council voted unanimously on Thursday to
grant a franchise to Prospect Street Broadband, LLC.,
bringing a year-long preparation process to fruition.

Residents can purchase the service within 120 days of
the contract signing, which is expected to occur
next week, according to Energy Services Manager Brett Massey.
In May 2002, a small pilot group of city residents and
businesses began using the service. A modem is plugged into
the electrical outlet on one end, and the computer on the
other, to gain high-speed access to the Internet.
"They were very impressed by the speed, reliability
and flexibility," said Utilities Director Allen Todd.

Freda Wallace, an administrative assistant with Robert
Loveless Architecture in Old Town Manassas said the
company has been receiving the service since February.
"We've had good service with it," Wallace said. "The
only time it has been down is because of our
equipment, or because they're testing something on
the lines because it is a pilot program."

The Connecticut-based company that received the
franchise will be responsible for the equipment,
connection, monthly billing, advertising and
24-hour-a-day, seven-day-a-week customer
support. The city will expand the current fiber

network, which is almost complete, update optical electronics and install and maintain equipment external to the residents' homes.

"The grantee will be providing most of the capital of this project and assume most of the risk," said John Hewa, assistant electric director for the City of Manassas. "There's very little financial risk to the city."

John F. Berry, chairman and CEO of Prospect Street Broadband, said the service is very easy to use and no special training is necessary. Residents can purchase the service and obtain access from any city outlet. "You sign up once and you can sign on at home, a friend's house, the ice skating rink, where ever," Berry said.

If residents opt for this Internet service provider, they will pay approximately half of normal high-speed access, as the tentative service price is $29.95 a month for residents, and $69.95 for commercial access. "It will be competitively priced and a quality service," said Vice Mayor Harry J. Parrish II. Wallace said the service was comparable in speed to any DSL program available. "It's very fast," she said.

And as a fringe benefit, the city can also monitor power outages through this technology. Todd said the city has been trying for years to achieve that capability. Two bids were received on Sept. 8, and Todd said the city spent a considerable amount of time examining both proposals to ensure the best outcome for residents. "We've never had a franchise quite like this before," Todd said. "We wanted to make sure we had measures that would protect the services we promise the citizens."

The contract that the council voted to approve calls for a 10-year term, with a five-year extension. A minimum payment of $24,000 after the first year, and $124,000 after the second and third year is guaranteed to the city. Initial figures project that Manassas could receive up to $4.5 million in revenue after the 10-year period. Councilman Ulysses X. White questioned city staff about future price hikes, as he was reminiscent of a similar situation with cable television in the city. But Todd said with competition available, residents wouldn't be stuck with high bills and no options. Rather, this new offer gives residents exactly that -- options.

Councilman Eugene R. Rainville said residents will benefit from an extra use of the electrical system their tax dollars already fund. "Now they can get Internet at a low price," Rainville said.

"I would encourage all of our citizens to at least look at it as an alternative."
And according to Parrish, residents may receive an added bonus if enough people patronize this service. "It looks like the council might have the opportunity to look at tax reduction," Parrish said.

HOW CAN THAT BE?!?!?!? You must obviously be mistaken. Those guys
passed morse code tests, and yet they're disruptive, cause trouble and
violate
the ham radio laws & rules laid forth by the FCC?

I was *sure* the PCTA crowd said that the morse code test was an adequate
filter to keep out the "CBplussers".

I am looking for specifications of the following units:

Motorola Model FMT-41
Motorola Model T-31BAT
Motorola Model U-41GGT
Motorola Model T-41GGT
General Electric Model MT-13-N.

My particular interest lies with their modulation mode.
Any leads would be appreciated.

It depends.

For running around town talking through your local repeater on VHF/UHF, somewhere in the range of 5 to 50 watts will do the job. It depends on the heights of the respective antennas and their distance apart.

For HF communications, usually 100 watts is adequate. When conditions are very good, considerably less will be needed. When conditions are marginal, you may have to go up in power (limit is 1500 watts) or switch to CW. If conditions are very bad, you may just have to go read a book as all the power in the world won't help.

The USA has supported many butchers in recent history and the US even
supported and turned a blind eye to saddams own buchery when he served
the US and their will. Lok up most of the evil dictators of the last
50 yrs and you will find either open US support of their crimes or
clandestine US help thru the cia.

The US governent backed regimes in Guatemala that killed over a
hundred thousand people.....
We supported the coup that put Sukarno in power in Indonesia and his
government killed over 500,000 innocent people all the while the US

still gave its full support.....
Pinochet in Chili...remember him.....another US installed president
who killed thousands upon thousands of innocents.....
Noriega.....yep we supported him for many years before he US finally
had to take him down......

There are more...look them up.....all these people were allowed to
kill innocent men women and children because they served the US
interests in their countries.......Saddam was allowed the same
liberties....he killed and maimed with impunity all he while the US
knew what was going on.....only after he ceased to be usefull to the
USA.....was he expendable.....

I have no problem with France staying out of Iraq.....they had
monetary losses to consider.....had the US had any monetary or
political interests in Iraq Saddam would still be free to butcher his
own people.

I find nothing funny in french people dying in a heat wave......anyone
who does is clearly a fucking asshole.....

I own an older Kenwood TM-201B that utilizes a VSWR protection circuit to protect the final. I do not have a service manual or schematic on this radio and would appreciate info on which trimmer on which board adjusts the VSWR limiting. The brick is fine but the protection circuit is prematurely limiting the output at very low VSWR.

> who does is clearly a fucking asshole.....

Have to agree, the US has supported many of these people in the past.
Whether the US finds them expendable at some point, I have yet to decide. To
me, it looks more like they come back to bite US in the Ass. We even dealt

with Afghanistan not too awfully long ago, giving them Fire Power to defeat the Russians(?). It has never failed. We've always had to retrace our steps and take down those we've helped for whatever reason and in cases of war, MANY of our weapons were found - why? - because we supplied them!

What we need to do, is keep our noses out of their business.. Defend our borders vigorously.. if anyone comes to screw with US, wipe them out - no questions asked. As to the rest, mop up after they are done! They are all creating Genocide when they are allowed to fight amongst themselves for years.. Surely, they can't create children fast enough to replace all the losses if allowed to kill thousands at a time. If they want to kill each other off, why the hell should we care? While, I don't like to see any one die, WE CAN'T STOP IT. WE can NOT be the world peace keepers.We get one done, another starts. It is a LOSING proposition and WE the tax payers are paying out our ass for it. OUR soldiers are dying for it. Our own infrastructure has severe problems and our people are being taxed to death to supposedly fix those problems, yet they continue to grow.. TAKE CARE OF US - TO HELL WITH THE REST. FOREIGN AID SHOULD BE CEASED. MAKE them borrow like WE do.
Quit supplying these people like a bad habit and see how fast the shit stops. WE are the ones funneling the money!

I'm not taking sides in this issue here, just using it as an example.. The Middle East.. Israel, Palestine, etc... That region has had war since biblical times... WHO ARE WE to think we're going to go in and stop it in a few months to a year or more? It hasn't worked and it isn't going to. WE can't brain wash those people into giving up. They've got a seemingly inbred hatred for each other or others and NOTHING will stop them from their feelings.. WE have funneled cash on top of cash for them to "woo" them into peace and it has NOT WORKED.

Funny, Saddam had all those look a likes.. Since the war, we've not seen a one of them OR HIM. WHY? Surely they couldn't all have escaped. SOMETHING STINKS. Same with Oscummy Bin Laden.. Our country has some of the best intelligence and we can't find him? Yeah right. Maybe we don't "want" to . He(?) and now Saddam is good for getting tapes to Al Jazear.. Why not plant someone inside and trace them back! Don't we have a spy or stoolie we can plant at the station or nearby? Sure, they don't deliver tapes every day but hey... they track drug traffickers for years sometimes... If you want them bad enough, you'll do what it takes. Personally, after 911, we shouldn't have pissed around with a war, we should have just nuked the damned country.. THAT is a no miss approach. I'm not into seeing people die BUT if they come after US, then all bets are off in my book.

Another thing that pisses me off, is Kuwait... WE liberated them from Iraq in the first war. Some of them have turned on US since. That is the thanks we get. They were one of the countries who boosted Oil prices not long after that as well. THANKS A LOT! WE ALWAYS get bit in the ass when we neb in. ALWAYS. AND what REALLY pisses me off, is that OUR tax dollars are supporting the bombers of the 1st WTC bombing. They are eating 3 squares a day with a roof over their heads, heat, medical when many of our OWN aren't

1/1000th as lucky. That did NOT stop their brethren from trying it again. WE should have tried them for war crimes against the US and they should have been SHOT. THAT is how you cure a disease, with an Inoculation. Right between the eyes.. Not to return again. SHOW these assholes we won't tolerate it - by brute force and they'll quit screwing with us. NO.. we pussy foot around with them. The Civil Libertarians are going to be sorry one day. These murderers will kill them just the same and think nothing of it. I can assure you, if one of Saddams men walked into the ACLU offices with an Uzi, they'd be shitting their pants wishing for the Army or whoever else to arrive.

I was at Lackland AFB a good many years ago. A man from another country was on the base for Political reasons. He allegedly raped a female Airman. A group of the guys wanted to rip his head off. They told the CO and in turn were told NOT to take action - that THEY would end up in Leavenworth.. That this guy had Diplomatic Immunity and couldn't be held even if we wanted to. REALLY???? If that were one of US here IN the US, we'd be in Jail, like Kobe Bryant MAY be IF found guilty.
I heard today, he could face a minimum of 20 years! IF we went to THEIR country, we may be executed or jailed and never heard from again. WHERE IS THE JUSTICE???? WE KISS THE ASSES of these other countries. WAKE UP PEOPLE, ENOUGH IS ENOUGH. It is TIME to start taking care of US. In cases of War, I don't want to see innocent people die, but these bastards have shown, THEY do not play fair. SO WHY SHOULD WE?

Lou

I doubt "Argumentum ad Populem" can be applied to a draw full of sock
puppets ;-)

Either way, an analysis of the pulses showed it wasn't random and, to the
rational person, analysis out weighs "supposed"- regardless of how many of
Gareth's sock puppets do the supposing. .

Congrats on still having a TM-201B. They are still good rigs
for many uses, such as packet, fixed channel monitoring, etc.
On Final Unit (x45-1330-12), try VR1. However, it was
preset at the factory and should not need readjustment,
unless some ham got in there with the proverbial golden
screwdriver. Adjusting the trimmer requires test equipment
which most hams don't own.

# 3544. 75Mhz Power Meter Design ??

Newsgroup: rec.radio.amateur.misc
Date: 2003-10-21 17:53:11 UTC
From: mindy <mindy@hotmail.com>
Message-ID: <drqapvo7reqnhngbo4m521kae73hjb8dk3@4ax.com>
Source record: 62114

Hi All

I need to design a "Low Cost" power meter for R/C freq. band.
75 MHz.

I build Battle Bots as a hobby (IE: Waste of time) and we are having a
hard time determining actual RF receive level and the RF background
energy produced by the motors and other stuff.

I would like the input to have a bandpass filter centered around
75mhz.

I want to use a BNC for the input and a voltage output
that will run to a simple volt meter.

I would like the sensitive from +10db to -60db.

Any suggestions would be helpful.

Thanks
Mark

>
> John
> VA3JQ

Were you one of the people in the group he called "PorkButt's
Minions"? There was a core group of hams that listened to him preach
day and night and their group had that name. It was sort of funny.
Some of the minions were in VE3-land and they were also pretty dumb.
One of them was an older guy that sang alot and seemed a little gay
but there's nothing wrong with that, and there was another one that
was a VA3G-something. Do you know who that was?

That was entertaining radio, and it would be better to have Porkbutt
and the minions on the air than some of the people that are on these
days. Those audio people on 14.180 get boring pretty quick.

Hello Mark,
I guess you are looking for some kind of "Field Strength level"
meter ?

>
> I would like the sensitive from +10db to -60db.
>
What is your unit of measurement, i.e. what is the 0db ref level ?
1 Volt, 10 Volts,1 Watt, 1 milliwatt, ?

You probably need to seek advice from an expert in EMC / RFI
the use of a spectrum analyser with a "Near field" probe and
the ability to average the field / signal strength over a specified
time window would be one solution. BUT $$$$$ !!!

Source record: 62117

It's time to renew my license, and I notice that they want a Social Security Number as part of the process, unless I state one of several reasons not to offer one. One reason is that I'm only operating as a "petitioner" to the FCC. Anyone know if applying for an amateur license renewal qualifies as being a 'petitioner'? While we're on the subject, what does the FCC want with my SSN anyway?

This latest invasion-of-privacy is being done under the guise of "Homeland
Security." All states either now require or will soon require a SS # for
drivers licenses, vehicle registrations, etc.

Looks like FCC licenses are included in this ruse also.

It's a back door method of establishing a national ID number, an idea which has
been soundly rejected in the past.

Welcome to Amerika, Comrade.

Actually it started before the Homeland Security activities. It was part of the group of laws put in place to help track "dead beat parents", i.e. those who were not paying court ordered child support. Just about all state and Federal agencies now ask for this data due to those laws.

I wonder if anyone bothers to match up the number. From what I'm told, the California DMV collects SSNs, but nobody ever does anything with them. Same for the thumbprint they collect. I wonder if the FCC is just as lax.

From acient times the theory holds that the world behaves in a mathematical fashion, and only later was it understood that (x,y) could be represented in a pure or refined form. The theories of Galeleo, Newton, and Einstein are all true as we know them, but mathematics that gave raise to them are inconsistant... Is science a religion?

KB5ZHT

.....

Note that the original post did NOT accuse anybody of jamming. I looked at
the post...the statement was, "Heard a couple guys on 14.313 saying that
they were being jammed by Roger Wiseman, AB8MQ. " The follow-up posts went
on to outright accuse others of jamming.
W4NTI was right when he said, "You people are really dumb. Anybody can say
anything and accuse anyone they want, and you believe it. Amazing."
After looking up each of the calls and doing a Rain Report search, only ONE
of the calls showed any attention from Riley Hollingsworth, and THAT person
was made by Riley to retest after receiving letters of warning concerning
willful and malicious interference.

Of course this in itself proves nothing, just as malicious accusations prove nothing. W4NTI is correct.

And what do you think the original post was perpetuating? The same malicious accusations you are going on about below and what was said on the air without substantial proof.

> W4NTI was right when he said, "You people are really dumb. Anybody can say
> anything and accuse anyone they want, and you believe it. Amazing."

The same thing happens on the air. Like the original post.

> After looking up each of the calls and doing a Rain Report search, only ONE
> of the calls showed any attention from Riley Hollingsworth, and THAT person
> was made by Riley to retest after receiving letters of warning concerning
> willful and malicious interference.

If you are going to tell it, tell it straight. THAT person only recieved ONE warning letter and was made to retest, yet the letter did not give interference as being the reason for the retest.
This newsgroup has already hashed and rehashed THAT person's retest, ad nauseaum.

> Of course this in itself proves nothing, just as malicious accusations prove
> nothing. W4NTI is correct.

So why are you trying to perpetuate the original poster's contention that Wiseman was jamming?
Perhaps you need to look at yourself more closely before accusing others.

Jon

And what do you think the original post was perpetuating? The same malicious
accusations you are going on about below and what was said on the air
without substantial proof.

> W4NTI was right when he said, "You people are really dumb. Anybody can say
> anything and accuse anyone they want, and you believe it. Amazing."

The same thing happens on the air. Like the original post.

> After looking up each of the calls and doing a Rain Report search, only
ONE
> of the calls showed any attention from Riley Hollingsworth, and THAT
person
> was made by Riley to retest after receiving letters of warning concerning
> willful and malicious interference.

If you are going to tell it, tell it straight. THAT person only recieved ONE
warning letter and was made to retest, yet the letter did not give
interference as being the reason for the retest.
This newsgroup has already hashed and rehashed THAT person's retest, ad
nauseaum.

> Of course this in itself proves nothing, just as malicious accusations
prove
> nothing. W4NTI is correct.

So why are you trying to perpetuate the original poster's contention that
Wiseman was jamming?
Perhaps you need to look at yourself more closely before accusing others.

Jon

]

FREEPORT, OH/GLENDALE, WV: The FCC wrote Advanced licensee Steven A. Tunder, N8WGM, and General licensee Roger L. Wiseman, KC8JBO, on March 29, 2000, advising that it had been made aware of "an ongoing personal dispute" between the two men that included allegations of interference or jamming on 20 meters. FCC Special Counsel for Amateur Radio Enforcement Riley Hollingsworth cautioned Tunder and Wiseman to review §97.1 of the Amateur Radio rules and "to make certain that whatever disputes that may exist are not carried over to Amateur Radio frequencies." Hollingsworth invited the two licensees to contact him to discuss the matter. Last November 9, the FCC

sent Wiseman a Warning Notice in response to allegations of deliberate and malicious interference on 20 meters.

GLENDALE, WV: The FCC sent a Warning Notice November 9, 1999, to General licensee Roger L. Wiseman, KC8JBO, citing evidence that the licensee had been "deliberately and maliciously interfering with the radio operations of other licensed amateurs" on 20 meters. "This interference has occurred at various times in the last several months and includes broadcasting music and other unidentified transmissions," said a letter from FCC Special Counsel for Amateur Radio Enforcement Riley Hollingsworth. Hollingsworth warned that continued operation of the type described could result in a fine or license revocation proceeding, and he requested that the licensee contact him to discuss the allegations.

One letter?
No "interference"?

## 3561. And one more makes three.....

Newsgroup: rec.radio.amateur.misc

And one more makes three.....NOT one!

GLENDALE, WV: The FCC requested July 11, 2000, that Roger L. Wiseman, KC8JBO, retake the General examination elements under the supervision of an ARRL-VEC volunteer examiner team. Wiseman must appear for retesting by September 11, 2000, or his license will be canceled. Applicants appearing for re-examination are granted an Amateur Radio license consistent with the elements passed. The FCC had written Wiseman on March 29, 2000, advising that it had been made aware of "an ongoing personal dispute" between Wiseman and another licensee that included allegations of interference or jamming on 20 meters. FCC Special Counsel for Amateur Radio Enforcement Riley Hollingsworth invited the two licensees to contact him to discuss the matter. Additionally, the FCC had sent Wiseman a Warning Notice last November in response to allegations of deliberate and malicious interference on 20 meters.

And all three specifically mention interference...

>nauseaum.

>One letter?
>No "interference"?

Read everything closely. There were three letters sent.

The letters to both Wiseman and Tunder were a preemptive "warning"
that did not allege any activities. That hardly qualifies as a warning
in the context of someone having actually done something.

The letter with the warning in it ALLEGED interference, and warned of
consequences.

The retest letter made no reference to interference; in fact gave no
reason for requiring the retest. Such a request is part of the
Volunteer Examining program. It could have been made for any number of
reasons that may have had nothing to do with any of the addressee's
actions. An investigation into the VE group that gave the test, would
be a good example.

Only one letter was a warning referring to interference.

So, yes; if you are going to tell it, tell it straight.

TVs can be used as clandestine xmitters so don't worry, they'll be
included in reg requirement as will all AC & DC broadcast radios.

Aren't you glad you live in a demo[n]cracy instead of that anciente,
obsolete republic?

Your reading comprehension needs work. If you go back and reread the letters, you will find that the one from November, 1999 is the only one that ALLEGES any interference. The second letter does not mention it, nor does the retest letter.
Like I said before, if you're going to tell it, tell it straight.

Jon

I don't quite know where the term originated, but I can tell you
what it refers to. It's a slang term for the helical, rubber-covered,
flexible antennas used on many VHF and UHF portable radios.

See: http://jfkassassination.net/russ/jfkinfo/jfk8/sound1.htm

Near the bottom of the report, explains what the author found.
Most likely they were "narrow" 5 kHz FM or could have been
15 kHz FM modulation, many two way radio systems were converting
to "narrow" 5 kHz scheme about then from 15 kHz "wide band", so the
FCC could allocate more channels in the same "band".

>being a 'petitioner'? While we're on the subject, what does the FCC want
>with my SSN anyway?
>
Apparently you received your present license before the start of the
FCC's issuing FIN (Federal Identification Number) numbers. When you
fill out a Form 605 for a new license or a renewal, the SSN is
required as a Taxpayer ID, just as in your Form 1040 income tax form.
When your new license comes through, it will have a FIN number on it,
and you can use this in further upgrade or renewal applications
instead of the SSN.

BTW, I also am concerned with everyone and his brother requiring the
SSN as identification. It was formerly a federal law that the SSN
should not be used for ID purposes except by the Social Security
Administration or taxpayer ID. How it got so diluted, I have no idea,
but it makes it much easier nowadays for identity theft. Go figure.

I wonder if this would be the "Phoenix Radio Club" per chance ?

> if i didnt know any better, on emight think that my questiosn were
> being ignored...

Awww, Please dont cry ! I, 2E1TNT am here to help you.
an Ex Military operator, Capable of 25wpm after a 30 minute warm up :-)
also a member of the "Phoenix Radio Club"

But wait !....You say that you want to learn "more" about morse code !

Does this mean you already know some morse code ? How much do you know ?
5wpm perhaps ? or even 12wpm ?

I can teach you as much morse code as you like, BUT I can not teach you
to transmit at 25wpm. To do that you will have to stop whining on this NG
and spend the wasted time on PRACTICE PRACTICE PRACTICE.

Have a nice day.

Phil 2E1TNT

Thanks for the information. Deviation, whether 30, 15 or 5 khz, is not a issue since heterodynes produced by a modulated station with an unmodulated carrier would indicate what deviation they used. My concern lies with the report of IBM and others that provides convincing evidence of reception by a AM receiver. For details see:
http://www.members.aol.com/hdblenner/anotherlook.htm

You can find the complete IBM document at
http://www.jfk-online.com/acousibm04.html

Thanks again.

> is in the July issue - and I can only find June and August...

Yes, that is a wonderful way of storing back issues. I have a couple of
CDs burned so far with the MT Express issues I've downloaded. Very
handy indeed.

With QST, it's unfortunate that the League is so short-sighted on this
matter. They offer you the CD-ROM at a pretty high price, and then only
about six months after the end of the year. I would MUCH prefer it if
they would provide me the option of downloading each month's issue.

> I wonder if broadband prices will ever drop to dialup levels?
> Personally I have a very hard time justifying the (very) roughly
> $200/year difference.

SBC is offering DSL in their service areas for $29.95 per month for the
first year of service. That's not much higher than dial-up, considering
the leap in bandwidth. I don't know if that includes unlimited dial-up
while traveling, though. RoadRunner offers SOME of their subscribers a
princely 10 hours of dial-up, with additional dial-up time costing
something like $8 per hour. Since I travel somewhat frequently, the
dial-up issue is a biggie for me, so I opted for Earthlink when they
became available through my cable provider (Time-Warner). They offered
unlimited dial-up, so I'm covered when on the road, PLUS they are $3 per
month cheaper than RoadRunner. Unfortunately, they're also pretty
stingy when it comes to newsgroups, but that's another story.

> On the other hand, we may be fast approaching the point where the sum
> total of the malicious executable emails being spammed into our

Yeah, I know what you mean. I recently went on a trip to central Europe
for a couple of weeks. (Great trip, I'll tell you all about it if
you're interested but it's =way= OT otherwise.) I have a Yahoo! mailbox

that I paid extra to have expanded to 100Mb of storage plus POP3 access;
during that trip of about 12 days, that mailbox filled up to about 75%
of capacity before I got home (I'm on quite a few lists, Yahoo! Groups,
etc.). When the Sven worm hit, my mailbox filled to overflowing (101Mb)
in the space of a single weekend! If I get my hands on the <expletive
deleted> person who wrote that thing....

Don't sweat it. If this is the worst thing that happens to me this
year, I'm coming out way ahead! ;-)

I think we've lost the art of Elmer-ing that was such an advantage to
newcomers to the hobby in years past. That and the fact that the "new
recruits" are often exposed to the very worst that ham radio has to
offer by listening to some of the stuff that goes on daily on places
like the 'NUT repeater (the Animal House) here in Los Angeles, or on
14.313 MHz, or on some of the 80m freqs that you hear mentioned in the
rec.radio.amateur.policy newsgroup. Personally, if things like that
were my first exposure to ham radio, I think I would have taken up
needlepoint instead.... <sigh>

I was extremely fortunate in my case, as a very kind gentleman took me under his wing and showed me all the ins and outs as he trained me up for the Novice exam. Unfortunately, he died just days before my Novice ticket arrived in the mail, so we didn't get to share the excitement of my first QSO. I wish he'd been there, as it was on 40m CW and I was a nervous wreck by the time it was over -- I didn't know my hands could shake that much! <g> -- especially since I think he would have had just as much fun as I had during the course of that QSO. I still have the QSL card, too...!

Not too long ago, I had the singular privilege of chatting with a young man, probably in 6th grade, out in Temecula via the CLARA repeater on 2m. He just recently passed his Tech exam and has been experimenting with working the satellites with his dad. We talked for about 20 minutes during my drive home from work. Great kid, really well grounded (no pun intended). I sent him a QSL card, with thanks for a great QSO. Turned out it was the first card he'd ever received! I now have his -- a photo of him with a hand-held UHF yagi for satellites -- hanging in a place of honor in my shack, right along with my prized QSL from W6RO on the Queen Mary! I wish there were more like him these days....

Forgive my rambling. Thanks for listening. Hope to have the privilege of a live QSO with you sometime!

What happened was there was a batallion commander who wanted to get word
back to the families back home, via the press, about how honorably
Private <fill in the blank> was serving in Iraq. So he did up the form
letters and had the troops sign them before they were mailed back to the
States. He's been thumped pretty hard by the Army for doing it. Good
idea, and with the greatest and most honorable of intentions, but poorly
executed. <sigh>

I would ? Why ? The full RAE does not consist of Morse alone
but perhaps you are not licensed and dont know that.

Never assume anything !

There are respected members of two Amateur Radio Clubs here in the Medway Towns who know my Morse capabilities.

Surprising how a simple 2E1 Callsign can make brains tick :-)

Greetings,

Since the current larger sunspot group is making national news, it seemed like a good time to press this subject. In his ARLP040 Propagation de K7RA of Oct 3 Tad Cook said it far better than I could so will share his thoughts.

"
Grim news emerged recently concerning the NOAA Space Environment Center in Colorado, where most of the data for these bulletins originates. I suspect due to some misunderstanding about their work, the Senate Appropriations Committee wants to eliminate the Space Environment Center's budget for fiscal year 2004, which officially began October 1. The Senate Appropriations Committee said in a report that NOAA's work should only be terrestrial and not extend to space, so it's proposing to cut all funding for the SEC. The House appropriations bill proposes cutting funding by 40 percent, even in the wake of severe cuts during the fiscal year just ended.

The funny thing about the Senate report is that all of the effects of solar flares and sunspots that concern us are here on Earth. Claiming that NOAA should ignore the sun because it is in space seems silly, since the same standard doesn't apply to NOAA's conventional weather forecasting. The SEC is a small part of NOAA, with an annual budget of just 8 million dollars.

There's a story on this subject on the ARRL Web site (see ''Space Environment Center Funding in Jeopardy'' http://www.arrl.org/news/stories/2003/10/03/3/). The Seattle Post-Intelligencer ran a story in its October 2 editions http://seattlepi.nwsource.com/national/142217_space02.html, and there's an item on the September 20 SpaceWeather.com Web page, available in the archive for that date http://spaceweather.com/archive.php .

I've contacted my representatives in the Senate and House and found that, as expected, staff members really had no idea what the obscure sounding Space Environment Center does. The only hope is that when the House and Senate committees work out that portion of the budget, funding for the SEC will somehow be preserved. You might contact your representatives to inquire about this. Members of the Senate Appropriations Committee are listed on the committee's Web site http://appropriations.senate.gov/ .

"

I sincerely apologize for posting to 5 groups, but this subject is very
important and has not been seen, or I missed such, in any.

Regards,
Jim - KU5S

Need Help!

My Kenwood TS-140 display is so weak as to unreadable when used with 12vdc power.

Are there any adjustments that can be tweaked to brighten it up?

Why does this surprise you? Look at the way gobernment does bizness. Look at the FCC jumping up and down about PLC/BPL and too ignorant to understand the problem. Nuff said.

Dan/W4NTI

Totally unhelpful and irrelevant response. And you of course had to quoted
the entire message and also place your remarks at the bottom. :)

You'll be heads and shoulders ahead by building this instead. Steve's is
scalar, this one is true vector.

Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, K3GV, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, W8UVZ, WB8B, DL/VE3ZIK & contesting.info, DL1EK/DL7VOA & DX Newsletter, EA5BYP, EA7FTR, JI6KVR & JA-IOTA Islands News, MM0BQI and OE1WEU and for the following DX information.

** EDITOR'S SPECIAL NOTICE: This week's bulletin was sent out earlier than normal to accommodate the late CQWW DX SSB Contest announcements. Also, it will provide the readers with a consolidated listing of the CQWW DX SSB Contest participants.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Friday, 17th/October, through Thursday, 23rd/October there were 238 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4W, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9X, 9Y, A2, A3, A4, A6, A7, AP, BV, BY, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HC8, HH, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J7, JA, JD/o, JT, JW, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T30, T7, T9, TA, TF, TG, TI, TJ, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9C, VK9N, VK9X, VP2E, VP2M, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZK2, ZL, ZL8, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations. As always, you never know - "Work First Worry Later" (WFWL).

3XY, GUINEA. Operator Leo, UT1WL, will be active as 3XY1L during the CQ World Wide DX SSB Contest (October 25-26th) using low power. QSL via UY5XE.

8P6, BARBADOS. Dean, 8P6SH, will be active in the CQ World Wide DX SSB Contest (October 25-26th). Look for him to sign 8P6SH as a Single-Op/ Single Band (40m) entry and 8P2K as a Single-Op/Single Band (15m) entry. QSL both callsigns via KU9C.

C4, CYPRUS. Marios, 5B4WN, will be active as C4W during the CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/All Band/High Power entry. He will attempt to use the "Logbook of the World" (LoTW) after the contest.

D70, SOUTH KOREA. Operators DS3GLW, DS4NYE, HL3VQ, HL3AHQ, HL3AMO and HL3SEO will be active as D70LW in the CQ World Wide DX SSB Contest (October 25-26th) as a Multi-??? entry. QSL via HL3VQ.

DXCC NEWS. Wolfgang, OE1WEU, informs OPDX and readers that YI9OM QSLs are being rejected. Reason indicted: No Documentation Received.

EA8, CANARY ISLANDS. Well known DXer Martti Laine, OH2BH, will be active as EA8BH in the CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/Single Band (80m) entry. QSL via OH2BH.

EX, KYRGYZSTAN. Andy, UA3DPX, will be active as EX9A during the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/All Band/High Power entry. All QSOs in the log will be QSLed via the Bureau.

HC8, GALAPAGOS ISLANDS (Update). As mentioned in OPDX.631, Trey/N5KO and other operators (team not finalized) will be active as HC8N during the CQ World Wide DX CW Contest (November 29-30th) as a Multi-Multi entry. QSL via W5UE. Trey informs OPDX that he will arrive on the island on Sunday afternoon, November 23rd local time, and depart on the Monday morning after the CQWW CW Contest. Activity before the contest will be on 6/10/12/15/17/20/30/40/80/160 meters, mostly on SSB and CW.

IOTA NEWS.....
AS-049. Operators JA6PSE and JA6PSI will be active for about one week beginning of March 2004 from Tokara Arc in the Takara Islands (JIIA-049-012, WLH-0884). He will be on 160-10 meters CW and SSB. He might try some RTTY and PSK31. They will use the callsigns JA6PSE (for SSB and RTTY) and JA6PSI (CW only). QSL via home calls.

EU-156. Bruno, F5JYD, will be active as F5JYD/P from some of the Normandie Islands (for the DIFM), October 27-30th. Look for operations from Le Mont St. Michel (MA 005), Rimains Island (MA 006) and Landes Island (MA 034). Activity will be QRP with solar power energy. QSL via his home callsign.

NA-072. Mike/DL2OE and Will/DJ7AA will be active as HP1/homecall from Contadora Island now through October 29th. Activity will be on 160-6 meters (with special interest on the low

bands) CW/SSB/RTTY. QSL HP1/DL2OE via DL7CM and HP1/DJ7AA
via his homecall.

NCDXA 2004 OFFICERS. At the October meeting, the members of the National
Capitol DX Association elected the following officers to serve in 2004:
Dick Mayott, W2YE -- President
Terry Hines, N2ZH, -- Vice President
Brian Bayus, N1KC, -- Treasurer
George Vincent, K3GV -- Secretary

OH0, ALAND ISLAND. Toni, OH2UA (ex-OH2JTE), will be active as OH0B in
the CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/All
Band/High Power entry. QSL via OH2BH.

QSL INFO AND NEWS.....
Elmo, EA5BYP, reports that the logs for the 3C0V operation (modes
PSK31, RTTY and CW) are now available at: http://www.tabarca.es.mn
SSB contacts will be available in a few days. They continue processing
data.

Fran, EA7FTR, informs OPDX that he is now the NEW QSL Manager for
Billy, 6W1RD. QSL via EA7FTR.

Zik, DL/VE3ZIK (4N1DX), informs OPDX that the latest QSL info from the
CQWW DX SSB Contest will be published next Wednesday or Thursday at:
http://www.contesting.info

RW2, KALININGRAD. Members of the UA2 Contest Club will be active as
RW2F in the CQ World Wide DX SSB Contest (October 25-26th) as a Multi-2
entry. QSL via DK4VW.

SU9, EGYPT. Tom, N9NC, will be active as SU9NC in the CQ World Wide DX
SSB Contest (October 25-26th) as a Single-Op/All Band/Low Power entry.
QSL via OM2SA.

T30, WESTERN KIRIBATI. Vladimir, UA4WHX, is again active from the Pacific.
After being active from Fiji and Rotuma (3D2VB and 3D2VB/R), he is now
active from Western Kiribati with the callsign T30VB. Activity will be
on 40-10 meters CW/SSB. Over the last few days he has been very active
on 40 meters. There has also been QSNs reported on 30 and 20 meters. The
length of his stay is not known. QSL via UA4WHX.

TF3, ICELAND. Members of the IRA club will be active as TF3W during the
CQ World Wide DX SSB Contest (October 25-26th) as a Multi-Single entry.
QSL via TF3GB.

V73, MARSHALL ISLANDS. Brian, K9QQ, will be active as V73AZ during the
CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/All Band/
High Power entry. QSL via K9JS.

V73 MARSHALL ISLANDS. Neil, V73NS, is still active from Kwajalein Atoll
(OC-028). Most of his operating time is between 1700-1840z and from
0300-0500z. You will find him working only CW on all bands except 20
meters and 160 meters. He has spent most of his previous operating time

on 20 meters but is now trying to spread the QSOs out more across the other bands. He plans on being active on 160 meters in late November and is also getting more active on 6 meters from grid RJ-39. QSL is direct (S.A.S.E. only): Neil Schwanitz, BOX 8341 APO, AP 96557 (USA).

VP9, BERMUDA (Update). Bill/N1HRA, Matt/WE1H, Foster/N3KCJ and Joe/K1JN will be active from October 23-28th and will take part in the CQWW DX SSB Contest as VP9I. Outside of the contest, they will be active on 160-6 meters as homecall/VP9. QSL to homecall outside of the contest and to K1JN for VP9I QSOs. Please do not use the VP9 bureau.

XQ6, CHILE. George, W8UVZ, informs OPDX that Bob, XQ6ET, has been mostly inactive for several weeks now with rig problems. A replacement radio is on its way to Chile but not expected to arrive for at least 4 weeks. A reminder that QSLs for XQ6ET are done only DIRECT to W8UVZ. Bureau cards are being received but cannot be processed.

---
The following stations are expected to be active in the
CQ World Wide DX SSB Contest (October 25-26th, 2003)
---
Thanks to Bill, NG3K, for providing OPDX readers the following consolidated listing of the participants in the 2003 CQWW SSB Contest. For a more detailed listing in HTML format, please visit the Web page at:

The Ohio/Penn DX PacketCluster
DX Bulletin No. 632
BID: $OPDX.632
October 27, 2003
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, K3GV, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, W8UVZ, WB8B, DL/VE3ZIK & contesting.info, DL1EK/DL7VOA & DX Newsletter, EA5BYP, EA7FTR, JI6KVR & JA-IOTA Islands News, MM0BQI and OE1WEU and for the following DX information.

** EDITOR'S SPECIAL NOTICE: This week's bulletin was sent out earlier than normal to accommodate the late CQWW DX SSB Contest announcements. Also, it will provide the readers with a consolidated listing of the CQWW DX SSB Contest participants.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Friday, 17th/October, through Thursday, 23rd/October there were 238 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4W, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9X, 9Y, A2, A3, A4, A6, A7, AP, BV, BY, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HC8, HH, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J7, JA, JD/o, JT, JW, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T30, T7, T9, TA, TF, TG, TI, TJ, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9C, VK9N, VK9X, VP2E, VP2M, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZK2, ZL, ZL8, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations. As always, you never know - "Work First Worry Later" (WFWL).

3XY, GUINEA. Operator Leo, UT1WL, will be active as 3XY1L during the CQ World Wide DX SSB Contest (October 25-26th) using low power. QSL via UY5XE.

8P6, BARBADOS. Dean, 8P6SH, will be active in the CQ World Wide DX SSB Contest (October 25-26th). Look for him to sign 8P6SH as a Single-Op/ Single Band (40m) entry and 8P2K as a Single-Op/Single Band (15m) entry. QSL both callsigns via KU9C.

C4, CYPRUS. Marios, 5B4WN, will be active as C4W during the CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/All Band/High Power entry. He will attempt to use the "Logbook of the World" (LoTW) after the contest.

D70, SOUTH KOREA. Operators DS3GLW, DS4NYE, HL3VQ, HL3AHQ, HL3AMO and HL3SEO will be active as D70LW in the CQ World Wide DX SSB Contest (October 25-26th) as a Multi-??? entry. QSL via HL3VQ.

DXCC NEWS. Wolfgang, OE1WEU, informs OPDX and readers that YI9OM QSLs are being rejected. Reason indicted: No Documentation Received.

EA8, CANARY ISLANDS. Well known DXer Martti Laine, OH2BH, will be active as EA8BH in the CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/Single Band (80m) entry. QSL via OH2BH.

EX, KYRGYZSTAN. Andy, UA3DPX, will be active as EX9A during the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/All Band/High Power entry. All QSOs in the log will be QSLed via the Bureau.

HC8, GALAPAGOS ISLANDS (Update). As mentioned in OPDX.631, Trey/N5KO and other operators (team not finalized) will be active as HC8N during the CQ World Wide DX CW Contest (November 29-30th) as a Multi-Multi entry. QSL via W5UE. Trey informs OPDX that he will arrive on the island on Sunday afternoon, November 23rd local time, and depart on the Monday morning after the CQWW CW Contest. Activity before the contest will be on 6/10/12/15/17/20/30/40/80/160 meters, mostly on SSB and CW.

IOTA NEWS.....
AS-049. Operators JA6PSE and JA6PSI will be active for about one week beginning of March 2004 from Tokara Arc in the Takara Islands (JIIA-049-012, WLH-0884). He will be on 160-10 meters CW and SSB. He might try some RTTY and PSK31. They will use the callsigns JA6PSE (for SSB and RTTY) and JA6PSI (CW only). QSL via home calls.

EU-156. Bruno, F5JYD, will be active as F5JYD/P from some of the Normandie Islands (for the DIFM), October 27-30th. Look for operations from Le Mont St. Michel (MA 005), Rimains Island (MA 006) and Landes Island (MA 034). Activity will be QRP with solar power energy. QSL via his home callsign.

NA-072. Mike/DL2OE and Will/DJ7AA will be active as HP1/homecall from Contadora Island now through October 29th. Activity will be on 160-6 meters (with special interest on the low

bands) CW/SSB/RTTY. QSL HP1/DL2OE via DL7CM and HP1/DJ7AA
via his homecall.

NCDXA 2004 OFFICERS. At the October meeting, the members of the National Capitol DX Association elected the following officers to serve in 2004:
Dick Mayott, W2YE -- President
Terry Hines, N2ZH, -- Vice President
Brian Bayus, N1KC, -- Treasurer
George Vincent, K3GV -- Secretary

OH0, ALAND ISLAND. Toni, OH2UA (ex-OH2JTE), will be active as OH0B in the CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/All Band/High Power entry. QSL via OH2BH.

QSL INFO AND NEWS.....
Elmo, EA5BYP, reports that the logs for the 3C0V operation (modes PSK31, RTTY and CW) are now available at: http://www.tabarca.es.mn SSB contacts will be available in a few days. They continue processing data.

Fran, EA7FTR, informs OPDX that he is now the NEW QSL Manager for Billy, 6W1RD. QSL via EA7FTR.

Zik, DL/VE3ZIK (4N1DX), informs OPDX that the latest QSL info from the CQWW DX SSB Contest will be published next Wednesday or Thursday at: http://www.contesting.info

RW2, KALININGRAD. Members of the UA2 Contest Club will be active as RW2F in the CQ World Wide DX SSB Contest (October 25-26th) as a Multi-2 entry. QSL via DK4VW.

SU9, EGYPT. Tom, N9NC, will be active as SU9NC in the CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/All Band/Low Power entry. QSL via OM2SA.

T30, WESTERN KIRIBATI. Vladimir, UA4WHX, is again active from the Pacific. After being active from Fiji and Rotuma (3D2VB and 3D2VB/R), he is now active from Western Kiribati with the callsign T30VB. Activity will be on 40-10 meters CW/SSB. Over the last few days he has been very active on 40 meters. There has also been QSNs reported on 30 and 20 meters. The length of his stay is not known. QSL via UA4WHX.

TF3, ICELAND. Members of the IRA club will be active as TF3W during the CQ World Wide DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL via TF3GB.

V73, MARSHALL ISLANDS. Brian, K9QQ, will be active as V73AZ during the CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/All Band/ High Power entry. QSL via K9JS.

V73 MARSHALL ISLANDS. Neil, V73NS, is still active from Kwajalein Atoll (OC-028). Most of his operating time is between 1700-1840z and from 0300-0500z. You will find him working only CW on all bands except 20 meters and 160 meters. He has spent most of his previous operating time

on 20 meters but is now trying to spread the QSOs out more across the other bands. He plans on being active on 160 meters in late November and is also getting more active on 6 meters from grid RJ-39. QSL is direct (S.A.S.E. only): Neil Schwanitz, BOX 8341 APO, AP 96557 (USA).

VP9, BERMUDA (Update). Bill/N1HRA, Matt/WE1H, Foster/N3KCJ and Joe/K1JN will be active from October 23-28th and will take part in the CQWW DX SSB Contest as VP9I. Outside of the contest, they will be active on 160-6 meters as homecall/VP9. QSL to homecall outside of the contest and to K1JN for VP9I QSOs. Please do not use the VP9 bureau.

XQ6, CHILE. George, W8UVZ, informs OPDX that Bob, XQ6ET, has been mostly inactive for several weeks now with rig problems. A replacement radio is on its way to Chile but not expected to arrive for at least 4 weeks. A reminder that QSLs for XQ6ET are done only DIRECT to W8UVZ. Bureau cards are being received but cannot be processed.

---
The following stations are expected to be active in the
CQ World Wide DX SSB Contest (October 25-26th, 2003)
---
Thanks to Bill, NG3K, for providing OPDX readers the following consolidated listing of the participants in the 2003 CQWW SSB Contest. For a more detailed listing in HTML format, please visit the Web page at:

"LARDASS Lloyd" <Tiny@tennamine.net> wrote:

That "tiny 'tenna" match the "tiny 'tenna" between your obese legs? Is that why at 30 years old you're still a VIRGIN, LARDASS?

>
> BZZZZZZT! Wrong again Roger!

BZZZT!! RIGHT again, LARDASS! You couldn't hack a degree program in that community college and all you could get is a "certificate in computer operations," LARDASS.

> (whining)

>see the humor.

It's hard to see what ISN'T there to begin with.

You have yet to post ANYTHING humorous or relevant. In fact, if you were coached by the late Bob Hope or any of the comedy greats, you couldn't be funny (except your appearance is funny, unintentional for sure, or is it) in a million years.

>(Pot Kettle black)

And you still can't pass a simple 5 wpm code or theory test.

> Errrr, where did you say
> you earned that Master's Degree in engineering again Wogie?

I NEVER said I had a Master's degree in Engineering, DUMBFUCK. Please post where I claimed to have one. Or are you admitting your piss-poor reading comprehension skills are showing again?

(Here's a clue: I DO have credits towards a Master's, and might finish it up someday, I don't need many TO finish it up, and the Major isn't in Engineering.)

Remove your club foot from your mouth and try again, LARDASS.

> Dan/W4NTI

Correct Dan. Bush has 87 BILLION to dump into
the re-building of Iraq (a country who's people would
stab us in the back the minute it's turned..) and yet cuts
the budgets of the VA Hospital, Medicare, Roads and
Public Works and other domestic programs.

No....He want's to give those oil rich sandniggers 87 Billion
at NO LOAN. (more like a bribe for them to behave)

Watch and see as Bush "Act II popcorn man" becomes
a one-term President. He's making the same mistakes
as his daddy did in 92 and the Democrats will eat him
and the GOP alive in 04. Clinton may have been a
pot smoking womanizer, but the checks still came thru
every Friday and more people were working when he
was running the show in the O. Office.

In the end Iraq will go the way of Iran, watch it in 5 Years.

Dick,

A simple straightforward challenge for you (and the rest of rrap).

During the 30 hours starting at 2100Z on Nov 1st, 2003 I will be
practicing Morsodism on the HF bands in the ARRL SS Radiosport event.
Keep up with me if you can.

May the Peace of St. Morse shower down upon thee in abundance,

de Hans, K0HB

Wouldn't surprise me a bit. I thought from the git-go that Iraq would turn
into a quagmire. Unfortunatly for those fighting the fight, it is serving a
purpose. It is keeping the ragheads 'occupied'. And its not in Boise
Idaho.

As for your political commentary. As far as I'm concerned the Democratic party left me when they turned it over to NOW and Phyliss.

That does NOT mean I support Baby Bush 100%. However lets see how things go.

Which best describes Roger Wiseman?
1. He is a "rat-packer".
2. He is a "brat-backer".
3. He is a Fudge Packer.

If you were to describe Wiseman's personality to someone who has never met him, would you say Roger is:
1. An anal aperture.
2. A rectal cavity.
3. An asshole.

If you were to describe Roger's facial features would you say he resembles:
1. Don Knotts on speed.
2. Janet Reno
3. A hat full of assholes.

Thanks for all your comments, Steve. In recent years I've taught and helped out with several Tech-plus classes. Enjoy seeing the enthusiasm of the young people. Unfortunately, computers and the internet have grabbed away a lot of potential hams, and many of the new-license candidates are retirees who were interested in ham radio back when they were young, but never got the license. When the dx isn't around or I feel a bit lazy at night, I crank the code speed way down and go cq'ing where the remaining Novices and a lot of tech plus folks hang out. I usually send out an unsolicited QSL after a contact to the hams who sounds like they are just getting started. On voice, I don't "correct" those using CB jargon, but do try to set a good example. However, there was the old "Turkey Net" in Florida where non-conformist protocol was standard; a lot of joking around, but we didn't interfere with anyone and violated no rules.
73, Andy

Notice how LARDASS Lloyd the eternal no-code technician couldn't demonstrate calculating it either.

I've already proven you can't calculate RMS voltage, LARDASS.....
Or are you still maintaining the Question pool questions are wrong? <guffaw>

Here's what always makes you shove that club foot in your mouth, which you never seem to answer when I post it:

RMS of a 340 volt peak-to-peak pure sine wave is calculated as follows:

340V peak to peak /2= 170V peak
170 V peak * 0.707 = approximately 120 V AC, RMS.

Your "negative SWR theory" is just your clumsy way of talking about feedline loss, which is figured by decibel loss using the formula:

LOSS(dB)= -10 log ((SWR-1)-(SWR+1))

Example: IF the SWR measured 3:1, what is the feedline loss?

-10 log ((3-1)/(3=1))= 3dB

But since you have that CHEAP-ASS K-mart bought caculator, you are just so jealous of people that can really do the math.
In parting, it is a coincidence that the 3:1 SWR indicates a loss of 3dB loss. If the SWR measures more than 3:1, then the loss is less than 3dB on the feedline. If the SWR measures less then 3:1, then the loss is more han 3 dB.

And do you even know what a Smith chart is?

Would you like some salt and pepper for that foot in your mouth?

How odd. If you consider everything which is inside of the outer
parentheses of your formula, it can be restated as "SWR - SWR - 1 - 1"

That, of course, works out to be -2, and your so-called loss formula
tells us to always take the log to the base ten of -2 and to ignore
the SWR!

But then there is the little problem that the log of a negative number
is undefined! To what power do you raise 10 to get -2?

[I know: Woger's calculator shows -E- when he takes log(-2), so it is
E, right?)

: ...
: Would you like some salt and pepper for that foot in your mouth?

Heh. Too easy a shot. I'm passing it up.

Correction. The DJ-C5T is the dual bander with internal speaker. I have one
and like it alot.
The DJ-C1 is the 2m model with no internal speaker.
The DJ-C4 is the 440 model with no internal speaker.
The DJ-X2 is the wideband reciever with internal speaker.

Do people REALLY still check into the Liberty Net ???????

Jeeze I thought those old right wing mega-farting
gasbags would have all died off by now of morbid
obesity related health complications (too many Big
Macs) by now.

Don't tell me I have to fire up the ole R-71A tonight!
Are they still on 3850 or wherever it was?

RADIO LAW: FCC COMMITTEE TO GET READY FOR WRC-07

The ink has yet to complely dry on the agreements reached ar WRC-03 as the FCC begins getting ready for the next World Radiocommunication Conference in 2007. As part of the preparations FCC Chairman Michael Powell has announced the appointment of Nancy Victory as Chair, and Peter Hadinger as Vice-Chair of the agency’s WRC-07 Advisory Committee. Amateur Radio Newsline’s Bruce Tennant, K6PZW, is here with has some background on each of the appointees:

--

Nancy Victory is the former Assistant Secretary of Commerce for Communications and Information and the former Administrator of the National Telecommunications and Information Administration. Prior to her appointment to the Department of Commerce, Ms. Victory was a partner in the Washington law firm of Wiley, Rein and Fielding, where she focused on legal and regulatory issues faced by communications companies.

Peter Hadinger is Director of Communications Initiatives for Northrop Grumman’s Space Technology Sector. Mr. Hadinger has taken industry leadership roles on global satellite issues, including privatization, protection and spectrum allocation. He is past Chairman of the Satellite Industry Association and current vice- chair of the Satellite Task Force in the President’s National Security Telecommunications Advisory Committee.

Also getting an appointment is Alex Roytblat who is Assistant Chief of the Strategic Analysis and Negotiations Division of the FCC’s International Bureau. He will direct the Commission's WRC- 07 preparatory activities and serve as the Designated Federal Official to the Advisory Committee. Roytblat directed the Commission’s preparatory activities for last June’s 2003 World Radiocommunication Conference held in Geneva.

For the Amateur Radio Newsline, I’m Bruce Tennant, K6PZW, reporting.

--

The Advisory Committee will be tasked with providing advice and technical analyses of the nations telecommunications needs. It will also make specific recommendations on matters relating to that conference. (FCC Release)

TALKING ON THE AIR: BIG SUNSPOT ACTIVITY MAY HAMPER YOUR QSO'S

If you are wondering why you may not be able to make contact on your favorite band, the answer is right out there in space. According to propagation reports from the Space Environment Center, a solar storm, centered around Sunspot number 484, has grown into the biggest in recorded history. And a solar storm with a sunspot that size can easily impact on radio propagation here on Earth.

Sunspot 484 is reportedly about the size of the planet Jupiter, and forecasters say that another big sunspot could soon appear near the sun's southeastern limb. The active region is not yet directly visible, but the Solar and Heliospheric Observatory satellite has seen material being blasted over the sun's limb from the approaching spot. Major eruptions are possible from these active regions as they rotate across the face of the sun over the next two weeks.

Also this word of caution. Never, never look directly at the sun. While these sunspots are easy to see its also very dangerous to try. Unprotected eyes can suffer severe and perminant damage from looking directly at the sun. Instead, as we have said before, visit www.spaceweather.com for safe solar observing tips. (ASWLC)

**

RADIO POLITICS: NOAA SPACE WEATHER SERVICE THREATENED

Solar propagation reports like this one could soon disappear. CQ Magazine's news service reports that the service on which many amateurs depend for reports on ionospheric conditions may have its funding sharply cut or eliminated under two versions of a Congressional spending plan for Fiscal Year 2004.

The Space Environment Center, part of the Commerce Department's National Oceanic and Atmospheric Administration, provides space weather reports on solar and geomagnetic activity that affect the ionosphere, which in turn affects radio propagation. In addition, the bureau monitors solar flares and similar events that can damage satellites. This gives advance knowledge that can help protect them. And for radio amateurs, the propagation predictions in C-Q and other publications depend on these space weather observations.

The Space Environment Center is actually operated jointly by NOAA and the Air Force, but its funding is in the NOAA budget. It suffered a 40% budget cut in the current fiscal year. The House budget proposal for 2004 calls for an additional 40% cut. But the nail that could close the coffin lid is in the Senate. That version of the bill cuts funding for the Space Environment Center altogether. The Senate says that such activities are rightly the domain of the National Aeronautics and Space Administration and the Air Force.

According to an e-mail from C-Q, the House Science Committee's Environment, Technology and Standards Subcommittee will be holding a hearing October 30th on

this funding bill. C-Q says that any letters and comments from the public will be entered into the record. If you are concerned about the possible loss of information gathered and disseminated by the Space Environment Center, you may write to the House Committee on Science, Environment, Technology and Standards Subcommittee, 2320 Rayburn House Office Building, Washington, DC 20515. (CQ News Release, W2VU)

**

HAM RADIO IN SPACE: NEW ALL-HAM CREW ARRIVES AT ISS

A new three man all ham crew has reached the International Space Station, but only two of the new arrivals will remain on-orbit the next several months.

Called the Expedition 8 crew, the commander is NASA Astronaut Mike Foale, KB5UAC. He is accompanied on the I-S-S by Russian Cosmonaut Alexander Kaleri, U8MIR, and the Europen Space Agency's Pedro Duque, KC5RGG. All three arrived at the ISS on October 20th on board a Russian Soyuz transport vehicle.

Foale and Kaleri will repace Expedition 7 crew members Commander Yuri Malenchenko, RK3DUP and NASA Science Officer Ed Lu, KC5WKJ. Duque, who's flying under a contract between the Russian and Europen space agencies and will spend the week in space before returning to Earth with the Expedition 7 crew.

KB5UAC and U8MIR hope to be active on the ISS ham radio station as time permits during their stint in space. We will have other ham radio in spaced news later on in this weeks report. (AMSAT, published news reports)

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world W4GSO Greensboro Amateur Radio Club repeater serving Greensboro North Carolina.

(5 sec pause here)

**

ENFORCEMENT: HAM CHARGED IN AIRLINER CASE

A 20 year old ham radio operator and college junior has been charged with breaching airport security. The FBI says that Nathaniel Heatwole, WZ3AR, has admitted to planting box cutters, bleach and matches on two airliners. Amateur Radio Newsline's Paul Courson, WA3VJB, gives us a profile of Heatwole and his involvement in the hobby:

--

If you're a contester, you may have worked WZ3AR, licensed to Damascus Maryland, a suburb of Washington DC. In research for Newsline, a profile of a fairly ordinary young ham radio operator has emerged.

His listing on QRZ.com shows a willingness to QSL both to short-wave listeners and the amateur community alike. The Advanced Class licensee appears to have been primarily active on HF, in the specialty of contesting.

In August of this year he won a thousand dollar scholarship from the Foundation for Amateur Radio, a coalition of radio clubs in the area around Maryland, DC and Virginia. In a club newsletter, he was shown as headed into his 4th year at Guilford College in North Carolina, pursuing a double major of Physics and Political Science.

His former call is KB3CBW, and an internet search has found a snapshot of a young man closely resembling who now is a 20 year old seen in television footage and accused of trying to breach airline security. As KB3CBW, he is listed several times with photos a Dayton Hamvention, 1999 gallery.

His call sign also turns up on a contest log dupesheet for Field Day 1999 on 40 meters phone, and in other contests including a Maryland-DC QSO party. On a contest e-mail reflector, someone signing that name and call sign is asking questions about the beverage antenna, and how he plans to buy a better contesting radio than his Kenwood TS-140S, that the person was using as of the posting dated 1999.

By Feburary 2000, the former KB3CBW was turning up as WZ3AR on the webpage minutes of the Potomac Valley Amateur Radio club, which serves the same area as his licensed station location in Maryland.

This call sign also shows up in various contest logs, including an Islands on the Airwaves event and Field Day. WZ3AR was shown in 2001 as operating from Virginia's Chincoteague Island on 15 meters sideband. One message thread refers to a June 2001 issue of CQ magazine, and an article on keeping a footswitch from sliding around.

There was other advice.

In a contest discussion board, someone signing those call letters rejected the practice among certain hams of tape recording contest activity to later enter the information in a competitive logbook. The posted message said such a practice raises ethical questions, and that he advised against doing so.

The New York Times has quoted friends as saying he has offered strong pacifist views and is highly principled.

For now, he is charged with carrying a concealed dangerous weapon aboard jetliners, reportedly as a test of airline security and to demonstrate his alleged protest to perceived flaws in that security.

In Weashington, Paul Courson, WA3VJB, for Newsline.

--

After a court appearance Monday, October 20th, Heatwole, a junior at Guilford College in Greensboro, N.C., was released without bail for a preliminary hearing slated for November 10th. If tried and convicted, he faces a hefty fine and up to 10 years in a Federal prison. (ARNewsline(tm), published news reports)

**

ENFORCEMENT: FCC TAKES MORE ACTION AGAINST EX-KG6IRO

A follow-up to last weeks story regarding Jack Gerritsen, the ex-KG6IRO. The FCC has now taken action against another one of his licenses and again warned him to stay off the air. Bill Pasternak, WA6ITF, has more:

--

FCC Special Councel Riley Hollingsworth has written to tell Jack Gerritsen of Bell California that the Commission's Wireless Telecommunications Bureau has acted to set aside Gerritsen's General Mobile Radio Service or G-M-R-S license. This, pursuant to Section 1.113 of the Commission's rules.

The action by to set aside Gerritsen's G-M-R-S license took place on October 14th. Hollingsworth's letter says the action is based on Gerritsen's alleged continued unlicensed operations and complaints of deliberate interference from transmitters the FCC says that he operates.

Hollingsworth letter tells Gerritsen that his G-M-R-S application has reverted to pending status. Also, that it will be made a part of a forthcoming hearing to determine if the former radio amateur is qualified to hold any Commission licenses. This is the same type of hearing that Gerritsen's ham radio ticket currently faces.

Hollingsworth letter again warns Gerritsen that he has no authority to operate radio transmitting equipment. If he continues, Gerritsen could face both to monetary penalties and imprisonment. Hollingsworth also suggested that Gerritsen consult an attorney in this matter.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF, in Los Angeles.

--

Meantime, the number of Los Angeles ares repeater owner operators that claim Gerritsen is interfereing with their systems continues to grow. For the moment, they and their control operators continue to turn repeaters off whenever the station claiming to be KG6IRO attempts to make a transmission over one. (FCC, ARNewsline(tm))

**

ENFORCEMENT: UNAUTHORIZED OPERATION LEADS TO LICENSE TURN-IN

Meantime, a ham has surrendered his license to the FCC after it was found that he caused problems for police radio operations. The FCC's Daryl Duckworth, NN0W, has the rest of the story:

--

Duckworth: "In March, the Enforcement Bureau notified Justin Whaley, KC9DCP, Columbia City, Indiana, that close-in proximity direction finding indicated that on numerous occasions between January 2nd and March 13th he interfered with the operation of the Columbia City Police Department radio system. In order to resolve this matter, he has agreed to relinquish his license until

March 28th of 2005 and agreed not to maintain or operate an Amateur station.

--

Whaley was requested to return his Amateur Service license to the FCC. (FCC)

**

ENFORCEMENT: FCC: STAY OF THE W6RHC REPEATER

A ham who refused to stay off a repeater after being told to vacate by the licensee has now received a notice to comply from the FCC. Again, the FCC's Daryl Duckworth, NN0W:

--

Duckworth: "A warning notice has been sent to Scott Rogers, K6EVP, of Paradise, California, for failing to refrain from using the W6RHC repeater ass requsted both verbally and in writing by the trustee of the Golden Empire Amateur Radio Society. The letter was isssued as a result of his failure, verified by the Office of Emergency Services of Butte County California, to follow operational rules set forth by the licensee and control operators of the repeater system for its users."

--

The letter went on to say that the FCC expects Rogers to abide by the request to stay off the W6RHC system and any other such request by a repeater licensee, control operator or trustee. If he uses the repeater again after receipt of the FCC warning letter, the agency says that it will initiate enforcement action against Rogers license. (FCC)

**

ENFORCEMENT NEEDED: PHONY TEXT MESSAGE TO CA CELL PHONE USERS

Bakersfield California area cellular telephone would probably welcome some FCC enforcement action. This, after they were awakened early Tuesday morning, October 21st to a phony text message.

According to news reports, someone managed to hack the areas wireless communications' system. The hacker then posted a message urging cell phone users to support a strike by many of the states grocery workers now in its second week.

The United Food and Commercial Workers Union denies responsibility for the message. A spokeswoman for the wireless service providers says that she does not know how it happened. She says that that wireless providers have no position on the strike. The sender of the message remains unknown. (Published news report)

**

RESCUE RADIO: MONTANNA HAMS GET BIG THANK-YOU

Amateur Radio's role in last summers Montana's forest fires haave received official recognition. This, when the US Forest Service and Helena area organizations hosted an appreciation picnic for all the voluntees who put themselves on the line to assist fighting the blaze.

According to the ARRL Letter, the event honored the firefighters, law enforcement officers and community volunteers who assisted with firefighting efforts in Lewis and Clark, Powell, Jefferson, and Broadwater counties. This included a number of radio amateurs who volunteered their time and gear.

Among those recognized were Jim Haslip, W7CK, and Rollie Fisher, KC7WBP. Haslip has been an aerial fire spotter for 40 summers. Fisher set up at Lincoln's Hooper Park every day during the fires, providing current information to residents and visitors. He and his wife were among the many families forced to evacuate their homes because of the fire danger.

Amateur Radio's support of Red Cross and other relief agencies during the fire emergency also received recognition. Lewis and Clark County Emergency Coordinator Bob Solomon, K7HLN, accepted a plaque on behalf of the Amateur Radio Emergency Service and the Capital City Amateur Radio Club.

An estimated 300 people turned out for the event at the Lewis and Clark Fairgrounds in Helena. (ARRL)

**

PROMOTING THE HOBBY: JOTA VIDEO NEEDED

If you took part in last weekends scouting Jamboree on the Air, and have some good quality videotape of the event, the people who produce most of the ham radio documentaries want to hear from you. As reported two weeks ago, Dave Bell, W6AQ, Alan Kaul, W6RCL and Bill Pasternak, WA6ITF, are always looking for good video of ham radio happenings that they might be able to incorporate into a presentation about the hobby. As scouting and ham radio enjoy a very unique relationship, this is an event that is sure to make it into one of their shows, but only if they have the pictures and sound. If you have video that you want to share, please e-mail the production team to hamvideo@juno.com and let them know what you have. They will get back to you with information on where to send it. Again that e-mail address is hamvideo@juno.com (The Producers)

**

BREAK 2

This is ham radio news for today’s radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

HAM GATHERINGS: RSGB INTERNATIONAL HF AT MONTHS END

Turning to the ham radio social scene, if you plan to be in the United Kingdom from October 31st to November 2nd. listen up. Thats the weekend of the Radio Society of Great Britain's International High Frequency and Islands on the Air Convention.

This years venue is the Britannia Country House Hotel at Didsbury in Manchester England. Planned events include presentations on DXpeditions, technical lectures, presentation of trophies and awards, a contesting forum, and specialist areas for 5 MHz, 136 kHz, 6 meters and Q-R-P. More information is on-line at the RSGB website Its in cybespace at www.rsgb.org (RSGB)

**

HAM GATHERINGS: HANDIHAMS IN CALIFORNIA IN MARCH 2004

Back on this side of the Atlantic, word that the HandiHams will hold their 2004 California Radio Camp in Malibu California begining on Monday, March 1st, and continuing to Sunday, March 7th. Tuition breaks will be provided for beginners from Western states working on a first license or on a General, and for early bird registrations. An Operating Skills course will also be offered along with opportunities for learning about blind computing with JAWS, public service communications, and lots of getting on the air!. Also, an open ham radio test session will take place on Saturday March 6.

The camp is open to HandiHam members with disabilities. Organizers provide all food, lodging, ham radio classes, and fun activities for the week long outing. To request an application or more information call the HandiHams toll free at 866-426-3442 toll-free or e-mail the group to hamradio@courage.org (HandiHams)

**

NEWSLINE: NO MORE FAX

If you have been trying to send Amateur Radio Newsline a fax the past week then you notice that our machine is not picking up. The reason -- its been taken off line due to our inability to get unsolicted fax spammers to stop sending us unwanted advertising.

Even though it is a violation of federal law to send an unsolicited fax advertisement, that has not stopped the fax spammers. They make their living by sending out this unwanted electronic junk mail. And while much the same as the junk e-mail we all get, the big difference is that unsolicited faxes waste print cartreges and paper. And that costs Amateur Radio Newsline money that we just cannot afford to waste.

After spending the past year trying to get these nuisances to stop -- including an official complaint to the FCC, we have given up. If you need to send us a fax, you will first have to call us or e-mail us to arrange for us to turn the machine on. Otherwise, the fax is gone until the federal government acts to put the spam fax mailing companies out of business. (ARNewsline(tm))

**

EMERGING TECHNOLOGY: BALLOON DELIVERED RADIO

Turning to the emerging technology page, it now looks as if balloon delivered radios could bring new sound to North Korean residents. This, if a preacher gets his way.

Revrend Douglas Shin wants to help liberate North Korea by delivering radio recievers by balloon. Shin's idea is to have helium filled balloons would carry radios acrosss the Demiliterized Zone into North Korea. An automatic valve would let the gas out slowly so the balloons touch down softly without damage to the payload. Once retrieved by the people in North Korea, they would only have to turn them on and listen.

Shin says that he plans to launch his balloons from South Korea or ships off shore. Included aliong with each radio will be prayer material and a North Korean bank note. The latter is worth about one U-S Dollar. (Published news report)

**

HAM RADIO IN SPACE: THE AMSAT VOLUNTEER SURVEY

AMSAT North America says that it has developed an on-line volunteer survey designed to identify the interests and skills of those who may be available to directly help in efforts to develop the amateur satellite program. The survey is designed to be completed and returned on-line, and takes only a few minutes to fill out. To request the survey, simply send an e-mail request to volunteer@amsat.org. (ANS)

**

SPECIAL EVENTS: REMEMBERING THE EDMUND FITZGERALD

Turning to operating news, members of the Stu Rockers group will be on the air from Whitefish Point and Paradise, Michigan on November 7th , 8th, and 9th about 10. This, for an event called `Remembering the Edmund Fitzgerald.'

2003 marks the 7th year that the Stu Rockafellow Amateur Society has sponsored a special event in remembrance of the famed ship and her crew. Look for the call N8F on 40 through 10 meters and QSL to Richard Barker, W8VS, 264 N. East St., Brighton, Mi. 48116 (W9RIF)

**

SPECIAL EVENTS: REMEMBERING VETERANS DAY ON THE AIR

Also, in recognition of both Veterans Day and the birth of the late General Curtis LeMay, W6EZV, the Strategic Air Command Memorial Amateur Radio Club will be operating stations K0AIR and K0GRL. This, on Tuesday, November 11th from 1200 hours to 2400 hours Zulu.

According to Darwin Piatt, W9HZC, the stations will take top the air in the general phone bands on or near frequencies ending in the numerals 47. Piatt says that his is in recognition of the year 1947 when the Air Force became a single entity. He says to QSL K0AIR and K0HRL to the Strategic Air Command Memorial Amateur Radio Club, P.O. Box 1292 Bellevue, Nebraska, 68005. (Via e-mail)

**

ON THE AIR: THE SOUTHEASTERN 6 METER NET

And Jim Worsham, W4KXY would like to remind everyone of the Southeastern 6 Meter Net which meets on Sunday nights at 9 PM eastern time on 50.145 Mhz SSB. The net control is usually Jim who lives in grid square EM84ab. If anyone has any questions about the net they can contact Jim directly. His e-mail is w4kxy@bellsouth.net (VHF Reflector)

**

PROPAGATION AIDS: TRANSATLANTIC BEACON IN PLANNING

The Marconi Radio Club of St. Johns, Newfoundland and the Caccalieu Amateur Radio Club of Carbonear are currently working to put a new 2 meter transatlantic beacon on the air. According to information from the Irish Radio Transmitting Society, the proposed beacon will operate on 144.4 MHz with power output of 250 Watts into an 11 element Yagi. It will be sited at about 90 meters above sea level.

**

DX

In D-X, At least five special event stations are on the air from Poland through the end of October to celebrate Pope John Paul the Second's Silver Jubilee. Keep an ear open for HF8JP; SN25JP, SR25JP, SO25JP and HF25JP. If you make contact QSL as directed on the air. (Via e-mail)

And ten German operators and their guests from other countries will be operating from Liechtenstein through the 31st of October. Keep an ear open for the call HB0/HB9AON using SSB, CW, PSK and RTTY on all of the HF bands. (RSGB)

**

THAT FINAL ITEM: MEASURING THE SPEED OF GRAVITY

And finally this week, it appears as if Albert Einstein was right. Amateur Radio Newsline’s Mert Garlick, N6AWE, tells us about what:

--
The great Albert Einstein was correct when he said that the speed of gravity matches the speed of light. This, according to astronomers who took advantage of a rare planetary alignment to survey the relationship of these two fundamental forces of nature.

Edward B. Fomalout of the National Radio Astronomy Observatory, and, Sergei Kopeikin of the University of Missouri, measured the amount that light from a distant star that was deflected by the gravity of Jupiter as the planet passed in front of it. The researchers used 10 radio telescopes scattered around the world to precisely gauge how light from a distant quasar was bowed or warped as it passed by Jupiter on its way to the Earth.

To make the measurement, the instruments had to detect a minute deflection of the light. Dr. Fomalout compared the required precision to being able to

measure the width of a human hair from 250 miles away.

Jupiter is in the precise position for such a measurement only once a decade. The locations of the telescopes ranged from from Hawaii to Germany. Researchers are very happy with the experiments seeming total success.

For the Amateur Radio Newsline, I’m Mert Garlick, N6AWE, near the Queen Mary in Long Beach California.

--

Knowing the precise speed of gravity is important to physicists looking for technologic break-throughs. It also affects some of the basic theories of the relationship of space and time. (Science Today)

**

NEWSCAST CLOSE

And speaking about time, we are out of it for this week. So with thanks to Alan Labs, AMSAT, the ARRL, the CGC Communicator, CQ Magazine, the FCC, the Ohio Penn DX Bulletin, Radio Netherlands, Rain, the RSGB and Australia's Q-News, that's all from the Amateur Radio Newsline(tm). Our e-mail address is newsline @arnewsline.org. More information is available at Amateur Radio Newsline's(tm) only official website located at www.arnewsline.org. You can also write to us or support us at Amateur Radio Newsline(tm), P.O. Box 660937, Arcadia, California 91066.

For now, with Bill Pasternak, WA6ITF, at the editors desk, I’m Don Wilbanks, AE5DW, saying 73 and we thank you for listening." Amateur Radio Newsline(tm) is Copyright 2003. All rights reserved.

Oh, he's gotta be shaking in his boots NOW! Haw Haw Hawr! :D

That reminds me of an interview that occurred back in 1967, right after the
Israeli 6-day war. Israel had been attacked on all sides by a number of
raghead states, who were determined to murder every Israeli man, woman, and
child in Israel. ( According to the raghead newspapers of the time. )

Of course we all know what happened. Despite having almost no outside
support, and with only a few obsolete old French aircraft, the Israelis
thoroughly kicked every one of those ragheads countries' asses, taking some
of their land from them instead, just to teach the uncivilized scum a little
lesson.

Asked about his astounding success in mowing down thousands of screaming
raghead fanatics with very few casualties ( sound familiar? ) , the Israeli
general agreed to give the reporter the exclusive secret to his
unprecedented military success...

"Fight Arabs." he said.

Charles Brabham, N5PVL

COULSDON AMATEUR TRANSMITTING SOCIETY
==========

ANNUAL RADIO BAZAAR - Sunday 23rd November 2003

The Coulsdon Amateur Transmitting Society are holding their
annual radio bazaar at the 1st Coulsdon Scout Headquarters
behind the Post Office in Lion Green Road, Coulsdon, Surrey.

Doors open at 10am and close at 1pm. Entry is just 1 UKP which
includes a free tea/coffee at the refreshment bar. There is also
free off-street parking available in the adjacent public carpark.

This is not a full-blown rally but a small table-top sale where
locally invited traders and private sellers pay a small fee for the
use of a table(s). This give the event a friendly feel where you can
browse at what's on offer or chat to the many local amateurs that
regularly turn out.

Why not put this date in your diary now and come and see what CATS
have to offer. I think you'll be pleasantly surprised!!!

For more information and for details of available tables please
contact Andy G0KZT on 01737 552139 or
email via andy@briersa.fsbusiness.co.uk or
via packet at g0kzt@gb7cip.#32.gbr.eu

Why not visit the CATS website at www.qsl.net/cats

"charlesb" <n5pvl@sbcglobal.net> wrote in
news:I0Mmb.12434$%62.5271@newssvr29.news.prodigy.com:

Oh, was that the very same year that Israel ruthlessly and without provocation attacked the U.S.S Liberty? This was done by the same people that still chase phantasms of Holocaust perpetrators nearly 55 years after it ended, while claiming that the U.S.S. Liberty issue has been "resolved" or "closed".

http://ussliberty.org/ excerpts follow:

"During the Six Day War between Israel and the Arab States, the American intelligence ship USS Liberty was attacked for 75 minutes in international waters by Israeli aircraft and motor torpedo boats. Thirty-four men died and 172 were wounded."

"Israel claims they mistook our ship for the out-of-service Egyptian horse carrier El Quseir and that we brought the attack upon ourselves by operating in a war zone without displaying a flag. Not so. We were in international waters, far from any fighting, and flew a bright, clean, new American flag. The flag we flew is on display at the National Cryptologic Museum, Fort Meade, Maryland and can be seen there, or in the USS Liberty Images Archive."

http://home.cfl.rr.com/gidusko/liberty/

http://www.washington-report.org/backissues/0693/9306019.htm

http://www.logogo.net/liberty.htm

http://www.yellowtimes.org/article.php?sid=399 excerpts follow:

"(YellowTimes.org) • June 8 marked 35 years since Israel attacked the USS Liberty without warning in international waters, killing 34 Americans and wounding 172 more. The Israelis lied about it and persuaded our Congress to look the other way, and they are still lying about it today. But the Liberty will not go away. Every attempt to hide this story seems to bring more attention.

This past year brought a 60-minute documentary produced by CBS News Productions that was broadcast by The History Channel on Aug. 9 - much to the dismay and over the heated objections of the Israeli Embassy and various spokesmen for Israel who did all in their power to block it."

http://www.lewrockwell.com/orig/margolis12.html excerpts follow:

"At 0800 hrs, 8 June, 1967, eight Israeli recon flights flew over 'Liberty,' which was flying a large American flag. At 1400 hrs, waves of low-flying Israeli Mystere and Mirage-III fighter-bombers repeatedly attacked the American vessel with rockets, napalm, and cannon. The air attacks lasted 20 minutes, concentrating on the ship's electronic antennas and dishes. The 'Liberty' was left afire, listing sharply. Eight of her crew lay dead, a hundred seriously wounded, including the captain, Commander William McGonagle.

At 1424 hrs, three Israeli torpedo boats attacked, raking the burning 'Liberty' with 20mm and 40mm shells. At 1431hrs an Israeli torpedo hit the 'Liberty' midship, precisely where the signals intelligence systems were located. Twenty-five more Americans died.

Israeli gunboats circled the wounded 'Liberty,' firing at crewmen trying to fight the fires. At 1515, the crew were ordered to abandon ship. The Israeli warships closed and poured machine gun fire into the crowded life rafts, sinking two. As American sailors were being massacred in cold blood, a rescue mission by US Sixth Fleet carrier aircraft was mysteriously aborted on orders from the White House."

http://zog.to/3/liberty/lib-ind.htm excerpt follows:

"In June 1967 jet aircraft and motor torpedo boats of Israel brutally assaulted the American naval intelligence gathering ship USS Liberty. The attack was preceded by more than six hours of intense low-level surveillance. The attack lasted more than two hours, killing 34 Americans and wounding 171 others, and inflicted over 821 rocket, cannon and machine-gun holes in the ship..."

http://www.counterpunch.org/stclair1126.html

"After more than two hours of unremitting assault, the Israelis finally halted their attack. One of the torpedo boats approached the Liberty. An officer asked in English over a bullhorn: "Do you need any help?"

The wounded commander of the Liberty, Lt. William McGonagle, instructed the quartermaster to respond emphatically: "Fuck you."

I believe that evidence of Israel's "at times" inhuman treatment of others in the pursuit of their own safety comes from the increasing numbers of individuals in their own military that refuse specific missions. Few would fault an officer of the law or soldier in the military that takes positive and at times fatal actions against individuals or groups actively seeking to kill others. But in missions designed for revenge purposes against the Palestinians for terror perpetrated by some of them, Israeli military personnel are now, and have been over the years, experiencing soldiers refusing to do as ordered.

To know and to be, this is not even a question, there is no alternative.
You see it clearly in the loneliest little avenues between particles and
waves, shunned even by the gregarious quark and unknown by the various
strands of time, so big it cannot be seen, yet so little it is
immovable, lies the fabric of the ultimate reality gripped in the fist
of the all or nothing."

# 3639. Need battery for Motorola Triton MP+ Handheld VHF

Most politically correct types are. They are a gutless, spineless
breed that hide behind everything possible and when it's safe
to come out of thier holes, they snipe and take pot shots at
everything that is good and decent, if not just anything
that doesn't fit thier sleazy, terrible, hate-filled agenda.

N.O.W., Earth First!, the ACLU and other yellow bellied
organizations like that are now quickly losing all clout and
political strength they have because they have gone to
the well of jealousy & race conflict just one time to many
to drink from, and now thier paying the price.

Good riddance to bad rubbish.

Clint

I'm a Motorola reseller, and I just got through checking the
online system. That part number is long since discontinued.

I would suggest contacting Aloha Batteries
(http://www.alohabatteries.com). I bought a pack for my MT2000 from them
with very good results.

10M will be problematic on our mutual path. Best bet would seem to be
Sunday about 1900-2130Z.

> As long as you aren't using a computer to send and receive Morse, I

I don't know of any serious radiosporters using a computer to copy Morse.
Computers don't like the wide variability which our wetware modems process
without a problem.

Only incompetents use a computer to receive morse code.

And doing so in a contest is really dumb. Takes more time to get it zeroed
in than it would if you bothered to learn cw at a reasonable speed.

See you in SSCW single op. And SSphone multi op.

Oh and in the last five years I have 4 cups phone and cw. And one cup phone
only.

Missed em both in 99.

No surprise here. Thats how they all are. On the other hand, I don't
hide. And I stand by what I said. And I could care less if that puke likes
it or not.

Just in case you don't get it...Try this one. I have advocated from the
git-go, before 9/11 which re-inforced my belief, that all the worlds
ragheads need to be given a free ticket to Mecca, where we can test our
newest tactical nuke.

Like that? Too bad.

And whoever it is, odds are good that both people may be carrying
the same mitochondrial DNA (adjusted for mutations) i.e. long lost
cousins. :-) 'Course, blood didn't stop Cain from killing Abel.

And why do you hide behind a Google account and post from Edmonton,
Alberta? Who says that you have any idea of how Americans feel?

You are soooo stupid that you don't think people will take a look
at your NNTP-Posting-Host header and do a traceroute on it.

You are a disgrace to your fellow Canadians.
>
They have ragheads in Canada, don't they?
Sure they do.
And they're sneaking into the United States.

--
Iran's Interior Ministry ordered people to stop stabbing themselves in the head during Shiite mourning rituals. "Wounding one's head with daggers is not in Islamic tradition," spiritual leader Ayatollah Ali Khamenei said, "We should not do things that would make us appear as a superstitious and illogical group in the eyes of non-Muslims of the world."

Sorry folks, making racist remarks is never cool or justified. I feel
sorry for people like you. Anyway, what does it have to do with
radio?

Only a novice licence for someone who claims to be
"an Ex Military operator, Capable of 25wpm"

and a 2e1 to boot....
if youre soooo good at morse how come you didnt go for your 2e0 ???
(after all, you did the theory part (and the practical??) )

Anyone who could do 25wpm (after a warm up) could have certanly
sleep-walked a 5wpm test.

Yep....if they believe killing thousands of innocents on 9/11/01 was a good
thing, they need to be gone. Any other stupid questions?

Oh BTW.....I don't think folks from Italy, France and the Cheerokee nation
are ragheads.

No socialist Canadian....the folks don't actually hate us. They just want what we have, and not pay for it. Your 'kind' showed its true colors recently when we asked for assistance in Iraq. If you think that won't have unhappy consequences for your nation, you are mistaken.

Think about it.....asshole liberal puke. Oh there I go again calling you names.

Tell ya what 'Private' call your local mountie and tell him to come get me.....looooooossssseeeerrrr.

And, of course, you can prove that no "raghead" genes sneaked into
your White family tree during The Crusades.

Personally, I thought most of the regs here were a little more adult than all this...

IMHO, all human beings deserve respect, unless they personally have done something to negate that right. However, I do believe also that anyone who has an opinion on any subject should have the intestinal fortitude to make themselves known. This, too, is part of respect.

Where I do not condone Dan's attitude toward some ethnic groups, he does have a right to voice it, and he does make known not only whom, but where he is by use of his ham call. I didn't read the complete thread, so I don't know what these others said, but it would seem that they, too, allowed it known to whom to attribute what was said. For this, despite their political views, they have my respect.

Please, though.. name calling is so juvenile, and unnecessary. This isn't PC, it's good, old fashioned, good manners.. something we could use a lot more of nowadays. (Funny thing, isn't it, how PC gets pushed, but things never get any better?)

Yes, that's what the world says about you, Marky

<bullshit backpedal by Marky deleted>

Try reading a textbook once in a while instead of going to whatis.com, Marky.

Your little cheap K-mart calculator needs a new battery.

If you use the formula correctly, which maybe those coke-bottle bottomed glasses prohibits you from doing so, you wouldn't make a complete ass of yourself. But from reading your posts, I suppose you just can't help yourself.

Here's an example of using that formula, you gutless chickenshit.

Here's the formula, so you can write it down when you sober up:

LOSS dB -10 log ((SWR-1)/(SWR+1))

Let's say the SWR is 3:1 and figure the loss:

-10 log ((3-1)/(3+1))= approximately 3dB loss

Do you even know how to plot on a Smith Chart? Do you even know what a Smith chart is?

You still don't know the difference between a website concerned with ARES in Alabama to one concerned with ARES in WV. Or did you forget that fuckup? Since you have so many, I guess you lost track.

"FUCKUP Lee" <SLee@houston-hunks.com> geography idiot, fucks up as usual when he thinks Marshall County, Alabama and Marshall County, West Virginia are the same place in message <afvsc2$6aa$1@pita.alt.net>:

" Then what is at http://www.geocities.com/skywarncanwarn/ doodle brain?
It sure looks like the Marshall County ARES, and it even has a place to
send email."

Where can I find good information about the principle and the design of linear power amplifier using semiconductors, up to the full legal power limit ?

Is it only possible to use power splitter ? I have seen broadcast transmitters in the power range of many hundred of kW's, having an power efficiency of more than 90 %. Do they use power splitter or another design ?

I have a fun thing to try: Let's say that the SWR is 1:1, and let's say that your newest version of the formula is correct. That would give

LOSS dB = - 10 log( (1-1) / (1+1) ) = - 10 log(0)

or

LOSS dB = infinite loss

[Remember, the log of zero is minus infinity.]

So, according to you, a 1:1 SWR causes an infinite loss, whereas everyone else actually tries to achieve a 1:1 SWR on their transmission lines.

Why, that's brilliant Professor Wiseman! Let's hear a big round of applause from everybody!

Thierry
ON4SKY, LX3SKY
http://www.astrosurf.com/lombry

Recommendation T/R 61-01 (Nice 1985, Paris 1992, August 1992, Nicosia 2003)

CEPT RADIO AMATEUR LICENCE

Recommendation proposed by the ''Radio Regulatory'' Working Group (RR)

Text of the Recommendation adopted by the "Electronic Communications Committee" (ECC):

INTRODUCTION

The Recommendation as approved in 1985 makes it possible for radio amateurs from CEPT countries to operate during short visits in other CEPT countries without obtaining an individual temporary licence from the visited CEPT country. Good experience with this system is gained.

The Recommendation as revised in 1992 has the aim to make it possible for non-CEPT countries to participate in this licensing system. The appropriate provisions for this are found mainly in the new Appendices III and IV. The original Recommendation had to be adapted slightly, but it retains the same applicability within CEPT as before.

The Recommendation as revised in 2003 reflects the outcome of WRC-03 concerning Article 25 of the ITU Radio Regulations. The mandatory Morse code requirement has been removed and the number of amateur classes has been reduced from two to one.

"The European Conference of Postal and Telecommunications Administrations,

considering

a) that the Amateur Service and Amateur Satellite Service are Radiocommunications Services according to Article 1 of the ITU Radio Regulations and governed by other provisions of the ITU Radio Regulations as well as national regulations,

b) that it is necessary to harmonise licensing procedures for temporary use of radio amateur stations in CEPT countries and non-CEPT countries,

c) that Administrations are responsible, in accordance with Article 25 of the ITU Radio Regulations to verify the operational and technical qualifications of any person wishing to operate an amateur station.

d) that in accordance with Article 25 of the ITU Radio Regulations (rev WRC-03), administrations shall determine whether or not a person seeking a licence to operate an amateur station shall demonstrate the ability to send and receive texts in Morse code signals;

e) that the ability to send and receive texts in Morse code signals is not required for the purpose of this Recommendation;
f) that the issue and administration of temporary licences to foreign visitors based on bilateral agreements involves a considerable increase in work for Administrations,

g) that the International Amateur Radio Union (IARU) supports the simplification of procedures to obtain temporary operational privileges for foreign visitors in CEPT countries and in other countries,

noting that

this Recommendation bears no relation to the import and export of amateur radio equipment, which is subject only to relevant customs regulations,

noting further that

despite the procedures of this Recommendation, Administrations always have the right to require separate bilateral agreements when recognising the radio amateur licences issued by foreign Administrations,

recommends

1) that CEPT member Administrations recognise the principle of the CEPT radio amateur licence issued under the conditions specified in Appendices I and II, on which the Administrations of the countries visited will not levy administrative charges or spectrum fees.

2) that Administrations, not being members of CEPT, accepting the provisions of this Recommendation, may apply for participation in accordance with the conditions laid down in Appendices III and IV".

Please check the ERO web site (http//:www.ERO.dk) for the up to date position on the implementation of this and other ECC and ERC Recommendations

Appendix I

GENERAL CONDITIONS FOR THE ISSUE OF THE
"CEPT RADIO AMATEUR LICENCE"

1. GENERAL PROVISIONS RELATING TO "CEPT RADIO AMATEUR LICENCE"

The ''CEPT radio amateur licence" can be included in the national licence or be a special document issued by the same authority, and will be drafted in the national language and in German, English and French; it will be valid for non-residents only, for the duration of their temporary stays in countries having adopted the Recommendation, and within the limit of validity of the national licence. Radio amateurs holding a temporary licence issued in a foreign country may not benefit from the provisions of the Recommendation.

The minimum requirements for a "CEPT radio amateur licence'' will be:

i) indication that the document is a CEPT amateur licence;
ii) a declaration according to which the holder is authorised to utilise an amateur radio station in accordance with this Recommendation in countries where the latter applies;
iii) the name and address of the holder;
iv) the call sign;
v) the validity;
vi) the issuing authority.

A list may be added or provided indicating the Administrations applying the Recommendation.

The CEPT Licence permits utilisation of all frequency bands allocated to the Amateur Service and Amateur Satellite Service and authorised in the country where the amateur station is to be operated.
2. CONDITIONS OF UTILISATION

2.1 On request the licence holder shall present his CEPT radio amateur licence to the appropriate authorities in the country visited.

2.2 The licence holder shall observe the provisions of the ITU Radio Regulations, this Recommendation and the regulations in force in the country visited. Furthermore, any restrictions concerning national and local conditions of a technical nature or regarding the public authorities must be respected. Special attention should be paid to the difference in frequency allocations to the radio amateur services in the three ITU Regions.

2.3 When transmitting in the visited country the licence holder must use his national call sign preceded by the call sign prefix of the visited country as indicated in Appendices II and IV. The call sign prefix and the national call sign must be separated by the character "/" (telegraphy) or the word "stroke" (telephony).

2.4 The licence holder cannot request protection against harmful interference.

3. EQUIVALENCE BETWEEN THE CEPT LICENCE AND NATIONAL LICENCES

3.1 The equivalence between the CEPT licence and national licences in CEPT countries is given in Appendix II.

3.2 The equivalence between the CEPT licence and national licences in non-CEPT countries is given in Appendix IV.

The biggies for AM are often essentially huge D-to-A converters.

The FM ones use splitters and combiners.

Neither are linear amplifiers.

Hi,
AAVSO requests the help of amateur radio to monitore Sudden Ionospheric Disturbances, aka SID in low bands

Extract from my website.
When the Sun release a CME of X-class, the D-layer see its ionisation level increases drastically, absorbing all short frequencies. The result is a deep fading of radio signals and shortly after a complete communications black-out : these are sudden ionospheric disturbances, aka SID. This phenomenon affects mainly VLF and low HF bands in degrading the MUF over about half the Earth hemisphere, the one under the sunlight. Generally the phenomeon occurs in the evening of at night and interrupts all communications on VLF, 160 and 80 m bands. During periods of high absorption, when geomagnetic storms occur, communications can be interrupted on all HF spectrum, up to the 10 m band. The attenuation is however limited to a few dB in the 20-10m band vs 20+ dB on 80m and exceeding sometimes 40 dB on 160m !

If you are interested in this activity read
http://www.aavso.org/observing/programs/solar/sid.shtml

Ho-Oh, my mistake.
Be complete: While LF, MF and HF bands experiment blackouts, the increasing
of the electronic density between 50-90 km aloft at daytime (due to solar
flares) enhances VLF communications during a few days.
AAVSO website offers the opportunity to fan of radio/astronomy to build a
simple VLF receiver and antenna.
Do it this is science !

First, you should have references to Helge Granberg (sk) work when he worked
at Motorola.
His work can be found in several Application Notes and a book he wrote with
Norman Dye.

RF Transistors (about 1/2 down this web page)
http://www.rfparts.com/tranbook.html

Motorola Application Notes (this is a subset on CCI web site)
http://www.communication-concepts.com/application_notes.htm

JA0TJU is an excellent resource and reference for "broadcast style"
construction
http://www.ginzado.ne.jp/~hamradio/tju/2c3286.htm

DL4MUP has this article (may not load), he references the earlier work of
W9NUP
http://www.qsl.net/dl4mup/UKW45/UKW45_w.pdf

W9NUP, Ron Purkey article in Issue 3 of the 1999 VHF Communications magazine
on "Another RF Combiner / Splitter".

He built a 1 KW VHF amplifier using 4 MRF 141G modules with a splitter and
combiner running 28v @ 60+ amps.
The amp takes approx 50 watts to drive.

This was NOT the normal "rat race" type of combining, but rather based on
Myat Engineering E*Star (which is a European firm).
Any number of odd or even modules may be employed, making it nice for
growing as can be afforded.

I understand Myat took down their informational Internet web site after this
article appeared (too many hits and questions)

Here are pictures from the K5OE web site

FYI, on fr.rec.radio.amateur we experimented the same problems with some
gangsters who pirated the forum.
These problems occured during months or even 1 year. For some days the
problem is solved but there a guy that manually removes the "bad guy"'s
posts according the contain of their message (injury, etc)
Now that forum is only frequented by "ordinary" OM and SWL.

I've seen reports in ham related groups of good propagation on LF as well
as 10 meters lately.

Well, Brenda Ann, and all the rest that can't stand it when I say what I think. Why don't you jump on 'Private' ??? The jerk that called me a racist and put my address on the internet, soliciting 'ragheads' to come here and attack me.

Is that allright? Does that fit well with your American standards?

Tell ya what , I'll make it real simple. When attacked...I attack back.

Ummm... Dan.... actually, I was much more 'jumping on' "Private" than you.

Try re-reading my post, and then make your comment (or apology?). What I very succintly said was that though I do not agree with your politics, I support your right to voice them, and respect the fact that you do so without anonymity...

```

What happens sometimes is that during blackouts in Scandinavia regions for example (due to solar flare, etc),these hams can experiment for a few hours some exeptional openings to far DX, mainly trans-equatorial (i.e. LA to CX/PY or to pacific) due to an increasing of electrons density in D-Region. But only inhabitants of polar regions (over 60° N/S) can be the witnesses of these occurrences.
AAVSO is monitoring theses openings

The jerk that called me a racist and put my address on the internet,
soliciting 'ragheads' to come here and attack me.
>
> Is that allright?

I thought it was cool when he "did it" to me. I sign all my posts with my call, and there are callbooks everywhere, so the only thing he really allegedly "did" was to threaten to send some angry raghead my way. Gee, I'm scared about that... ( Not! )

As for being called a "bigot" by an apologist for ragheads, I couldn't work up too much concern over that.

Historical note: Almost every african who was ever captured and sold in the americas to slavery was captured by arab slavers who had been infesting the congo basin for more than five hundred years. They were there centuries before the brief opening of the market for slaves in america, and were there long after it closed.

The arab slavers would typically take an entire village at a time, murdering anybody who was either strong enough to resist, or too weak to make the long walk on a long, heavy chain to market. Pregnant women and small children were typically murdered because they did not travel well. There is documented evidence of arab slave-raids in the congo basin going on as late as the mid-1950's. The great majority of the african natives captured over those centuries were of course used by the arabs themselves.

The progeny of the africans who were sent to the americas are living free lives in a free country today. As far as can be seen, there are no surviving progeny from the much greater number of africans who did not go to the americas but instead were used by the arabs. Perhaps this is so because castration of slaves has always been a common practice among the arabs.

... So when an apologist for this uncivilized, backward and violent tribal culture calls me a "bigot", I can't help but smile at the irony there.

Overall, I guess this doesn't bother me because I expect anybody who sticks up for the raghead set to be some kind of an uncivilized jerk anyway, so I wasn't surprised by his behavior. He didn't say or do anything interesting or unusual. He acted pretty much as you would expect an uncilized jerk to

act.

(Yawn)

Watch for "SAFT" manufactured 5590's. These are quite dangerous. They're
"Lithium Sulfur Dioxide". Dispose of as "hazardous waste" rather than messin'
with 'em.

The BB-590 is ni-cad; no problems.

Our coalition is helping the Iraqi people to build a secure, hopeful and
self-governing nation which will stand as an example of freedom to all
the Middle East,'' George W.Bush said [in his radio address].

G.W.Bush's father also sent the army to Kuwait to liberate the Kuwaitis
from the same dictator they had helped prop up against Iran. Then there
was a man called Oliver North...

Reagan's administration was heavily involved in helping the Afghani
mujahedeen against the Soviets. Yes, that same Bin Laden.

Holy shit, you're right! They are uncivilized jerks!

What ever happened to the American ideal
Freedom of Religeon?
IF you are American and rebel against what we stand for
what religeon is it that you advocate that all must adhere to
so that they are not to be killed ?
Are there any other citizens of this country that you disagree
which you advocate their demise?

Looks like Daniel L. Jeswald (W4NTI) and Charles D. Braham (N5PVL)
will think twice before making racist remarks on these groups. I
still can't believe they wrote it and may actually think that way.

In any case, DANIEL! you are in your late fifties for crying out loud.
Grow up! What would your 4 children and 5 grandchildren think.
There must be more than a couple black or arab people in Anniston
Alabama, think of how they would feel if they knew what you wrote.
You have done some nice work in Anniston, don't pee it all away over
some racist remarks. Applogize or at the very least keep it to
yourself.

On Tue, 28 Oct 2003 01:13:04 +0100 (CET), "SWR Boy" Wiseman wrote:
:
: Only people who try to get 1:1 are CBers, Marky? Is that what you are?
:
: 1.5:1 is more realistic in the real world, but you don't live in
: the real world, do you Marky?

And you, Dimwit, gave a formula which is simply WRONG!

It is wrong on the low end of the scale (infinite loss at a 1:1 SWR),
and it is wrong on the high end of the scale (as the SWR grows larger,
your formula claims that the losses approach zero).

So stop running away from your awful mistake, because this isn't about
anything other than the fact that you have no idea what that formula
means. And that formula sure as hell doesn't give the right answer at
a 1.5:1 SWR if it can't handle the obvious things like a 1:1 SWR.

That's elementary bounds analysis, SWR Boy, as any Freshman student
knows. Plug in the limits, and see if you get a reasonable answer.
If you don't, something is probably wrong with the formula.

In your case, something is probably wrong with your head.

[This space reserved for Wiseman to type his usual scatological
blabbering.]

That statement IS tongue-in-cheek, right? By far the largest part of the world's population no doubt doesn't view us at all, doesn't even (or barely does) know we exist (billions in India and China). Of those that do know we exist, most see us as decadent, Godless, and hedonistic. And, thanks to the press at large, that we live in fear of criminals taking our lives and property (and that our guns only make this worse).

Some (those that are allowed to know from whence comes their aid) see us as generous. Those that know our basic political system (without the embelishment of their local government propaganda) see us as democratized, though most poor countries see us otherwise.

Just my observation of the world press.. YMMV

I haven't made any racist remarks. What I have done is to characterize arabs as "rag-heads"... That is not a racial slur and could not be, as there is no "arab race". There are a number of arab tribes though, characterized by the habit of wearing a rag on their heads. You can call it anything you like, but it's still a rag to me. Get the picture?

You are right about one thing. If I were ever tempted to make a racist remark, I would most certainly think twice. The situation never comes up though, so I guess its a moot point, isn't it?

If arabs wish to be respected, they'll just have to do like everybody else and start acting respectably. The best, most accurate description I have heard of the various arab "governments" today characterizes them as "crapulent kleptocracies".... Between that, the insistence upon anti-american propaganda in the arabs schools (where they exist), the mistreatment of arab and enslaved foriegn women by cowardly, vile arab men, and the refusal to stop supporting civilization's terrorist enemies, there's just not a lot to respect in arab culture. It stinks from top to bottom.

That's my opinion. If you don't like it, come up with one of your own. But please - stop whining and snapping like a cur when confronted with opinions that you do not like to hear. Try to pick up a little manhood, somewhere.

Thank you for the warning.

I am still interested in locating a SOURCE for these batteries....at
least for the BB-590 and associated charging unit.

Thanks again.

It ended when the Muslims of this world decided to attack and kill
Westerners, just because they were Westerners.

It was further solidified by 9/11.

Mr. Bush is not correct on this issue. It is a war against Muslims. And,
guess what? we will win it. They will not be allowed to infiltrate this
country and destroy it from within. It was tried by the Communists, and
they failed.

The Muslims started it. We will end it.

Have a nice day

Dan/W4NTI

Too bad that, by attacking Iraq, he attacked one of the most secular of
Arabic countries. There are now more Al Qaida in Iraq than before.

What Iraq had to do with 9/11 I'll never understand.

Having gone through one 9-11, we went took steps designed to forestall us having to go through another. Of course it is much more complicated than that, but you'll find that this basic motivation is always there.

If you are having trouble understanding these issues, then you are probably reading the wrong news sources. Shop around and look for better sources of information. Round-file the ones you are using now. They're not doing the job.

Just think, had we focused on Bin Laden, the one actually responsibly for
9/11, instead of running off on some wild war based on a perceived threat,
we might already have the true culprit.

I swore to myself I wouldn't get involved in this thread, but, being
attracted to Ham Radio because of the supposed international handshakes, I'm
a sucker for trying to get along with the rest of the world.

Gang,

Shall we start a religion that is all about Morse?

We would get a whole lot better treatment than we do now, plus, we can
deduct our CW expenses.

Our hymns are monotonic. Only the tempo changes.

Sincerely, and may Marconi bless,

The Reverend Dave, KZ1O
High Priest

and as usual... u dont bother to look at my nntp-header.

and u obviously have not been on this newsgroup long either!

because if you were
1. u would have seen plenty of cb'ers howl and moan about morse code
2. u would have read me saying that i passed the 12wpm morse +test+
the second go ...but did not moan about having to pass.
3. u would have read a cb'er describe access to the bands as a
"bargain"
4. u would have read people moan about morse code being old but at the
same time read the same people say that after sitting a morse
joke-test that they now have an m3 callsign.

anonymous ?????? ha! read the lazy b-licensees postings and u +will+
see anonymous!

You could search the entire world and not find a better place to fight terrorists. A major sandbox surrounded by ragheads that need their ass kicked.

Bush is a genius. Rummy is a genius. You will see.

Let me ask you this; Would you rather have these ragheads blowing up Boston?

Interesting that you mentioned the Indian Nations
The tactics that America is supporting against Islam is the same
tactics that we used to take Indian land away and killing all
"savages" I.E. the only good Indian is a dead Indian and delay
retribution by smoking so called peace pipes.
This is exactly what we are doing in the MidEast. We are supplying
missles and weapons of death as we erase villages from the maps, herd
what is left into refugee camps formerly reservations, build on their
land under cover of peace talks ( we have doubled the houses and
population in the West Bank in the last ten years) and we condone the
killing of all those who object to the land stealing or the
confiscation of the holy places. These so called savages pray three

times a day where we are schooled to pray once per week and thus are superior.
The one thing that we havent thought thru ( The rest of the world has but we have easily prevented any interference in our plans by virtue of a U.N. veto.)
We in America has still not recognised that we are outnumbered with respect to Islam and yet ask for assistance from those who we continualy push aside.
We will continue to see non conventianal fighting by those we tread on and continue to take the stance that they must stop resisting take over of their posessions so that then and only then we can talk about things not withstanding that we will continue to steal while we engage in stalling talks.
Since these people refuse to lie down stay still and be quiet while we do our thing some of our christian brothers advocate the use of nuclear weapons to finish off all that show resistance. We have done it before while we said we are a christian country so if the foundations of christianity have not changed
we have the same excuse to do it again. Bush has stated " bring them on " and he is more than willing to hold on to the coats of those are willing to fight
for him instead of our Country. How many years will it take for us to realise
that we cannot kill off all those that disagree with us without receiving retribution of some sort that will destroy our own way of life and thus kill off our own beginnings.

Remember we have many who follow the faith of Islam thru out our country.
To prove that they are loyal Americans can we ask them to give up their faith
without retribution ? What will the modern christian do if the tables are eventualy reversed ?
How sad it is to see the return of body bags because of our crushing of other religeons for our own material gain.
Art Unwin KB9MZ...XG

An American by choice which is quite different to the loudmouths who prefer violence and yet are only Americans by the accident of birth with no allegiance to true Americas ideals

>
> And you,

And you need to go back to the CB bands. Only a fucking CBer tries to get an exact 1:1 match, that's the CB mentality. You obviolusly don't live in the real world, since realistically, the lowest one of 1.5:1 is possible in most cases.

You have admitted you are, essentially a CBer.

The source of the formula is a college textbook, yours is out of your fatass.
It was an interesting course, you should try taking a few.

Where are those "articles" you say you've written, but have yet to provide proof?

My reference material is from the texbook:
Electronic Communications for Technicians
Tom Wheeler, Prentice-Hall, 2001
Chapter: Transmission Lines, p.404-405.

LOSS dB = -10log ((SWR-1)/(SWR+1)) is the formula.

3:1 SWR

-10 log ((3-1)/(3+1)) = -10log (2/4)= 3.010 dB LoSS

I use a Texas Instruments Scientific Calculator, you obviously use a K-Mart Blue Light Special calculator.

Speaking of running away, why don't you address your fuckup about the Marshall County Ares website you attributed to the one here in Marshall County, West Virginia?

"FUCKUP Lee" <SLee@houston-hunks.com> geography idiot, fucks up as usual when he thinks Marshall County, Alabama and Marshall County, West Virginia are the same place in message <afvsc2$6aa$1@pita.alt.net>:

" Then what is at http://www.geocities.com/skywarncanwarn/ doodle brain?
It sure looks like the Marshall County ARES, and it even has a place to
send email."

>
> So stop <lots of whining deleted>

Wrong again, Marky Wah-wah-wah, you need to upgrade your no-code technician license to actually get the theory you have time and time again unsubstantiually claimed to know.

You've already shown us what a whining cunt you are with your whining complaint e-mails.

And, you need to stop showing the world what a complete and utter fuckup you are.

Dear Reverend Dave,

I'm shocked that you haven't heard of one of the great religions of Amateur Radio. Morsodism has been widely discussed here on rrap, but you might be an ignorant newcomer here, so I'll fill you in.

So you want to be a Morsodist. It's not easy, you know: you'll have to impose the stiffest constraints on your mind, accepting authority without question -- you will be subject to jeers and persecutions at the hands of the Spawn of NoCode, and you will suffer during your entire lifetime trying to throw pearls before the swine. But in the end, you will receive your reward from the Almighty in Heaven, and you will have the satisfaction of seeing all others being tossed into the Lake of Fire and QRM.

But enough of that; you're not there yet. You must first prove yourself worthy of being a Morsodist.

Lesson One: Developing Your Psyche

Right now I would like you to relax. That's it -- just sit quietly and let your mind go blank. Concentrate on one thing and one thing only: concentrate on your thumb. Now that thumb is no ordinary run-of-the-mill thumb: what you see is THE THUMB. That Thumb is your world. Nothing besides that Thumb concerns you in the least. As far as you are concerned, that Thumb rules over all. The only thing that should be in your mind right now is your Thumb and its absolute

authority over your life. Each and every line, ridge, wrinkle, and bit of cuticle is a Divine Mandate, eternal in its wisdom, power, and relevance. That Thumb was made by MORSE, and its sole purpose is to guide you to your Salvation.

Now, while still concentrating on that Thumb, begin to think about the world around you. Careful! Don't try to take in everything at once: start with the rest of your fingers, and slowly spread from there. See how your fingers are connected with and dominated by your Thumb. Now, slowly extend your perception to embrace your forfinger. It too was created by Morse, and it is all guided by the Thumb. Between your thumb and forefinger lie all the secrets of The Keys of Morse. The rest of the universe is of no concern.

Lesson Two: Establishing Your Doctrine

Congratulations! You've come a long way, but you're not there yet. What I want you to do now is to go to the nearest book store and purchase a copy of the FCCRuleBook. Preferably, it should be bound in nice, shiny black leather, and should have gilt edges and a red silk ribbon. It should be fairly hefty in size, but not so large that you cannot hold it with one hand. Finally, it should have the words of Samuel in red letters, for as you know the Son of Morse only spoke using red letters.

Now that you have yourFCCRuleBook, read it, and read it thoroughly. I imagine that some of it will fit in perfectly with your beliefs and morals, since you have been inspired by Maxim to attempt this indoctrination into Morsodism. As you read, you must remember that your beliefs are the ONLY right beliefs, and all others are falsehoods and are totally incompatible with Morse Divine Truth.

Now you may be dismayed as you read through the FCCRuleBook to find that much of it is outside your beliefs, or may even contradict them. No problem! All you have to do is take a black marker pen and blot out those paragraphs which you don't like. Simplicity itself! Now don't you worry if it seems that more of the FCCRuleBook is blacked out than left behind: just remind yourself that the remaining words are emphasized all the more.

Lesson Three: Living a Morsodist Lifestyle

Well, I'm sure that you Novices are simply bursting with questions on how to apply your new-found faith to your lives. I am pleased by your enthusiasm: such zeal is a necessity if you want to begin to work your influence on this filthy and sinful world and mold it into a clean and upright one. Those Spawn of W5YI are simply itching to be preached at, whether they want it or not, so let's get cracking.

First, obtain for thyself some sort of access to the internet newsgroups, specifically any (and all) newsgroups in the "rec.radio.amateur.*" lineage. Never mind that only one of them, the "policy" group is fit for Morsodists like yourself; you must spread

the word ALL the heathen NoCodists. Crosspost like crazy, verily even if attacked by Horrible Herman, the Lord High Newsgroup Purity Defender.

As you preach the word of Morse to others, you will inevitably run into those who not only doubt the veracity of your words, but who also pose trick arguments inspired by Lenny Liberal and his henchman, Crazy Charlie, the head Oracalist, in an attempt to trap and discredit you. This lesson deals with some of the major swords wielded by various tempters, and gives you some ideas on how to parry those weapons.

Technobabble scholars: these vermin use their high-falootin' technical jargon and book-learning to pervert the words of the Morse and read things into Part 97 which aren't there. The FCCRuleBook was written by Morse for YOU to use, and contains EVERYTHING you need to know for Salvation, plainly stated in black and white and red. There is nothing magic or mystical about it: it speaks out in the Words of Morse and speaks directly to YOU, as you have personally modified it to your belief set.

If other Spawn of NoCode say that the FCCRuleBook cannot speak the utter Truth because it is inconsistent in what it says, you can reply that there is no inconsistency in your FCCRuleBook: everything that you have in your FCCRuleBook perfectly supports your beliefs (remember Lesson Two). If they quote passages from the FCCRuleBook which they claim contradict your beliefs, you can reply that Oracle has inspired them to pervert the words of Morse and to twist their meaning around in order to try to subvert the Truth. If they say that you are being totally ignorant and irrational in your absolute belief in your Morsodist Doctrine, you can reply that they are being totally ignorant and irrational in their absolute refusal to believe in your Doctrine. And if they say that you are shutting your eyes to reality, you can reply that they are shutting their eyes to Morse.

Peace to you!

Hans, K0HB
Lord High Liberator of the Blue Electric Smoke

# 3753. MASSIVE X-17 SOLAR FLARE !

Newsgroup: rec.radio.amateur.misc
Date: 2003-10-29 05:22:52 UTC
From: no problem <cars32@juno.com>
Message-ID: <1067405465.451879@newshost03.voicenet.com>
Source record: 61923

EXTREME SOLAR ACTIVITY: One of the most powerful solar flares in years erupted from giant sunspot 486 this morning at approximately 1110 UT. The blast measured X17 on the Richter scale of solar flares. As a result of the explosion, a strong S3-class solar radiation storm is underway. Click here to learn how such storms can affect our planet. The explosion also hurled a coronal mass ejection (CME) toward Earth. When it left the sun, the cloud was traveling 2125 km/s (almost 5 million mph). This CME could trigger bright auroras when it sweeps past our planet perhaps as early as tonight.

I cannot believe these two clowns are still at it. I found some of their original comments and sure enough they are as racist as they come. People have a right not be discriminated against or abused because of color, race and religion etc....

If they don't stop making racist posts on this "RADIO" newsgroup I am sure people in their own town will find out about them. They will be very embarassed very soon. Keep it up Charlie and Danny... Keep it up....

Direct from the Hillsborough County Court Records:

First Name: JAMES
Middle Name: WILLIAM
Last Name: DALE
Date of Birth: 01/01/1941
Race: White
Sex: Male
Height:
Hair:
Eye Color:
--------------- Detail Charges Found ---------------
State: FLHLS
Case #: 97-CF-004272
County Name: HillsboroO
Description: POSS OF MARIJUANA W/INTENT TO
Class: FELONY FIRST DEGREE
Statute:
File Date: 02/19/1997

Looks like he has no room to criticize W4AMP, and has a kinship chargewise
with Donnie Anderson.

Oh, my! Dumbass Donnie, too? Now THAT is rich! No wonder Donnie talks the
way he does. He's stoned!!!!

Just like you and I.... I am quite sure there are things that we will fight to death disagreeing about, and I am sure there are some things that we will agree on too....

My way of thinking is "Don't hate the man... hate the thoughts driving that man....." As Cecil stated, for the most part I am also closely aligned to the Libertarian party, which is even more "right wing" than the Republicrats, but I do believe in the basic human rights issues. I don't hate all Arabs.... just the fundamental/orthodox ones like Osama, and the others responsible for 9/11 and other related events.

>
> And you,

And you need to go back to the CB bands. Only a fucking CBer tries to get an exact 1:1 match, that's the CB mentality. You obviolusly don't live in the real world, since realistically, the lowest one of 1.5:1 is possible in most cases.

You have admitted you are, essentially a CBer.

The source of the formula is a college textbook, yours is out of your fatass.
It was an interesting course, you should try taking a few.

Where are those "articles" you say you've written, but have yet to provide proof?

My reference material is from the texbook:
Electronic Communications for Technicians
Tom Wheeler, Prentice-Hall, 2001
Chapter: Transmission Lines, p.404-405.

LOSS dB = -10log ((SWR-1)/(SWR+1)) is the formula.

3:1 SWR

-10 log ((3-1)/(3+1)) = -10log (2/4)= 3.010 dB LoSS

I use a Texas Instruments Scientific Calculator, you obviously use a K-Mart Blue Light Special calculator.

Speaking of running away, why don't you address your fuckup about the Marshall County Ares website you attributed to the one here in Marshall County, West Virginia?

"FUCKUP Lee" <SLee@houston-hunks.com> geography idiot, fucks up as usual when he thinks Marshall County, Alabama and Marshall County, West Virginia are the same place in message <afvsc2$6aa$1@pita.alt.net>:

" Then what is at http://www.geocities.com/skywarncanwarn/ doodle brain? It sure looks like the Marshall County ARES, and it even has a place to send email."

>
> So stop <lots of whining deleted>

Wrong again, Marky Wah-wah-wah, you need to upgrade your no-code technician license to actually get the theory you have time and time again unsubstantiually claimed to know.

You've already shown us what a whining cunt you are with your whining complaint e-mails.

And, you need to stop showing the world what a complete and utter fuckup you are.

Say Hi to Stagger "fuckup" Lee
Mark Waldron
7503 Brentcove Cir
Dallas, TX 75214-1808
(214) 370-9770

Windsurfing Club: http://www.ibscc.org

"And just what do you propose to do about it?
May I posit if you dislike what you read and hear in this group that you can
simply go away?
Oh, no. That would be much too simple for you Politically Correct
Socialists...

Now, back to Dan's premise if I read it right...

Our country was attacked by nutcase Ragheads, right? Over 3500 innocent
people died on that fateful day, right?
So, what part of being attacked do you Peacenik Leftists not understand? It
was/is an act of war.

To Hell with your comment that people should not be judged by race or
religion. How myopic can you be?
Those religious nuts attacked us simply because we are a free nation. Those
Ragheads based their attack purely on religion and hatred of these United
States.
I will wholeheartedly agree with Dan on this one. If even one single Raghead
desires to blow up MY house, I will do what is necessary to see to it that
that particular Raghead is sent to Mecca post haste.
I will NOT allow that Raghead to pass Go, I will not ask him for his I.D.
and I will not give him $200.

I will go one step further than Dan. I do NOT like Muslims. I do not trust
them. I will not turn my back on a Muslim whether he lives next door or down
the block from me. The best way to keep a Muslim honest is to keep your
doors locked.

And there you have it.

Bow Wow!

Good luck on attempting to "embarass" me, Fido! One of local hams here joined the Army, and was recently stationed in Baghdad. After being flown into Quwait, he was put in a convoy headed toward Bagdhad airport. Within hours of moving into Iraq, my friend's convoy was attacked and he had to mow down a couple of screaming raghead morons so that they could continue their rudely interrupted cruise down the road to Baghdad. Iraq is infested with hundreds imported raghead terrorists from Saudi Arabia and Syria these days, all anxious to die. Like all of the local hams, The hams in my area are proud that my buddy was able to expedite the way to hell for a few of those worthless arab scum.

Again: Good luck with "embarassing" me, dog-boy! :-P

I guess Bush is a genius. Maybe that's what it takes to invent new words.
Yesterday it was, "suiciders". It's one thing though to invent words,
another to invent enemies behind every tree.

Here's a nice shot of your "genius" hero Rumsfield shaking hands with Saddam
a few years ago: http://www.mydd.com/archives/000427.html

Ah, who to believe in this mixed up world. Politicians are politicians. None
of which are geniuses. Calling politicians geniuses is a slap in the face to
Marconi, Maxwell, and Tesla.

That's a good policy, right up until the point where innocent people are murdered or enslaved by "men" who happen to be thinking those thoughts you hate.

Do not confuse the map with the territory. The thousands of innocent victims of 9-11 were not killed by "thoughts"... They were killed by "men", if you want to be generous and classify arab terrorist scum as "men".

My feeling is that when they step beyond the pale of civilized behavior to become terrorists, then they no longer qualify as "men", but instead must be handled like as you would handle a rabid dog. - You put them out of their misery before any innocent people can end up being hurt by them, and to prevent them from infecting other dogs.

Guess what "Private"...two can play that game. I just sicked my buddy on
you. He works for the Feds. They track down pedofiles and such. He is
making you a 'special' case.

See you in the funny papers.....payback is a mo fo...bro.

I used to hate the Vietnamese. But now 30 plus years later I can tolerate them. That makes me a racist? OK Im a racist. So what?

I reckon that after we nuke the ragheads and let god sort them out I'll be able to tolerate them also.

Sorta like my attitude towards slopes when I hit Nam. At first I was
trying to be friendly. Later I kept them at arms length. Then about half
way through my tour I wouldn't let them get within pistol range..And towards
the end I just shot first.

How could things have gone any worse? We still don't have Osama, and guys are still dying in Afghanistan even though the news acts like it's fallen off the earth.

As far as Sadam, what, specifically, did he have to do with 9/11? When it comes down to it, he was probably more of an ally against militant Islamic terrorists than any other.

....and, I'm probably more conservative than you..... There's nothing more liberal than "nation building", something we were told six years ago that wasn't going to happen under this presidency. My how things change.

I'll make a prediction: the 87 billion dollars going to Iraq is just the beginning.

Ryan,

I think that many (most) Libertarians would view themselves as
Moderate or more "middle-of-the-road'.

Not as extreme as the "Right Wing" [Ultra-Conservative Christian]
segment of the Republican Party.

Or, not as extreme as the "Left Wing" [Socialist Secularist
Anti-Religion] segment of the Democrat Party.

Even these extremes from both ends of the political spectrum to some
degree 'believe in basic human rights': Although their definition of
what those 'basic human rights' mite be, would vary on a point or two.

# 3779. X11-class flare 29-X-2003

Newsgroup: rec.radio.amateur.misc
Date: 2003-10-29 21:30:26 UTC
From: nw7us@hfradio.removethispart.org
Message-ID: <3fa03141.20045977@news.donobi.net>

Quick update:

At least an X10 or X11 class flare just occurred, peaking at 2049Z 29-X-2003, adding to the already dead HF conditions due to the CME passage and the Kp >= 7. This one is a short-lived flare. Quick recovery is expected. I don't know, yet, what CME might be associated, if any. Details, soon.

At the moment, most of the HF spectrum is "closed" to propagation, not because of the flare. I'm have not been hearing signals here in the Pacific Northwest on most of the HF, before the X11 flare. On many e-mail reflectors, I am reading some folks as saying, "Wow, that X17 flare sure has shut down the bands." Actually, it is not that solar flare that messed up the bands, today. Flares tend to cause radio blackouts that might last from a half hour to a number of hours. On the otherhand, major geomagnetic storms will cause HF radio propagation degradation because of "recombination."

Today's general outage is due to the passage of one of the fastest moving coronal hole mass ejections on record. It caused the highest Kp index - a level 9 geomagnetic storm. Since it hit us, the Kp index has remained at or higher than 7. This is a severe geomagnetic storm. During a geomagnetic storm, the ionosphere experiences "recombination" - much like what happens at night. The maximum usable frequencies fall - sometime no HF propagation is possible, because the ionosphere is completely recombined... this is what is happening at this moment. Most of the HF spectrum is "shut down."

Now, added to this geomagnetic storm and the general closure of the HF spectrum, we have this new X11-class flare from 2049Z. I don't yet know if a CME was associated with this one.

More as details become available...

Danny boy, does your buddy at the Feds also investigate stupidity?
You and Chuck are as racist as they come. You are right about one
thing, "payback is a mo fo...bro."

These are radio newsgroups you fool.

Luigi

These two racists make me sick!!!!

Still have that lisp from all those clandestine meetings in the public restrooms, Moore?

>Still convinced you have the "real" Stagger Lee?

Still fingerfucking your daughter Martha, Arsics?

>You have been called a lot of things Wogie, but intelligent is not one of
>them.

Oh, did you break a sweat thinking up that one, Georgie? After all, you haven't been sober since you were about 10 years old.

>Funny, is it not? Stagger gotcha....and gotcha....and gotcha.......

Waldron didn't get anything ecept a case of the crabs when he finger fucked Shirley.

>Time for bed, Pussy Willow.

Oh, are you gay, Georgie? Is that why you and Whorass Grimm have those rendevous behind the truck stop diners at 3 AM?

> You know how your varicose veins swell up when
>you spend the night hiding behind those curtains.

I do? You must be getting your weed from that other convicted felon Jimmy JailDale.

>Get some sleep, Pooh Boy. Tomorrow you can head over to Wheeling to make
>sure Stratuswave is still carrying you.

Don't have to worry about that...Waldrons whineygrams were like him ineffectual.

>Poor old Pooh Boy...all alone, malcontent, wussy boy.

Poor old "Ron Moore" hiding behind altopia.

> Whassa matter, Wog?

What's the matter, cocksucking Ron Moore, scared of me?

>Living alone getting to you?

I am? You'd better get better "intel," other than what you pull out of your distended colon.

> Must be lonely, huh?

It is? I have plenty of visitpors, dumbass.

> Just you and Dimmy...and his pet Hog. You folks make quite the threesome.

Sort of like you and your monkey faced wife and mullato inbred child Martha whom you have sex with, Arsics.
Are you really going to join your own family with the Circus his winter?

Let me try to explain thing in special english.

Bush and Rummy are smart.

Most Americans are dumb.

The idea is to occupy territory in the middle of the zoo zone.

The purpose of the army is to kill enemies of the USA.

The Iraqi regime was a enemy of this country.

A. They paid money to the family of the murders that killed women and children in Israel

B. They provided safe passage for terrorists.

C. They provided logistical support to terrorists.

D. In cahoots with Syria they helped to funnel funds to terrorist organizations, such as hezzbolah, which is guarding the Chemical weapons Sadam made in the Beka valley of Lebannon. Which is controlled by Syria.

Have you noticed how quickly Iran has become nice nice with Washington? Think maybe it might have something to do with 130,000 US Combat troops on their border?

You must understand that it is much much better to have ragheads throwing bombs and shooting off RPGs in raghead land, than some city in the USA. You do agree don't you?

So basically I am saying we are using the hell out of Iraq. What place is better to have a fight?

You are hung up on the WMD thing. Move on, history is bypassing you.

I agree, we were mislead. But what is the option at this point? Do we re-call our warriors and watch the middle east explode? We have made our bed and its time we layed in it.

In otherwords we are in the middle of the crap. So we have to take care of business.

I hope that one day you Bush haters will get your head screwed on straight and realize that you are HURTING this country.

Jane Fonda did the same thing about Nam. It hurts morale. It caused
American troops to die. It extended the war.

Stop repeating history and back this president so we can take care of
business and get the hell out of there.

Again Daniel, this is a Radio newsgroup. You and Chuck should take
your racist comments to yourselves. Everyone knows the type of people
you are.

All you have to do is read your own posts to see who started what.
You got caught, now grow up.

Luigi

I appreciate your "special english". Very well written and easy to read.

What evades me now are some of the conclusions and logic. On one hand you say Bush and Rummy are smart, then you admit we're in the middle of crap. (Iraq) Who put us there? And, don't go saying it was the terrorists. The terrorists we were after were in Afghanistan, Yemen, and Indonesia, with help from all over the world, including our buddies the Saudis. The response to the 9/11 terrorists should've been considered separately from our policy concerning Iraq. Bush-Cheney did a splendid job of mingling and confusing the two disparate issues.

You wanted a sand box to fight in, what was wrong with Afghanistan? Why the shift? Just as we were moving in on Ladin we did this major shift to Iraq. That made no sense.

As far as Iran, we were already on speaking terms. The upcoming elections and internal moderation were already under way long before this whole mess. Both Iran, and especially Iraq, were sworn enemies of Ben Ladin. They were actually on our side as far as routing out Al Qaida. And, as far as justification for invading Iraq based on supporting Hamas, and others, what about Saudi Arabia, home of The Wahhabi sect, certainly no pals of ours. I don't know what agenda Bush, Cheney, and Rumsfield had for going into Iraq. Which theory sounds good to you: Being Israel's big brother, or getting our hands on all that oil? Perhaps it was the personal vendetta Bush Jr. had for avenging the threat made to Bush senior by Saddam? Who knows. The point is, we had the World's sympathy after 9/11 and now we've squandered it, along with 87 billion plus dollars into quick sand.

Our option? Re-hire the Iraqi military.....who did NOT fight us while we entered their country. Help them establish some sort of code and leadership, perhaps through the UN.... and leave Iraq to the Iraqis. We're now just 'occupier's, and as such are quickly drawing the ire of all moderate Arabs. People who could help us.

Yep, 87 billion is just the beginning. Real smart your heroes. Oh, and don't leave out Cheney (Halliburton) in your adoration. He's pretty cunning too.

You should use ROT-13 more often, Marky Wah-Wah Wah Waldron, you make more sense then when you don't answer the question directly.

We're all still waiting for you to cite those so-called "articles" you say you've had published.

> What do you expect?

Nothing from you or him, dickhead Douggie. Why'd you hide behind that fat hog Janice when those two hams came calling, bigmouth?

Hi,

Found by chance.
If you want to understand graphically, with java animations and simulations
some radio concepts (antenna rad.pattern, T-network, etc...)
take a look here, that helps :
http://users.telenet.be/educypedia/electronics/javarf.htm

Hi,
Explanation full exact even if lack of detail (normal in a forum) ;-)

> Now, added to this geomagnetic storm and the general closure of the HF
> spectrum, we have this new X11-class flare from 2049Z. I don't yet know
if
> a CME was associated with this one.

CME was associated to that X flare (as 90% of the time due to strong E.M.
field beneath the Sun surface, near the huge dark spot)
X-flare reached immediately the Earth (ligh speed) while the CME about 2
days later (so now !).
See on SEC or NASA websites for update and detail.

Full explanation in French (but there is a Translation module available too)
on my website:
Aurora: : http://www.astrosurf.com/lombry/aurore.htm (full of pics page
7-11 or so) with links to SEC, etc.
Solar indices X, etc : http://www.astrosurf.com/lombry/indices.htm
Solar flares and CME : http://www.astrosurf.com/lombry/sysol-soleil-ha4.htm

I never realized how some Canadians were. I always thought Canada and the
USA were really like brothers. I no longer think that way.

Now you've really gone off at a tangent. I suppose you assume that G8s
must be ashamed of their calls. Nothing could be further from the truth.

oh boys oh boys....theyre all lining up now!!!

tangent - not me !

i never said that g8's were ever ashamed of their callsigns.
AND YOU KNOW IT!

It is my opinion if any G8 expects to be taken seriously by many who
HAVE got their finger out and EARNED THEIR PRIVILEGE OF HF ACCESS
where certain G8's havent even bothered to try then it is my opinion
that those g8's are sadly misguided.

the fact remains:
ANYONE WITH A G8xxx CALLSIGN HAS HAD PLENTY OF TIME TO GET THROUGH A
SIMPLE 12 or 5WPM MORSE TEST.

Source record: 61878

Hi All

A friend of mine has a 530 that looks like it has been partly modified
but has troubles. When he tries to key the radio on the FRS frequencies,
(460 MHz) he gets a transmit for a second or two then the radio just beeps.
It does full transmit on 450 MHz and seems to be wide open on the rest but
not on FRS. I have not seen the radio to see what has been done to it but
something doesn't sound right. Without getting flamed and all the out of
band BS and the like can someone tell me if that is typical for the extended
TX to not go above 460 MHz?

Who is this "we" supposed to be? You and Osama Ben Laden?

Again, you can call my remarks "racist" all you like, but that will not
change the facts. My posts all stand on their own merit.

I too could care less what he calls it. I don't consider calling someone a
raghead racist. If he does, thats HIS PROBLEM.

I too have been on here a LONG time. It will take a whole lot more that
that Canadian Commie has to run me off.

Take your best shot....raghead.

Not quite. That was Walt Kelly, via Pogo.

Bill Mauldin gave us such gems as:

Is there a view like this for the enlisted men?
I got a target for ya, but ya gotta be patient!
A movin' foxhole attracts the eye!
Don't startle the Kraut; he's got a full bottle!
I'm an expert on European dirt!
The Benevolent & Protective Association of Them What Has Been Shot At.

The only unfortunate thing about knocking off Sadaam was that he was hated by Al Queda, and, in return, did his best to exterminate them. The enemy of my enemy isn't always my friend. It's quite possible to have two differing enemies. And sometimes, it's wisest to let you and him fight. I think it will be enormously ironic if we ultimately find that Sadaam sealed his destiny by being a great bluffer.

Sadaam earned his fate by attacking our economic lifeline, and being a generally de-stabilizing force in a region quite important to the USA. Yes, it is about the oil! Just how many Grannys in Schenectady have to freeze to death because they can't afford heat until we recognize that our economy is totally dependent on oil availability & pricing?

Temporarily, we work with despicable foreigners who despise us, because we are dependent on them in some way. The industrial world's dependence on oil has caused the worst economic imbalance we could imagine, giving economic power to many who are unfit to govern a bucket of shit.

The best thing we could do for America would be to greatly reduce our economy's dependence on foreign oil. OTOH, I don't expect this to happen in my lifetime.

Good idea Ed. How is this to be accomplished?

Everytime a 'plan' comes up the left wing invironemental waco's jump up and down. Maybe we can start burning trees that are not eaten by the pine beetle. Oh...that wont work either will it?

See my point?

Joe, pahleeeze - take it all back to R.R.A.Misc.

Thanks for understanding.

I owe you. Name it. I'll even put your call on a 10m beacon (but you better reply the SWL cards).

Brian

Far from ironic, it was probably part of a deliberate and relatively clever strategy that went awry for this tyrant.

I intend to show (again) why the argument "Saddam Hussein wouldn't thwart the inspections unless he was hiding large amounts of WMDs" is profoundly ignorant. He would thwart the inspections regardless. Let me explain why.

Say, for the sake of argument, that Saddam had MASSIVE stockpiles of WMDs. It would stand to reason he would thwart the inspection process in every way possible, to postpone or avoid their discovery. This much is obvious.

Now say, for the sake of argument, that Saddam's WMD arsenal was decimated in 1991, and he could NOT overcome the inspection regime, the surveillance, and the no-fly zone enforcement to rebuild his arsenal significantly. What would he do? He would thwart the inspection process in every way possible. Why? Because once it came out, that Saddam couldn't outfox the West, it would make Saddam look weak and reduce his intimidation power drastically. Megalomaniacs simply don't do that.

As background, it's perfectly obvious that Saddam Hussein is/was a demagogue with intentions of expanding his influence to rule the Arab world. Does anyone seriously doubt his megalomania? Just look at the cult of personality he's created, if you remain doubtful. He loves (loved?) worship. Now, if you're a megalomaniac dictator, with aspirations to power and influence, who personally gains pleasure from the worship and fear of others, how would YOU act?

First, by "standing up" to the inspections, Israel, or whatever rabidy anti-Western Arabs hate, his popularity among rabidly anti-Western Arabs (of which I hear there are a few) skyrockets. He looks strong and therefore an attractive candidate for leading them. Perhaps even better than Osama bin Laden, his chief competitor to that aspiration. This feeds right into his megalomania. He wants power and followers, and by "standing up to" the allies, and Israel by proxy, he gains major political capital that might have been useful once Saddam had successfully rebuilt his conventional military. A weak nation could be conquered and "Saddamized" rather easily with nothing more than his strong conventional military and an indigenous population of committed sympathetic radicals.

Second, by seeming to have WMDs, he intimidates us more. He uses our stupidity, namely "Why else would he thwart the inspection process at every turn if he wasn't hiding weapons?", against us. Saddam figured the allied forces would think twice before striking at him given the potential for mayhem our soliders would face from these (assumed whether real or not) WMDs. So bluffing at having WMDs was a free deterrent he thought would protect his power. A classic poker bluff.

So it's not very hard to see why he would pretend to have weapons that were blasted to dust in 1991 that he couldn't rebuild.

Where it went wrong for Saddam was he underestimated the single-mindedness of the US Administration to remove him from power. This was something Wolfowitz, Perle, Rumsfeldt, and others had wanted to do for years (cf. PNAC).

With the mounting failures to find any evidence of WMDs in Iraq, the only thing to do for an Administration committed to war was to cook the junk evidence and rush to war at maximum possible speed. And that's precisely what they did.

We achieved the result of pissing off our allies, who understood that removing Saddam was a US political objective that had nothing to do with security of the USA or much of anyone (except Israel, which gains obvious benefits). They openly criticized us and the quality of our evidence. It was junk evidence. They knew it. Everybody knew it except the American and British people, evidently, because they both were the targets of a thinly-disguised sales job.

To bolster the case for going to war, they even went to Iraqi dissidents for threat assessments. The Iraqi dissidents had every reason to co-operate in any scheme to unseat Saddam, and CIA internal documents show they did not consider this source to be reliable at all. Yet their

known-unreliable statements were often repeated
as a justification for war against Iraq. They also
selectively grabbed the minority of evidence bolstering the
position that Saddam had stockpiles of WMDs we just couldn't
find, and ignored the rest, in their making a case for war.

What went wrong for the Bush Administration, is more and
more of the American people (and even more of the British)
are seeing that we were sold a bill of goods by a cabal of
explicitly dishonest manipulators and their dupes.

What went wrong for the American people is we're losing
soldiers virtually every day in a country that posed no
significant threat to our security interests, prior to
invasion.

I said two things before, and history proved me right on
both. First, Saddam didn't have significant WMDs. They
will never be found, because they aren't there. Second, the
Bush Administration is one of the most incompetent and
dishonest we've seen in our history. As the facts emerge
(and it will take quite some time given this is by far the
most secretive Administration in our history), eventually
Bush's Administration will win the mendacity crown from
Richard Milhous Nixon.

Jimmy Carter tried very hard to get alternative energy
programs underway. As you can imagine, it was primarily oil
and gas interests that lobbied -- and eventually succeeded
-- in killing subsidies to their competitors. Though some
falsely claim it was environmentalists who were to blame,
this appears only to be true in the nuclear energy case,
where in fact environmentalists did great harm by forcing
the use of dirty coal instead of at-least-cleaner nuclear
energy.

But show me where environmentalists engaged in a concerted
successful effort to block government subsidies for wind and
solar research in a significant way, and I'll buy you lunch.

Saddam wasn't fit to rule the viruses in the bucket of shit.
I'm glad he's gone, but the US economy will suffer for
decades due to the foolish idiocy and dishonesty of this
horrible and corrupt secretive Administration.
>
> The best thing we could do for America would be to greatly reduce our

Probably not. Until the entrenched energy interests figure
out a way to get government money for research, or how to
make a profit, or when reserves finally push gasoline up to
$5 a gallon or so. Then the tune will change by necessity.
Market forces will eventually compel the use of alternatives
to oil and gas. Whether it's in 10 years or 200, I can't
honestly guess. Could just as easily be either.

\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\
Odd. Jobs are increasing, my investments are again increasing in value, Wall
Street had a good month and the economy has grown at a rapid rate these last
three months.
The factories in my area are once again hanging out "help wanted" signs and
Bush's ratings are going up again.
Hmm....

No, this person is just a lone sicko. It was fun yanking his chain for a
while but now I'm getting bored with him. It's sad but I've noticed that
these sicko types are inevitably very bored, very boring people. I suppose
that's why it doesn't bother them to repeat themselves. After all, they have
no real expectation of ever saying anything interesting or relevant. - or
*on topic*, for that matter.

The media, even the liberal sources, are reporting the economy
jumped in growth 7.2% for the last quarter. This is the single
largest growth spurt in 20 years. One thing you will never see
reported in the liberal news media is that at this exact point 20 years
ago is when the Reagan tax cuts kicked in. What you are seeing
now is the Bush tax cuts kicking in at the same two year point.
Meaning, the economy is taking off, bad news for the Democreeps.
Truth is tax cuts work, and history is proving it once again, and
the president has been vindicated.
Of course, we can expect to see CNN, NPR, and other left wing
news sources either not report this fact or put their own distorted
spin on it. I love it! We got a REAL president, a man of integrity
who does what he says he will and doesn't craft his policies based on
polls, like knob-job Willy did. Troop morale is high in Iraq too, despite
what the left is reporting. And the whiners at Fort Stewart are NOT
heroes returning from Iraq. They are a handfull of guard and reserve
malingerers and those with major medical problems who were prevented
from deploying overseas with their units. They should have been
weeded out by their units, but instead, were kept in their units by leaders
in those units who did not have the guts to discharge them out. Now, the
job is left to the regular military to do the job the reserve and guard
commanders did not have the guts or resolve to do. Check out Col.
Hackworth's page, he finally got to the truth of what is going on at
Fort Stewart and thus, put to rest yet another story the left was trying
to embarass the president with.

BUSH IN 2004 !

Hi Ross, I entirely agree with your assessment of the pathogenesis of the current episode of war fever. This war is the neoconservatives' war. Soon to be the American people's war if it can be conflated, after the fact, with the so-called War On Terror. If the occupation can be made to draw in Al Quaeda and other insurgents and the witting or unwitting participation of other states in the region, then presto, we have the perfect post hoc justification for the invasion in the first place and the perfect pretext for toppling the next domino, so the neocons desire.

But in their overweening certainty and their impetuous rush to war they overlooked the need for international troops to man the occupation and the innate hostility and justifiable suspicion of the Iraqi people. If coalition forces do not find themselves in a quagmire, at the very least they find themselves taking first steps in a long hard slog (an uncharacteristic moment of honest introspection by Rumsfeld or a deliberate leak to better position himself in the internecine blame game now playing out within the administration?). Bogged down as they are in a police action which is dispiriting and not their brief, our troops cannot be cycled out to go onto bigger and better things. If the neocons in charge had played their hand more adroitly, had awaited a season of inspections and won over full international cooperation as did Bush the Elder, then perhaps even now they would be spurring their destriers into Damascas or even into Tehran. The trick now is to bite off more than we can chew, get into grave difficulty, and rally the American people around the troops. Then take another bite. The neocons have repeatedly claimed that the WMD's are buried in the sands of the Bekaa valley, that is why they are nowhere to be found in Iraq. Perhaps this is the next bite of the apple gleaming in their eye. Events, mostly of their own making, have overtaken their resources, not their ambition. If regional war can be achieved, look for a call to resurrect the Draft.

I have read that Rummy and crew established their own little intelligence agency within the civilian side of the Pentagon which examined the raw data collected by the traditional spooks and culled out only the bits which gave credence to a pro-war assessment, even, as you say, going so far as to rely upon the unsupportable evidence presented by unreliable characters such as Chalabi (sic), a member of the diaspora for forty years, and others. Having made their own assessment in their own way, they injected it high up into the national security brief presented to Bush without having it vetted

through the Intelligence chain of command. This is how all the dubious claims about Saddam's WMD's and hostile intentions came to be included in the President's speeches, and how the Niger uranium claim, based on crudely forged documents and widely discredited within the CIA and the State Department, seemed to take on a half-life of its own. The neocon chefs cooked the intelligence books. I have also read that Sharon has his own little rump intelligence agency which is mistrusted by the Mossad.

I wouldn't give Bush too much credit for deviousness. Nixon he is not. I think what happened after 9/11 is that the neocons played to Bush's exchatological leanings. I think they duped him and they duped the American people. Maybe now, with the continuing difficulties we face in subduing Iraq, he is wising up and reevaluating how we got into this mess in the first place.

Regards,

Grumpus

Why did you crosspost this garbage to multiple groups?

In my opinion, One American life is not worth every person that
resides in Iraq. Lets get out while we can and leave a busload of
nukes set to go off on September 11th...

On 1 Nov 2003 11:27:33 -0800, mwelch@madbbs.com (grumpus) wrote:

The powers that be do kick binaries off this newsgroup but I
assume that is an automated process.

Go ahead Larry, make my day.

Take your best shot.

Put your best foot forward.

All it proves is you can dish it out, but you can't take it.

For your INFORMATION, if you care. Neither myself or Charles started this.
I recommend you throw off the Canadian goof, you know the one...your buddy
'Private', Luigi or whatever dumb name he uses.

You see I use my real name and standby what I say. If you think it's
racist, I call you a dumbass.

See how it works?

I would love to drop this subject. Tell you what...tell your buddy to shut
the hell up and I bet that works.

Dan/W4NTI

Any one know of any freeware morse trainers that work on XP?

Thanks, Mike

# 3849. Kenwood TM-321A

Hello,
I just purchased a Kenwood tm-321a 220 MHz mobile rig. It didn't come with a manual. Can anyone tell me how to change the pl tone frequencies? Thanks..
Dan

You must have me confused with somebody else. Just today, two more
soldiers of ours KIA, and our forces involved in a firefight which
left ten Iraqi noncombatants dead. Tell me, how long will they love
us at this rate? How long before the patience of the average Iraqi
runs out? We are up against the clock friend. We didn't get into
this predicament by accident, we deliberately stepped in it.

Regards,

Grumpus

No wonder everyone is complaining about you two! I have been to
Canada lots of times and have never met anyone half as stupid as you
two.

Posting racial slurs and including your call signs?, what the heck did
you think would happen. Capital "L" loser....

October 21, 2003 The News & Observer
Progress trying out fast Internet

Jonathan B. Cox Staff Writer

Progress Energy might someday be more than a power company to its customers -- it might be the Web service provider, too. The Raleigh company is experimenting with technology that allows it to carry high-speed Internet traffic using a combination of electric lines and wireless links. It tested the service on about 25 computers at homes and businesses in the Wakefield area this spring and summer with success.

See what happens when you read Witch Hillary's book.....you get all gooey
inside....bring on that VAST RIGHTWING CONSPIRACY.

In a word ... balderdash.

Dan/W4NTI

Anybody with any brains knows Hillary didn't write that book anyway....

There is no way to remove racist posts by "Private" or "Larry". Sorry!

The "regulars" here have been using usenet for years, and do not have to speculate as to whether posts can be "removed" from usenet. They already know better.

Amazing how consistently ignorant the little "racist" group that has invaded this newsgroup is.

Sooner or later they will all take a hike, and we can get back to discussing amateur radio.

Charles Brabham, N5PVL

Oh, we gotta be shaking in our boots NOW! Haw Haw Hawr! :D

A bity of history on: Fighting Arabs

That reminds me of an interview that occurred back in 1967, right after the Israeli 6-day war. Israel had been attacked on all sides by a number of raghead states, who were determined to murder every Israeli man, woman, and child in Israel. ( According to the raghead newspapers of the time. )

Of course we all know what happened. Despite having almost no outside support, and with only a few obsolete old French aircraft, the Israelis thoroughly kicked every one of those ragheads countries' asses, taking some of their land from them instead, just to teach the uncivilized scum a little lesson.

Asked about his astounding success in mowing down thousands of screaming raghead fanatics with very few casualties ( sound familiar? ) , the Israeli general agreed to give the reporter the exclusive secret to his unprecedented military success...

"Fight Arabs." he said.

---

As for being called a "bigot" by an apologist for ragheads, I couldn't work up too much concern over that.

Historical note: Almost every african who was ever captured and sold in the americas to slavery was captured by arab slavers who had been infesting the congo basin for more than five hundred years. They were there centuries before the brief opening of the market for slaves in america, and were there long after it closed.

The arab slavers would typically take an entire village at a time, murdering anybody who was either strong enough to resist, or too weak to make the long walk on a long, heavy chain to market. Pregnant women and small children were typically murdered because they did not travel well. There is documented evidence of arab slave-raids in the congo basin going on as late as the mid-1950's. The great majority of the african natives captured over those centuries were of course used by the arabs themselves.

The progeny of the africans who were sent to the americas are living free lives in a free country today. As far as can be seen, there are no surviving progeny from the much greater number of africans who did not go to the americas but instead were used by the arabs. Perhaps this is so because

castration of slaves has always been a common practice among the arabs.

... So when an apologist for this uncivilized, backward and violent tribal culture calls me a "bigot", I can't help but smile at the irony there.

So the anonymous anti-american Trolls alternately whine and threaten, just like a coy dog.

(Yawn)

Charles Brabham, N5PVL

Amateur Radio Newsline™ Report 1368 – October 31 2003

---
---

A NOTE TO THOSE WHO ONLY “READ” AMATEUR RADIO NEWSLINE(tm)

For those of you who only know of the Amateur Radio Newsline (tm) as a text newsletter we would like to invite you to listen to the audio version. This Amateur Radio Newsline (tm) script is actually written for the “spoken word.” It is recorded each by professional broadcasters and is available for private listening or rebroadcast over your repeater. Two methods of delivery are available: FTP MP3 or dial-in telephone. Please visit our website at http://www.arnewsline.org for a list of telephone numbers (you have to pay your own long distance charges) and links to our voice newscast. Free FTP Downloads are available at our website by clicking on the newscast number at the top of the page.

Amateur Radio Newsline report number 1368 with a release date of Friday, October 31st 2003 to follow in 5-4-3-2-1.

The following is a Q-S-T. Ham radio comes to the rescue as southern California is swept by wildfires and a new Amateur Radio satellite will be launched early next year. Find out the details on Amateur Radio Newsline report number 1368 coming your way right now.

(Billboard Cart Here)

**

RESCUE RADIO: HAM RADIO AND THE SOCAL FIRES

From the Mexican border to the suburbs north of Los Angeles, large sections of the Southern California were under siege the past week. This, as ten major and several smaller wildfires blazed their way across the area.

Fanned by hot, dry Santa Ana winds gusting to 60 miles an hour, the wildfires dervored everything it their path. At least a eighteen people are dead and over 1500 homes and businesses have been destroyed. And as we go to air, well over 1 million acres have burned.

Gordon West, WB6NOA, has been at one of the busiest Red Cross evacuation centers for the past several days. He took time out to file this first hand report on how hams are aiding in fire relief efforts:

--
Audio report only. Hear it at www.arnewsline.org/quincy
--

As we go to air, ham radio operators continue their firefighting communications support efforts. More on their role in future Amateur Radio Newsline reports. (ARNewsline(tm))

**

RESCUE RADIO: KCOP REPORTS ON HAMS DOING FIRE DUTY

Los Angeles television station KCOP appears to be the only one so far to mention the role the role ham radio operators are playing in fighting the Southern California wildfires.

On Monday night October 27th, the stations 11 P.M. newscast showed video of a group of unidentified hams at their radios in the Los Angeles western suburb of Simi Valley. At the same time anchorman Rick Garcia read a brief synopsys of what the radio amateurs were doing. It explained how the hams could provide communications between the various relief agencies that could not speak directly with one another.

While short and simple, the report was well written, accurate and nicely done. KCOP is one of two Fox owned stations serving the Los Angeles area. (ARNewsline(tm))

**

RESCUE RADIO: CALIFORNIA WILDFIRES FROM SPACE

The wildfires that ravaged southern California were even impressive from space. Just before returning to Earth, NASA astronaut Ed Lu took photographs from 240 miles above the fires through the windows of the International Space Station. The photos taken on Sunday October 26th are on-line at www.spaceflight.nasa.gov/station. (NASA)

**

RADIO LAW: AUTHORITIES LOOKING FOR ALLEGED TOWER TERRORIST

Law enforcement authorities in northern California and southern Oregon are searching for a man seen tampering with electrical towers. This, as one official says that the incident smacks of being an act of domestic terrorism.

According to the CGC Communicator, the latest incident took place the week of October 20th just south of Redding California. It involved a heav-set man who used large wrenches to completely unbolt one leg of a four legged transmission tower.

Authorities say that he had half the bolts removed from a second leg when he was spotted and fled. Witnesses chased the suspect onto Interstate 5, where he

sped south into Tehama County and disappeared. As we go to air he is still at large.

According to a news release from the Federal Bureau of Investigation, the suspect is similar in description to a man seen removing bolts at another tower near Klamath Falls, Oregon earlier in the day. He is described as a white male, in his early 60's with long, blackish-gray hair and a salt-and-pepper beard.

More details on this story and the suspect are in cyberspace at: http://redding.com/top_stories/local/20031022toplo043.shtml (CGC Communicator)

**

Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world and this week recognizing the support of the Quarter Century Wireless Association and its chapters world-wide.

(5 sec pause here)

**

HAM RADIO IN SPACE: ECHO LAUNCH ANNOUNCED

Ham radio will soon have another new bird on orbit. This as AMSAT-North America announced that launch of the AMSAT OSCAR-E will take place on March 31st. Amateur Radio Newsline's Bruce Tennant, K6PZW, has more:

--

That's right. Some really good news on the ham radio space front. This, as word comes that the Echo ham radio microsat is now scheduled to launch on March 31, 2004.

Earlier plans had called for a May 2004 launch for the tiny bird. Echo Project team member Richard Hambly, W2GPS, reported at AMSAT-North America's Annual Meeting that the project has made significant progress in recent months. So much so that advancing the launch date was possible.

Echo is a fairly simple ham radio by todays standards. It has two UHF transmitters. Each one runs from 1 to 8 watts and the bird is capable of simultaneous operation. Also on board are four VHF receivers and a multiband, multimode receiver capable of operation on the 10 meters, 2 meter, 70 cm and 23 cm bands. This means all sorts of transmit and receive band combinations will be possible once the tiny ham-sat is in space. This includes PSK31 on a 10-meter SSB uplink.

Hambly says that the project team powered up the Echo flight hardware in late summer at Space Quest. Data communications, command and control, and attitude control subsystems were tested. Also checked out were the radio equipment, power systems and cabling. It all checked out and that's good news for hams waiting for this latest addition to its family of birds in space.

For the Amateur Radio Newsline, I’m Bruce Tennant, K6PZW, reporting.

--

A Russian rocket will carry the 10-inch-square satellite into a low-Earth orbit from the famed Baikonur Cosmodrome in Kazakhstan. (ANS)

**

PROPAGATION: ANOTHER CME AT SUNSPOT 486

More solar activity affecting ham radio. This, as one of the most powerful solar flares ever recorded erupted on the Sun the morning of October 28th.

It happened near giant sunspot 486. That’s the sunspot we reported on last week and this latest explosion hurled a coronal mass ejection or C-M-E directly toward Earth.

Based on the speed and recordings it was expected to to impact the Earth’s Magnetosphere at about 1500 U-T-C on October 29th. When it hit, the shock alone wold produce a G 3 level geomagnetic activity. A level high enough to produce bright auroras at high latitude sites such as Scandinavia, Alaska, and Canada.

As hams are well aware, a solar storm can fully disrupt communications on some bands while creating unexpected propagation on others. What this one is doing is still developing as we go to air. More on this story as the reports come in. (ASWLC)

**

DX DEBACLE: ANNABON ISLAND TEAM SPEAKS OUT

An update to the plight of the plight of the Dxpedition group forced to flea Annabon Island a few weeks ago. Jeramy Boot, G4NJH, is in Nottingham England with the rest of the story.

--

We reported two weeks ago that the 3C0V DXpedition to Annobon Island - off the west coast of Africa - had been forced to close down but at that time the reason for the enforced closure was not known. A press release has now been issued by the 3C0V team which says that all four operators - DJ9ZB, EA5YN, EA5FO and EA5BYP - are now back home safe and sound.

The press release says that each operator had proper individual licences and the group had written authorisation to import and operate amateur radio equipment on the island. However, on the 4th of October the military authorities there demanded that the group should dismantle the stations and leave for the Equatorial Guinea capital. Two days later DJ9ZB and EA5FO were allowed to leave the country but the other two team members remained in the capital until the 10th, when they were eventually able to return to Spain.

Jeramy Boot, G4NJH.

--

The complete press release is in cyberspace at www.tabarca.es.mn Wew will have more DX news later on in this weeks program. (GB2RS)

**

ENFORCEMENT: FCC WRITES TWO CITIES ABOUT INTERFERENCE TO THEIR HAMS

The FCC has contacted officials in two cities about interference to their local ham radio operators. The Agency’s Daryl Duckworth, NN0W, explains:

--

Duckworth: “The mayor of Lubbock Texas, along with copies to the Lubbock City Manager, the Lubbock City Attorney and Lubbock Power and Light have been sent a letter concerning interference to Brian Edwards, W5KFT. This interference, possibly from equipment operated by Lubbock Power and Light, dates back to 1998.

Along similar lines, the mayor of Gouverneur, New York, has a follow-up letter concerning the lack of response to a previous FCC notification of RFI to Morton Howard, W2ATO. The mayor has 15 days from receipt to reply.

This has been Daryl Duckworth, NN0W, reporting.”

--

Both mayors were invited to contact FCC Special Counsel Riley Hollingsworth if they have any questions concerning these matters. (FCC, RAIN)

**

ENFORCEMENT: FCC RAIDS SAN FRANCISCO UNLICENSED STATION

The Federal Communications Commission has raided the San Francisco couple's home and shut down an unlicensed radio station. The action removed Liberation Radio, a low-power alternative FM station that broadcasts political views and independent music programs from the airwaves.

The operation took place at the residence of Jim and Charlotte Hatch. The Hatch's had been told to take the station off the air before the raid. Their first warning came in July, when FCC investigators showed up at the couple's home and asked to inspect the equipment. They refused the FCC entry and were warned that they faced a potential $17,000 fine.

Instead, agents returned on Wednesday October 15th with a search warrant and more than a dozen federal marshals and confiscated the stations’ broadcast equipment. This included the transmitter, mixing console, computers, tape and CD players, turntables and even the rooftop antenna.

No charges have yet been filed against anyone associated with the station but further enforcement action is expected in this case. (Published news reports)

**

ENFORCEMENT: TEXAS FIRMS CITED FOR CB RADIO VIOLATIONS

The FCC has cited David P. Pace Jr of Nacogoches, Texas, for alleged violations of its rules dealing with the sale of 11 meter C-B gear. According to ther agency, Pace, doing business as Pacetronics and Pace Marketing was offering for sale more than three dozen types of non certificated CB transceivers under the guise of them being ham radio transceivers.

According to the ARRL Letter, the FCC evaluated similar radios and found that the devices at issue are not only amateur radios but can easily be altered for use as Citizens Band devices as well. The regulatory agency says that dual use CB and amateur radio gear cannot be certificated under its rules.

The FCC also warned Pace that its rules requires certification for external RF power amplifiers or amplifier kits capable of operation between 24 and 35 MHz. The FCC asked Pace to submit a written statement describing actions taken to correct the apparent violations. The FCC's Dallas office issued the citation. (ARRL)

COMMUNICATIONS CRIMES: FLORIDA MAN CONVICTED OF VIOLATING DMCA

A Boca Raton Florida man has been convicted of selling hardware to illegally tap into DirecTV satellite broadcasts. Following a four-day trial in federal court, a jury has found that Thomas Michael Whitehead guilty of one count of conspiracy, two counts of selling devices designed to unlawfully decrypt satellite television programming and three counts of violating the Digital Millennium Copyright Act.

The Digital Millennium Copyright Act is a 1998 federal law that makes it illegal to make or sell any technology designed to get around copy protection measures such as the electronic cards used by DirecTV to give consumers access to its programming. With his conviction, Whitehead becomes the first person to be found guilty by a jury under it. He faces a maximum sentence of 30 years in federal prison and up to up to $2.75 million in fines. (Published news reports)

BREAK 2

This is ham radio news for today’s radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

EMERGING TECHNOLOGY: GET READY FOR BOOK RFI

Remember those Radio Frequency I-D tags that are of such concern to ham radio? Well you will never guess where they are about to show up. Ken Butler, W1NNR, tells us:

--
The San Francisco Public Library's plans to track books by inserting an RFID

tag to each one. These are the same radio tags that hams tried to get the FCC to not deplioy earlier this year.

Now, library officials in the Bay area say that they will install the RFID's, into the roughly two million books, CDs and audio visual materials patrons can borrow. The system still needs funding and probably will not be ready for deployment until at least 2005.

--

So in a few years when you receive QRM to your ham radio operations, you might find that its coming from that novel you are reading late at night. (Science Today)

**

CONVENTIONS AND HAMFESTS: HAMVENTION 2004 WILL BE AT THE HARA

The Hamvention will remain at the HARA Arena through 2004. This, according to an announcement from the Dayton Amateur Radio Association which says that it has signed a one year contract that will keep Hamvention at the facility through next years outing.

The Hamvention planners are also looking for volunteers that want to help make Hambention 2004 a big success. To help gather support a new volunteer your services form is available at the Hamvention website. Its an on-line, fill in the blank form and you will find it at www.hamvention.org/volunteer.html. Just fill it out and the Hamvention folks will get back and let you know how you can assist.

The 53rd annual Hamvention will be held May 14th through the 16th, 2004, at the HARA Arena in the Dayton suburb of Trotwood Ohio. (DARA)

**

CONVENTIONS AND HAMFESTS: MICROWAVE MEET IN THE UK

Meantime, word that the Martlesham Microwave Round Table will take place on Saturday the 8th and Sunday the 9th of November. This, at the B-T Adastral Park, near the city of Ipswich in the United Kingdom. Featured will be a full program of talks and seminars including speakers from Europe and the United States along with a giant flea market. Full information is on-line at http://mmrt.homedns.org. There is no www in this URL address. (GB2RS)

**

ON THE AIR: THE 2003 SIX METER SPRINT

Last weekends 6 meter Sprint brought quite a bit of operation to the Magic Band. NEZ0P, one of the stations posting to the VHF Reflector says that he heard or contacted several semi rare stations for this time of the year. This included AA7J in grid DN-30, VE3CDP portable W9 in EM-58 and a couple of others. John adds that he held 34 Q-S-O's with stations in 25 grid squares during the short operating event. This included contacts into Maine, New Hampshire and Vermont. Not bad for a band that usually produces little

excitement at this time of year. (VHF eflector)

**

ON THE AIR: THE BAJA NET INVITES YOU

Berand Kirschner, WB0YCQ, reminds everyone that the The Baja Net meets daily at 08: 00 local California time on 7.238 Mhz. Kirschner describes the Baja Net as a friendly gathering spot for boaters. RV'ers and others who carry ham radio as they roam. (WB0YCQ)

**

DX

In D-X, word that ES1FB plans to be active as XW1FB. This, from Vientiane, Laos, threough the 4th of November. No word on times, frequencies or modes. (GB2RS)

Also on through November 4th will be K3BYV and N3CXM. They will are active as PZ5DX and PZ5JR respectively from Suriname. For both operations,. QSL as directed on the air. (GB2RS)

And GB50RAEN is on the air to celebrate the 50th anniversary of the founding of Raynet. Raynet is Great Britain'd equivlant of our ARES and RACES combined. The station is being operated by groups from West Midlands Raynet in the UK. (GB2RS)

Lastly, VK8NSB reports via Q-News that the Darwin Amateur Radio Club in Ausrtralia's Northern Territory will be operating a special event station to celebrate 25 years of self government. The station signing VI8NT will be on through the 31st of December. QSL directly to VK6NE or via the bureau. (Q-News)

**

THAT FINAL ITEM: ARNEWSLINE(tm) NAMES NT3V NEW CHAIR OF YHOTY COMMITTEE

And finally this week, we at the Amateur Radio Newsline are happy to announce the appointment of Mark Abramowicz, NT3V, as the new Chairman of our Young Ham of the Year Award Committee. Abramowicz replaces Larry Zettwoch, KR4IF, who served in that position the past 9 years.

For those of you not familiar with NT3V, Mark hails from Reading Pennsylvania, and happens to be the father of our 2002 Young Ham of the Year award recipient, Josh Abramowicz, KB3GWY. But Mark and Josh are not the only hams in the Abramowicz family. Mark's wife Suzanna is NZ3G and his daughter Amy holds the call sign KB3IJW. Only the two youngest members of the Amramowicz family -- sons Jonathan and Jordan are not licensed. At least not yet.

By profession, Mark is a news reporter and anchor at KYW radio in Philadelphia where he is known professionally as Mark Abrams. He is also is an adjunct professor at Temple University where he teaches writing for mass media and broadcast newswriting. And like his predecessor, Mark is very involved with the scouts and scouting program as are his two older children.

A very nice bio on Mark Anramowicz, NT3V, can be found at the KYW website. That U-R-L is http://www.kywam.com/staff/bios_detail.cfm?biosid=53 (ARNewsline(tm))

So your host kicked you off of their webserver, but you don't know why.

10. Most people stream video. You tried to stream a scat movie.
9. Your anonymous emailing didn't attract the kind of attention you wanted.
8. You shouldn't have tried to net cop that guy in Texas.
7. Free email doesn't mean you give away someone else's email.
6. Some people have chat rooms to trade stuff. You have a chat room to trade kiddie photos.
5. Your naked pictures of yourself turned out to be naked pictures of Lloyd Davies.
4. Your news about criminal records turned out to be news you made up.
3. Who knew someone would actually complain about your foul mouth?
2. All those gay porn photos you shared turned out to be copyrighted.
1. Chief Stenger paid you a visit when you opened the little boys locker room hidden cam web page.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations. As always, you never know - "Work First Worry Later" (WFWL).

3B8, MAURITIUS (Also FR5). Jose, ON4LAC, is now active as 3B8/ON4LAC until November 23rd. His activity has been mainly on 20/15 meters on SSB and PSK, but is expected to be active on RTTY also. He will leave 3B8 and head to Reunion Island (FR5) to be active as FR5/ON4LAC during the period of November 26th and December 15th. After this activity, Jose will head back to Mauritius and will be active again between December

17th and 27th. QSL via his home callsign.

3B8 & 3B9, MAURITIUS AND RODRIGUES ISLAND. Operators Hans/PA0VHA and Jack/PA3BAG are expected to be active this week as 3B8/homecall from Mauritius (AF-049) November 3-9th and again between November 15-24th. Activity should be on all bands (including the WARC bands) with Hans operating on RTTY and Jack on SSB. Look for these operators to be active from Rodrigues Island (AF-017) between November 10-14th as 3B9/homecall. Please note that operators will be with their XYLs and are on vacation, so radio activity will be limited. Most of their activity will be between 1200-1700z and after 1800z. QSL via PA0VHA. Hans also suggests to visit their club's home page at: http://www.pi4cc.nl

3B8, MAURITIUS. As you can see, this island will be very active during the month of November. Look for Willy, ON5AX, to be active as 3B8/ON5AX between November 6-15th. His activity will be on CS/SSB. QSL via ON5AX.

3DA0, SWAZILAND. Frosty, K5LBU, announced that he will be going here next March and is looking for several operators to tag along. His plans include a trip through the Kruger Game Park. If interested, contact him at: frosty1@pdq.net

6W, SENEGAL. Karel, ON5TN, will be active from Toubacouta as 6W/ON5TN between November 7-18th. His activity is planned for 40-10 meters; main mode CW and some SSB. QSL via his home callsign. His home page with an online log search is at: http://users.pandora.be/on5tn

9M6, EAST MALAYSIA. Bob, N2OO, (who was recently part of the BQ9P team) is now active from Sabah as 9M6OO until about November 11th. He has been active on all bands. However, he mentions that they are having a serious line noise problem there which has caused him to concentrate on the bands with the least amount of noise. He states, "Usually 28 and 24 MHz are very clean so I have worked USA mostly there. Unfortunately, the noise peaks to the north on 15 and 20 meters so those bands to USA are MOST difficult and I have avoided them. I am able to work Europe on 14 MHz as I can turn the beam slightly away from the line noise source. Low bands have been even more difficult. I have experimented with a beverage with no luck at all. So, will have to keep this itinerary until the noise is fixed. Prospect of that happening soon are slim..... The best time to locate me on 24 and 28 MHz is around 2200-0100z. Peak seems to be around 2330z +/-." Bob mentions that he has set up a couple of basic photo album Web pages for both portions of this trip (Pratas and 9M6) at: http://www.qsl.net/n2oo

BOOK AVAILABLE ABOUT CY9!. Al, VE1AL, informs: "For those few who have spent a few days on a DXpedition to St. Paul Is. (CY9) and know how ruggedly beautiful it is there, and for those who would be interested in the island from the perspective of someone who grew up there, I would suggest a new book by Bill Budge, VE1AAO. Bill grew up on the island." Bill can be reached at: VE1AAO@ns.sympatico.ca
His book is "Memoirs of a Lightkeeper's Son - Life on St. Paul Island."

DXCC NEWS (Clarification). Last week's bulletin reported that Wolfgang, OE1WEU, informed OPDX and readers that YI9OM QSLs are being rejected (Reason indicated: No Documentation Received). This past week "The Daily DX" reported that Wayne, N7NG, at the DXCC Desk states, "QSL cards for YI9OM are good for DXCC through November 30, 2002. QSOs after that date were not made from by the original licensee and therefore do not count for DXCC." ADDED NOTE: Bernie and "The Daily DX" also report that QSL cards for 7Z1SJ and HZ1MD currently do not count for DXCC as the DXCC Desk is waiting for documentation. Also, David Chen, BA4RF, informs OPDX that his YA/DL5NAV and OJ0/OE1ZKC QSLs were rejected. Reason indicated: No Documentation Received.

EA8, CANARY ISLANDS. Operators Erwin/DL1DX, Heinz/DJ1OJ and Sigi/DL6QW will be active as EA8AX during the CQ World Wide DX CW Contest (November 29-30th). Their operating class is not yet determined. QSL via the bureau.

ET, ETHIOPIA. Peter, ET3BN, has been active on 20/15/12/10 meters CW over the past week and weekend. Activity seems to take place between 1100-1630z. QSL via DL1JRC.

FR/E, EUROPA (Update and Changes). It seems the dates on the upcoming operations to Europa have been changed, but for the better. The team of five to eight operators will be active a little longer than previously announced. The team will be on Europa between November 24th through December 15th. They will use a French navy ship to get to Europa and also return. On the return trip they will head to Reunion Island. The callsigns they requested are TO4E for the main operation and TO4WW for the CQWW CW Contest. They plan to have 3 stations on the air. Donations can be sent via F5OGL.

FS, FRENCH ST. MARTIN. Ann/W2AZK and Brian/KF2HC return to French St. Martin with Gene/K2KJI, Mary Ann/K2RVH, Captain Bob/W5GJ and Mike/WA2VUN from December 3-10th. The group plans to have 2 stations on 160-6 meters CW/SSB/PSK31. They hope to add to their operation satellite activity and a 6m beacon prior to departure from the island. Captain Bob and Brian will participate in the ARRL 160m Contest that weekend using the callsign FS/W2JJ. All other times operators will sign FS/homecall. QSL to the callsign worked direct or via the bureau. QSOs with Ann and Brian are good towards the North Jersey DX Association's "NJDXA Award". See the following Web page for details at: http://www.njdxa.org/

FT1Z, AMSTERDAM ISLAND. Jean-Louis, F6AGR, from AMSAT-France, reports that Sebastien, who got his ham license October 31st, will be active for one year (2004) on AO-40 (and LEOs) from Amsterdam Island (FT1Z, Grid Locator MF81TX). He also plans to be active on 50 MHz, and on HF as soon as the French laws permit (he has a no-code license). AMSAT-France is actively preparing his SAT hardware (dish, 2.4 GHz converter, yagi, etc which have to be as light as possible), providing training and will handle QSL cards.

IOTA NEWS.....
AS-008. Operators 7N1NAI and JQ1QFO were expected to be active as homecall/1 from Mikura Island this past weekend. QSL to their home callsigns via the bureau or direct.

EU-123. Weather permitting, Peter, GM3OFT/P, was expected to operate SSB from the Isles of Fleet (SF-03 for IOSA) between 1200z on November 1st until about 1500z on November 2nd.

J3, GRENADA. Ann, WA1S, will be active as J38AA (expected license renewal) in the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/All Band/Low Power entry. Ann informs OPDX that she will arrive late November 20th and stay until December 1st. Activity outside of the contest will be on 160-10 meters but will primarily concentrate on the WARC bands. The mode will mainly be CW, but she will do some SSB. QSL via her home callsign WA1S.

KH2, GUAM. Setsu/JL1UXH/KK2H and his XYL Maki/7L4FSR will be on the air from November 12-16th as KK2H/KH2. He states, "Not a rare entity though we will focus on EU and USA east coast." Activity will be on all HF bands CW/SSB. Setsu states, "Sorry, no RTTY/SSTV this time. This is rather a DX Vacation, not a DXpedition HI..." An online log will be available during the operation and will update on daily bases at: http://kk2h.4th.jp QSL via JL1UXH via bureau or direct. Please do not send anything to the U.S. address of KK2H.

LX, LUXEMBOURG. Operators Philippe/LX2AJ, Jorgen/DL4SDW, Uwe/DL4SDX, DL5SEJ and Bernd/DL8SCG will be active as LX7I in the CQ World Wide DX CW Contest (November 29-30th) as a Multi-Single entry. QSL via LX2AJ (Bureau).

OH0, ALAND ISLAND. Ari, OH5DX (ex-OH1EH), will be active as OH0Z in the ARRL 160 Meter Contest. Operating class is not yet determined. QSL via OH5DX.

OOOPPPSSS DEPARTMENT!!! In OPDX.632 under "NCDXA 2004 OFFICERS", OPDX received and reported the wrong callsign for Terry Hines. His callsign should be N4ZH (NOT N2ZH as reported).

QSL INFO AND NEWS.....
Vicente, EA5YN, reports that the complete 3C0V log (SSB,CW,RTTY, PSK) is now available at: http://www.tabarca.es.mn
Also, a direct link is available at:
http://personal.telefonica.terra.es/web/ea5yn/3c0lo.htm

Leon, K2EWB, reports that he is no longer the QSL Manager for AP2JZB. All current requests have been answered. New requests should go to the QRZ.com address for AP2JZB.

It was announced this past week that the BQ9P logs are now available online at: http://www3.ocn.ne.jp/~iota/newpage64.htm
Also, QSL Manager Steve, KU9C, has sent out the following press release:
"Now that it's noted that the log search for BQ9P 2003 is up and running, let me remind/share with you what will help to get your QSL back more quickly:
-if you notice a difference between your log and the log on line, NOTE IT IN WRITING and send with your QSL request. Please avoid sending me or the team members an email, it's much more orderly and efficient to deal with this in the process of checking the logs against QSL cards received.

-send to me ONLY your request for BQ9P 2003. If you add other years of BQ9P in, or other calls I manage, it will slow your return SUBSTANTIALLY. It amazes me how many folks will try to stuff as many calls in as they can for me, and then wonder why their return takes a long time. Rule of thumb, at least 2 months per call beyond the first one....just the facts of life. Sometimes longer, sometimes sooner, depends on the call, how quickly I research that log, and a host of other items."

Steve will send out a press release when the cards start going out. He states, "I've got the log....I'll be able to predict mailing once the QSL card is put to bed.. If you care to donate to this operation, I will forward donations received with the QSL cards to the team. As a note of interest, the costs of this DXpedition were budgeted at approximately 8000 USD, and this does not include the cost of the operators getting to Taiwan. The costs overran somewhat, due to the typhoon, and a need to juggle aircraft to get to the island. All but about 1200 USD of this amount was funded by the operating team..... Thanks es 73 Steve KU9C"

QSL HC1HC (operator Alfredo) was active in last week's CQWW SSB Contest via NE8Z.

Paul, W8AEF, reports that the following logs have been uploaded to the LookBook of The World (LoTW): XZ0A (2000), XZ1N (1998), TU5A (1996) and FO8DX (1997).

The PZ5A contest logs are now available on the Web site at: http://www.mdxa.org/pz_2003.html

MORE QSL routes for the 2003 CQWW SSB DX Contest are available via the following Web page at: http://www.arrakis.es/~ea5eyj

Please QSL the following "Team Antigua Members" via these routes "DIRECT ONLY PLEASE":
V26B via WT3Q V26KEN via N2KEN
V26EM via W2SN V26R via KA2AEV
V26G via N2ED V26U via W2UDT
V26OC via N3OC Direct only

QSL Manager Bill, VK4FW, informs OPDX and its readers to please note the new address for all correspondance effective immediately: Bill Horner, PO Box 513, Nambour 4560, Australia.

Alex, YO9HP, was active from Oman as A45WD in last week's CQWW SSB Contest. QSL via YO9HP.

USI NEWS. Look for members of the Sandusky Radio Club, W8LBZ, to be active November 7-9th from Kelley's Island (USI OH-001L) located in Lake Erie, Erie county, Ohio. Activity will be on 40 and 20 meters, mostly SSB, using the club callsign. QSL via the bureau for DX stations or direct (with SASE) to: Sandusky Radio Experimental League, Inc., 2909 West Perkins Ave., Sandusky, Ohio 44870, USA.

V26, ANTIGUA. Paul/WY7I and Steve/K7LXC will be active as V26DX during the CQWW CW DX Contest as a Multi-Single entry. They will be there between November 28th and December 1st. They will be operating on all bands CW.

V31, BELIZE. Rumen, LZ1MS, informs OPDX that he has been active as V31LZ since mid August this year. He is a visiting Professor during this academic year (August 2003-April 2004) at the newly established Galen University in San Ignacio, Cayo district. He is using TS-870S (100w) and a trap vertical antenna 14 AVQ Hy-Gain on 40/20/15/10 meters. Rumen is active mainly on CW but there is some activity on SSB as well. He prefers the DX frequencies +/- QRM, the only exception is the 40m band where he prefers the lower end of the band. QSL via his son, Vasco Gechev, LZ3RZ: P.O. Box # 1, 1756 Sofia, BULGARIA.

VK9C, COCOS-KEELING ISLAND. Hisashi/JA1KJW and Kunio/JA8VE will be active as VK9CJ and VK9CV, respectively, between November 27th and December 7th. Activity will be on 160-10 meters CW/SSB/RTTY. Look for them to also be active in the CQ World Wide DX CW Contest (November 29-30th) as VK9CJ. QSL via JA1KJW.

VK9X, CHRISTMAS ISLAND. Charlie, W0YG, is now active as VK9XG unitl November 8th. As mentioned in earlier bulletins, Charlie's main priorities will be the low bands on CW (particularly 160/80 meters) plus some digital modes activity on the HF bands. For 80 meters, watch around 3506 kHz starting about 1045z and again at 2130z. Watch 20/15 meters for CW and RTTY activity at other times. Bernd, DF3CB, is reportedly providing online logs and will be uploading them regularly to the VK9XG Web site at: http://www.df3cb.com/vk9xg/

WEB SITE URL CHANGE. John, K3WWP, informs OPDX that his Web site (K3WWP's Ham Radio Activities) has had its URL changed. John's Web page (now in its eighth year of operation) includes the following:
DX QSL Routes ** Operating Tips
QRP Rigs Info ** CW Contest Calendar
Daily Propagation Info ** Your CW Stories
Teens and CW ** Monthly polls
Categorized Quality Links ** MUCH MORE
Please visit John's Web page at: http://home.alltel.net/johnshan/

WP4, PUERTO RICO. Daniel, WP4F, will be active in the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/Single Band (40M) entry. QSL via WP4F.

XU, CAMBODIA. Peter, NO2R, has received his callsign/license and will be active as XU7ACY from Sihanoukville, January 5-12th. Activity will be on 160/80/40 meters exclusively. QSL via K2NJ.

ZK3, TOKELAU. Silvano, I2YSB, informs OPDX that he, Flaviano/I2MOV, Carlo/ IK1AOD and Marcello/IK2DIA will be active from here beginning February 13th and ending February 25th. Activity will be on 160-6 meters CW/SSB and possibly RTTY. The team is looking for your input on your needs and wants from Tokelau, and a survey is available at their Web site at: http://www.qsl.net/i2ysb

QSL Manager for DIRECT cards go via I2YSB. QSL Manager for BUREAU cards
go via IK2DIA.

What can one expect to get for a Icom 706 in good shape
and an alinco DR-570 in fair shape.? Both units work great.
Thanks,

Brian, KG7PD
near Seattle, WA.

## 3879. Taps for Tolassi

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-03 04:55:37 UTC
From: LRod@removethispartpobox.com
Message-ID: <3fa5de38.724421638@newsgroups.bellsouth.net>
Source record: 61799

According to the FCC Enforcement Log on the Rain Report, David Tolassi, formerly KC1ZQ (until he became maybe the first and only ham to ever get downgraded as a result of a retest) and KB1EVE, has been formally popped and is no longer licensed to transmit on ham radio.

I can't say he'll be missed, but I must not have heard the stuff he did to get that action. All I heard was his smarmy, self-important, pot stirring that would have irritated Ghandi.

Granted, I often suspected some of the music playing to be him, because it frequently was the same signal strength, same propagation artifacts, and same general location as he was when he was on before or after.

I wonder what the real story is. Maybe the music was it.

HELLO THERE .
does anyone know where i can obtain a manual
for my tri-turbo standard c710 tri-band handheld
i have searched the net over and over again
and cannot find anything useful .

pdf, scanned copy , photocopy , online , offline ,
anything at all welcome .

any bits of info would be useful
hope to hear from you soon

cheers
De Paul

> You guys were burning up the bands from what I heard here.

Conditions were pretty rough here. With the high A-index (100+), then an early AM solar flare creaming us, conditions seemed to be a bastard mix of "peak of the solar cycle" but modified by high absorption. The higher bands (10 & 15) were extremely long, so we sat here in the middle while the east coast worked the west coast with big signals and we could barely tell they were on the band. Unless you were south of about 43-degrees latitude, you also had to contend with the expanded auroral zone and resulting tough conditions on the lower bands, especially 75M. The result is that around here we were in a propagation black hole, and pretty much were squeezed into 20 and 40M bands. Most MWA scores look to be down about 20%.

Are they afraid to use a real name or callsign?

Afraid they may get sued for libel?

I wish we could get all these anonymous remailers shut down. I'm sure they have some good uses, but people like Wiseman use them to harrass people. And it's gonna catch up with him. Sooner the better!!!

About 11.30 central a flare glanced off the Earth (Sunday). The whole band
(s) died. But not for long..

I put in about 12 hours. Got a bit over 500 qso's and missed SFL, YT,
Alaska, North Dakota, oh well. Can't have a clean sweep every year.

Good hearing you two. Sorry I missed the rest of ya.

Dan/W4NTI

## 3895. Marky Waldron's whines to system admins go to dev/null

Yeah, hear LARDASS Lloyd answer questions with the personality of a zombie. Hear LARDASS Lloyd admit he moved to Athens, Alabama to atend college, but it didn't work out, and he ran out of funds, but he was too fucking stupid to apply for a PELL GRANT, which would enable him to continue. He must've flunked out that first freshman semester. Hear him say that he is happy to be an obese fat fuck, and can't get a woman. Hear him say he's happy, and satisfied to being a pizza delivery boy.

HAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHA!!!!!

He was popped for getting on 14.275 and saying a certain South Florida
amateur was a 'porn star', and other things.

Several tapes were made and properly forwarded.

It only took him ten years to shoot himself down.

I`m looking good source to buy Motorola radio parts:

- flat cables
- speakers + mic
- keypads
- displays
- buttons etc...

Thanks for any help,

Two easy places to start:
Go to google.com and do a newsgroup search in rec.radio.swap.
Check ebay completed auctions.

73,
Jim

Another person who is nostalgic about the 9-11 attack, who wants to see the "action" moved back here in the U.S., instead of remaining over there in Iraq.

The children and other innocent people who were vaporised in the twin towers do not count, I suppose. Brenda Ann wants us to pull our troops out so that we can have more of that action here in the U.S...

I'll have to disagree with that kind of thinking. Sorry, Brenda Ann!

Charlers Brabham, N5PVL

Thanks for the link Alan. I was aware of Zogby's poll, but I hadn't seen his summary of the findings. Not too much cause for comfort if you ask me, and these results were from a poll conducted in August before the dire events of recent months. I sure hope Zogby follows up with more current data.

I think what the Iraqi people are telling Zogby is that the coalition should leave Iraq to the Iraqis. They do not want Saddam's jackboot replaced with the yolk of occupation, however benevolent our intentions may seem to be. They don't want a theocracy, nor a secular democracy. Least of all do they wish a government imposed upon them by a governing council handpicked by overlords. What they want most of all is the departure of foreign troops.

The choices confronting us are not attractive. If we leave prematurely Iraq almost certainly will descend into chaos and civil war. The likely outcome of this eventuality is the de facto partition of Iraq into three parts, a Kurdish state in the north, a Sunni entity in the middle, and a Shiaah state in the south with close ties to Iran. This outcome will immeasurably heighten tensions in the region if civil war doesn't lead to regionalized conflict first. Saddam, brutal and evil though he was, at least kept the lid on this pot.

On the other hand, if we stay, our troubles likely will increase. As it would be political suicide for Bush to increase our presence on the ground, something the Democrats just now are trying to goad him to do, we will have to make do with current force levels, and they are insufficient. There is no possibility to send more American troops until the election is over. And I will bet that whichever party takes power in 2004, no matter what they say to get elected, that party will send more troops, not bring them home.

The wild card is how much longer the American public will tolerate 300 soldiers KIA and 2000 wounded (read maimed) every six months, not to mention the exorbitant financial costs of occupation. I suspect that patience is beginning to run out, but that it is not yet exhausted. That may not happen until another administration has tried and failed to manage the occupation. I do believe that by then we will have a mandate to do the right thing and bring the troops home.

Regards,

Grumpus

You're putting words into my mouth, Charles. I said nothing of the sort.
It's (unfortunately) far too late to pull our troops out of Iraq, the course
must be stayed... what I have a problem with is Mr. Rumsfelds lassaiz-faire
attitude that our troops must die...

And, for the last and final time, Iraq and Saddam Hussein had nothing to do
with 9/11.. even Bush has admitted to this now.. get over it.

Outside of the States?

Whatever hamfest (ham radio swap meets) are local to you.

Alternatively, you could contact Motorola directly. I'm sure they
have an office in your part of the world.

He was nothing but a shit-stirring goofball from day #1 when
he showed up on 20 Meters Years ago. Glad to hear he's
now gone. Hopefully they'll get the "sothern half" of the pot-stirring
20M twosome cabal down in Ga next. He's nothing but a carbon-copy
of the now ex-goofball from Me.

He was popped for getting on 14.275 and saying a certain South Florida
amateur was a 'porn star', and other things.

Several tapes were made and properly forwarded.

It only took him ten years to shoot himself down.

Dan/W4NTI

\\\\\\\\\\\

Suffice it to say that Mr. Tolassi will hardly be missed.
David has a natural talent for grating upon the nerve endings of most Ham
Operators...he was fully aware of that and he played it to the hilt.
David was being "tolerated" until he went over the hill with his comments.

His refusal to answer Riley Hollingsworth's queries were his downfall.
Riley contacted him numerous times via email and messages to his answering machine. David, ever the idiot, ignored Riley's attempts at communication.
David once commented on the air, "How do I, uh, know that the person on my answering machine is, uh, Riley Hollingsworth?".
Looks like David, UH, found out, didn't he?

David? Are you listening? Uh, where did your Ham license go?

Slurp his ass some more, 30 year old VIRGIN. You can just slit your wrists, now, depression boy. You know you want to, you have a dead end job, can't get a woman, you cozy up to a known pedophile on Nim Busters.

Of all the audacity! You, a momma's boy living in an inherited house you never worked one day for. You, a milquetoast full-time student with no job, no wife, no future, no nothing.
You, the bold-faced liar who has not had a full-time job or a REAL woman....
You...the manic depressant psycho...the one on meds.

You, Roger, have no right tossing stones at others, especially in light of your history of being placed into area mental health facilities.
You have mental problems. This is apparent...now get off those porno sites....
You, Roger, are one sick dude.
I pity you.

==========

While Roger is making claims of being so "literate", allow me to post a
compilation of his misspelled words over the last two years. Roger, you see,
is less than intelligent.

Appropiate What kind of opiate?

Laywer Lay what?

Experience What?

Visitpors You never have any, ergo you don t know how to spell it.

�It's "complaintant," you sniveling weasel.� (Roger Wiseman on spelling complainant.)

�Irreevant� Good going, Wogie.

�Forwared� Forward HO!

�Glady� Glad Bags?

�Neighborhod� It�s a wonderful day in Wogie�s neighborhood.

�Mena� Mean? What you mean, Wogie?

�Notr� Not?

�Sassifyed� ALA Rolling Stones�No Sassifaction..

�Fantasises� That is �fantasizes�, Wussman.

�Illarate� West BY GOD Virginny!

�Reveresed� Must be one of those off-brand keyboards.

�Soem��as in Some? What a losser.

�VIRIN��What Wogie was before he met the Lavender Lads.

�Minisule��he mussa meant miniscule. Like his IQ.

�Champoin��Whassup, Wiseman? No dictionaries in the mental ward?

"Anoinymous"...a cross between anonymous and annoying?

�Acident� Roger�s mom got preggers by accident.

�Alreaedy� Alright, already!

�Amouints� Roger amounts to nothing.

�Aposterphe� This guy is a hoot, ain�t he?

"Basios"...word Woger uses when he gets neeeerrrrvous.
"Behing"...a cross between being and behind?

�Coiward� As in peeking from behind his mommy�s curtains.
"Feamle"...I think he meant female.
"Losser"...only loser Roger can do it better.
"Ignroant"...typical, considering the source.
"Sluprs"...only Rogie knows what this means.
"Travelled"...a Rogerism, replete with ignorance.
"Postss"...pssst...Roger..that should be Posts.
"Defgenerate"...well, it's Roger's word...
"Faity"...he meant to say Fairy, but you know Roger.

�Ghet� Get a load of Curtain Boy!
"Distribiution"...Roger likes using phonics.
"Biotch"...he meant Bitch, but his phonics took over again.

"Methjadone"...a West Virginia substitute for Heroin.
"Sumbliminal"...one of Roger's favorites.
"Recepticle"...either of Roger's moist cavaties.
"Cociane"...a West Virginia drug of choice?
"Tiome"...Roger meant to say Time...but his fingers were numb.
"Beraking"...no definition. Could mean 'beraking' the leaves,
"Amny"...he meant 'any',
"Nlay"...a town in Maylaysia? Vermont?
"Al;ong"...only Wussman knows what this means.
"Becasu"...well, becasu Roger is not the brightest bulb on the tree.
"Seperation". Why? Because Roger cannot "seperate" from his mommie!
�Sisnce� He meant Since, but his pudgy little fingers slipped off the keys.
"gnetically" What?
"provce" (prove?)
"Piuzza" (West Virginia Pizza)
"Schol" (school?)
"strill" (still?)
�shoitgun� 12 ga or 20 ga?
"Snoip" (How they spell �snip� in Glen Dale)
"Maturbater". Wiseman does it all the time, he just can�t spell it.(leaves a sticky residue on his right hand)
"Coskscuking". It�s a Roger thing, as in Lavender Lads.
"Waddleing". Only in Glen Dale, eh?
"Spaeaking". Curtain Boy did this after his second retest.

� Stgop� Roger�s version of Stop.

�Fahter's� He meant Father�s Day.

�fserting�..would that be festering?

�poists�. Roger meant �posts�.

�snadwich� As in peanut butter and jelly?

�regualr� Glen Dale rendition of �regular�.

�aftrer� After? Aftrer what?

�soory�. Sorry Roger fucks up again.

�didnb't� He didn�t?

�whoile�. He ate the whoile thing?

�Woamn� He�s hooked on West Virginia phonics, all right.

�prrof� And he kin prove it, too.

�beforfe� Was that before he lurned to spell?

�yoiuy� Roger�s version of �y�all�.

�illerate� Only illiterate Roger can spell like this.

�haeart� Aw, how heartless of me to laugh!

�valule� Roger has no values. No wonder he can�t spell it.

�proch� Doesn�t everyone have one on their house?

�inmstitution� Where Roger�s mom put him in June 1999.

�timne� It�s Howdy Doody time?

�whgo� What? Who dat?

�gnetically� Only Roger knows what this one means�

�crfy� Like, cry, Roger, cry.

�stutrtering� Some stutter, Wiseman stutrters.

�Whjere� Where is Curtain Boy?

�Webiste� That�s Website to the rest of us.

�Youire� Your? You�re? Who knows.

�fiored� As in fired?

�Parety� Roger gave a party once. Nobody came.

�Bouynce� Bounce?

�Varification� Verifiable mental case.

�Probelms� Poor Rogie�has many problems of the mental sort.

�Partricipate� Oh, DUH!!!!

�Cryed� Gee, Wogie..cry me a river�you dolt!

�Stoick� What a dork. His old 386 has no spell check program.

�Partiall� More WV Phonics, I see.

�Obsucred� Either obscured or Rogie has �sucre� on his mind.

�Infinate� Stupid. Think finite, Rogie.

�Sustinance� As in Sustenance?

�Juvinile�. This is the way Roger likes his boys.

�Piut� Put it where, Rogie?

�Toyus�. �Toyus R Us?

�Diminuative�. Roger�s height.

�Definitely� Definitely

�Percriptions� Say what?

�Credibiliy� More Glen Dale intellect.

�Thsoe� Yet another Glen Dale gaffe.

Last I knew, unless the Republican oriented college that I went to was
wrong, that on the political spectrum, the Libertarian party was more to the
right than republicans.....

>
> Not as extreme as the "Right Wing" [Ultra-Conservative Christian]
> segment of the Republican Party.

Religious affiliation does not necessarily mean right wing.... I am sure
there are some Jews and people of other religions that think "more to the
right" as well.

>
> Or, not as extreme as the "Left Wing" [Socialist Secularist
> Anti-Religion] segment of the Democrat Party.

Not to defend them, but I believe that some of them at least believe that
just because one is of, say for instance, the christian faith, that thier
own religion is not wromg, even if it does not align with the christian
faith.

>
> Even these extremes from both ends of the political spectrum to some
> degree 'believe in basic human rights': Although their definition of

> what those 'basic human rights' mite be, would vary on a point or two.

Probably..... And I am quite sure that alot of people would fit in a few different places on the political spectrum, assuming and thinking the spectrum is a flat straight line going left and right..... (for linear thinkers)

> must be stayed... what I have a problem with is Mr. Rumsfelds lassaiz-faire
> attitude that our troops must die...

Mr. Rumsfelds' attitude is the correct one, Brenda Ann. Obviously you have no clue about why a senior commander would speak that way and blame your failure to understand on poor Mr. Rumsfeld. This is unfair, because most adults are very clear on why there will be casualties when our troops deal with dangerous situations.

Remember that if Mr. Rumsfeld talked down to the lowest common denominator, defense department briefs would sound like you had accidently tuned into "Sesame Street". Mr. Rumsfeld speaks out as an adult, to adults. To understand him, you'll have to grow up and be a big girl.

>
> And, for the last and final time, Iraq and Saddam Hussein had nothing to do
> with 9/11.. even Bush has admitted to this now.. get over it.

Get over what? The 9-11/Iraq "connection" was brought to us by a liberal political commentator who works for the NY Times a year or so ago, as a straw-man to attack when he had nothing legitimate to complain about. On the other hand, the Iraq/terrorist connection, including correspondence and regular meetings with with Bin Laden have been proven multiple times. I suppose that you can hang onto your bogus view by sticking your head into the sand if you want to, but after all of this time, it would probably be best if you just get over it.

Fortunately, your opinions have no effect whatsoever on anything that will be done in connection with planning the war in Iraq, so if you are most

comfortable believing that it's all just the "vast right-wing conspiracy" causing all this trouble for oil money, and that the vile, underhanded raghead terrorists are just innocent "freedom fighters", you are welcome to be just as ridiculous as you want to be.

When you talk anti-american bullcrap that directly endangers our troops by encouraging and giving comfort to the people who are trying to kill them, guys like me will slap you down for being the kind of fool who gets people killed with thier ignorant comments.

Saddam and OBL just didn't become threats to civilization the moment
9/11 happend. Liberals in this country and around the world, and the
United Nations were too busy going ga-ga over their respective Liberal
socialist leaders each of which didn't give a damn for 12 years.

What Bush is doing is taking care of all the foreign policy cans
Klintoon kicked down the road while he was President of these The
United States of America. I know this tears at Liberals, and the 9
Democrat Presidential wannabe's. They had their chances, and they
ignored the threats.

There is a growing mindset in this country, most particularly the
pacifist left, that we should become an isolationist nation. LOL

Good grief. Like that will ever stop terrorists in their tracks.

> Of all the audacity!

Fix your newsreader, asshole. By the way, LARDASS cozys up to a known pedophile on Nim Busters, Steve Holsten.

> You, a momma's boy living in an inherited house you never worked one day for.

Wrong again, but that's how it was set up, so morons like you who research me because you are in love with me would think I didn't work for it.
And what about W4NTI, he lived with his mom when she was sick and needed him, but I don't se you commenting about that. I guess you aren't a real man, becasuse that's what real men do, for their families. You must really be hurting that your family disowned you.

> You, a milquetoast

You don't know what words mean, do you? No, Arf!Arf! the milquetoast hides behind Altopia, you don't.

> full-time student

Wrong, I graduated, unlike you, who couldn't hack one semester in their freshman year.

> with no job,

Wrong again.

> no wife,

Already had one.

> no future, no nothing.

HAHAHAHAHAH.. I have money in the bank and everything you don't, HUD apartment boy.

> You, the bold-faced liar who has not had a full-time job or a REAL woman....

I've worked since I was 15 years old, moron. Unlike you I can hold a job. I've probably had more women than you did, since you've not had the first one.

> You...the manic depressant psycho...the one on meds.

I am? Prove it. I could tell you anyhing and you'd believe it.

> You, Roger, have no right tossing stones at others,

But, Arf!Arf! you have a history of tossing off little underaged boys in public restrooms.

> especially in light of
> your history of being placed into area mental health facilities.

I was? prove it. Afraid you need to get better "intelligence information," or at least some form of intelligence because I have never been in a mental institution. But I hear that you were placed in one by court order. You have such a long criminal record, too.

> You have mental problems.

I do? And your degree in medicine or psychology is from where? Or are you just a 30 year old pizza delivery boy like LARDASS Lloyd? Are you practicing medice without a license, that won't look good for you when the Federal agaents come scan your hard drive for kiddie porn.

> This is apparent...

The only thing is apparent is that you are a fucking moron.

>now get off those porno sites....

Whya re you afraid of porno sites, so does the thought of seeing a real pussy frighten you, gay boy?

> You, Roger, are one sick dude.

Mehe.... this coming from the drug addict who blubbered:

Perennial "Loser" Arf!Arf! spell lames but falls on his fatass
in <bm5ctb$5nl$0@pita.alt.net>:
"What a losser."

The empty "cavity" that is Arf!Arf!'s skull fucks up again
in <bm5ctb$5nl$0@pita.alt.net>:
"either of Roger's moist cavaties."

"Arf! Arf!" <Doggie Dicksucker@Liberal.comz> vomited the following Ebonics in message news:9i6hai$5h9$0@pita.alt.net...
"Here we go, Rog. I be posting at three a.m."

Arf Arf shows his excitement when he lets underage boys give him head
behind the pink curtains in his rented HUD apartment

in <a42sr2$soe$0@dosa.alt.net>:
"Curtian Boy"

> I pity you.

Pity yourself more, 30 year old VIRGIN.

Considering that the Democrats have said time and time again through
stump speeches and Non-Debates, they want to cut and run, I don't see
how they will succeed in unseating Bush. Their job just got harder
now that positive economic numbers have been coming out lately.

IMHO, that is what the plan has been all along. Kick Iraqs ass, get rid
of So Damn Insane.(Still working on that one). And suck the ragheads into
the hell storm.

Of course the powers that be could never admit that. Because if they did
the Democrats would be all over them. But in the meantime we are getting
rid of the enemy....And guess what? It ain't in Boston, or New York, etc.

People with virus infected machines will be sending them out to any email address they can find either in their address book or on newsgroups that have been read on that machine.

As your email address eidetic_vilbel@yahoo.fr is clearly visible then you will get loads of them.

If you had spamtrapped it you would get far less and possibly none , but now teh damage is done.
You may as well get a new email address.

# 3927. Major X-Class Flare at 1955Z 4-XI-2003

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-04 21:43:12 UTC
From: nw7us@hfradio.removethispart.org
Message-ID: <3fa81d15.11447899@news.donobi.net>
Source record: 61747
Cross-posted to: alt.ham-radio.hf,alt.ham-radio.ssb,alt.ham-radio.vhf-uhf,rec.radio.amateur,rec.radio.amateur.dx,rec.radio.amateur.misc,rec.radio.shortwave

At 1955Z, 4-XI-2003, an X-class flare peaked from region 486. Initial data from GEOS 12 indicates that the flare is an X18, while GEOS 10 shows it as X17. However, there is speculation (i.e., Thomas Giella (KN4LF), others) that it might be much stronger, as this event saturated the sensor for 11 minutes. I have viewed preliminary images of this very bright and significant flare, and it is truly amazing.

If the flare is larger than the X17 flare from recent activity, this will become one of the two most powerful flares recorded. The flare has caused extensive radio blackout conditions on most of the HF radio spectrum. Ground wave communications is not significantly impacted, nor is line-of-sight VHF and above.

A type II Radio Emission began at 1942Z 4-XI-2003 with an estimated velocity of 1268 km/s. Interplanetary type II bursts are statistically strongly associated with fast CME and interplanetary shock waves (Cane, Shelley & Howard 1987). Thus, there is a chance that we will have at least a glancing blow from the side of the possible CME associated with this new flare. I will update when more data is known.

Mark for deletion all messages with the words "microsoft", "security patch",
"critical upgrade", etc. I did this for the word "urgent", in response to all
those Nigerian numptys writing about dead relatives who were loaded.

After all, how often does someone you know email you and write "URGENT!!!" in
the subject header? Not very often.

I'll go one step further; not only do the democrats show
typical lack of spine in the war on terror, but they would
have this country set back the clock on everything we've
done and do crawling to the United Nations in apology.

I don't think there are many voters that feel this reflects
how they feel. Furthermore, more and more republicans
are taking seats on various levels of government through
the states... I don't see any grass-roots growth of
yellow-bellied liberalism at all.

Clint

Agreed, as long as you don't interpret the "no 9/11 -- Iraq" connection to mean that Saddam's government was not allies with Al Qaeda.

From the beginning, the war has been about two things:

The widely-publicized (and amazingly enough -- true, despite the conspiracy nonsense) reason for the war was our genuine concern that Iraq had weapons of mass destruction (indicated, not just by US intelligence, but Russian and several others -- including the U.N.'s people) and that they would give them to Al Qaeda to strike covertly at civilians in America.

No sitting president could allow that to happen. Something had to be done about it right away -- our citizens were at risk. When our allies in the U.N. refused to take action, we had to go it alone.

The second reason for the fall of Iraq is that a strong democracy needed to be instituted somewhere (besides Israel) in the Middle East, if we were ever to change the horrible status quo over there. If the institution of democracy in Iraq is successful, kingdoms like Jordan, Syria, and Saudi Arabia will fall, and their people will enjoy true freedom for the first time in centuries.

I could also argue that it has also kept hordes of terrorists flocking to Iraq (instead of New York) to attempt to kill Americans, but we were basically accomplishing the same thing in Afghanistan (though I hear it was tougher for them to get there).

By the way, B.A., you have an amazing depth of knowledge on radio. I really enjoy your posts.

That's too bad. Preacher John sure tried to get him to mend his ways with lots of good preaching several years back. But nnooooooooo ... KC1ZQ / KB1EVE wouldn't listen. Just gloated more and more that he was an agnostic homosexual and that he wasn't interested in Bro. John's sermoms. Well look at him now. Gone forever.

I guess ZQ's most memorable statement would be .. "no sir - there is no Pork Butt song". I forget who he was telling, though.

Yep.... they were KEENLY aware of Osama back in the Reagan administration days..... believe it or not it goes back that far! Ole Ollie North brought it to that administrations attention and nothing was done.

I typically agree more with the Libertarian parties' ideals, except for the drug policies..... As a former user (knock on wood, 10 years and 2 months drug-free) and also dealing with people that are users in the emergency services related fields, I have absolutely no use for any drug not prescribed by a doctor.

Stinger,

YES - The FIRST usefulness of "IRAQ" is that it has become a Terrorist
Magnet.
IMHO: Most Americans for what ever reason or politcal leanings would
simply say. (If Asked the Question and Given the Choice.)
? Is it better to "Fight" Foreign Terrorist, Over there in Distant
Lands, or to Fight Them Here in Our Homeland the USofA ?
[ ] Fight Them Over There (IMHO would get 99.73% of the votes.)
[ ] Then Fight Them HERE! (IMHO would get 00.27% of the votes.)

The SECOND 'usefulness' of "IRAQ" is the Leason for the Rest of the
World; that Peace with the USofA is better than Opposition and War
with the USofA.
- The UN, the French, the Germans ETC will not help you if the USofA
decides to Deal With You [.]
- - Speaking Softly and Carrying a Big Stick works better in todays
real world.
- - - If there is a Terrible Example of what the Big Stick can do to
others.
= = = = Iran and North Korea are both more understanding of what the
USofA; Can and Will Do If Necessary.

NOTE: The Leason of the USofA in Vietnam and the USSR in Afganistan
is that the USofA 'stayed-the-course' in Vietnam for Twice as Many
Years and Paid Four Times (4X) the "Price in American Lives"; as the
USSR was willing to do in Afganistan.
- - - The USofA will Pay the Price of using it's Big Stick.

The THIRD 'usefulness' of "IRAQ" is every Terrorist that goes to Iraq
is one less Terriorst that goes to Israel to Kill and do Damage there.

The FOURTH 'usefulness' of "IRAQ" is the quite and progressive
movement for modernization and change in the Governments and Political
Systems of the neighboring states in the region.

From: Paul Jordan <pauljordan@gci.net>
Message-ID: <vqhidme3s4p205@corp.supernews.com>
Source record: 61758

Hey all, I'm tryin to put together a station that I can carry all over Alaska with me and I'm down to needing a tuner. Take a look around and see if you have one of these discontinued kits from the great folks over at NJQRP Club and if you want to part with it, please drop me a message and let me know what it'll take to send it my way.

If anyone else knows of small tuners like the Rainbow, I'd be very interested in hearing about them as well..

Thanks,

Paul Jordan

Yes. It has three branches of government (legislature, executive, and courts).
You don't have to be Jewish to be a citizen, but you do have to be Jewish to
become the executive.

# 3942. WTT: Motorola HT-1000 16 channel pair for 2 meter mobile

I have a pair of 16 channel Motorola MT-1000's with belt holsters, one desk charger and one hand mic. Programmed on GMRS simplex channels. Radios have good batteries and are in good physical condition.

Would like to trade the pair for a two meter mobile. Must be 45-50 watt, PL on transmit, and wide band receive. Brand not important.

Also have other UHF HT's for sale or trade on my web page: http://www.angelfire.com/in4/jnk47130

Requests for info or offeres to: w8ems@juno.com

tnx, es 73 de Jim, W8EMS/9

Actually a representative republic. Three year olds have no vote and
voters vote for representatives, not laws.

And if drugs were legalized, would you feel the same way or would you
start using again? An adult has an inalienable right to determine
the contents of his or her body, for better or worse.

# 3945. Debt, Vacations, Fun? MAKE MONEY NOW!!!!!!

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-05 15:04:40 UTC
From: Nice Person <iamnicehelpme@yahoo.co.uk>
Message-ID: <bob3i8$meg$1@hercules.btinternet.com>
Source record: 61765
Cross-posted to: rec.radio.amateur.antenna,rec.radio.amateur.boatanchors,rec.radio.amateur.digital,rec.radio.amateur.digital.misc,rec.radio.amateur.dx,rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio

Follow the directions below and in two weeks you'll have up to
$20000.00 in your PayPal account. There is a very high rate of
participation in the program because of its low investment and high
rate of return. Just $5.00 to one person!

THAT'S ALL !!!

If you are a skeptic and don't think the program will work, I urge
you to give it a try anyway! It REALLY WORKS! Why do you
think so many people are promoting it ?

LOOK AT IT THIS WAY: If the Program is a total failure for you and you
never get even $1.00 in return, your total loss will
be the $5.00! If you are not yet a paypal member, there is no risk at
all!!! If the Program is only moderately successful for
you, your PayPal account will have several hundred dollars deposited
into it within the next few days! If you actively
participate in the Program, you could have up to $20,000.00 in your
PayPal account within two weeks!

Now let me tell you the simple details.

Getting Started!!

If you're not already a user of PayPal, the very first thing you need
to do is go to PayPal and sign up. It takes two minutes
and Pay Pal will deposit $5.00 in your account just for becoming a
member. That makes this program's total cost $0!!! Follow
this link to open your PayPal account:

https://www.paypal.com

Now log into your PayPal account, and send the PayPal account of the
person listed in Position 1 $5.00 PayPal will ask you to
select type. (Select "service" and put "$5.00 donation" for
subject.) When person in Position 1 receives notification of your
payment, you can simply copy this page and change the names in
position #1 & #2 & #3 as instructed. Remember, only the person
in Position 1 on the list gets your $5.00 donation. Send them a
donation then remove #1 PayPal account from the list. Move the
other two accounts up & add your Paypal account to #3 position. After
you have retyped the names in the new order,

IMMEDIATELY send the revised message to as many people as possible.
PROMOTE! PROMOTE! The more you promote the Program, the
more you will receive in donations!! That's all there is to it.
You are reading this message in usenet, and usenet is the best way
to spread the word about the program. Post this message to AT LEAST
200 groups in usenet(there are over 20, 000), after you send the 5
dollars to the person at #1. This will guarentee you a profit from
this program. The more groups you post it to, the more money you will
make!!!

When your name reaches Position 1 (usually in less than a week) it
will be your turn to receive the cash. $5.00 will be sent
to your PayPal account by people just like you who are willing to send
$5.00 dontation and receive up to $20,000 in less than
two weeks. Because there are only (3) names on the list you can
anticipate 80% of your cash within two weeks.

Anytime you find yourself short on cash just take out your $5.00
donation program and send it to 50 prospects. Imagine if you
sent it to 100 or even more. Most people spend more than $5 on the
lottery every week with no real hope of ever winning.

IMPORTANT!!! IN ORDER FOR THIS PROGRAM TO WORK, YOU MUST BE HONEST. DO
NOT ADD YOUR EMAIL IMMEDIATELY TO THE #1 POSITION, AND MAKE SURE TO
SEND YOUR 5 DOLLARS TO THE PERSON AT #1. IF EVERYONE WHO TRIED THIS
DIDN"T SEND THE MONEY, THEN NOBODY WOULD MAKE A DIME. 5 DOLLARS IS A
VERY SMALL INVESTMENT, ESPECIALLY WHEN YOUR ABOUT TO MAKE MANY MANY
MANY
TIMES THAT AMOUNT. IF WE ARE ALL HONEST, THEN WE ALL MAKE LOTS OF
MONEY!!

REMEMBER, you add your email to the #3 spot, and then move everyone
else
up 1(deleting the person who was formally in the #1 spot, and who you
should have sent your money to). DO NOT add your email to #1 when you
start this program. If everyone did this, then NO ONE would make a
cent.

THIS PROGRAM WORKS - JUST TRY IT

POSITION # 1 PAYPAL Account: lamsmo@aol.com

POSITION # 2 PAYPAL ACCOUNT: pepsiholic44@aol.com

POSITION # 3 PAYPAL ACCOUNT: bunnylovemedo@yahoo.com

Integrity and honesty make this plan work.
Participants who actively promote this program will average between
$8000
and
$12000 and receive the donations within two weeks.

This is not a chain letter. You are simply making a donation of $5.00
to another person. The Program does not violate title

18 section 1302 of the Postal and lottery code.

Remember -TIME is of the essence. YOU can choose to live Paycheck-to-Paycheck or live FREE from FINANCIAL BONDAGE. Become a part of the donation program and help people help people.

This program is about helping each other!

Success is a journey - Not a destination!

Start Your Journey TODAY!!!!

Message-ID: <rogerandsarah-151936.08302205112003@news.west.cox.net>
Source record: 61769

Yaesu FT 100D installed in a Jeep Grand Cherokee with roof mounted 2m/70cm antenna and a mag mount for HamStick monoband antennas. I have HamSticks for 10m, 20m, 40m and 75m. On 10 and 20 m, everything works well. On both 40 and 75m, the transmitter trips on high SWR even though an antenna analyzer shows SWR of 1.3 for both antennas. Folks at HRO say that is typical of Yaesu equipment and have no suggestions. I've emailed Yaesu but have not gotten a response.

Anyone here have any ideas on solutions?

IC-2100H goes for $150.00. Does 55 watts, 50 PL tones, 100 memories.
Has great transmit audio and real good ears. 2 meter FM only. Full
coverage VHF-HI receive. One diode transmit conversion.

I have both a FT-100 plain and a D....
I would make sure that you have a good "strap" ground connecting all.
Start at the antenna, go to the tuner then to the radio then to chassis.
In addition, use a very short lead for the radio ground, and go directly to
the battery for plus.
I have seen that the FT-100 is just a bit more susceptible to RF than my
Icom 706's but I did resolve my RF problem with proper grounding.
I run a big ugly bugcatcher and on top of that an 8' whip! Works
75/40/20/17 v-e-r-y well..
If I was Yaesu, I would fire HRO for such a statement. Perhaps that was
"just" the sales guy's spin, not HRO's statement.

# 3952. The "word" on the super X-class flare of 4-XI-2003

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-05 20:09:51 UTC
From: nw7us@hfradio.removethispart.org
Message-ID: <3fa9585e.92172996@news.donobi.net>
Source record: 61772
Cross-posted to: alt.ham-radio.hf,alt.ham-radio.ssb,alt.ham-radio.vhf-uhf,rec.radio.amateur,rec.radio.amateur.dx,rec.radio.amateur.misc,rec.radio.shortwave

I have just finished a talk with Christopher Balch from the Space Environment Center, NOAA, regarding the super flare from 1955Z, 4-XI-2003. This flare saturated the instruments on the observing satellites for about 13 minutes, during the peak of the flare. This has made an accurate measurement of the flare's intensity difficult. The instruments stopped at X17.4.

The scientists and engineers who designed the original sensor equipment back in the 1970's had events that caused saturations at much lower levels. They redesigned things to handle X17-class events, thinking that it would be enough. This time, it was not.

Since we do not have any accurate record of flare intensity prior to the 1970's, our perspective of this latest series of flares is somewhat limited. Certainly, X-class flares of this magnitude are not regular events. But, they certainly are not unheard of. To pull out a rough estimate, but with very little confidence on this number, on how often we might see such activity, we think this is something we could see every 20 to 40 years.

Currently, as I write this, the Space Environment Center, who is the official "last word" on what a flare's classification becomes, is finalizing their analysis on this super flare. Chris has obtained two likely candidates: Using a standard log-normal fit analysis, the flare was X25. Using a result from an individual from the University of Colorado, Boulder, who analyzed HESSI data on the event ( http://hessi.ssl.berkeley.edu/ ), the flare was an X28. The SEC has a procedure that Chris is finalizing, and validating. He will announce the final reading later today. Most likely, this flare will be somewhere between the X25 and X30 levels.

Certainly, the geomagnetic storming of the last few weeks is one of the highest in many years. It is officially number six on the scale of intensity in the last 30 years. The two major sunspot groups, the number of flares, and the CME activity makes this period the most active and intense of this solar cycle. We have witnessed a truely spectacular historical moment.

What's coming down the line? I usually base my forecasts on a 27-day solar rotation period. What happens today in terms of geomagnetic activity is possibly what will occur 27 days from now. Of course, sunspot and coronoal hole activity might decline duing that rotation period. The outlook is that in about 5 to 10 days, a sunspot group that had a lot of activity is going to rotate back around and start to influence space weather. But the

big question is: Will these huge sunspot groups that just left us retain enough energy to last the 27-day rotation, to deliver another period of extreme solar weather?

NASA is planning to launch in November 2005 the "Stereo Mission" ( http://stereo.jhuapl.edu/mission/overview/overview.html ), which will place an observing space craft leading the Earth's orbit, and another space craft trailing the Earth, such that they will be able to see around the sun at what is coming and what has went. This certainly will become a major tool in our forecasting of space weather, and propagation.

I will post my propagation forecast on http://prop.hfradio.org/ late today.

> start using again?

Nope.... I have absolutely no desire to ever use again. In fact, the smell
of marijuana now makes me naseaus (sp.?)

An adult has an inalienable right to determine
> the contents of his or her body, for better or worse.

Yeah that is true..... to a point, unless it starts to affect me. A person
using while operating any kind of vehicle has the possibility to affect me.
I have dealt with this many times on the emergency services side. Also,
another effect is if I have to pick up slack because a person either went on
a "bender" over the weekend or the night before, I SHOULD NOT have to pick
up that slack. But unfortunately today, that is the way that things work.

I cannot find one viable reason why to use any drugs at this point in my
life unless prescribed by a physician for medicinal purposes. (The only two
drugs left I have yet to kick are caffiene and nicotine..... but working
on that.)

# 3959. NW7US Propagation outlook 6-XI-2003

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-06 15:13:26 UTC
From: nw7us@hfradio.removethispart.org
Message-ID: <3faa6410.160713216@news.donobi.net>
Source record: 61780
Cross-posted to: alt.ham-radio.hf,alt.ham-radio.ssb,alt.ham-radio.vhf-uhf,rec.radio.amateur,rec.radio.amateur.dx,rec.radio.amateur.misc,rec.radio.shortwave

The Coronal Mass Ejection (CME) from the X25+ flare of 4-XI-2003 should arrive anytime, today. It will be a glancing blow, yet there is an expectation that it will be strong enough to trigger a major geomagnetic storm. Then, tomorrow or Saturday the Earth may be exposed to a fast solar wind stream from a small low-latitude coronal hole, now rotating in geoeffective position. This can maintain active to minor storm conditions for one or two days. The Polar Cap Absorption (PCA) event is still active, but decreasing, possibly ending by the end of 6-XI-2003. However, if shock-accelerated protons increase the >10MeV proton flux due to the arrival of a CME later today, the PCA could be extended for another one to two days. This will shut down over-the-pole and high-latitude propagation paths.

Solar activity has dropped over the last day, and the background X-ray levels are finally down in the B range. This is making it better for the lower bands. The 10.7-cm flux is decreasing, as well, so the highest HF bands are less likely to propagate.

Alcohol is legal as it should be. Drinking and driving is illegal as it should be. Illegal alcohol in the 1920's was very good for organized crime just as illegal marijuana is very good for organized crime today.

Wonder where the RF is getting into the radio. Can you slowly increase the
power out until you see some effect, then start grabbing wires or putting on
beads. An in-line SWR bridge may be a help. When I put my 706 into a
Camry, I put 5-6 of those 1 inch beads on the coax right at the antenna
because the in-line SWR bridge (one of those with the connector on each end
and the coupled lines inside w/ meter & fwd-rev switch, from the 1960's)
bounced all over with the position of the _MIC_!

How about clamp-on beads on the coax AND/OR power leads.

Adding to what Frank said:
Be sure you have a good ground at the base of the antenna. You want to
keep RFoff the coax. I believe that if you find that grounding at the radio
is important, then you havent kept RF off the coax at the antenna. I made a
short gound strap from the antanna mount to the trunk lid (trunk-lip mount),
then still needed the beads to fix it. Would have liked to run a strap also
to the fender, but that, ain't easy and still allow the trunk to open.

```
-----BEGIN PGP SIGNED MESSAGE-----
Hash: SHA1

I was tuning about and came across a strong signal on 10.355 that
sounds digital in nature, but I can't recognize what kind of signal it
is. I can record it and make an MP3 available to those who are
curious if that'll help identify the signal, but it's really strong so
I'd be surprised if other hams out there couldn't hear it.

Jack.

[end restore]

"Looser" <snicker> Arf!Arf!, running away again.....or should I say in his case waddling his fatass away.

> ...and Roger is still trying to compute RMS voltage.

And Arf!Arf! still can't explain why the FCC question pool question used as an example is WRONG.
RMS voltage is calculated thusly:
From FCC Element 4:

E8A11 What is the RMS value of a 340-volt-peak-to-peak pure sine wave?
A. 120-V AC
B. 170-V AC
C. 240-V AC
D. 300-V AC

Answer is A. 340 volts peak to peak divided in half (because peak voltage is p-t-p/2) is 170 V peak. Multiply the peak voltage 170-V * 0.707, and you end up with 120 volts AC, RMS.

Care to refute, or can't you get that cheap ass K-mart blue light calculator to work?

> This from a stooge who is not even sure of his birthdate.

This from an illegitimate bastard who is not even sure who his real father is.

==========

Charles, just like the other technical old wives, as usual you've got it all wrong.

May I refer you to the grand-master himself - Sir Isach Newton. The measurement standard is NOT the head of a pin - it is the point of a NEEDLE which differs by an order of magnitude in smallness.

I was referring to the American standard, of course, since American politics
were involved.

Over here, we've had them dancing on the heads of pins for quite a while,
over 150 years. Maybe it's the rich foods and leisurely life-style over here
that makes it necessary for us to have a little bit more room for our
angels.

Yeah, but that wasn't the history of it. In message <a48lc4$2li$1@pita.alt.net>,
you posted the following:

"120 V * 1.414 = 169.69 Volts.
Learn how to multiply, DROPOUT"

And that little gem illustrates that you can't even get the final
digit in a multiplication to come out (hint: 2 x 4 = 8) and that you
have no idea about significant digits. You SHOULD have used more
significant digits in the square root of two if you wanted to obtain
the peak voltage to five significant digits (169.71). Otherwise, you
should have rounded the number off to the two significant digits used
in the FCC question pool and obtained 170 VAC.

Your faux pas has forever been archived on Google, and you can't
spin your way out of it. Every time you try, I'll repost the
Message-ID of your blunder.

GS,

Ah then by using your definition: NAZI Germany was a Democracy !
- The USSR was a Democracy.
- - The Peoples "Democratic" [Republic] of North Korea is a Democracy.
(Alone with many other nations that call themselves Peoples
"Democratic" [Republics]}
- - - Islamic Republic of Iran is a Democracy.

Fidel Castro should be honored as the longest living Leader of a
Democracy.
- - - The Republic of Cuba.

Why the World is Full of Democracies ~ RHF

My son and I drove to Harvard so that he could start his freshman year. When we arrived, I asked someone out in the common area for directions. "Can you tell me where the registration area is at?" I asked.

He said "Sir, at Harvard, we do not end a sentence with a preposition."

"OK. Can you tell me where the registration area is at, asshole?"

(OK, I stole the story, but it's a good one :)

SL,

To be 'consistant' in your Logic of using "Five Significant Digits":

Would be: 120.00 V * 1.4142 = 169.704 Rounded 'down' to 169.70

NOT: 120 V * 1.421356237~ = 169.705627484~ Rounded 'up' to 169.71

Regardless Either Answer:
- - - When 'rounded' to Whole Numbers the Answer would be 170.

But then again, how does one really, truly, factually claim that "170"
is 'round' to "Two Significant Digits" using Three Numbers ? ? ?

Hmmm... those answers are fine (close, but only that) for textbook examples of how to convert numbers, assuming a pure sine wave. They are great for teachers (and those who have learned only from teachers). In real life, if the answer comes out to 169.705627484, remember that the real-world value can plus-or-minus a few volts.

It's a lot like saying that "Observers estimate that the fire was at least a mile, or 1.609347219 kilometers, away."

Have you ever done it? I mean, looked at a scope, stuck the probe in the wall socket, and measured the line voltage? Is it a pure sine wave? (answer: no, and no, I suppose). It's a complex power waveform.

So, do you know how to integrate a complex waveform such as a sine wave with various spike interference present, in order to know the true RMS? Does it even matter, if you are lighting up a light bulb?

By the way, this thread was so distorted that I don't know who is who, and it is obviously a pissing contest, so if I mistakenly pointed out the idiocy, or replying to the idiocy, I apologize ahead of time.

The good part is that one or more of these guys will flame me without facts, and that will answer the original question.

Is it about:

* spelling (typos)
* significant digits

* ham radio

My guess is: yes, yes, no.

All the best, and 73,

Dave

Yeah, if you could actually get a decent job to afford a REAL calculator instead of a cheap-ass K-Mart special, you welfare leech, you'd actually get something right for once. The history is, you argued that the FCC example is wrong, yet you can't explain why it is used on Amateur Radio exams. You are nothing but a whiny little cunt.
Final digits? Try getting a real calculator and set it to those signig=ficant digits you are usually blathering about.

Your Faux pas of trying to pass off an Alabama ARES website for one in West Virginia has been archived on Google as well as your other claims to a "International Radio License on the UN pages" and non-existent articles you claim to have written on SSB. The fact is, you're just an anti-American (being anti-Free Speech) who really is very ignorant and don't nkow when to keep his fucking stupid mouth shut.

Let's review your claim that Marshall county, Alabama is the same as Marshall County, WV:

"FUCKUP Lee" <SLee@houston-hunks.com> geography idiot and imbecile fucks up
as usual when he thinks Marshall County, Alabama
and Marshall County, West Virginia are the same place in message
<afvsc2$6aa$1@pita.alt.net>:
" Then what is at http://www.geocities.com/skywarncanwarn/ doodle brain?
It sure looks like the Marshall County ARES, and it even has a place to
send email."

Or how about your faux pas about the way I wrote ueber?

"Alex Wiecek" <awiecek@hotmail.com> wrote to Stagger Lee in message
news:7PG19.236315$WJf1.109074@news01.bloor.is.net.cable.rogers.com...
"Being partially of German descent, I understand the issue. The only thing
is that he wasn't really wrong when he typed ueber, yet you labelled him
as the one who can't spell German"

Plus your whiny e-mails to system administrators....
"If this abuse complaint is just a personal issue between you and Mr. Wiseman; be warned that we will take action to block your email account and mail domain from accessing our mail servers." -
Zach Harvey

Child molester Stagger Lee queefs his hypocrisy, since he netcopped to Zack Harvey in
<3CE5A487.540596DF@houston-hunks.com>:
"You lose, Shriveled Nuts, because you netcopped. It is in the alt.flame
FAQs."

Yeah, you lost fucknuts.

A representative republic would probably be a democracy, depending
on whether it had separate legislative, executive, and court systems. The
United states is a republic, and it is a democracy, and it has majority rule
by representative government.

What are the prospects of learning morse code at 15 WPM at age 45?

Back in various university classes I had to photocopy other students notes because I couldn't keep up copying and listening at the same time.

Odd, my mom was a courtroom stenographer.

I need to get a class 2 Taiwan licence before my friend will be willing to transfer his Icom 765 to me, even though I don't plan to transmit.

Here on linux I've got cwcp - curses-based Morse tutor program, so I've got a tutor program.

However my dad got Alzheimer's at age 55 and died at 60, so maybe it's not worth the trouble to learn if there are only 10 golden years left.

My Icom R2 can receive almost the same frequencies but doesn't have all those modes. I was thinking of listening to ships and planes at sea.

Perhaps just buying a fancier receiver would be a better investment than putting my brain thru speed tests.

In article <878ymr5zge.fsf@jidanni.org>, jidanni@jidanni.org says...

> What are the prospects of learning morse code at 15 WPM at age 45?

They are exactly what you make of them. If you truly choose to
learn, nothing can stop you but yourself.

> However my dad got Alzheimer's at age 55 and died at 60, so maybe it's
> not worth the trouble to learn if there are only 10 golden years left.

It's exactly that kind of attitude that gives me great concern for
the future of our race and our planet.

The issue is never how much time one has. It's what one chooses to
do IN that time. If learning Morse will be a worthwhile goal for you,
and part of your plans to make yourself or others happy, then by all
means do it!

Suggestion: Set up an electronic Morse code reader as well. It may
help if you can actually see, in real time, the letter associated with a
given sound.

Amateur Radio Newsline™ Report 1369 – November 7, 2003

Amateur Radio Newsline report number 1369 with a release date of Friday, November 7, 2003 to follow in 5-4-3-2-1.

The following is a Q-S-T. Rain brings the California wildfires under control but ham radio stays on the job. A report from the scene on Amateur Radio Newsline report number 1369 coming your way right now.

(Billboard Cart Here)

**

RESCUE RADIO: CALIFORNIA WILDFIRE COMMS WINDING DOWN

The Southern California wildfires are on their way to full control. This as the winter rains come early to the region. As a result, many hams who had been full time fire communications volunteers have gone back to their regular jobs and ham radio emergency communications efforts are winding down. Others are still on the front lines and now its time for assessment. Gordon West, W-B-6-N-O-A, spent most of last week at a Red Cross Shelter in the city of Fontana. He takes a look at the contributions made by the regions Amateur Radio communicators:

--
Audio report only. Hear it by downloading this weeks audio newscast file at http://www.arnewsline.org
--

Emergency service officials agree that having ham radio made a big difference in successfully handling this disaster situation. (ARNewsline(tm))

**

RESCUE RADIO: REPEATERS LOST IN SOCAL WILDFIRES

We all heard the grim statistics of the homes and businesses were destroyed by this years California wildfires over a million acres of land has been scorched. But there is one total that the mass media won’t report. That’s the number of ham radio repeaters knocked off the air by the blazes. While exact call signs are not yet available, we did ask reporter Matt Lechleiter, W6KGB, to find out which radio sites were most affected.

--
It's estimated that close to 30 repeater or remote base systems have been affected by the recent Southern California firestorm. These systems are either off-air, were before switching to backup power, or were destroyed by the fires. The number of systems actually destroyed by the fires is unknown - we'll follow

up on this in a subsequent report.

Communications sites affected include Oat Mountain just north of Los Angeles, Sunset Ridge and Heaps Peak to the East, and Mount Otay near San Diego to name a few. Each of these major sites lost power due to one of the fires. News reports say that it could be over a month before power is restored to these locations. Until then, battery and generator power are keeping the commercial and amateurs two-way systems on the air.

There are also several repeaters that are believed to be safe but which are still off the air. This is because they live at more remote mountaintop sites that also lost electrical service to the flames. And just like the more accessible sites that I mentioned, it might be a quite a while before commercial power is returned.

For the Amateur Radio Newsline, I'm Matt Lechliter, W6KGB reporting.

--

If you are a Southern California repeater operator whose system was affected by the firestorms, or if you know of one that was, please send the details to us. We will include it in an upcoming report. Our address in cyberspace is nerwsline@arnewsline.org (ARNewsline(tm))

**

HAM RADIO IN SPACE: NEW GEAR FOR THE ISS

Radio gear from some well known ham radio manufacturers is in space. This, as the group known as Amateur Radio on the International Space Station announces the delivery of the so-called Phase 2 ham equipment to the ISS. Norm Seeley, KI7UP, has the details in this report:

--
A Russian Progress supply rocket has delivered a Kenwood TM-D700E, dual band transceiver to the International Space Station. The installation of this new radio will mean a significant boost to the power output of the ARISS station from 5 watts to 25 watts.

The Chairman of Amateur Radio on the International Space Station is Frank Bauer, KA3HDO. He says that the software for the D700 has been programmed for five modes of operation. These are for standard F-M phone, crossband repeater, APRS, packet and an emergency mode. Bauer predicted that APRS probably will be the default mode when a crew member is not actively using the ham station.

Next up will be gear from Vertex-Standard, the Yaesu brand folks. Bauer says that a Yaesu FT-100D, some SSTV equipment, along with new headsets, will be taken to the space outpost on Progress Flight 14P. Look for it to launch in January.

But says Bauer, that will be the endof the transport of any more ham radio gear for quite a while. At least until the space shuttle returns to flight in September 2004.

But that in itself could be a blessing in disguise. KA3HDO says that the equipment still on the ground will be tested this month at the Service Module facility in Moscow. This will permit making sure that the Phase 1 and 2 systems are compatible. RF testing will also take place.

According to Bauer, current plans call for the current Expedition 8 crew of Mike Foale, KB5UAC, and Alex Kaleri, U8MIR, to install the new hardware after ground tests are complete. Previous crews already installed four Amateur Radio antennas to cover HF, 2 meters, 70 cm and microwave frequencies.

For the Amateur Radio Newsline, I’m Norm Seeley, KI7UP.

--

What about hams on the ground getting more chances to talk to the crew on the ISS? Bauer says he's been working with U-S and Russian space officials to have them dedicate a few additional hours each month for operation and amateur station maintenance. (ANS, ARISS K7CCC)

**

HAM RADIO IN SPACE: SPAIN SCHOOL CONTACT A BIG SUCCESS

Still with news of ham radio on board the International Space Station, word that the Ourense, Spain school contact on October 23 was very successful. 75 children and 25 parents gathered at Ceip Seixalbo school as European Space Agency astronaut Pedro Duque answered sixteen questions in Spanish using the ARISS radio system. All nationwide radio, TV broadcasters, and newspapers were present. Duque has since returned to Earth along with the Expedition 7 crew. (ANS, ARISS)

**

RADIO LAW: HAM ACCUSED OF AIRPORT SECURITY BEACH GETS CONGRESSIONAL SUPPORT

The ham who is accused of breaching airport security has gotten some unexpected congressional support. Amateur Radio Newsline’s Mark Abramovich, NT3V, has the rest of the story:

--
Leading Democrats have openly criticized federal authorities for prosecuting Nathaniel Heatwole, W-Zed-3-A-R. Hes the ham who admits to planting banned items on airliners, allegedly to show flaws in airport security. And some in congress think he is almost a hero for pointing out the Transportation Security Authority's inability to properly protect airline travelers.

Minority Leader Nancy Pelosi is quoted in print as saying: " "I don't think he had criminal intent. I think what he was trying to do was to show how exposed we are and what our vulnerability was, and he tried to tell TSA and he gave a trail to them."

Pelosi said that if theres any penalty imposed, it should be some kind of community service. And Representative Ed Markey, a powerful Democrat from Massachusetts agrees. In fact, Markey says that any community service sentence imposed on Heatwole should be with the TSA. And Markey adds that TSA officials should listen to him so that they know exactly how to prevent a terrorist from doing the very same thing.

And even the Republicans are getting into the act. Representative John Mica of Florida is chairman of the House aviation subcommittee. He said that prosecutors should concentrate on people who actually pose a threat, adding that Heatwole should not be the fall guy.

None of the politicians are not trying to excuse Heatwole’s action, but they more and more are beginning to agree with Pelosi and Markey who apparently believes that the punishment should fit the crime.

For the Amateur Radio Newsline, I’m Mark Abramowicz, NT3V, in Philadelphia.

--

Heatwole is headed back to court on November 10th for a preliminary hearing. What was not expected is the level of support of some in congress and the obvious pressure that puts on prosecutors working on the case. (From published news reports)

**

RADIO LAW: THE BPL WAR - THE ARRL VS. MANASSAS VA.

The ARRL has put officials in Manassas, Virginia, on notice that the League will act on behalf of its members. This, to ensure full compliance with FCC regulations when the city's Broadband over Power Line system starts up in a few months.

Manassas is a suburb of Washington, DC. The League said that it was responding to media reports that Manassas has approved plans for a citywide B-P-L rollout in the near future. As such, ARRL Executive Vice President David Sumner, K1ZZ, has faxed the Mayor of Manassas to point out the potential for RF interference from and to any Broadband over Power Line data distribution system. (ARRL)

**

ENFORCEMENT: FCC ISSUES 2ND LARGEST FINE IN HISTORY

Meantime, the FCC has proposed issuing the second largest fine ever for on a broadcast indecency issue. Amateur Radio Newsline’s Bruce Tennant, K6PZW, has the details:

--
The FCC wants to force Infinity Broadcasting to pay a fine of $357,000. This, for airing a shock jock radio segment in which a couple was said to been

involved in the most intimate of human experiences in New York City’s famed St. Patrick's Cathedral.

According to news reports, the FCC proposed record forfeiture is in response to complaints from the public following an August 2002 broadcast of the "Opie and Anthony" show and aired over thirteen Infinity owned radio stations. The nationally syndicated show was canceled a week later and hosts were fired.

Four commissioners voted for the fine. The fifth said the agency should have taken even stronger action. He said that the FCC should have gone after Infinity's radio licenses and taken their stations off the air.

Infinity has 30 days to pay the fine or appeal. The company has indicated that it will use the legal recourse.

For the Amateur Radio Newsline, I’m Bruce Tennant, K6PZW, in Los Angeles.

--

If upheld the amount paid would be second only to the $1.7 million dollars Infinity paid in 1995 to settle several cases against shock-jock Howard Stern. (FCC)

**

ENFORCEMENT: USERS RESPONSIBLE FOR REPEATER INTERFERENCE

Users and not the operator of a repeater are responsible for interference problems to another New Jersey repeater system. This is the gist of a September 12th letter to Andrew Woerner, K2ETN, who operates a repeater bearing his callsign.

Back on July 7th the agency notified Woerner that it had received complaints that his repeater, operating on the 146.355/146.955 MHz channel pair, was causing interference to the coordinated W2RAP repeater on the same frequencies. The complaints alleged that Woerner’s repeater was previously coordinated but that it has relocated since the coordination was issued.

The FCC requested that Woerner provide information in response to the complaints. He did, and in a follow-up letter, the FCC said that it has reviewed his information as well as detailed reports provided by the Metropolitan Coordination Association and the Area Repeater Coordination Council.

The FCC says that coordination does not appear to be an issue in this case. Rather, the interference problem seems to result from users of the K2ETN repeater, which is located in Northern New Jersey, attempting to access that repeater from locations in Southern N/ew Jersey. As such its repeater users who are interfering with the W2RAP repeater and not the person running the K2ETN machine.

The bottom line. The regulatory agency says that this situation does not appear to warrant its intervention. Instead its calling on everybody to work together to minimize any interference to the W2RAP machine. (FCC)

**

ENFORCEMENT: FCC PROPOSES $120,500 FOR ANTENNA STRUCTURE VIOLATIONS

Meantime, its the fine of all fines for radio tower violations. This, as the Federal Communications Commission releases a Notice of Apparent Liability on October 31st. One proposing a $120,500 forfeiture against SpectraSite Communications, Inc., of Cary, North Carolina for safety-related violations of the Communications Act and the Commission's antenna structure rules.

Specifically, the FCC is going after SpectraSite for its failure to register and light its antenna structures following an investigation conducted by the Commission's Norfolk, Virginia Field Office.

The FCC says that the amount of the proposed fine represents the statutory maximum available. The Commission says that it decided to propose a significantly higher forfeiture than generally used in such cases because SpectraSite has a prior history of antenna structure rules violations. It says that SpectraSite has received three previous forfeitures in less than three years for at least 13 instances of failure to comply with the antenna structure rules. (FCC)

**

RADO LAW: EMDERGENCY OFFICIALS CONCERNED ABOUT PUBLIC ACCESS TO "MIRT"

Emergency responders are concerned that MIRT, or mobile infra red transmitters are falling into the wrong hands. Mainly, into the hands of people not willing to obey traffic laws.

A mobile infra red transmitter allows personnel aboard emergency vehicles responding to emergency calls to quickly change specially-equipped traffic signals in their favor. That was fine until Internet websites began offering the same devices for use by the public for around $300 a pop.

Unlike radar jammers and certain laser detectors that emit radio signals, the mobile infra red transmitter and other signal changers send out a beam of invisible light. Since light is not controlled by the FCC the devices do not run afoul of the agency's rules.

Needless to say that this is causing concern for those who rely on the technology for legitimate needs. Don't be to surprised if states begin enacting their own laws to control the sale and purchase of the units.

More on the situation and the device is in cybrspace at www.detnews.com/2003/commuting/0310/26/a01-307303.htm and http://www.themirt.com (CGC, others)

**

COMMUNICATIONS CRIMES: INDUSTRY VS. IDENTITY THEFT

Microsoft and other technology giants have launched an industry alliance to thwart identity theft and boost confidence in e-commerce. The Coalition on Online Identity Theft will campaign to improve e-commerce record-keeping, beef up Internet security and enforce penalties against identity thieves. The

formation of this group comes in response to growing concern over the growing tine of identity theft crimes and government pressure on industry to help to thwart it. (Published news reports)

**

BREAK 2

This is ham radio news for today’s radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

T-HUNTING NEWS: THE BIRDS OF FALL

If you are into hidden transmitter hunting, listen up. This one is for you. Keeping track of over 300 migrating radio tagged birds. Joe Moell, K0OV, is here with the details.

--

Since 1998, you've heard me reporting on hams and scanner fans tracking Burrowing Owls that migrate from Canada to southern states and Mexico. Researchers are so impressed by the capabilities of hams to do this sort of thing that they are asking for help with other critters. Right now, we're starting our biggest ever project, with more birds and more states involved. Nick Myatt of the Arkansas Cooperative Fish and Wildlife Research unit has radio-tagged 360 American Woodcock in Minnesota, Wisconsin, and Michigan, and he wants hams to help him find out where they're going. They're heading out now, and the list of possible stopover and destination states is big, including Southern Minnesota, Southern Wisconsin, Southern Michigan, Iowa, Illinois, Indiana, Kentucky, Missouri, Eastern Kansas, Eastern Oklahoma, Arkansas, Tennessee, Mississippi, Alabama, Louisiana, and Eastern Texas. If that's where you live or travel, please check my Web site for the list of active frequencies, all between 150 and 152 MHz.

Also at this time, Dave Sherman, a Biologist with the Ohio Division of Wildlife, is looking for help in keeping track of two radio-tagged Sandhill Cranes that should be leaving Ohio about the time you hear this. More information, including the frequencies, is on the Web. Go to www.homingin.com

Besides the frequencies, you'll learn how to identify the special characteristics of a radio tag signal, and you can subscribe to an e-mail list for fastest notification of these studies. That's homingin -- one word -- homingin.com

From southern California, this is Joe Moell K-zero-Oscar-Victor, for Amateur Radio Newsline.

--

Again, more information is at Joe's website. Its in cyberspace at www.homingin.com. And remember: homingin is one word. (K0OV, ARNewsline(tm))

**

NAMES IN THE NEWS: QCWA SEEKS NEW G.M.

In other news, word that Jim Walsh, W7VLN is resigning as the General Manager of the Quarter Century Wireless Association and the groups Board of Directors is looking for a replacement. Among the responsibilities are attending all meetings of the QCWA board, keeping full records for the organization and conducting the general correspondence. A solicitation for nominees is on line. You will find it in cyberspace at www.qcwa.org/manager.htm (QCWA)

**

CONFERENCES: 30TH ANNUAL EASTERN VHF/UHF CONFERENCE

The 30th Annual Eastern VHF/UHF conference will be held next April 16th to the 18th, at the Radisson Hotel in Enfield, Connecticut. Planners say that the conference has been moved to the spring time to help alleviate numerous conflicts with other ham radio activities and vacation schedules in August. Guest speakers, proceedings, articles and overall volunteers are being solicited to help out. Prize donations are also being solicited from vendors and members. More information is available from conference chairman Bruce Wood, N2LIV, by e-mail to bdwood@erols.com (VHF Reflector)

**

BEACON NEWS: C6AFP COMING BACK ON THE AIR

Steve Rutledge, N4JQQ says over the VHF Reflector that the C6AFP beacon in grid square FL16, should be operational soon. This, thanks to W4WSR who rebuilt the old one that WZ8D originally supplied.

That one took a lightning hit last summer. Rutledge says that he was able to salvage the RF board but that was it.

Rutledge thanks C6AGN, whose Q-T-H the beacon now lives at. This is in Coco Bay, Green Turtle Cay, Abaco, The Bahamas. He says that Bill should be back on the island on or about the time this newscast hits air. Hopefully we will hear the beacon sometime later this month. (VHF Reflector)

**

INTERNATIONAL - INTRUDER WATCH: PIRATES OF THE PACIFIC

On the intruder watch scene, VK6XW in Albany Australia reports over 130 of them in the ham bands in recent days. The majority are foundd on 20 meters and appear to be Indonesians, with the rest being Asian Intruders including a number of fishing boats. VK6XW says that the boats also use Amateur Radio VHF frequencies for ship-to ship communication.

Meantime, Chris Wright, VK2UW in Lighthouse Beach New South Wales Australia reports on other pirates in the Pacific. This group is using Amateur Radio calls such as VK4ZLY, several Zed L calls and American calls -- portable VK.

These are also on 20 meters and Chris says that they have become a major headache to a number of regularly schedule ham radio nets. (Q-News)

**

DX

In D-X, word that XV9DT is active as 3W22S now until the 31st of December. The special callsign is to celebrate the 22nd South East Asian Games, hosted by Vietnam. (GB2RS)

Also, HB0/HA0HW/P and two other stations will be operating from a location 1350 meters above sea level in Liechtenstein through the 10th of November. The three operators will be active on 160 to 10 meters, with an emphasis on the low bands. Modes used will be CW, SSB and RTTY. QSL as directed on the air. (GB2RS)

**

THAT FINAL ITEM: NYC HAMS RUN THE RACE

Kenya again ruled the New York City Marathon but it was ham radio that kept the race running. Amateur Radio Newsline's Henry Feinberg, K2SSQ, takes a look at the November 2nd event and the radio amateurs who kept it moving along:

--

Steve Mendelsohn, W2ML: "When people say 'why do you do it' my answer is always the same. I'm in it for the T-shirts."

--

And after 27 years as Communications Director for the New York City Marathon, Steve Mendelsohn W2ML, has to have quite a collection. But Mendelsohn is also the first to tell you that he is only a small part of a big ham radio organization that keeps all the races within the New York City Marathon moving. And 2003 was no exception:

--
Mendelsohn: "At about 8 o'clock we went to the actual starting line at the Verrazno Narrows Bridge and Alan fired the air-horn that's starts the race for the athletes with disabilities. And, 15 minutes after that it was the start of the wheel-chair race; and 15 minutes after that was the start of the hand-cranked race and fifteen minutes after that the elite women. And finally, at 10:07 our operators climbed into vehicles -- because we maintain control of all of the vehicles on the course for safety purposes -- and we use Amateur Radio to do it -- and down the course we went.

At the other end, we climbed out of the vehicles; everyone went to do their next assignment and from the time that the male winner cross the finish line at roughly 12:15 p.m. until the time that we closed down the Family Reunion at 6:30 at night and started to tear down, 411 hams worked with the other 12,000 volunteers to make this the smoothest, best marathon ever."
--

The Alan that Steve referred to is Race Director Alan Steinfeld, W-2-T-N. They were but two of the 400 plus Amateur Radio volunteers who came out this year. And Mendelsohn says that the hams were kept very busy, especially in assisting in medical communications as runners fell by the wayside:

--

Mendelsohn: “We had people went down virtually everywhere on the course. The hams were there with the doctors to help and provided a great deal of medical communications back to the Family Reunion area. This allowed the families to know that a runner had dropped out: That they may have been taken to a hospital or that they were simply going home.”

--

Mendelsohn says that between 800 to 900 pieces of health and welfare traffic was passed between 10:07 a.m. and 4:40 p.m. He also says that 2003 was the years of APRS at the New York City Marathon. Ill have that part of the story next week.

With part of the course of the New York City Marathon in sight, I’m Henry Feinberg, K2SSQ, reporting for the Amateur Radio Newsline.

--

As for the race results. Kenya’s Martin Lel, running his first ever marathon won the Mens division. He timed in 2:10:30 beating out defending champion Rodgers Rop. Meantime Margaret Okayo smashed the course record. She won the race for the second time after crossing the line in 2 hours, 22 minutes, 31 seconds, shattering her own record by almost two minutes.

**

NEWSCAST CLOSE

With thanks to Alan Labs, AMSAT, the ARRL, the CGC Communicator, CQ Magazine, the FCC, the Ohio Penn DX Bulletin, Radio Netherlands, Rain, the RSGB and Australia's Q-News, that's all from the Amateur Radio Newsline(tm). Our e-mail address is newsline @arnewsline.org. More information is available at Amateur Radio Newsline's(tm) only official website located at www.arnewsline.org. You can also write to us or support us at Amateur Radio Newsline(tm), P.O. Box 660937, Arcadia, California 91066.

For now, with Bill Pasternak, WA6ITF, at the editors desk, I’m Jim Damron, N6TMW, and I’m Jeff Clark, K8JAC, saying 73 and we thank you for listening. Amateur Radio Newsline(tm) is Copyright 2003. All rights reserved.

# 4004. Re: Racist Amateur Radio Operators Daniel L. Jeswald (W4NTI) & Charles D. Braham (N5PVL)

GS,

"The US is a democracy.
Any country is a democracy,
which has a legislature,
an executive,
and a supreme court."

I see you have ADDED to your 'original definition' of a "Democracy"
:o)

But, All of the Countries, Nations, Systems

* Had Equality Before the Law - As Defined by Their Laws.
- - - In Cuba - Fidel just place 1000s in Prison - For Thinking Wrong.
- - - In Iran - Citizens have Equality before Civil Law and "The
Faithful" may be 'judged' before Shari`ah (Islamic Religious) Law.
(What could be more Equal?)

* Had the Right To Vote - And The Responsibility to Vote.
- - - In Iraq - Saddam was recently Re-Elected by 99.46% of the Vote
and 99.73% (Nearly Everyone) Voted.
- - - The Peoples "Democratic" [Republics] always have Higher Voter
Turn-Outs than the USofA, Canada, The UK, EURO-Land, Japan and other
so called western democracies. These Peoples Democratic Republics are
evidently more democratic then the USofA an the others western
democracies.

* * Think of the USofA:
- - - Jimmy Carter has had to "Monitor" elections in the USofA.
- - - Look at the last Presidential Election in the USofA and the
Missed Votes in the State of Florida.

A weak shockwave from the glancing blow of the coronal mass ejection from the X28-class flare of 4-XI-2003 was recorded at about 1900Z 6-XI-2003. It only produced minor to major storm conditions that passed after a few hours.

As I write this update, the geomagnetic activity is slightly active due to the influence of a small coronoal hole. The IMF (Interplanetary Magnetic Field) has been somewhat orientated toward the south (with a Bz reading that is negative), so this has elevated the geomagnetic activity. This geomagnetic activity will continue for a few days. It will mostly degrade over-the-pole and very high-latitude propagation paths, and slightly degrade the lower HF frequencies.

The proton event that we've been having is pretty much over, though, so the polar paths are better than they've been for many days, even with the elevated goemagnetic activity.

Here's an interesting note: on 6-XI-2003, two B-class flares were recorded. These unusually long flares are indirect echoes caused by giant flares still occurring from those two huge sunspots, but from the other side of the sun! This is an indication that we'll want to watch for the return of these sunspot groups and their possible continuation of high intensity flaring, when they rotate back into view in about 10 days.

Propagation this weekend should be fair to good for most paths, on low HF all the way up to about 21 MHz. Frequencies above 21 MHz will have weaker propagation on many paths, as the 10.7-cm flux has decreased again to below 100. Predicted average flux is 90 and 86 for today and tomorrow.

>That's a pretty good update! Does this mean nothing is/has happened?

Heh - close! Not too much in the way of solar activity, right now. Just some solar wind enhancement from a small coronol hole, and the related geomagnetic activity. With a moderate solar flux, we're back to the "average" DX that is typical of the declining phase of this solar cycle.

Has anyone looked at patents:

US4429280 - Apparatus for DEmodulation of Modulated Curl-Free Magnetic Vector Potential

US4429288 - Apparatus for modulation of a Curl-Free Magnetic Vector Potential Field

US4432098 - Apparatus for transfer of Information by means of a Curl-Free Magnetic Vector Potential Field

US4447779 - Apparatus for Determination of a Receiving device utilizing a Curl-Free Magnetic Vector Potential Field.

US4605897 - Apparatus for distance determination between receiving device utilizing a Curl-Free Magnetic Vector Potential Field.

US4491795 - Josephson Junction Interferometer Device for detection of Curl-Free Magnetic Vector Potential field.

These were patented by Raymond C. Gelinas of Concord MA, and assigned to Honeywell, Inc.

I have no idea of the range of this type of communications system, frequencies used, or even the bandwidth you could achieve.

What is Curl-Free transmission anyway?

Another top-posting wad of blather from a civics-deficient mind. Somewhat understandable, however, since you are deriving your wisdom from the US Department of State. Looking at your reference, I am amazed to read the verbal back-flips about what they think a democracy ought to be. I'm further amazed at how they do anything to avoid calling a "representative" democracy a republic. No wonder our foreign policy is a crock of shit; we officially can't understand what we are!

A democracy may or may not have morals, may or may not protect the rights of minorities, and is practically unworkable for groups beyond a certain size. And once you modify a democracy, by adding modifying conditions, it likely isn't a democracy anymore.

lets see, if the magnetic field doesn't have any curl then there is no
electric field created. so basically you have a static magnetic field. so
modulating it doesn't make much sense as then it would have a non-zero curl.
as far as receiving it there are devices to detect static magnetic fields,
and a josephson junction may be able to do that.

The 3'd patent talks about 'transfer of information', but
I don't know the range.

FS: Yaesu FT-757GX and FP757HD/Speaker Power Supply

Before I take it to eBay, I thought I would give make it available here. I have a Yaesu FT-757GX with the matching the FP-757HD (Heavy Duty)/Speaker Power Supply. Both the radio and power supply are in very clean condition, non-smoking environment. It works well in all modes (CW-N & CW-W, USB, LSB, AM & FM), 10 thru 160 and WARC bands ,also including the new 60 meter band (MARS modified), 100w output (25w AM), dual VFO, memories and much more. Looks and sounds great! I would rate both units 9 out of 10. Also included are the operator's and service manuals, power cable, and the original handheld microphone with up/down buttons. Great looking combination. Selling both units as a set. Excellent adjunct to your existing station  or even a new primary station. Asking $450.00. You pay shipping from Cleveland, Ohio. Please feel free to email me if you have any questions or would like additional info.

Thanks,
Pete, N8PB

Excellent. The main thing is it takes a little time. It will probably take around 30 to 50 hours. Practice 1/2 hour per day broken into two sessions.

> Back in various university classes I had to photocopy other students
> notes because I couldn't keep up copying and listening at the same time.
>

This is different because you will be training it to be an automatic reflex reaction. You don't read it until after you are done. If you train to do it as a reflex, it's much easier. In addition, you are copying letters not words so it's actually slower than what you were trying to do. It's as if the lecturer were spelling out each word rather than saying the word. Also if you don't get a letter, just skip it and keep copying. Even with a fair number of missed letters, you can tell what the person is trying to say. Just relax and copy. Trying too hard is what causes the most problems.

You are not your dad. You may or may not be a victim of the disease. However if you let worries like this stop you from trying, then you are letting yourself be a victim of fear and could miss many pleasant things in life.

It depends on what you want to do. Exercising the brain helps keep our minds strong and healthy longer in life.

You were not happy with destroying the packet radio newsgroup?
You and your toadies post to everything on almost every
mainstream newsgroup. When are you going to stop?

You are the troll, whose killfile expires on me every 30 days
or I did not killfile you for a certain newsgroup.

There use to be nothing but on topic information here until
you showed up.

Your buddy W4NTI did not refute the charges on eham with any
effectiveness. He merely attempted to attack the credibility
of the accuser. He could offer no real rebuttal to the story.
Why don't you blast him about it for awhile in email and leave
us alone?

Bill

You don't seem to sure of what you want to do.

It seems to me, if your not really interested in using the transmitter,
then getting a license is silly.

Just go buy a good receiver.

Per Websters Dictionary;

Democracy

1. Rule by the people.
2. A community so governed.
3. The quality of being democratic.

Republic;

A state in which the sovereign power is vested in representatives chosen by the people.

Constitution;

The system of fundamental laws of a nation or society.

Thus, we are indeed, a Constitutional Republic.

We vote for and elect REPRESENTITIVES. These folks are 'supposed' to vote in congress, either state or federal, what the electorate wants.

We are a representitive form of government.

A true democracy is one where everyone gets a vote, and the majority wins.

Can you imagine how much fun it would be to have to vote on every single issue, local, state, federal? There wouldn't be enough time in a lifetime to do it.

Our representitives are 'supposed' to base their lawmaking on the CONSTITUTION. Obviously this is not working.

What is happening is the judiciary of APPOINTED, not elected, judges are actually making the law.

In reality this country should stand up and revolt. We are NOT following our constitution.

So...what sort of government do we REALLY have?

Please go take some remedial English classes, you grosly OBESE fatass.
Lavendre lloser lloyd, you have nothing to 'contribute" to anything, since you are satisfied being a grossly obese 30 year old virgin who is satisfied with being a pizza delivery boy for the rest of his life.

> Errrr, Where did you say you earned that "Masters Degree"
> Curtains Boy?

I never said I did, you sniveling trollop. I DO have credit hours towards one, which is more than you caould do, you couldnt' hack one semester of your freshman year.

> What are the prospects of learning morse code at 15 WPM at age 45?

Get a copy of Code Quick. It will take you 2-3 weeks of 1/2 hour a day
to learn the code. After that, it depends upon how much time you want to
spend on practice.

Geoff.

I have a Motorola MT-1000 8 channel HT, drop-in rapid charger, and hand microphone for sale or trade. It is a public safety radio with ANI and an emergency switch that sends out the ANI code every few seconds when tripped. Programmed in the 453/458 MHz band.
The radio is in good physical and operating condition. Battery seems to hold a good charge.

Would like to trade for a 2 meter mobile or HT. Make me a reasonable offer.

E-mail questions or offers to: w8ems@juno.com

Change eight to 8 in my e-mail address to auto reply.

Hall effect, essentially magnethydrodynamics in a solid block of
semiconductor.
electrons flowing from top to bottom are deflected to left or right, by a
field through the third axis.
Detects static fields just fine.

# 4036. NW7US Propagation Update for CQ WW CW Contest Weekend

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-09 03:23:31 UTC
From: nw7us@hfradio.removethispart.org
Message-ID: <Sqirb.2829$jS2.265@news.randori.com>
Source record: 61606
Cross-posted to: alt.ham-radio.hf,alt.ham-radio.ssb,alt.ham-radio.vhf-uhf,rec.radio.amateur,rec.radio.amateur.dx,rec.radio.amateur.misc,rec.radio.shortwave

The solar activity that took us by surprise during the end of October and beginning of November 2003 has me revising my outlook for the CQ WW CW contest period of November 29 and 30. I am now expecting conditions to be a bit rougher than I forecast in my column. Using the 27-day solar cycle as a guide, we are looking at Low to High Normal conditions. Low- and mid-latitude paths will be good, while high-latitude and polar paths will be poor to fair. There is a slight to moderate chance that the major sunspots will return with enough flare activity to cause daytime radio blackouts during the weekend.

The predictions right now call for a maximum Kp index of 3 for both days, and an estimated Ap index of 15. The low geomagnetic activity forecast is very conservative, though, since I still expect the sunspots to hold enough punch to create coronal mass ejections that will elevate the geomagnetic activity. As you know, the more active the geomagnetic field, the more likely the ionosphere will recombine, lowering the MUF. The 10.7-cm flux is expected to be between 160 and 170, since the sunspots will have returned.

Therefore, I expect that the higher bands will be poor to good, depending on the path: Trans-equitorial paths (N/S) will be the best, while polar paths will be the worst. The middle HF bands will be fair to good. If flaring occurs with enough intensity, the nighttime low HF bands will be degraded, too.

Those operating in low-latitudes will fair the best, to be sure. But, that is typical, during any condition. Those who will be at high-latitudes will certainly have a challenge. But, that is what CW is all about, right? I'll keep a watch on things, and post an update as we get closer to the contest weekend.

.....

Good thoughts. Trouble is that the Socialist Democrats care not for these beliefs.
The greatest threat to our nation today is the touchy-feely political correctness movement being fomented by these hand-wringers.

--
"Throughout history, it has been the inaction of those who could have acted; the indifference of those who should have known better; the silence of the voice of justice when it mattered most; that has made it possible for evil to triumph."

Danny and Chucky are in need of some serious help. Common knowledge....

Bob

The persons in need of immediate help are the whiny-assed baby-like adults
that have a problem with Dan.
Dan did nothing wrong. He was honest.
He made a comment about "Ragheads". So what? He didn't hide behind the
cowardly Political Correctness shield.
You babies took it upon yourselves to chastise Dan for his choice of words.
What gives YOU the right?
Did Dan's choice of words cause you little politically correct babies to
fill your diapers? If so, too damned bad!
Dan is in no need of "some serious help" as you posit. The opposite is
true...it is YOU that needs to rethink your ideas.
Liberals are an odd sort...they claim to support freedom of speech...so long
as it is supportive of their ideology. They make no bones about trying to
stifle the ideas of others when it does not agree with their opinions.
Let's see...I will go for the shock value here...yes, Ragheads are a threat
to us...Muslims are involved in a religious war against us. Muslims/Ragheads
are convinced that it is their calling to kill us with any means available.
It is the duty of our Armed Forces to kill them before they visit upon us
another World Trade Center slaughter.
Dan...hats off to you. It is time we stood up to these heathens and call a
spade a spade.
During Clinton's 8 years in office 59 Americans were killed in terrorist
bombings. Clinton did nothing. He even ignored the first attack on the World
Trade Center.

I stand behind our President and our troops who are makng a stand.

Back to you, Bob. Want to wring your hands and whine?

I don't think "they" have a problem with Dan, or myself either. I think that they are anti-ham trolls, out to disrupt these newsgroups with off-topic bullshit, any way "they" can.

That's just a theory, of course, but it fits the facts. Notice how they multi-post to ham radio newsgroups only? It's a troll, who should be reported to his ISP I suppose, since he won't take a hint and buzz off. (sigh)

Geomagnetic activity is increasing, now, due to the
influence of fast wind coming from the coronal hole
located in the central meridian of the Sun. The
rest of today's geomagnetic activity will be unsettled
to active (up to a Kp of 5). This will degrade the
higher HF bands for the next two days. By 11-XI-2003,
a large coronal hole which is rotating into
geoeffective position will inhance the solar wind
further, causing active to minor geomagnetic storm
conditions.

Three new sunpots have appeared on the Sun (Catania
numbers 86, 87, and 89). These are now growing and
have what is known as a "beta magnetic configuration."
The may become a source of flares, at least C-class at
this time, causing some minor radio degradation on the
lower HF bands on the sunlit side of the earth.

The 10.7-cm flux is now expected to rise, again, with
these new sunspots. Expected flux levels are 93, 95,
and 98 for today through Tuesday. But, with the
increased geomagnetic activity, the higher bands will
still suffer.

# 4052. Mobile FT-100D Problem- F/U Solution

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-09 15:47:33 UTC
From: Roger Baldwin <rogerandsarah@cox.net>
Message-ID: <rogerandsarah-121DCD.07473309112003@news.west.cox.net>
Source record: 61622

Oriiginal posting:

Yaesu FT 100D installed in a Jeep Grand Cherokee with roof mounted 2m/70cm antenna and a mag mount for HamStick monoband antennas. I have HamSticks for 10m, 20m, 40m and 75m. On 10 and 20 m, everything works well. On both 40 and 75m, the transmitter trips on high SWR even though an antenna analyzer shows SWR of 1.3 for both antennas. Folks at HRO say that is typical of Yaesu equipment and have no suggestions. I've emailed Yaesu but have not gotten a response.

What worked:

Following good suggestions from group, installed ground from transceiver chassis to vehicle body and installed permanent antenna mount with base well grounded and with low loss coax. All works well.

Roger Baldwin

I would enjoy applying some "PC' to him. Oh, thats paddle correction btw.

The guy doing this is obviously juvenile. Probably some young punk sneaking
into daddys room to play on the computer. A result of Canadian and now
Americas own creation. What a shame.

And I will continue to speak my mind. Whether it is politically correct or
not.

Thanks for the support.

Another moron to add to the pile.

How can you support Bush when he and the bin Laden family had oil
business dealings going back to the 70's?

Why did we give Osama bin Laden millions of dollars to fight the
Russians in Afganistan?

Why was Saddam Hussein awarded the keys to the City of Detroit in
1980?

Why did they blow up the World Trade Centre when there was 1000 other
buildings in hundreds of other countries to choose from?

Because of racist morons like you, thats why. Want some more apple
pie?

My 16 year old grand neice has a MENSA level IQ and is certainly not
"too stupid". She is probably more knowledgeable than 50% of Democrats. :-)

From acient times the theory holds that the world behaves in a mathematical fashion, and only later was it understood that (x,y) could be represented in a pure or refined form. The theories of Galeleo, Newton, and Einstein are all true as we know them, but mathematics that gave raise to them are inconsistant... Is science a religion?

A religious devotion to any undertaking maybe all that is required to proclaim a religion. Its the acceptance of the masses that gives a religion basis.

Less than 1% changed the president in the last election.

It is a republic because we have the electorial college to do the actual voting instead of having the population as a whole to do the voting. Even if the college did vote in porportion of the people in their state, some states have a larger percentage of the votes. This way it is possiable for a president to have the most votes of the people and still not be elected president.

Also congress does the voting on the laws. It would take forever to get anything done if a country the size of the US had the whole population voting on every Bill in congress. Sometimes this does not seem like a bad idea :-)

Another moron to add to the pile.

How can you support Bush when he and the bin Laden family had oil
business dealings going back to the 70's?
/
The same way idiots like you can support a rapist who gave top-secret
missile technology to a nation that is sworn to go to war with us.
/

Why did we give Osama bin Laden millions of dollars to fight the
Russians in Afganistan?

/
Why did Clinton accept hundreds of thousands of dollars from the Communist
Chinese?
/

Why was Saddam Hussein awarded the keys to the City of Detroit in
1980?

/
Why did Clinton pardon convicted felons who had "donated" monies to his
libraryl?
/

Why did they blow up the World Trade Centre when there was 1000 other
buildings in hundreds of other countries to choose from?

/
Because they didn't get it right the first time they tried. And they got
away with it because Clinton was a spineless pussy.
/

Because of racist morons like you, thats why. Want some more apple
pie?

/
Sure. I like apple pie. Make it a double helping.
What is your favorite...cream puff?

That is debatable. Especially considering the huge amount of voter fraud the
Democrats were found to have instigated.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations. As always, you never know - "Work First Worry Later" (WFWL).

3B9, RODRIGUES ISLAND. In a press release by Don, G3XTT, the following are excerpts from that announcement: "The Five Star DXers Association (FSDXA) is pleased to announce 'Project Star Reach', a large-scale DXpedition to Rodrigues Island, 3B9. FSDXA, closely linked to CDXC (Chiltern DX Club), the UK DX Foundation, is the group which brought you

the very successful 9M0C DXpedition to the Spratly Islands in February 1998 and the subsequent record-breaking D68C DXpedition to the Comoros in February 2001. Yaesu have kindly agreed to be Principal Sponsor, and will be providing ten complete state-of-art stations consisting of FT-1000MP MkV Field transceivers and Quadra VL-1000 linears. The centrepiece of Project Star Reach will be a major DXpedition to Rodrigues Island, to take place next March/April..... The callsign 3B9C has already been assigned, and the plan is for an operation encompassing over three weeks of operation, including four weekends. The first members of the team will arrive in 3B9 on Tuesday, March 16th, 2004, and expect to spend the first two to three days installing antennas and equipment. Operations will commence before the weekend. Station breakdown will start on Monday, April 12th, though operations may continue for a further day or two after that......." They state there are two main and several subsidiary objectives. Their main goals are to provide the possibility for every amateur radio station in the world - even those running QRP or a very simple antenna - to make at least one contact with 3B9C; and to enable top DXers to put 3B9C in their log on as many bands and modes as possible. It should be possible for top DXers active on all bands and on all main modes to work 3B9C on at least 20 band / mode slots! One of the subidiary goals is to be one of the first major DXpeditions to link fully with the ARRL's "Logbook of the World" initiative. The 3B9C also announces that the operation will have up to fifteen high-power HF stations active simultaneously when band conditions allow. Activities will encompass SSB, CW, RTTY, PSK31 and, as appropriate, FM. There will also be satellite activity and possible EME. Large monoband antennas will be used on all bands, including a full-size two-element Yagi for 30m. There will be capability for working simultaneously on more than one mode on 10, 15, 20 and 80 meters when these bands are open. On LF they will use two phased pairs of Titanex verticals on 80m, one pair for CW and one for SSB. 40m will rely on their tried and tested 4-square array. 160m operation will utilize the well-known Titanex verticals, with various loops and Beverages for receive. Full details of the equipment and antennas will be given in a subsequent bulletin. The multinational team is still being formed, but already includes many well-known callsigns, as well as some up-and-coming DXpedition operators. So far, team members include DL7AKC (Jens), EI5DI (Paul), G0MRF (Dave), G0OPB (Tony), G3NUG (Neville), G3BJ (Don), G3IZD (Ivan), G3NHL (Chris), G3RAU (Derek), G3SED (Mike), G3WGV (John), G3WKL (John), G3XTT (Don), G4FRE/WW2R (Dave), G4JKS (Hilary), G4KIU (Nigel), G4TSH (Justin), G4VXE (Tim), GU4YOX(Bob), JA1RJU(Kazu), JH4RHF (Jun), KF7E (Jim), M0DXR (Mark), M0GMT (Daniel), N7CQQ (John), NK7C (Pat), and W3EF (Maury). They are seeking donations and contributions from sponsors to help defray the very significant logistics costs of this DXpedition. Details for donating funds and the complete press release can be found on the 3B9C Web page at: http://www.fsdxa.com/3b9c

3Y0/P, PETER I ISLAND (DXpedition Postponed!). In a press release by Bob/K4UEE and Ralph/K0IR dated November 7th, the following announcement was released: "The Peter I DXpedition team has decided to postpone their DXpedition to Peter I Island, Antarctica until January 2005. A last minute glitch developed in the transportation plan, even as the team was preparing

to meet in Atlanta to train and to pack the sea container for shipment. Weather windows precluded a rescheduling for 2004. No one is more disappointed than we are, but the 2005 expedition will be bigger and better! Our team is intact, our permissions are not a problem, and the expedition equipment including 6 Arctic shelters, flooring, antennas, masts, kitchen equipment, power cables and generators, coax, etc. are all in storage in Atlanta. We wish to thank all of our sponsors for their support; look for additional updates in the spring....."
For the team, Bob, K4UEE and Ralph, K0IR

4X/4Z, ISRAEL. On November 15th, operators Eliyahu/4Z5NB, Dov/4Z4DX and Shlomo/4X6ZK will operate a whole day activating different regions of Israel for the Holyland program. They will start around 0400z from G-11-HS and will go through the following regions: HS, HD, JN, YZ, KT, HG, ZF, AK, HF. Main activity will be at the HG region but they will activate different regions while driving from one region to another. Frequency will be 14265 kHz and probably 40 meters for local stations. They hope conditions will cooperate.

4U1, UNITED NATIONS HQ. Ray/W2RE and Frank/W2IX were active from 4U1UN this past Sunday, November 9th. Activity was on both CW and SSB on all HF bands including WARC bands (if time permits). Hope you had a chance to work them.

5U, NIGER. Roger, G3SXW, informs OPDX that the VooDoo Contest Group will be active this year from Niamey, Niger in the CQ World-Wide DX CW Contest on November 29th-30th. Their callsign will be 5U5Z. This will again be a large Multi-Multi effort, field-day style, with seven 1KW stations and many antennas, covering 160-10 meters. The operation will be CW only. QSL cards should go to G3SXW. The operators will be Lee/G0MTN, Don/G3XTT, Fred/G4BWP/5U7WP, Cook/G4PIQ, Vince/K5VT/5U7VT, Mike/KC7V/5U7MF and Lee/KY7M/5U7LF. Operators will be active before the contest using their own with personal callsign while testing antennas. They will be active on the WARC bands if time permits. There will also be short operations from Burkina Faso (XT2) while in transit. QSLs for all contacts other than 5U5Z should be sent to the home callsign of the operator.

8P5, BARBADOS. Tom, W2SC, will make a short contest trip to here between November 28th and December 1st. He plans to be active as 8P5A in the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/All Band/Low Power entry. QSL via NN1N.

9N, NEPAL. Three JA operators will be active from Katmandu, Nepal, between November 16-22nd. They are Noboru/JA2AAU/9N7AU, Takashi/JA2ALN/9N7LN and Yasu/JA9LSZ/9N7SZ. They will operate on 40-6 meters. A 6m beacon will be on 50.100 MHz. They will have two HF rigs with FL-2100B and a 6m rig. Their antennas are: Dipoles for 40m and 30m, a 5 element beam for 20-10m, and a 5 elemnet beam for 6m. QSL via their home callsign to the JARL Bureau or direct to the addresses below:
JA2AAU - Kanno Noboru; 1785-61 Shikata, Shikatsu, 481-0004 JAPAN
JA2ALN - Takashi Yamada; 1-90 Nishishiga, Kita-ku, Nagoya, 462-0058 JAPAN
JA9LSZ - Yasuhiro Yahara; P.O.Box 111, Fukui, 910-8691 JAPAN

9N, NEPAL. Janusz, SP9FIH, will be in Kathmandu from November 13th until December 6th. He hopes to get a licence for the 40, 20, 17 and 15 meter bands. QSL via SP9FIH: Janusz Wegrzyn, box 480, 44-100 Gliwice, Poland.

9Y, TRINIDAD AND TOBAGO. Members of the Bavarian Contest Club (BCC), Mike/DL1HCM and Heye/DJ9RR will be active as 9Y4ZC in the CQ World Wide DX CW Contest (November 29-30th) as a Multi-2 category. QSL via DL1HCM (QSL via the bureau is preffered). Outside of the contest, they will focus on the low bands and the WARC bands on CW, and depending on their preferences other modes (RTTY, PSK).

BQ9P DVD/VIDEO AVAILABLE. Yuki, JI6KVR, informs OPDX that a BQ9P video is now available (DVD or VHS [PAL/NTSC]) showing the "Major challenges" the BQ9P team went through just to air this rare entity. The video also shows some of the beauty of the island as well as some historical information. This video makes you appreciate the BQ9P team's hard work as operators and their devotion to DXing. The DVD/VHS video is available for 25 USD (plus shipping - different in each region) at the following Web site at: http://www3.ocn.ne.jp/~iota/newpage64.htm

BW4, TAIWAN. Artyom, UA3VCS, will be active as BW4/UA3VCS in the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/Single Band (15m)/ Low Power entry. QSL via home callsign; CBA or Bureau.

CO, CUBA. Look for Eduardo, CO8LY, to be in the next CQWW CW Contest as a Single-Op/All Band/Low Power entry. QSL is via EA7ADH. Also, look for Juan, CO8TW, in the contest as a Single-Op/Single Band (160m)/Low Power entry. QSL is via IZ8CCW, and the log will be available after the contest at: http://www.qsl.net/co8tw/

CN, MOROCCO. Jim, W7EJ, will be active as CN2R in the CQ World Wide DX CW Contest (November 29-30th) as a possible a Single-Op/All Band/High Power entry (or maybe a Single-Band 80 or 40 meters depending on conditions). QSL via W7EJ.

E2/HS, THAILAND. Look for the following Thai stations to be active in the CQ WW DX CW Contest:
HS4BPQ/9 - Single-Op/Single Band (20m)/Low Power. QSL via E21EIC
E20HHK - Single-Op/All Band/Low Power. QSL via E21EIC

EA6, BALEARIC ISLANDS. Once again a group of Spanish operators will activate EA6IB during the CQ World Wide DX CW Contest (November 29-30th) as a Multi/Single entry. QSL via CBA.

HI8, DOMINICAN REPUBLIC. Hiro, JA6WFH, will be here on business for the next year. He expects to receive his license and operate as JA6WFH/HI8, possibly starting between the end of November and December. More details are forthcoming.

IOTA NEWS.....
AF-073. A large scale DXpedition with international operators will activate the Tunisian Island of Kerkennah Island between November 19th and December 2nd. Look for twenty operators with five stations on the air to sign TS7N. Activity will be

CW/SSB/RTTY/PSK31/JT6M/JT44 on 160-6 meters. They will feature one station that will be operated by XYLs ONLY! TS7N is the only Tunisian station with a license for 6m and the digital modes! They also plan to participate in the CQ WWDX CW Contest as Multi-2 entry. QSL via DL9USA. The DXpedition's main objective is the further development of amateur radio in Tunisia. Two transceivers and several antennas will be given to the Tunisian amateurs as a donation. Further information can be found on their website: http://ts7n.tk

EU-048. Francois, F5JNE, will be active from Belle Ile en Mer Island (DIFM AT15) from November 17-24th. His activity will also include SSB activity on 40 meters from two Forts which count towards the French Castles Award as follows:
November 22nd - Fort of Port Maria (DFCF 56015)
November 23rd - Fort des Kerdonis (DFCF56016).
His activity between the 17-24th will be CW on 40 and 20 meters in the afternoon, starting about 1300z. Other reference numbers are: French Departments Award (Morbihan, 56) and French Provinces (Britanny). QSL via the bureau or direct CBA.

OC-201. Jonathan, W1CU, will be on vacation and will be active as as ZL/W1CU from Waiheke Island from November 30th through December 2nd. This will include "Day 2" of the CQWW DX CW Contest. He will operate from ZL1DD's QTH and activity will be on all bands CW/SSB (whatever is open). Unfortunately, Jonathan's operating time will be limited.

OC-235. A disappointed Jon, DU9/N0NM, reports that he will not be able to use his callsign 4D71NM from the Mindanao's Coastal Islands during the CQWW DX CW Contest. Instead, he will use 4D71/N0NM. His operating entry was not mentioned.

SA-086. The Atacama Desert DX group (Operators XQ1IDM, XQ4ZW, CE1URH, CA2WUI, CD0906 and CE6TBN) will be on the air as 3G2D from Damas Island (DICE ICE-201), November 26-28th. Activity will be on 160-6 meters on CW, SSB and RTTY and BPSK31. They will try to have 3 stations on 24 hours a day. QSL Manager is CA2WUI (P.O.Box 1037, La Serena, Chile). More info is available at: http://www.qsl.net/3g2d

JW, SVALBARD. Erling, LA5RIA, is going to be active as JW5RIA from Bear Island (EU-027) from the end of November until June 2004. He will be active on 160-6 meters CW/SSB and the Digital modes. QSL is preferred via the bureau. JW5RIA's Web site can be found at: http://www.qsl.net/la5ria

KP2, U.S. VIRGIN ISLANDS. Daniel, T93M, will be active as KP2/N4EXA in the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/Single Band (15m)/Low Power entry. QSL via DJ2MX.

KP2, U.S. VIRGIN ISLANDS. Curt, W3HQ, will be active as W3HQ/KP2 between December 3-11th. Activity will be CW only on 40/30//20/15 meters. QRP operation for all station; will accept SKED with DX (non-UA) especially Asia and Oceania. Curt's E-mail address is: fclambert@infonale.com
QSL via W3 Bureau.

OH0, ALAND ISLAND. Team OH2U < http://www.oh2u.com > will activate OH0Z during the CQ World Wide DX CW Contest (November 29-30th) as a Multi-Multi entry. QSL via OH5DX. The OH0Z station's Web page is at: http://www.qsl.net/oh0z

P4, ARUBA. Jose, CT1BOH, will be active as P40E in the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/All Band entry. QSL via W3HNK. Visit the Web page at: http://www.qsl.net/p40e/

QSL INFO AND NEWS.....
Bill, W4WX, from the Florida DXPedition Group, reports that the team made it back from San Andres where they were 5J0X in contest. He states, "We want to thank everyone that worked us during our stay on the island. Thanks for all the support received. Elli Print has donated QSL cards. They will be in color and we should receive them in three months or so. They will go out as soon as received."

JT1KAA reports that the JT QSL Bureau address has changed. Please send QSL to: MRSF, P.O.Box 830, Ulaanbaatar-24, Mongolia.

Per-Einar, JX7DFA, has recently sent over 4000 QSLs for Russia and the Ukraine via Bureau. Anyone still needing a QSL card from JX7DFA can get one back via the bureau by sending E-mail (with the QSO's data to: la7dfa@qsl.net
JX7DFA's Web site is at: http://www.qsl.net/la7dfa

OUCH! Stephane, LX3DX, informs OPDX and its readers that his harddrive crashed and all QSOs during the DOK and CQWW Contest, as well as his 6 meter QSOs during the Aurora last week are "LOST". His last backup was on October 17, 2003.

NOT THE MANAGER! Jim, GI0DVU, informs OPDX that he has once again started to receive QSL cards via GI4GTY for YO5TP. He states, "Whilst I am the QSL Manager for GI4GTY (a club station) neither I nor GI4GTY have any relationship with YO5TP. Could you please advise OPDX readers that QSL cards for this station should not be sent to GI4GTY or GI0DVU."

Steve, OM3JW, informs OPDX that he received the simple YI9X QSLs from the printer, but they are not too good. So, he will wait for the full color QSL that is expected to be received at the end of November. Be patient please!

T32, EASTERN KIRIBATI. Gary/KH6GMP and Tuck/KH6DFW will be active as T32I and T32BI from here between March 1-8th. During their time there, they will also be active as T32I in the ARRL DX Phone Contest (March 6-7th) as a Multi-Single entry. Activity outside of the contest will be on SSB and as much RTTY as possible during the precontest time. QSL T32I via direct to KH6GMP (QRZ.com address is OK) and QSL T32BI via direct to KH6DFW (also,

QRZ.com address is OK).

TK, CORSICA. Ted, S51TA, will be active as TK9A in the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/All Band entry. Before the contest he will be active as TK/S51TA or possibly another TK callsign.

TO4, EUROPA (Last Update). Dany, F5CW, reports that the operation is still a go, and on November 3rd, he shipped 250 Kg of equipments from Roissy CDG Airport to St. Denis, Reunion Island. The Europa team will leave Paris late November 15th and arrive in St. Denis, Reunion, at about 1030 AM (local time) on the 16th. The Europa team consists of: Dany/F5CW (CW), Eric/F5JKK (6 meters), Jean-Louis/F5NHJ (digimodes, 6 meters, SSB), Freddy/F5IRO (SSB) and Pascal/F5PTM (CW). ADDED NOTE TO CONTESTERS: Please keep in mind to add in your CTY file that TO4WW and TO4E are for FR/E or FR/J (Europa/Juan de Nova).

TO6, MARTINIQUE (Also J7). Serge, F6AUS, is on vacation from here and is active with the special callsign TO6M for the next few weeks before going to Dominica (J7) for the CQWW CW Contest. QSL via F6AUS.

SPECIAL EVENT. Look for the special callsign 4N25K to be activated to celebrate 25 years of activity from the radio club "Novi Beograd", "Radio-section KOZARA". Look for them on all HF bands. QSL via YU1SB.

SPECIAL EVENT. A group of amateurs from the Boland Amateur Radio Club are going to operate a special event station over the weekend of November 21-23rd from the Sutherland Observatory in the Northern Cape Province of South Africa. The purpose is to make amateurs aware of the largest Telescope in the Southern Hemisphere. The station will be identified by the callsign ZS1SALT (acronym South African Large Telescope) and will operate from approx. 1100z Friday, November 21st until 1000z Sunday, November 23rd. All HF frequencies will be used, and the station can be worked on Phone, CW and digital modes. A special QSL card will be sent to all amateurs who have made contact. Only direct QSL cards will be accepted to: P.O. Box 273, STRAND, 7140, Republic of South Africa. For additional information on the project, please visit the website: http://www.salt.ac.za
Also, visit the Boland Amateur Radio Club Web site as well at:
http://www.qsl.net/zs1bak

TY, BENIN. By the time you read this, Vladi, LZ3XV (aka 5N0EVR), should be active as TY/LZ3XV in Cotonou, Republic of Benin. His activity will mainly be the AO-40 satellite, and we are not sure if he will be on HF. The length of his stay is also unknown. His grid locater will be JJ16fi.

V26, ANTIGUA (Update). As mentioned in OPDX.633, Paul/WY7I and K7LXC will be active as V26DX during the CQWW CW Contest. QSL via KU9C. Paul informs OPDX that their activity outside the contest will be on 80-10 meters for sure and possibly the WARC bands as well as 6 meters. Operations will "probably" be all CW.

VK9C, COCOS-KEELING ISLAND (Update). Members of Yamato ARC (JA1ZEK) Sasi/JA1KJW and Kuni/JA8VE will be active between November 27th and December 7th. JA1KJW will be VK9CJ and JA8VE will be VK9CV. They will operate on all HF

frequencies 160-10 meters, CW/SSB/RTTY. JA1KJW/VK9CJ hopes to participate in the CQ WWDX CW Contest and the ARRL 160M Contest. During the contest, JA8VE/VK9CV will be active on SSB/RTTY. Their equipment is: Two K2/100 and two ALS500 amplifiers. Antennas are: HEX beam for 20m to 10m and DP/LW for 160m to 30m. QSLs via JA1KJW to the JARL bureau or direct to:
Nakayama Hisashi; 1-17-8 Shibuya, Yamato, 242-0023 JAPAN

VK9X, CHRISTMAS ISLAND. A very disappointed Charlie, W0YG (VK9XG), is now QRT. He has been on the 160/80m bands every night/morning, but the QRN has been terrific and the conditions abysmal - making QSOs also hopeless. Steve, VK6VZ, who has kept the "Top-Banders" informed states, "It should be noted that Charlie probably had the largest 160/80m collection of antennas used on Christmas Island since the DL expedition to the islands in the mid-late 1990s, employing inverted vee dipoles at 50 meteres on top of a crane, a 60'-plus Force 12 vertical antenna and phased pennants for reception..... As Charlie is essentially a single man low-band DXpedition, just imagine how much effort this operation has taken and if you feel disappointed, just imagine how he feels." Charlie writes: "If anyone else wants to try their hand out here, be my guest. I have almost a complete station here less amplifier and transceiver. Hopefully someone will hit it here when this antipodal QTH will produce results back to the States. However, I want to warn anyone coming this way, be prepared for heat, humidity, solar flares, crabs and sweat. Nothing here comes easy. That only formula - energy input equals results achieved - certainly does not apply on Christmas Island." The VK9XG Web page with news, online log search and pictures can be found at: http://www.df3cb.com/vk9xg

WP4, PUERTO RICO. Operators Aris/WP4DX, Angel/NP4CQ, Pedro/KP4SQ, Trabert/NP4Y and possibly others will be active from Rio Grande as WP4DX during the ARRL 10-Meter Contest (December 13-14th) as a Multi-Single entry. QSL via WP4F.

XU, CAMBODIA. A group of Slovak operators Jaroslav/OM3TZZ (ex-SU9ZZ), Robert/OM1KW, Jaroslav/OM3TA and Milan/OM1ATT will be active November 26th through December 3rd, as XU7ACZ, XU7ADC, XU7ADA and XU7ADB. Their activity will be CW/SSB/RTTY on 160-10 meters. QSL via his their home callsigns. They will be active in the CQWW DX CW Contest as XU7ACZ. QSL via OM3TZZ.

XU, CAMBODIA. Jack/ON4AJT and Wim/ON6TZG are currently active as XU7AJT and XU7TZG, respectively. Their length of activity is unknown. The two operators did activate Koh Poah (AS-133) this past week. Over the past weekend, activity from them seems to be centered on 20 meters CW/SSB. Watch around 14195 kHz around 1430z. QSL for both stations via ON4AJV.

YI, IRAQ. Curtis, MW0USK/MW3USK, from Usk, Wales, informs OPDX that he just received a quick note from Darran, M1DAZ, who is on active duty with the British Forces Broadcast Services in Iraq, and he has obtained official authority to operate with the callsign YI9DAZ. Darran will be active around the bands for the next couple of weeks using a Yaesu FT-100 and an Atas aerial from South Iraq. Most operations will be PSK31. PSK31 is being used so Darren does not disturb his roommate who is the presenter of the early

morning radio show. He should occasionally be able to put in some time on other modes though! QSL info at this time is via Darran's homecall M1DAZ. It is quite possible Darran will be one of the first U.K. amateurs from YI active on PSK31...

YL85, LATVIA. Janis Vanags, YL3AD, Chairman on the Board of LRAL, informs OPDX that more than 20 Latvian stations are using the special prefix YL85 during the month of November to celebrate the Republic of Latvia's 85th anniversary. A special award is available to celebrate this anniversary by making QSOs on the HF bands as follows:
10 contacts for YL stations * QSOs can be made with the same
5 contacts for EU stations event station, but must be on
3 contacts for DX stations. different band or mode.

Respectively, on VHF/UHF and SAT: 5 contacts for YL stations
3 contacts for DX stations.
Copies of the LOG are welcomed by Mail to: LRAL, Box 164 LV1010, Riga, Latvia. Award Managers are: YL2HA and YL2NS. Stations who request the award will receive a special marked "YL85 Award" on the envelope. The cost of the award is: 5 IRCs or equal in Euros or USDs.

ZA1, ALBANIA. Martti Laine, OH2BH, sent out a press release this past week titled "UNIQUE AMATEUR RADIO PROGRAM OPENS IN TIRANA, ALBANIA". The complete press release will be sent to all OPDX InterNet Subscribers as an additional bulletin, but here are a few short excerpts (edited) for non-subscribers: "This coming Sunday (November 8th), an International Amateur Radio (IARU) Region 1 supported course in Albania will commence under the sponsorship of Mr. Spartak Poci, the Minister of Telecommunications and in cooperation with the Polytechnic University of Tirana. Thirty-four third and fourth year students will begin a five-week course of study culminating in a CEPT license examination. A unique part of this program is that Amateur Radio is being integrated into the regular University course offerings using an advanced Radio Society of Great Britain study package as a reference. Each week of this program in Tirana will benefit from the efforts of invited professional educators from the amateur radio community of specific countries. The countries involved in this five-week program will be Albania, Finland, Germany, Hungary, Israel, Japan, Macedonia, Spain, Sweden and the United States. In total, some fifty amateur radio operators, drawn mainly the DX and contesting communities, will travel to ZA-land. The core organizing team consists of 4X6KJ, DL6LAU, EA1QF, G3LQP, I2MQP, K7WX, OH2BH, OH2PM, and ZA1B. During this five-week period, ZA1A will be active on many bands and in a variety of modes while demonstrating amateur radio to local telecom and education administrators, as well as to the students. Multiple locations will be used and several Yaesu donated stations may be active at the same time. After the course, all equipment will be serving the amateur community. During the first week, you will find in Tirana: I2KMG, I2MQP, EA1QF, OH2BE, OH2BH, DL6LAU, DL7AJA, G3OKA, G3LQP and Z35M." The progress of the entire project can be followed on the Internet at: http://www.za1a.com
QSL ZA1A via OH2BH.

ZC4, UK SOV. BASE AREAS ON CYPRUS. Geoff, ZC4CW, will be going contest crazy over the next few months. He will be active in the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/Single Band (160m) entry from CQ Zone 20. Also, Geoff will be active in the ARRL 10 Meter Contest (December 13-14th) and the ARRL 160 Meter Contest (December 5-7th) as a Single-Op/High Power/Mixed Mode entry. QSL all operations via G3AB.

ZL1, NORTH COOK ISLANDS. By the time you read this, Vladimir, UA4WHX (aka AC4LN, H44VV and T20VB), should be active on Penryhn Atoll (OC-082) in the North Cooks until November 15th. Victor, ZK1CG (aka ZK1USA), was expected to pickup Vladimir at the airport in Raro on Friday, November 7th, and then take him to the airport Saturday morning for his flight to Penryhn. Victor states, "He will be staying with Warwick, ZK1WL, so should have a good signal from North Cooks. I think his callsign will be ZK1/AC4LN. Do not know why he got this callsign but will ask tomorrow when I pickup his license in town. Normally visitors get a 3 letter suffix." ADDED NOTE: OPDX checked before going to print and found Vladimir is now active as ZK1/AC4LN. Activity has been on CW on 40/30/20/17 meters.

Uhm... because "a basic love for our country", much like any other love,
is supposed to be shown by actions and deeds, not by words, pledges and
by worshipping flags, politicians and deities. Especially not by straw
man arguments on why "so called democrats do not like the Pledge of
Allegiance". Words mean shit and nationalism is the last refuge of a
scoundrel.
And now, back to that other game: I claim 15 inches. What do you say? It
must be true, since I claim it. Waiter, another round!

So much for what?

You whined about RHF posting patriotic notes (you were wanting deeds, etc....pretty silly, since this IS a newsgroup), saying that words weren't enough to profess love (of country) -- I mentioned poetry, which is a great way to do so. In fact, I found RHF's post and some of the links therin pretty inspirational.

But you just seem to want to bitch about him posting it.

Even your call sign looks like you're crying.

and there-in lies your problem. A republic is a merely how a majority is achieved. A Democracy is how the government is formed. The existence of a legislature, an executive, and a supreme court, are the only things that identify a Democracy (each with their checks and balances). A Democracy can have a direct vote, or a representative vote.

A Republic is a tamed cat, a direct Democracy is a wild cat. The dog would be an executive who tried to manipulate the Supreme Court, or other federal courts.

IQ has nothing to do with it, and MENSA membership would make her
a handicapped person in my book, as who would want to brag about such
a thing.

If enough people wanted to change things, I believe 16 year olds could be
free to vote, but then they must also be free to draft into the military, or
other service to the country.18 year olds got the right to vote because they
were dying for their country. Your niece would have to show cause.

I personally think that only those who are 18 and above, and are not on
Social Security should be allowed to vote.

I've been so busy studying for the tests that I haven't had much time
for anything else.

So far I obtained a Heathkit HW-8 and a keyer to start my shack. I
also have a SWR meter. I think a transmatch and dummy load will be
next on my list. What are other common accessories I will need
(besides an antenna;))? Once I set up a dipole and get some
experience, I'll start looking at HF rigs.

My test was today & I passed elements 1, 2 & 3, I'd better get busy on
the antenna!!!!

TIA,
MikeB

# 4079. NRA special event

Newsgroup: rec.radio.amateur.misc

A few of us here in the Yavapai Amateur Radio Club (YARC) in Prescott, AZ, will be holding a special event on Nov. 17th to celebrate the 132nd birthday of the NRA operating as K7NRA. The information on the ARRL's Web site needs correcting. The operating time will be from 1500Z - 2400Z (8:00 a.m. - 5:00 p.m., MST). Also, a SASE would be appreciated, an 8 1/2 x 11 if you don't want the certificate folded.

We will be operating at Gunsite, http://www.gunsite.com/, considered by many to be the premier firearms training site in the U.S.

We'll be operating on the General Class frequencies. QSL to K7NRA. He's good in the callbook or contact me for full name and address.

If this operation is successful, we plan on having a better one next year that will have a little more organization and planning in it.

73,

John, WB9VGJ
Secretary, YARC

I can't really agree with you about the "no Social Security" idea, Gene. My father is 76 and is still one of the sharpest, clearest thinkers that I know. Also, I could not imagine telling someone with the military service of Chuck Yeager that he couldn't vote.

I assume your idea is that if they're on an entitlement program, they shouldn't be voting -- the principle being that "any system that robs Peter to pay Paul can always count on the support of Paul." I agree, that is a problem.

We have greatly wavered from the voting system of our forefathers. You used to have to be male, a substantial landowner, a veteran, or a combination of the above to vote. Of course, now we've gone too far -- in California, any illegal immigrant that doesn't mind showing their new driver's license and lying to a voter registrar will soon be able to vote.

There should be some sort of educational requirement for voting. I've heard plenty of radio stunts where they send a reporter out to ask people on the street who (as an example) Dick Cheney is, and about one in six knows that he's the vice president of the United States. If these people are voting, that's a travesty.

I disagree with the campaigns the continually say "go vote." If you can't do it as an informed citizen, please don't.

Jackie, the sad fact is each of the Clinton statements is (as you also indicate) true.

Unfortunately the ridiculous statements you made are not.

"<<SNIP>>
> > How can you support Bush when he and the bin Laden family had oil
> > business dealings going back to the 70's?

Should they have a crystal ball? I know of no such deals, however, because the Bush family invested in domestic oil in central and southern Texas. I do know that the Bin Laden family controls one of the largest Middle-Eastern construction companies. If they did build a refinery overseas in the 70's, it would not surprise me if they did business -- especially since Usama Bin Laden didn't activate Al Qaeda until the late 80's.

> > Why did we give Osama bin Laden millions of dollars to fight the
> > Russians in Afganistan?
> >

We didn't. However, we did supply weapons to an opposition faction of Afghanistan freedom fighters that eventually splintered into several warring factions. Years later, one of these factions became the Taliban, which eventually allied with Al Qaeda, years after the Russians had gone. The northern Afghan freedom fighters allied with our troops to help overthrow Al Qaeda and the Taliban.

FO&A,

I guess, I Owe Everyone an Apology.

It is No Longer COOL to Love My Country.
- - - Hell Cool isn't 'Cool' anymore !

Today's Definition of a Patriot seems to be:
- - Someone Who Criticizes the USofA and Disparages Our Leaders.

I 'resist' this Change because I grew up in a time when
- I was Proud to Be a Boy Scout
- - A Matter of Personal Honor.
- - - But Does Personal Honor, Matter Anymore ?

Today the Boy Scouts are Labeled as Bigots.
- - - And some go so far to call them a HATE Group.

Once Again I Apologize for Loving My Country.
- - - And having Faith in Our Leaders.

But any warm body is not necessarily a citizen. The democracy can create rules, democratically approved, which limit the participation in the society. If you do not abide by the rules, you may become ineligible to continue participation within the democracy. Indeed, the simple democracy can do anything it (collectively) wants. Therein lies the reason for modifying a pure democracy with a set of fixed rules (possibly called a constitution).

Good to see your true colors.

By the way (since you say I'm on a roll), this is an amazing coincidence,
but your name sounds exactly like someone throwing up.

I would be ashamed to have written what you have posted.

Have a nice day.

In the first place we are a "Republic", remember the pledge "and to
the Republic for which it stands".which is ruled by a "Representative
Democracy", not a pure democracy.

How is it that the same people who love to quote the "N", word to show how enlightened they are, figure that they have the right to denigrate Southerners with impunity?

I suspect that with your supercilious attitude, you have to look down on someone. Ergo, find a group that is not protected by politically correct speech and stereotype them.

Your sophomoric rhetoric is trite and boring, I suspect your total experience with 4 land has been what you have garnered from the liberal media via TV or movies.

I do note that the most egregious violations of civil rights occur in places other than 4 land...

Many of us lost ancestors in the war of northern aggression, the flag is a source of pride to a people that resisted the imposition of unfair tariffs, made it illegal to import Africans, and wanted to protect their homes. The Stars and Bars are a point of pride, and the strains of Dixie (written by a damyankee) played on a town square warms our heart.

Your chances are very, very good if you use the right methods..
First learn all the symbols by sound...
Do not expect to memorize the dots and dashes you see written on paper and
expect to get more than 5 wpm..
I got to 30 wpm after I couldn't get past 7 wpm because I tried to do double
translations1
So I had toi relearn by sound and it worked..
good luck comes with pracitce nearly every day for at least 10 to 15
minutes...

I was haviing problems with the squelch so I performed a reset, and you need
4 baby fingers to do that! Since the reset I've lost ARS, I have no
repeater offset and regardless of what I do I can't get that funtion to
respond. All the other menu functions respond per the manual. Have I done
something wrong or is there a trick? Is there a 1500 user group, I found
one listing for mods but that's it.
tnx

Whatever happened to the free speech that was banded around like a three-dollar whore when this whole thread started by a Southerner denigrating other cultures? Or is this just another Limbaughesque fakery: free speech applies to only what we like and drug wars don't apply to white middle-age millionaire hypocrites.

> I suspect that with your supercilious attitude, you have to look down on

There is no such thing as a "group that is not protected by politically correct speech". It is a figment of your imagination and the result of mistaking paraliberals' bullshit for what liberals stand for. Sort of as if I assumed all conservatives were moral freaks like Ashcroft and Santorum.

> Your sophomoric rhetoric is trite and boring, I suspect your total
> experience with 4 land has been what you have garnered from the liberal

Yes, it must be that damn liberal media: Fox News, CNBC, every Christian channel anywhere, every Hz on AM, the Washington Post, etc.

Wait, I'm confused... Are you complaining that you can't legally import slaves anymore or that the aggressors' flag is a point of pride?

If I have any say in this, a patriot is someone who, among other things, applies critical thinking to the actions his country is taking (and let's not make a mistake of equating a group of corrupt politicians with the whole country) and has a courage to make a stand against the obvious mistakes that his "Leaders" are making, especially when the "Leaders" are waging wars in the interest of a foreign power and contrary to the interests of ours. Supporting "Leaders" at all cost leads to tyranny.

> Today the Boy Scouts are Labeled as Bigots.
> - - - And some go so far to call them a HATE Group.

You tell me:

From Webster, bigot (noun): a person obstinately or intolerantly devoted to his or her own opinions and prejudices.

Prejudice (noun): 1 injury or damage resulting from some judgment or action of another in disregard of one's rights; especially : detriment to one's legal rights or claims
2 a (1) : preconceived judgment or opinion (2) : an adverse opinion or leaning formed without just grounds or before sufficient knowledge b : an instance of such judgment or opinion c : an irrational attitude of hostility directed against an individual, a group, a race, or their supposed characteristics
---
Since the Boy Scouts specifically refuse membership to atheists and homosexuals, what does that make them?

Wrong again, Walt.

I assume you're talking about Lord Baden-Powell, who some believe was a "repressed" homosexual.

Lord Robert Baden-Powell did not found Boy Scouts of America (or Girl Scouts), but he founded the larger scouting movement that began in England and upon which scouting programs worldwide are based.

Nice try.

How is that an evasion? It's the truth (and thank you for helping to
illustrate my point with the Roman Catholic Church).

The Boy Scouts organization have made their wholesome policies perfectly
clear and have defended them sucessfully in court.

However, the Roman Catholic Church chose to ignore their own policies, cover
up transgressions, and betray many of their members (and have been very,
very unsuccessful in court). If they had been true to their faith, they
would never have had any trouble.

By the way, Zoran -- I'm sorry for the harsh words earlier -- I was pretty
pissed off with the way you trashed RHF for expressing his love for his
country. We now live in a country where in some neighborhoods displaying
the American flag is considered a vulgar irritation to others. I saw your
sarcasm at his post as more of the same wrongheaded thinking.

Whatcha say we talk about radios?

# 4118. State Funding of Danish Pro-White Radio Stirs Debate

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-11 02:04:37 UTC

State Funding of Danish Pro-White Radio Stirs Debate
News/Comment; Posted on: 2003-11-08 22:15:51 [ Printer friendly ]

Steps are being considered to change a law that allows a pro-White radio station, Jonni Hansen's Radio Oasis, to operate in Denmark under the protection of the government, and the case has forced politically correct people to ask how far Danish free speech should go, reports Deutsche Welle. (pictured: Mr. Hansen.) ☐Freedom of the press and freedom of speech are two of the most fundamental rights in any democracy, and in Denmark these rights are vehemently upheld.

"But lately, [politically correct] Danes are wondering how far that freedom should go. The debate has been sparked by public outrage over Radio Oasis, a private radio station that broadcasts uncensored, right-wing extremist propaganda with funding and protection provided by the Danish government.☐

Radio Oasis transmits from Copenhagen, the capital of Denmark. The station broadcasts pro-White music and commentary that seeks to reach out to Whites concerning the dangers of multicultural social engineering and the potential demise of their culture and race. Jonni Hansen is the station chief and leader of Denmark☐s pro-White, patriotic party, DNSB, which also supplies recordings, literature, and other political material to German pro-White groups. In effect, the Danish government pays for the distribution of Hansen☐s pro-White message.

The main point of concern for the politically correct Danes is that the station can send out pro-White propaganda from the center of Copenhagen without any fear of legal persecution. ☐Denmark has a law guaranteeing state funds for non-commercial radio and television stations. Under that provision, Radio Oasis receives a yearly subsidy from the state, which totals nearly 50 percent of the station☐s yearly expenses. The government has done so every year since 1997.☐

The laws in neighboring Germany are very different. In Germany, Orwellian thought crime laws restrict both criticism of Jews and the promotion of pro-White ideas. Any expression of pro-White ideas, (i.e. "neo-Nazism" in politically correct parlance), carries possible jail sentences. Sharing a border with a country that provides freer expression of ideas, where such pro-White advocacy

could potentially turn Germans away from their multicultural experiment and social engineering, can be "inflammatory," since Germans can also tune into the station.

☐The fact that Hansen and his DNSB party are able to use the airwaves of Radio Oasis for its own political views is an embarrassment for the Danish government. Culture Minister Mikkelsen wants the law to be changed so the radio station isn☐t guaranteed automatic protection. But he isn☐t sure whether that will happen before 2005.☐

Until then, Radio Oasis can continue to broadcast its pro-White message ☐ with the full support of the Danish state.

# 4119. Re: learning morse code 15 WPM at age 45?

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-11 02:06:07 UTC
From: C <cpierce@uit.net>
Message-ID: <cpierce-086F61.20085910112003@news04.east.earthlink.net>
Source record: 61439

Dan

I got it after several years of trying and thinking I was spitting in the wind. I buckled down and worked on it at least 2 or 3 times a day and some days 5 or 6 times toward the test time. Practice 20 or 30 minutes at a time then rest for a while. Get some tapes or a computer program to start off to learn the, characters. Then try the MFJ code trainer. It can be set up to almost any speed conbination and send from beginner to expert groups of letters numbers or QSOs. It will display what it sends so you can check what you hear. After a while you will not even look at it as you can hear it. I used mine while at work and listen to code while driving and let it be in the background all of the time. It is amazing what you will pick up this way. It may not work for others but it worked for me at 48 years of age... The last effert that I put my heart in to it took about 30 days to sucess.

Pratice Pratice Pratice.

Start out at 15 wpm with 8 to 10 wpm spacing and as you pogress graduly reduce the spacing to 5 wpm. The code test will be given at 13 wpm with 5 wpm spacing. You need the extra speed for when you take the test the 13 wpm will sound like slow motion and it will click in your head.

I took a code test just to see how things were to be like to help me prepare for it when I was ready to pass it.

Taking the ARRL testing you will copy 1 minute of code for a pratice then the test will start and you will be hearing 5 minutes of code. After copying (writing the 5 minutes of code on paper) you can answer the 7 of the 10 questions to pass or have 1 minute of perfect copy (20 chactares, letters numbers and punaction. Letters count as 1 and numbers and puncation count as 2) character.

Do not worry about what the message is as you copy it just hear each character and write it down and cover it with your hand to keep from looking at it. If you miss one skip it and go on because as you try to figure it out you will miss the next two or three ane get way behind. If you do miss a letter or letters after the QSO is complete read over what you have written and a lot of times you can fill in the blanks.

What ever you do DO NOT GIVE UP, you can do this......

Good luck.....

C.

Pratice Pratice Pratice

Keep the code alive.....................

State Funding of Danish Pro-White Radio Stirs Debate
News/Comment; Posted on: 2003-11-08 22:15:51 [ Printer friendly ]

Steps are being considered to change a law that allows a pro-White radio station, Jonni Hansen's Radio Oasis, to operate in Denmark under the protection of the government, and the case has forced politically correct people to ask how far Danish free speech should go, reports Deutsche Welle. (pictured: Mr. Hansen.) "Freedom of the press and freedom of speech are two of the most fundamental rights in any democracy, and in Denmark these rights are vehemently upheld.

"But lately, [politically correct] Danes are wondering how far that freedom should go. The debate has been sparked by public outrage over Radio Oasis, a private radio station that broadcasts uncensored, right-wing extremist propaganda with funding and protection provided by the Danish government."

Radio Oasis transmits from Copenhagen, the capital of Denmark. The station broadcasts pro-White music and commentary that seeks to reach out to Whites concerning the dangers of multicultural social engineering and the potential demise of their culture and race. Jonni Hansen is the station chief and leader of Denmark's pro-White, patriotic party, DNSB, which also supplies recordings, literature, and other political material to German pro-White groups. In effect, the Danish government pays for the distribution of Hansen's pro-White message.

The main point of concern for the politically correct Danes is that the station can send out pro-White propaganda from the center of Copenhagen without any fear of legal persecution. "Denmark has a law guaranteeing state funds for non-commercial radio and television stations. Under that provision, Radio Oasis receives a yearly subsidy from the state, which totals nearly 50 percent of the station's yearly expenses. The government has done so every year since 1997."

The laws in neighboring Germany are very different. In Germany, Orwellian thought crime laws restrict both criticism of Jews and the promotion of pro-White ideas. Any expression of pro-White ideas, (i.e. "neo-Nazism" in politically correct parlance), carries

possible jail sentences. Sharing a border with a country that provides freer expression of ideas, where such pro-White advocacy could potentially turn Germans away from their multicultural experiment and social engineering, can be "inflammatory," since Germans can also tune into the station.

"The fact that Hansen and his DNSB party are able to use the airwaves of Radio Oasis for its own political views is an embarrassment for the Danish government. Culture Minister Mikkelsen wants the law to be changed so the radio station isn't guaranteed automatic protection. But he isn't sure whether that will happen before 2005."

Until then, Radio Oasis can continue to broadcast its pro-White message - with the full support of the Danish state.

.............

Good boy, Strom. Always fighting for your right to call a spade a spade.....

If I have any say in this, a patriot is someone who, among other things, applies critical thinking to the actions his country is taking (and let's not make a mistake of equating a group of corrupt politicians with the whole country) and has a courage to make a stand against the obvious mistakes that his "Leaders" are making, especially when the "Leaders" are waging wars in the interest of a foreign power and contrary to the interests of ours. Supporting "Leaders" at all cost leads to tyranny.

> Today the Boy Scouts are Labeled as Bigots.
> - - - And some go so far to call them a HATE Group.

You tell me:

From Webster, bigot (noun): a person obstinately or intolerantly devoted to his or her own opinions and prejudices.

Prejudice (noun): 1 injury or damage resulting from some judgment or action of another in disregard of one's rights; especially : detriment to one's legal rights or claims
2 a (1) : preconceived judgment or opinion (2) : an adverse opinion or leaning formed without just grounds or before sufficient knowledge b : an instance of such judgment or opinion c : an irrational attitude of hostility directed against an individual, a group, a race, or their supposed characteristics
---
Since the Boy Scouts specifically refuse membership to atheists and homosexuals, what does that make them?

WA7AA

Answer: Free to make their own choices of association.

Reading comprehension challenged?
I will break it down for you.

See Dick with the Confederate flag.

Jane said "It was illegal to import slaves under the constitution of the confederacy."

Spot said " The war was about unfair tariffs against the South and aggression by the Northern invaders."

Dick said "Even blacks fought on the Southern side to protect their homes."

Jane said "You mean all those people that said it was about slavery are wrong?"

Spot said "You got it Jane"

I forgot you were educated in the land of fruits and nuts and humbly apologize for writing beyond your grade level.

The issue being discussed is not whether they're free to make their
choices, but whether excluding people based on religion and sexual
orientation makes them bigots. Pay attention.

> Spot said "You got it Jane"

Seems to me you have problems reading. I never said the US civil war was about freeing slaves - we'll put that excuse in the same bin from which you pulled out the "blacks fought on the Southern side to protect their homes" bullshit. Yes, that same bin that is the source of "imminent danger", "nuclear weapons program", "terrorist connection", etc.

> I forgot you were educated in the land of fruits and nuts and humbly
> apologize for writing beyond your grade level.

Wherever I was educated really makes no difference to what you wrote in your previous post:

>>>Many of us lost ancestors in the war of northern aggression, the flag is
>>>a source of pride to a people that resisted the imposition of unfair
>>>tariffs, made it illegal to import Africans, and wanted to protect their homes.
>>>The Stars and Bars are a point of pride, and the strains of Dixie (written
>>>by a damyankee) played on a town square warms our heart.

So you see my dilemma: on one hand you're stating that the North was the aggressor against the innocent Southerners who just wanted to protect their homes, and on the other you're supporting the exact same war White House is waging in Iraq. Not to mention that defending a regime that was based on slavery in this day and age is really, oh how shall I put this... idiotic. So there's my position - I don't have a problem with Southerners, only with the ones still fighting for their precious Dixie that was built on human misery. Sorry - it must be my education.

Well, by substituting an irrelevant answer to a clear question. For example: John X murdered 20 women - what does that make him? The red herring answer is: a perfect father because he raised five great children.

> The Boy Scouts organization have made their wholesome policies perfectly
> clear and have defended them sucessfully in court.

The issue is very gray and the only reason they've been successful (5 to 4 in the Supreme Court, btw) is that atheists and homosexuals in this country (the only one among the Western nations, btw.) are still considered abnormal by the Christian majority. Had they excluded blacks or Jews, for example, no "private organization" status would help them in the outrage they would raise. Read up on the "public accommodation" issue in this case and realize that the Boy Scouts are indirectly funded by the public.

There's no need to apologize - it's a free country and sometimes some of us learn something new in the process. My primary reason for getting involved in this pathetic thread is that I hate hypocrisy and inconsistency. So when the political discussion inevitably turns into the bashing of liberals, ACLU, etc. for their alleged anti-Americanism, I can't keep quiet. In my opinion, the average ACLU volunteer is a bigger American Patriotï¿½ that ten thousand Limbaugh wannabes. Also, as a sort of an impartial observer, I can say that the biggest problem of the US partisan voter is that he sees the other party as a devil incarnate, and his own as an infallible moral beacon. Hence, this entire thread.

> Whatcha say we talk about radios?

Yeah, but the dx conditions suck lately.

Hi

I will be monitoring 50.230MHz and 144.230Mhz during the Leonids meteor shower from 17/112003 to 20/11/2003 most evenings and mornings. I will be using WSJT/JT44/JT6M weak signal software and am keen to attempt contact via meteorscatter with stations in Northern New South Wales and Queensland as from Melbourne I believe this to be to optimum range.

50.230MHz using JT6M
144.230MHz using JT44

Please contact me for any arranged attempts.

Cheers

The large coronal hole that was predicted to move into geoeffective position by 11-XI-2003 has indeed, affecting the solar wind. The solar wind has been elevated since 10-XI-2003, with a consistantly southward orientation (Bz is negative) in the interplanetary magnetic field (IMF). The solar wind stream is expected to continue at this higher speed for the next few days, with a high possibility that the IMF will remain orientated southward. This will cause the geomagnetic field to remain at least active, but most likely at minor to major storm levels (at least a G2-level geomagnetic storm, Kp levels between 4 and 7).

The Ap is expected to continue to rise, up to a possible 70, during the next few days. But, the 10.7-cm flux is also rising a bit, with 95, 98, and 100 expected from today, 11-XI-2003, through 13-XI-2003.

There have been a series of B-class flares from the new sunspots (498, 499, 500). This has caused very minor degradation of the middle HF bands in geographical areas directly facing the sun. Type-II radio emissions have been recorded, as well, indicating minor coronal hole mass ejections (CME), further enhancing the solar wind stream.

As I write this, the first M-class flare peaked at 1351Z 11-XI-2003, at about M1. It is unclear to me yet where this flare came from. It might have been from region 500, or, highly possible, from the now-returning sunspot region 484 (we saw activity from this one several weeks ago). The possible return of large active regions that contributed to the high activity of the last 3 weeks is expected between 11-XI-2003 and 16-XI-2003, starting a new surge of flaring activity for several weeks. In the meantime, the very large coronal hole should be the main source of Earth disturbances.

Overall conditions, then, on HF will be poor to fair. The high geomagnetic activity for a period of many days will degrade or even shut down polar and high-latitude paths, while leaving mid- and low-latitude propagation paths only marginal. There will be exceptions to this across paths of sunlight, due to the higher flux levels. VHF conditions could be enhanced due to the active aurora conditions and elevated geomagnetic activity.

Hi,

Some time ago (<12 months, I think), a QST column mentioned that a US company had started making tab cards (Hope this is the correct term) for archiving QSL cards.

One tab card/DXCC entity, with a table printed on the card allowing you to fill in what bands/modes you had worked the entity on. Fits neatly in a shoebox.

Does this ring a bell with anyone? I've googled for these cards without luck. They'd really help me get my QSL collection organised!

Thanks,

So how much pot did KE4TEW give Riley to get his license back?

Read below, if you can read.

TAMPA, FL: The FCC has requested that General class licensee James W. Dale, KE4TEW, retake the General class examination elements under the supervision of FCC personnel by July 30, 1999, or his license will be canceled.

At:

http://www.arrl.org/news/stories/1999/06/23/1/

---

TAMPA, FL [UPDATE]: The FCC notified James W. Dale, formerly KE4TEW, on August 3, 1999, canceling his General Amateur Radio license. The FCC had notified Dale on June 18, 1999, requiring him to retake his Amateur Radio examinations prior to July 30, 1999, under the supervision of FCC personnel in Tampa, Florida. According to FCC Attorney Riley Hollingsworth, K4ZDH, Dale failed to appear for reexamination, and his license was consequently canceled. Hollingsworth also warned Dale about continued operation of radio transmitting equipment.

Now, the "Miracle"

TAMPA, FL [UPDATE]: The FCC notified General licensee James W. Dale, KE4TEW, on September 28, 1999, that it was reinstating his Amateur Radio license with a short-term renewal date of September 29, 2000. Dale had failed to appear for reexamination after being notified by the FCC on

June 18 to retake his Amateur Radio examinations prior to July 30, and his license was canceled on August 3, 1999. FCC Legal Adviser for Enforcement Riley Hollingsworth said the FCC has "since reviewed and accepted" Dale's detailed response and his explanation for failing to appear for retesting. Hollingsworth said the FCC was reinstating Dale's General license "pursuant to our agreement with you," but the FCC letter did not elaborate. Hollingsworth told Dale that if there are "no valid complaints about your use of Amateur Radio" over the next year, he may apply for a routine license renewal at the end of his current term.

http://www.arrl.org/news/stories/1999/10/07/5/

---

Thus, KE4TEW, a convicted felon who jammed HF frequencies for years while id'ing, did not show up for a retest. Why? That's easy. He paid for his license. Then Riley does what he has done with the others who did not show up, he cancels the license. Good Riddance to this nuisance. Then almost two months later, Riley reinstates the license, WITHOUT THE ORIGINAL RETEST!!!! "Pursuant to our agreement with you" What the hell does that mean?? In other words, even though we know you are not qualified to be on the air, go ahead anyway???? What the hell kind of enforcement is this? It's biased enforcement, Riley's trademark style. So what was the agreement? Harass people on the Internet 24/7? Continue to jam the Liberty Net? Is he paying Riley a monthly fee to be on Amateur Radio? Riley's little slush fund. Did TEW give Riley a large amount of illicit drugs? What was it that made Riley reinstate this known drug dealers ticket that was fraudulent in the first place? Maybe Riley does Rita on weekends?

If you are wondering what kind of ethics violation Riley committed in granting TEW's ticket back under the table contact the Inspector General of the FCC as several already have. Ask Mr. Feaster to add your name to the ethics probe of the KE4TEW case. Then one day you too will know how to bribe an FCC official and make him make unethical decisions on your behalf.

So how much pot did KE4TEW give Riley to get his license back?

Read below, if you can read.

TAMPA, FL: The FCC has requested that General class licensee James W. Dale, KE4TEW, retake the General class examination elements under the supervision of FCC personnel by July 30, 1999, or his license will be canceled.

At:

http://www.arrl.org/news/stories/1999/06/23/1/

-Thanks - the dividers featured on the site look nice, but they are not what I'm after, as they do not have a table for bands/modes worked printed on them. Would be great for recordkeeping purposes...

If noone comes up with a reference to the ones featured in QST, I guess I'll go for W7NN's dividers. 338 (DXCC current list) tab cards costs approx. US$ 55,- locally, so there's no money to be saved making the headers myself...

Thanks!

Dan Jacobson wrote:

> What are the prospects of learning morse code at 15 WPM at age 45?

[details, and lots of replies snipped]

I learned Morse code when I was a kid (Cub Scouts), and it was like a "secret code." I met many great friends on the air while I was a teenager, in fact, one of whom had to sneak his CW key and speaker into his closet in order to make our daily sched because his report card got him 'grounded' in 7th grade.

Then, I used it as a way to get a high score on CW contests, where so many people never go -- and that weakens the competition. I also use it to see what they are saying on the WW2 movie clips that show people sending Morse light signals on ships at sea.

The point? I never used a computer program to learn code. Fortunately, they didn't exist. But it's not a video game; it's interaction with another human!

Find a way to make it interesting, and not a way to become a modem savant: learn the letters, and then try to decode a conversation between two people. Just like if you want to learn a new language, you study a little, and then turn to the Spanish channel! You get one word out of a hundred, and then two, and then three..... It's interesting, and fun. Something is happening, and you can join in.

You will never learn and/or love something new until you trick yourself into enjoying it ahead of time.

Hope this helps. And Dan, If you want to reply to me personally, it is my callsign (kz1o) at arrl.org

All the best, and 73,
Dave
KZ1O

What the hell is wrong with you people? You don't even know Jim, KE4TEW.
You listen to the made up bullshit from ten years ago, and continue to
demean him. What the hell is wrong with you people?

This is not ham radio. Hell it's not even CB. It is just plain vicious
slander.

Dan/W4NTI

Dan. It's just more crap from Wogie Wussman and Dimmy O'Brainless.
What do you expect from the likes of them?

Have been staying out of this, but your Leninist historical revisionism is
too much. Having lost ancestors on BOTH sides, I calls that conflict the War
of Stupid Secession. And while Dixie is a bright & lively tune, it's sound
should forever evoke memories of the dark heart of the Confederacy.

(much bullshit snipped)

This crap is over 4+ years old.

Why are some ham op's so often obsessed with nonsense
that happened years (..and in some cases, decades!) ago
on the stupid radio? 14.313 is a perfect example. There's more
than a few clowns on there still outgassing about the nonsense
that took place on there during the 1990's!

Really makes you wonder if a prerequisite for operating
on parts of 20 or 75 Meters for some, is a diagnosis of
a mental illness.

jeezus h christ, give it a rest and get a life
or just go outside and sniff the fresh air.

Just installed McAfee Professional 7.0 Virus Scan. Have spent hours with different configurations to get the two software packages to work together. Echolink will fetch data but I'm unable to connect with test server. My computer is running ME. Has anyone been able to overcome this problem. Thanks for any suggestions as McAfee support has not been able to help.

TAMPA, FL: The FCC has requested that General class licensee James W. Dale, KE4TEW, retake the General class examination elements under the supervision of FCC personnel by July 30, 1999, or his license will be canceled.

At:

http://www.arrl.org/news/stories/1999/06/23/1/

---

TAMPA, FL [UPDATE]: The FCC notified James W. Dale, formerly KE4TEW, on August 3, 1999, canceling his General Amateur Radio license. The FCC had notified Dale on June 18, 1999, requiring him to retake his Amateur Radio examinations prior to July 30, 1999, under the supervision of FCC personnel in Tampa, Florida. According to FCC Attorney Riley Hollingsworth, K4ZDH, Dale failed to appear for reexamination, and his license was consequently canceled. Hollingsworth also warned Dale about continued operation of radio transmitting equipment.

At:
http://www.arrl.org/news/stories/1999/08/11/2/
---

Now, the "Miracle"

TAMPA, FL [UPDATE]: The FCC notified General licensee James W. Dale, KE4TEW, on September 28, 1999, that it was reinstating his Amateur Radio license with a short-term renewal date of September 29, 2000. Dale had failed to appear for reexamination after being notified by the FCC on June 18 to retake his Amateur Radio examinations prior to July 30, and his license was canceled on August 3, 1999. FCC Legal Adviser for Enforcement Riley Hollingsworth said the FCC has "since reviewed and accepted" Dale's detailed response and his explanation for failing to appear for retesting. Hollingsworth said the FCC was reinstating Dale's General license "pursuant to our agreement with you," but the FCC letter did not elaborate. Hollingsworth told Dale that if there are "no valid complaints about your use of Amateur Radio" over the next year, he may apply for a routine license renewal at the end of his current term.

At:
http://www.arrl.org/news/stories/1999/10/07/5/

---
Thus, KE4TEW, a convicted felon who jammed HF frequencies for years while id'ing, did not show up for a retest. Why? That's easy. He paid

for his license. Then Riley does what he has done with the others who did not show up, he cancels the license. Good Riddance to this nuisance. Then almost two months later, Riley reinstates the license, WITHOUT THE ORIGINAL RETEST!!!! "Pursuant to our agreement with you" What the hell does that mean?? In other words, even though we know you are not qualified to be on the air, go ahead anyway???? What the hell kind of enforcement is this? It's biased enforcement, Riley's trademark style. So what was the agreement? Harass people on the Internet 24/7? Continue to jam the Liberty Net? Is he paying Riley a monthly fee to be on Amateur Radio? Riley's little slush fund. Did TEW give Riley a large amount of illicit drugs? What was it that made Riley reinstate this known drug dealers ticket that was fraudulent in the first place? Maybe Riley does Rita on weekends?

If you are wondering what kind of ethics violation Riley committed in granting TEW's ticket back under the table contact the Inspector General of the FCC as several already have. Ask Mr. Feaster to add your name to the ethics probe of the KE4TEW case. Then one day you too will know how to bribe an FCC official and make him make unethical decisions on your behalf.

# 4163. WANTED-DONATIONS

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-12 21:47:29 UTC
From: n2ion@aol.com
Message-ID: <20031112164729.25862.00000098@mb-m05.aol.com>
Source record: 61483

LIMARC (the Long Island Mobile Amateur Radio Club) has had two Field Day meetings in preparation for the big event next June. We want to improve our emergency preparedness and we feel that it's to the club's and public's advantage to get an early start. We want to be ready far in advance of this event.

LIMARC feels strongly about being ready to assist in any type of emergency situation. We would like to be ready to do our part for public service.
At this time LIMARC is looking for donations of towers, telescoping masts, beams or vertical antennas, radios, etc. to be used for the Field Day event, or any other emergency where we may need to provide emergency communications.

If you have any of the above items, and are not using them, and would be intersted in donating to our cause, please contact Jeff, N2ION@AOL.COM or by phone at 516-356-0800.

The club will provide you with a donation confirmation document letter for tax purposes.

We really need your help at this time so please try to assist us as best you can.

Thanks & 73,
Jeff, N2ION
Co-Chairman-LIMARC Field Day Committee

Were you able to connect before or is this your first attempt to set it up?
I found that in some cases the problem resides in the ISP server and there
may not be anything you can do about it except use a different server.

Hi Dave,
I was also thinking to this kind of solution. after "ohe-shot" by-passing power-up button (a 555 timer as you say), I could detect if radio has powered on by sensing light on display with a photo-cell.

I finally decided to bring back to life my old Icom IC-22S (10 watts VHF transceiver) and use it for APRS; It is already modified for packet frequencies. But I could still modify my TM-741 (for auto power-up) if I need more power...

Thanks for advices.

Are you sure you want a silver plating? Tin is the common plating,
and it does have a silver color. Silver will oxidize quicker, and will
dissolve into the solder, and can cause electromigration problems, and
weak joints.

I'm selling my trusty Scout:

<http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=3057949710>

Ten-Tec Scout with 40 & 20 meter modules, Bencher Iambic Paddle included.
Unit has noise blanker/Jones filter built in and user manual/schematic is
included. Radio has "Amp" jack for power but PowerPole adapter is included
for emergency service interoperability. No microphone was ever used on this
rig.

Still trolling the public rest rooms, are you? That why you
still have that harelip? Or is it a birth defect, when the
abortion doctor shoved that wire coat hanger up your mommy's
vagina and dragged out out into the world?

> just can't control himself and MUST fag lame.

Sort of like your uncontrollable desire to manufacture kiddie
porn, isn't it? Sounds like you're defensive about being a
homosexual, Stupid Lee.

> Kind of a pity, eh?

Yes, you are to be pitied.

And, it doesn't take much to slap you down, fuckhead. Hardly
takes any effort at all.

Where are those articles you supposedly have written? How can
you explain that when a native German speaker called you on my
spelling of ueber wasn't really wrong, you couldn't answer him?

> : > : Nor the formula itself. Guess it's a little higher math than an

> : Not according to the author. I guess since you didn't complete
> : even FRESHMAN year college, you continue to blather out of your
>
> And you, \/

Proved what a utter, fucking imbecile you are.

I gave a formula that shows how limited and narrow your
education is. You have the source, why don't you contact the
author and see if it is wrong or not?

ARRL publications are informative, but they are NOT the
authority to end all authority. Why don't you find the book I
cited, it is a college level textbook, (citing is something you
haven't done specifically), then you'll have to find somebody to
read it to you. Why don't you see if you can get that PELL Grant
and go back to school, I'm sure you can use your mental handicap
as a bargaining chip in these politically correct times.

The only one running is you, why didn't you post those articles
you've supposed written, or why did you completely fuck up,
thinking an Alabama website was for one in WV? You have quite a
history of blathering on about what you don't know, as proven
many times by LRod and myself and others. Or when called on that
"International Radio License" with the UN, and proven wrong,
all you say for yourself was a juvenile "made you look."
You are an unmitigated blowhard with little to say, but spends
most of your time saying it.

You know all about what Freshman students know, since you only
could hang in for one semester before flunking out.

Explain why you seem to hold tightly onto the CB mentality
regarding SWR and flat matching?
The formula does give the right answer at 1.5:1, maybe you need
to get a better calculator other than that cheap K-Mart one you
currently own.

What this is about, as in your past posts, you post stupid
comments that you can't back up. I gave my source, all you can
do is post inane comments but nothing to back up what you say.

> But this is all a bit of a non-sequitur,

Oh, backpedal boy, all of what you post is a non-sequitur, it's
to be expected from you.

<More lies and bullshit, but Stupid Lee still couldn't refute
the formula with anything of substance.>

I don't know what the formula means? I'm the one who took the
course and got the A. You have yet to prove you got past that
fresman semester in which you flunked out.
Obviously, it was the use of logarithms that have a special ed
student like yourself scared.
You probably don't even have that button on that cheap ass
calculator.
And remember, if you can stay sober long enough, that the answer
for that formula is in dB.

> That's because transmission line loss and SWR are not directly related.

MUWHAHAHAHAHAHAHAHAHAHAHAHAHAHA..that HAS to be one of the
stupidest things you've ever written.
Another for your numerous archives of your fuckups.

What do you think Standing Wave Ratio, the ratio of maximum
voltage (resulting from the interaction of incident and
reflected voltages along the line (i.e. reflected voltages =
line loss),IS, you complete moron?
In real life, you cannot get a perfect match. That is CB
mentality and a myth.

Thanks for playing, you proved yet again what a complete
imbecile you are.
--
Staggreing Drunk Lee expounds on his ignorance about
Transmission lies and SWR thusly in
<way.way.beyond.woger@houston-hunks.com>:
"That's because transmission line loss and SWR are not directly
related."

Athough a discussion such as this can sometimes yield something useful, there's another question that begs asking: Why use a multi-band radio for such a single-band application? Seems like overkill.

Also, I don't know what your problem is with the radio. When I turn off the power supply that my TM-741A inside the house (used as a base radio), then turn the PS back on, the 741 DOES come on without having to hit the power button. Granted, the electrical system inside a car may be a bit different - especially as there will be a current drain in the "start" position of the ignition switch, but the above behavior of a radio inside on a 120VAC->12VDC PS implies that the vehicle's electrical system might be the cause of the differing behavior. How does your 741 act when tied to a PS indoors (i.e. not in the vehicle)?

For what it is worth, LRod, I took it upon myself to copy this thread and send it on to World Radio...attn: Kurt Sturba.
I asked that he look at your and Stagger Lee's arguments.
If Kurt finds you, LRod, to be in err, will you bow down and admit that Stagger Lee is your mental superior?
I doubt that the same will have to be asked of Stagger Lee...I suspect that Kurt will agree more with Stagger than he will with you. Your ego trips you up.

Why? Simple. Kurt N Sturba and Stagger Lee are better educated than you. The sooner you realize this the better it will be for you.

Please excuse me, once again I have erred in the eyes of a 6 Lander by placing truth in front of political correctness.

It might interest you to know that after the surrender of Lee, Lincoln requested the White house band to play Dixie.

I am always amazed how enlightened liberals can reduce a complex war to a single issue. If you choose to do so, make sure it is the correct single answer. The war of Northern aggression was about money, slavery did not have a damn thing to do with it.

Lincoln's emancipation proclamation had no standing in a seceded South and was made in the hopes that it would foment an uprising of the slaves, thus requiring the use of Southern troops for quelling the uprising rather than fighting the Northern troops.

But Ed, let me not confuse you with the facts.

Oh my, tarred as a "6-Lander"! How cutting! And quaint, since the "6"
designation is a result of a Federal bureau licensing organizational plan,
and you Southern boys are always so distrustful of Federal schemes. Looks
like them Washington boys are already inside your head.

Playing "Dixie" might have been a diplomatic gesture of kindness; it also
might be viewed as the ultimate "screw you".

Slavery was the basis of the South's wealth, the ultimate cheap labor.
Claiming that money was the true basis for the US Civil War is like trying
to link the Holocaust to the cost of soap in Bavaria. And the South didn't
want to simply continue slavery, they wanted to allow it to be expanded to
new states as they joined the Union. Slavery wasn't the single issue, but it
was the ultimate trigger to a train of events that had been being avoided
for 30 years. If slavery wasn't the prime issue, then why wasn't the Civil
War fought between the Union and say, Indiana, Illinois, Wisconsin,
Minnesota and Michigan?

The Emancipation Proclamation was obviously unenforceable, as it applied
only to those states currently in rebellion to the Union. How about that,
Lincoln takes the moral high-ground, foments trouble within his adversaries
territory, and causes the adversary to waste precious manpower on internal
suppression. Impressive even after 150 years.

You divine that I'm a "liberal." You're obviously invoking the same powers of political acumen that typified the train wreck that was the Confederate Government. The Great Speeches of Jefferson Davis could be inscribed on the head of a pin with a magic marker!

Dixie is dead; get over it, or accept irrelevance.

I am currently using a West Mountain RIGrunner with the big leads
connected to a sizable power supply. I am curious as to the best way
to attach my deep-cycle batteries to this system. The goal is to have
a station which can run uninterrupted through a power outage or
battery switching, and whose connected batteries are kept charged
continuously.

The ideal solution here seems to be two power panels -- one for power
sources, and one for power consumers. A nice thick set of wires will
connect the source power panel to the DC IN on the consumer power
panel. My power supply can be connected to the source power panel,
but I'm not sure what I should do about the batteries.

Is it as easy as connecting the batteries directly to the source power
panel? I seem to recall a posting about using a relay to protect
against low voltage conditions on the batteries -- I'll try to find it
to see how to apply it to my situation.

Will I need to modify the power supply so that it doesn't get
zorched by the batteries when commercial power fails? There was an
old ARRL article series on power supplies, and I think they mentioned
using a diode to prevent shorting something out.

Will my equipment be damaged if I add or remove batteries to the
source power panel? Will it matter if commercial AC is on or not?

Jack.

Lynch Book Debunks Bush PR. Dump the Lying Chimp in 04.

November 11, 2003
Lynch Book Says Iraqi Doctors Were Saviors
By THE ASSOCIATED PRESS

Filed at 2:26 p.m. ET

NEW YORK (AP) -- The authorized biography of Pfc. Jessica Lynch debunks early myths that U.S. troops waged a daring rescue to save her, and describes a team of Iraqi doctors as gentle caretakers who worked at their own risk to keep her alive.

``I Am a Soldier, Too: The Jessica Lynch Story,'' published Tuesday, suggests camera-toting American fighters met no resistance as they rushed a Nasiriyah hospital April 1 to retrieve the prisoner of war.

The biography, by former New York Times writer Rick Bragg, discredits stories from the war's first days that Lynch shot at her Iraqi captors, and that the Iraqi hospital was hostile territory that posed grave danger to Lynch's rescuers.

Once, according to the book, Iraqi medical workers even loaded Lynch into an ambulance and drove it to an American checkpoint in hopes of returning her -- but came under fire from U.S. troops and had to turn around.

Critics have suggested the U.S. military, desperate for support for the war, exaggerated Lynch's story -- or at least did not go far enough in publicly correcting rumors about how it played out.

``From the heartbreaking mess of the convoy ambush, gold was spun -- first from an event that looked more dangerous on television than it perhaps had truly been, and next from a story of heroics in the fight at Nasiriyah that a Hollywood script writer would have been hard put to invent,'' Bragg writes.

And the suggestion by a handful of critics that Lynch may have contributed to the myth, deceiving others to enhance her heroism, enrages her family and makes Lynch herself cry, according to the book.

``Don't they know I'd give anything in this world if it never happened at all?'' she says.

Eleven soldiers lost their lives when Lynch's 507th Maintenance Company convoy was ambushed March 23 in Nasiriyah after missing a turn.

Lynch dismisses early reports that she had engaged in a firefight with the Iraqis who ambushed the convoy. Like many soldiers in her company, the M-16 rifle she carried had jammed with grime and airborne sand. She fired no shots, she said.

Lynch, then a 19-year-old Army supply clerk, was rescued nine days later by American soldiers who had been tipped off by an Iraqi lawyer that she was captive in a hospital.

The book says Lynch ``lost'' three hours between her last memory of the ambush and her awakening in an Iraqi hospital.

In that time, according to medical records cited in the biography, Lynch was raped and suffered broken bones, torn flesh and two spinal fractures. Iraqi doctors who treated her have told reporters she was not raped.

The book also says Lynch strongly resisted Iraqi doctors who wanted to amputate one of her legs at a general hospital in Nasiriyah. The surgery never took place.

Still, Lynch describes a caring, sympathetic staff at the hospital. When she told one doctor she was afraid of Saddam Hussein, the doctor hushed her and replied: ``Don't say that name. We don't say that name in the hospital.''

One older nurse took notice of when Lynch began to panic, or break under the intense pain, and rubbed soothing talcum powder into her shoulders and back and sang to her.

``It was a pretty song,'' Lynch says. ``And I would sleep.''

Lynch and Bragg are splitting the book's $1 million advance, and publisher Alfred A. Knopf ordered a first run of 500,000 copies. The cover features a smiling photo of Lynch in military garb, a U.S. flag behind her.

The book's release, timed for Veterans Day, comes amid a blitz of promotional interviews by Lynch and Bragg. ABC's Diane Sawyer interviews Lynch in a prime-time special Tuesday; NBC aired an unauthorized movie about her Sunday.

Besides detailing Lynch's capture and her agonizing recovery -- she suffered extensive broken bones and is slowly learning to walk again -- the book profiles Lynch's family and her hometown of Palestine, W.Va.

It portrays the rural hamlet as a God-fearing place where residents spoke of almost nothing else during Lynch's captivity, and where hope slowly faded that she would be found alive.

When the Defense Department telephoned the good news to the family, Lynch's mother, Dee, threw open her screen door and ran, crying and laughing, through her neighborhood: ``They found my baby! They found my baby! They found my baby!''

And the book includes a love letter written by the man who later become Lynch's fiance, Army Sgt. Ruben Contreras. The letter never found Lynch, and was returned to Contreras unread at Fort Bliss, Texas, the book says.

``You're gonna be all right,'' Contreras wrote to Lynch in the letter. ``If we can make it through this, we can make it through anything.''

Lynch told Bragg she wished the war had never taken place because other soldiers would then be alive -- including Lori Piestewa, a soldier close to Lynch who was killed in the ambush.

``We went and we did our job, and that was to go to the war, but I wish I hadn't done it -- I wish it had never happened,'' Lynch says. ``I'd give four hundred billion dollars. I'd give anything.''

Watched an interview with Jessica on the news a couple days ago. She said pretty much what that article said, but that the rescue did happen.. but she did say that she never fired a shot, and was badly injured in the accident when the vehicle she was in hit another vehicle. She did say that the staff at the hospital were very good to her, and that there never was a Fedeyeen (sp?) in her room or outside it. Lots of other things she said that didn't go along with the version pushed in the news..

That being said, WTH is with the title of this thread??

The bureau of meterologies rain radar web site was indicating that the Melbourne metro area was having wide spread light rain this morning (15/11/2003) however the skies were crystal clear. I have read recently that this phantom rain may be caused sporadic e returns. Has anyone anymore clues?

Hi,

Interesting. We see light rain indicated on radar here quite often. Been
wondering what might cause such, just had not investigated.

One thing for sure, it ain't the Dimmys.
They got booted off Ebay for shill bidding.

## 4199. Trac Keyer

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-15 04:27:11 UTC
From: Bill Collins <biljanco@swbell.net>
Message-ID: <zWhtb.925$v63.232@newssvr22.news.prodigy.com>
Source record: 61519

I am having some trouble with this keyer locking up my Kenwood TS50S on transmit when using 40 meter cw. Works ok on all other bands. Have tried my other antennas and tuners==same thing. Tried dropping voltage from power supply down to 12 volts. This caused radio to drop out and go to the hello screen briefly.
If anyone has a schematic/manual for this old outfit, please drop me a line with ideas or a copy. It is a TRAC cmos electronic keyer model TE122.
It probably needs an output voltage tweak to be compatible with the ts50.
Would like to have a better idea of what to look for before I go digging around inside it.
Thanks!
Bill, N0RRY

After looking at what was being placed up for bid I may have to rethink
this.
Maybe the Dimmys DID bid on it after all.

It's a phenomenon known as Anaprop (Anomalous Propagation).
Decent software modelling can usually factor it out. BUT not always!!

OK, this thread must be dead, as Mr. Jeswald, of Anniston, the main irrational protagonist, has resorted to looking me up on QRZ and is one step from posting my address.

The half of my family that hails from the North has handed down a legacy of the appreciation of fine killing equipment, while my Alabama heritage yields me the willingness to use them. I'm pretty sure that the carcass that goes bump isn't gonna be mine. Y'all come out now, bring Bubba too; the dogs are always hungry!

Oh yeah, re the faults. Some day, we are gonna have some mighty fine Atlantic ocean-front property out here.

Don't know if it's the same Trac keyer I had, or the same problem, but
the one I had didn't work with my TS-450sat until I REVERSED the
keying leads from the keyer to the 450.

Well, I certainly don't care, especially about a chickenshit "Arf" who can't stick his name on his opinions. You're worth whatever you think of yourself, and often less.

Don't shoot me down if this is not exactly correct.
AFAIK it's an atmospheric condition caused by discontinuities in the
temperature profile (i.e. it doesn't get colder as you go up). These layers
act as a duct for the radar beam and once it follows this path the returns
can be much stronger than normal, giving the impression that the target (in
this case, rain droplets) is very much bigger than it actually is.
I'm not up on the theory, but I have seen plenty of evidence of the effect
in real life.
A few years ago AnaProp used to be a real pain for those trying to interpret
weather radar images, but software can get rid of most of the anamolous
effects nowadays. All very clever stuff and way above my head!
I'm sure that a search for Anomalous Propagation will provide you with a
much more detailed (and probably more accurate) answer.
Hope that helps.

Are you saying it does this 'only' on 40 meters. If that is what I read
then you are likely a victim of RFI.

Bypass the leads in/out of keyer with beads, or caps.

The answer is pretty simple Ed, weather conditions.

First all the slaves were brought in by Yankee traders. It was against the law in the South to import Africans.

The problem with using slaves in the North was the short growing season and a population that must be housed and fed during the unproductive months. This made slavery a net loss situation in the North. The folks up North had no problem with slavery when the cotton was shipped to mills in the North. The problem started when the South shipped the cotton to England and other countries direct. This put the Northern mill workers out of jobs and caused the North to impose unfair tariffs on Southern products.

Slavery as an issue did indeed exist as an issue, but MONEY was the real issue. Had the South continued to supply cheap materials to the North, slavery would still be in vogue.

Excuse me gotta to go, my cell phone is playing Dixie, have to answer it...

Their passage from Yankee ports to the Southern States was guaranteed
by federal law, i.e. it was illegal to interfere with the transfer of
slaves through the Northern States.

I've been shopping for video transmitters,
and I've noticed that some of them require
amateur radio licences. This seems a little peculiar,
since as I understand it only non-commercial activities
are permitted under this license. Yet these devices
are clearly being used commercially. Is this requirement
usually ignored for use of these devices in practice? How
likely is the FCC (or the DOC in Canada, where I live) to
prosecute for use of these devices without a license?

You can buy a chemical compound from www.partsexpress.com that you just
mix up and put your board into for tin plating. You don`t want silver
plating as the other fellow told you as it would tarnish. Rob

> a population that must be housed and fed during the unproductive months.

If you have slaves, you can get them to do more than raise plants. Ever hear
of construction, mining or manufacture? All labor intensive, but obviously
beyond the imagination of a Southern slaver.

SNIP

> Slavery as an issue did indeed exist as an issue, but MONEY was the real

Based strictly on economics, how could you possibly claim that the North
found it cheaper to prosecute the Civil War than to accept higher-priced
cotton? And following your logic, the South would have been economically
devastated with the development of synthetic fabrics, so they could have
tried secession maybe around 1925?

# 4226. KG4LEG new jammer in tampa bay on 146.640 N9EE wide area repeater

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-15 19:56:44 UTC
From: hamradioman2000@yahoo.com
Message-ID: <e95066a4.0311151156.7b6e0e89@posting.google.com>
Source record: 61396
Cross-posted to: rec.radio.swap,rec.radio.amateur.misc,rec.radio.amateur.swap,rec.radio.amateur.boatanchors

the ron wright N9EE 146.640 repeater in tampa bay florida is home to a new jammer, he proudly says his call KG4LEG AKA coy roy on CB

www.QRZ.com reports him to be
Roy A Lepelletier
1703 Cypress Avenue
Belleair FL 33756
USA

roy will pick fights with other amateurs.
roy will key up and cary on an imaginary "full duplex" conversation with suposid CB'ers on channel 35.
he claims he has lots of friends on cb that are listening to him on 146.640 while they are talking back to him on CB ch 35. (that is total BS) hes just doing it to agitate the normal folk on 640. several people heard him keying up on CB 35 while claiming to talk full duplex on ham, wich would not be effective to talk to cbers anyway.
(basically roy is lieing about his intentions.)
he also will ramble on and on to himself that there are people making death threats against him. he also claims a guy named dickie or dicky hendricson or hendrickson is a child molester, and goes into deatail over the air what this dicky had suposidly done to childeren (fairly graphic and not apropriate)
in other times he will say this hendricson is his friend. one amateur don KG4COQ tried to nicely get roy to change to another repeater and wanted to talk to roy about the guys that roy is talking about on that other repeater. roy turns it all around and says roy doesnot need any help with these people that are after him, but if anyone wanted to help, they could send roy cash. (roy said that several times)
when don continued nicely to try to get roy to change repeaters, roy twisted around this words and accused the don of wanting to meet up with him to start a fight, but don didnot say anything like that, then roy accused don of wanting to meet up with roy for some homosexual encounter, wich again don NEVER said anything about. roy has also commented about having been in the marines out in california, something about a "jar head" flight wing kind of position, but didnot go into detail about why hes out. he claims hes retired and wants to stay that way. roy also was throwing out the "im gonna sue you" to alot of people also. he was saying people were saying bad things when they wernt. new people would get on the repeater, and he would initiate a conversation with them, but immideatly jump into a platform about how hes on cb and running 200 watts, just like everyone else does on CB. he says things over and over. if everyone leaves him alone, he would usually key up every minite or 2 making a stupid CB

comment or CB slang.

this guy is a head case, hes off his medication and someone needs to get him to the mental hospital :)

well the control operator is ron N9EE, he did shut the repeater off several times, but whenever it came back up coy roy was there.

on nov the 13, coy roy was back, and ron tried to make peace with roy, tried to pursuade him to fit in, and all has been forgotten and that he is welcome on the repeater anytime, and ron was handleing the situation quite well. roy did stop the agitation for several hours after the conversation.
a day later ron tried to talk to coy roy again, and coy roy didnot know who ron was, even tho ron had talked with him for 30 minutes the day before, much longer than anyone else talked to coy roy, this guy has some problems!

on 11/14/2003 KG4LEG roy said he was a tool and die maker in the marines, not a "jar head" in the marines flight wing like he said the day before.

coy roy also talks about another CB'er MENTAL MIKEY
other phrases he loves to use are "fag boy" "punk boy"

alot of this post is for archiving purposes in the newsgroups, so if people down the road have a problem with him, they can search the newsgroups and history will come up. the newsgroups are an invaluable tool of past history.
an archive system spanning several decades, and still growing every hour.

# 4227. Re: Rain or sporadic Es

I think KGK is right on the money.
Remember that our weather radar is C band, something around 4GHz, so
ionospheric conditions are going to have minimal effect, and besides, the
radar beam is sent out closer to the horizon than 'up in the air'.
There was moderate tropospheric ducting around Bass Strait yesterday, and I
suspect it was this that caused the false returns.
I recall working on some microwave links across Bass Strait some 7 years ago
and watched with some facination the spectrum of the base-band output after
a long over water hop being affected by tropospheric ducting - notches in
the BB rolling up & down, enhancements, fades etc. The phase-equalizing
networks were working overtime, too. This was at low 4GHz, and to a much
lesser extent 6 GHz.

Make good sense. I have carried out a bit of a search of the web with the information that you supplied and the below url is a general overview of Anomalous Propagation. To carry this discussion a bit further I guess its far to say that this effect may be a useful indicator for tropo work on vhf and above.

http://www.theweatherprediction.com/habyhints/247/index.html

Thanks for the help.

Cheers

I have a new in box Motorola M1225 LS 25-40Watt Mobile Unit,
MINT/UNPROGRAMMED. still with mic and clip, hardware, manual, and safe op
manuals. The split is 450-470 UHF. Never programmed. Photos upon request
Model # M44DGC95A2AA
asking $300.00

Also, 1 pair (2) Motorola 2 channel Radius P110 with good batteries,
antennas, 2 chargers.
Model #'s P44QLC20A2AA

Asking $250 for the set OBO

Will consider trades in part for good working BC780XLT and cash. Photos of
both units available. Postal MO preferred.

Isn't 146.640 the old "ZOO REPEATER" for Tampa Bay?

About 5 years back, someone created a web page featuring an extensive collection of .wav files, taken from tape recordings of the various operators which frequented this machine. Arguments, threats, slander, profanity, etc. Made CB Channel 19 sound like a Sunday School picnic.

Can't remember the site creator's name or call, but I believe he was in Lakeland. Pretty sure this was the repeater in question, though.

Anyone else remember this?

Here we usually call it ducting, and temperature inversions.
It can occur at almost any height, but *usually* within 5000 AGL
Aurora can also cause problems but would be much easier to filter out.
Aurora imposes a modulation on the signal where ducting and inversions
don't normally. Aurora also occurs in the ionosphere while ducting
and inversions are close to the ground, relatively speaking.

When you discover you are receiving high VHF and UHF stations on your
TV set is most likely an inversion or ducting.

BTW, either can prevent normal reception of nearby stations in some
circumstances.

I've heard stations from several hundred miles out on my mobile rig,
yet could not hear them on the stacked array at 130 feet.

Wasn't he called Grimmee or something? They even had a rap song about
him. He used to make threats to kill people with a .45 pistol.

Good idea, Ed.

It's an ignorant waste of hot air that would be better spouted off at
rec.radio.amateur.policy , where off-topic, non-ham garbage like this
belongs.

Oh, and I wanted to ask: Is it true that they call California the "cereal
bowl state" because once you get past the fruits and nuts, the only thing
left are the flakes?

Just wondering!

Better utilization of HF spectrum, and more spectrum for hams. All the
non-ham stuff should be VHF or UHF, for the obvious reason.

There is no free trip home. Someone has to pay for rounding them up and deporting them. And that someone will be the American taxpayer. The numbers of illegal aliens working in this country for minimum wage doing the jobs most Americans turn their noses up at are so great that if we did round them up and send them all back to where they came from our economy and country would be in chaos. Better to give them all citizenship and let them start paying taxes like the rest of us do.

Imagine if today's liberal press had covered WWII, when we were losing
an average of 309 people A DAY....

after several MONTHS of conflict in iraq, we JUST hit #400, and while it's
a tragedy and all war is dreadful, we already have thrown out the tyrant
that
was in *that* nation.

We would never have made it past the beaches of normandy had CNN,
MSNBC and the rest of those yellow bellied leftist news organizations had
been around then as they are now.

MORE bad news for liberals....

Tax refunds next year are estimated to be up 27% from this
year due to tax cuts. Yet ANOTHER reason it must suck to
be a liberal in modern America.

But 10 meters is rarely crowded, getting 11 back, though nice, isn't
that critical.
More bandwidth on 20 or 40 I would prefer.

The hams hardly used 11 meters when they had it, what makes you think
they would use it now if they got it back? Besides, the cbers have made
such a mess of it, it would take years to clean the filth out.

equating cb'ers and filth eh? in your limited world hams dont freeband?
guess you havn't heard the cw contests on 11 meters. so much for your
post...

November 17, 2003
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, K2UO, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, N4GN, N4KZ, N4SIA, N5FG, W6QE, K8YSE, W8LU, W8UVZ, 9A4NA, DJ5JH, DL1EK/DL7VOA & DX Newsletter, G7GLW, JI6KVR & JA-IOTA Islands News, JT1BV, LA9VDA, SP5UAF, T93Y, VA3RJ & ICPO and ZK1CG for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 9th/November, through Sunday, 16th/November there were 219 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4U1U, 4X, 5A, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A6, A7, AP, BV, BY, C3, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, D6, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J3, J6, J8, JA, JT, JW, JY, K, KG4, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OY, OZ, P4, PA, PJ2, PJ7, PY, PZ, S2, S5, S9, SM, SP, SU, SV, SV/a, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TR, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, VE, VK, VK9C, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, YA, YB, YI, YJ, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/n, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations. As always, you never know - "Work First Worry Later" (WFWL).

5R, MADAGASCAR (Top Band Activity!). George, W8UVZ, reports that Ake, 5R8FU, is expected to start to be active again during his sunrise on 160 meters. As many of you remember, he tried often on 1834 kHz just before his sunrise during the winter months in the northern latitudes during the past couple of seasons. Ake says he is again on 160m near his sunrise calling CQ on days that he would seem to have better propagation. George states, "In prior years, he started about 20 minutes or so before his

sunrise (now near 0207z) through the 5R sun up. More often he would then QSY to 3513 and work those who could hear him on 80 meters. I don't believe this will be a DAILY routine since sunrise is in the 'wee' hours during Madagascar summer. But Ake was pretty faithful to days when he thought condx might be favorable."

5X, UGANDA. Milton, W6QE, informs OPDX that his dear friend Dr. Terry Wassell, K3JT, is now on the air from Uganda licensed and operating as 5X1X. Terry works for the Centers of Disease Control and Provention (CDC) and is doing statistical research on African Viruses. Terry will be there for approximately 6 weeks and is active on the low bands, particularily on CW. Check 40 meters in particular (after 0300z and again after 1930z). He will also be active during the CQWW CW Contest. QSL via K3JT. OPDX did some QSN checking and found that Terry is also active on 20 meters RTTY. Watch around 14083-86 kHz between 1800-2100z. Also, watch 15 meters CW before 1800z.

9H3, MALTA. Ingo, DJ5CL, reports that a crew of operators will be active as 9H3WW during the CQ World Wide DX CW Contest (November 29-30th) as a Multi-Two entry. QSL via DJ5CL (Bureau). The crew (list not provided) will be active before and after the contest (November 26th-December 2nd). Their activity will be on 160-6 meters on CW, SSB and the digital modes. Operators will use their own individual 9H3 callsign. All QSOs will be confirmed 100% via DJ5CL.

AH2, GUAM. Operators Toshinobu/JI3ERV, Mikawa/JR7OMD, Atsushi/JR8VSE and Kanji/JH0USD will be active as AH2R in the CQ World Wide DX CW Contest (November 29-30th) as a Multi-Single entry. QSL via JH7QXJ. PLEASE DO NOT send QSL to Guam mailing address or the Guam Bureau. QSL via JA Bureau or direct is OK.

AP, PAKISTAN. Zeljko, 9A4NA, will be guest operator at the Asad's, AP2AUM, station for the CQWW CW Contest and will try to make some QSOs. It all depends on how much free time he will have. QSL via 9A4NA.

BW3, TAIWAN. Tatsuhiko, JD1BKQ, will be active as BW3/JD1BKQ during the CQ World Wide DX CW Contest (November 29-30th) as Single-Op/All Band/ Low Power entry. QSL via JR3PZW.

CT3, MADEIRA ISLAND. Ken, W8LU, who was recently active as IS0/W8LU from Bosa in Sardinia (IOTA EU-024) from October 22-27th, will be on the air from Santana on Madeira Island (IOTA-AF014) as CT3/W8LU from November 25th to December 2nd. Activity will be on all bands on CW only. QSL both operations via his home callsiign. Ken also mentioned that he will be active in the CQWW CW Contest as a member of the CT9L team (See OPDX.630).

DS0, SOUTH KOREA. Operators Sung/HL1XP, Robin/HL1IWD, Seong-Joo/DS1BHE, Kang/DS2AGH, Lee/DS2BGV, Yoon/6K2AVL and Maeng/6K2BYF will be active as DS0DX during the CQ World Wide DX CW Contest (November 29-30th) as a Multi-Single entry. QSL via HL1XP.

FM, MARTINIQUE. Boris, T93Y, will be active as FM/T93Y from FM5BH's QTH on Martinique Island (IOTA NA-107), November 25th through December 2nd.

His main goal is to participate in the CQ WW CW Contest as a Single-Op/ All Band/Low Power entry. He will operate CW, SSB and RTTY before and after the contest. Watch the WARC bands and the usual RTTY frequencies. QSL via T93Y: Boris Knezovic, P.O. Box 59, Sarajevo BA-71000, Bosnia and Herzegovina, or T9 QSL Bureau. For more information about this operation, visit the Web page at: http://www.t93y.com/fm2003

HI8, DOMINICAN REPUBLIC (Update/Correction). Hiro, JA6WFM (not JA6WFH as mentioned in OPDX.634), will be here on business for the next year. He has applied to Dominican Communication Bureau for the license and has requested the callsign HI8J. His license permission may take two weeks to receive.

HS0, THAILAND. Sam, HS0ZDY, in Bangkok, plans to be active in the CQWW DX CW Contest as a Single-Op/Single Band (15m) entry.

IOTA NEWS.....
AS-117. Shigeo, JA4TI, is/was expected be active from Inuno Island between November 16-17th. Inuno is also good for the JIIA (Japanese IOTA Islands Award AS-117-066). He will use the callsign JA4TI/4 and will operate on the HF bands SSB. QSL via his home callsign.

EU-011. (You have time to plan to work this one!) Richard, G7GLW, Secretary for the Cray Valley Radio Society (CVRS), reports that the CVRS will be operating from the Isles of Scilly, July 21-26th, 2004. M8C/P is the proposed callsign for the IOTA Contest (July 24-25th). All other times the operators will use homecall/p. The will be active on all bands CW/SSB and the Data modes. The operators will be G0VJG/Nobby, G4BUO/ Dave, G7GLW/Richard, G0FDZ/Chris, 2E0ATY/Ralph and M3CVN/ Simon. QSL Manager will be G4DFI.

OC-159. By the time you read this, Vladimir, UA4WHX (aka ZK1/AC4LN), should be QRT from Penryhn Island (North Cook Island) and is back in Rarotonga (as of Saturday afternoon, November 15th). Victor, ZK1CG, informs OPDX that Vladimir will try and go to Mangaia Island to the southeast of Rarotonga for a week or so. This is a RARE IOTA (Position 21' 55 South and 157' 55 West -- Grid Square BG18AC). Look for him possibly Monday morning (Flights to Mangaia Island are Monday, Wednesday, Friday and Saturday mornings).

J43, GREECE. Wolff, DJ5JH, in Peloponnese, informs OPDX that he will be active as J43J in the CQ WW DX CW Contest (just like in the phone portion) as a Single-Op/Single Band (20m) entry. QSL J43J via the Bureau to DJ5JH.

JT1, MONGOLIA. Naran. JT1BV, informs OPDX that he will participate in the CQ WW DX CW Contest as a Single-Op/All Band/High Power entry. QSL via his QRZ.com address.

KG4, GUANTANAMO BAY. Tip, N4SIA, informs OPDX that he will be making a trip after the first of the year to here and will provide all the details

very soon. He does have the callsign KG4AS. Stay tuned!

KP2, U.S. VIRGIN ISLANDS. Mark/K4MCE and Dave/N4KZ will operate the special events station N4Z from St. Croix, December 30th through January 5th. Their activity will be on 160-6 meters SSB and CW. QSL via N4KZ.

P4, ARUBA (Contest and Lighthouse Activity). Ken/K6TA and his XYL Kay/K6KO plan to be very busy on Aruba between November 26th and December 17th. Look for them to be active as P40K and P40TA. Their activity also includes the following contests:
P40TA - CQ WW DX CW Contest (November 29-30th) as a
Single-Op/All Band/High Power entry
P40TA - ARRL 160 Meter Contest (December 5-7th) as a
Single-Op/High Power entry
P40K - ARRL 10 Meter Contest (December 13-14th) as a
Multi-Single entry
While on Aruba, they plan to visit some of the lighthouses on the island. Look for some activity from the California (Hudishibana) Lighthouse (ARLHS reference ARU-001) and Ceru Colorado Lighthouse (ARLHS reference ARU-002). QSL both P40TA and P40K via WM6A, direct only.

PJ4, NETHERLANDS ANTILLIES. Peter, PA3CNX, will be on holiday from here between November 20th and December 15th and is expected to be active as PJ4/PA3CNX from Bonaire (SA-006). Activity will be on the HF bands. His preferred frequencies are: 3790, 7070, 14210 (14328 for Dutch skeds), 28440, 29580 (FM) and 6 meters, if open, he will be on 50110 kHz. QSL via the bureau to PA3CNX or direct via the callbook address (QRZ.com).

PZ5A PHOTOS. The first photos from PZ5A operation are now available on the MDXA Web page at: http://www.mdxa.org/pz03_photos.html

QSL INFO AND NEWS.....
A61AJ QSL UPDATE: George, K2UO, reports that he has logs up until the 5th of November 2003 and that DIRECT A61AJ QSLs are being answered DAILY. HOWEVER, there are quite a number of cards being held due to missing log data. These will be processed as soon as the missing logs are received. The bureau cards are also being processed as time permits and about 1,000 have been processed and will be mailed shortly. K2UO is the QSL Manager for North/South/Central America, Caribbean and all U.S. posessions. DJ2MX is QSL Manager for Europe/Asia/Africa/Pacific.

Ken, W8LU/DL7FLU, informs OPDX that all known requests for QSO confirmations with KL7Y (Silent Key) have been mailed. This includes requests that were sent to KL7Y, direct or via the Bureau, or to other QSL Managers, including himself (W8LU). Ken believes he has all KL7Y logs with the exception of his contest logs prior to 1994. Ken will be happy to respond to any requests for a QSL for KL7Y. Please submit your request either direct or via the bureau.

Trond, LA9VDA, reports that Bureau cards for OJ0LA can be requested via E-mail. Send an E-mail (with your QSO information) to: la9vda2003@yahoo.no

Please do not send cards via the bureau if you request a card via E-mail.

TP6CE was active over the past weekend by the radio club TP2CE (Council of Europe). QSL via F6FQK. QSO is valid for the Council of Europe Radio Club Challenge. See rules on the Web site: http://ewwa.free.fr

QSL TU0PAX via TU2CI. Activity took place this past weekend on November 15th. This special event was active to celebrate the "Peace Day Commemorative in Cote d'Ivoire (Ivory Coast)."

SPECIAL EVENT (Meet the real Santa before December 24th!). Juha, OH9MM, reports: "As we all know the real Santa Claus comes from Finland! Santa Claus Land (OH9SCL) will be again active during this December from the Artic circle." This year there will be a special activity period between 17th of December and the 21st of December. Operation will be on 80-10 meters CW/SSB/RTTY/PSK31/SSTV. The main focus of digital modes will be during the weekend. The persons willing to help Santa this year are: OH2BH, OH2NWG, OH3BHL, OH9KL, OH9MDV, OH9MM, OH9RJ and OH9VC. QSL is via OH9UV.

SV/A, MOUNT ATHOS. Monk Apollo, SV2ASP/A, was heard this past Saturday on 20 meters SSB. He was first active on 14227 kHz around 0613z and then later on 14200 kHz around 2320z.

VP2V, BRITISH VIRGIN ISLANDS. Maciek, WQ7X (ex-SP8EST, SP5EST), will be active as VP2V/WQ7X now through November 24th. He will be operating CW and SSB on the HF bands. Over the past week, he was active mainly on 80 and 40 meters CW starting around 2130z (also after 1000z). He was also active on 75 meters SSB. QSL via his home callsign.

XV, VIETNAM. Kunihiko, JE7IDA, will be active as XV2NA for the CQWW DX CW Contest (November 29-30th) as a Single-Op/All Band/High Power entry. QSL via JE7IDA, bureau or direct.

YV0, AVES ISLAND. "The Daily DX" reports that the tenth most wanted DXCC entity will be activated in late January or sometime in February by Radio Club Venezolano (RCV). This operation will coincide with the RCV's (YV5AJ) celebrating their 70th anniversary in 2004. Activity is expected to be on all bands and modes, including operations on 6 meters, SAT, digital modes (RTTY, PSK, SSTV) and possibly EME. They also plan to have a YL operator for the YL chasers. The callsign will be annouced at a later date. More details are forthcoming.

In my world, *real* hams don't (notice I put the ' in don't) freeband
(there is no "freeband" in case you haven't noticed), just those cb
types who happen to hold a ham license. So much for your post..........

"Your" world does not equal the "real" world, JJ, in case you haven't noticed.
So much for your TROLL.

Still can't find 10 meters? I know where it is, if you need help!

well if the hams took back 11 meters....what would they do about all
the skip talkers on channel 6???? those old black men would not like
you hammies trying to run them off and they would jump up and down and
stomp a radiowave mudhole in the back of your necks and walk it
dry.....no doubt about it.....

> In TX

I know the area very well. I live about 5 miles inland, in the
Oceanside-Vista border area. I often go to the beach and probably
pass buy your old home many times.

It's still great over here... apart from the Firestorm that we had
earlier in the month. I am certain that if you visited the area
today, you will notice the following:

1. Green spaces are getting smaller (more people ;-)

2. Traffic is hell (no major improvements to the infrastructure)

3. Housing costs are "out of this world". A shed over here would
get me an estate in many other parts of the country ;-)

But apart from that, SoCal is still one of the best areas to live
in... if you can afford it!

Do you want it back? You can still use CB if you have an amateur ticket.
You're just not supposed to use your ham radio on it or cuss like a sailor.

I bet you do know, cranus the anus. "Freeband" operators are slime, and so are you...who cares if they have a ham license or not...they are all slime. You keykweenz use that bit about hams going there too to try to negate your own guilt, that's all.

I consider myself both competent and very much a 'radio
enthusiast.' I know nothing about the Bush visit you're referring to,
but if it's technical questions you're looking to have answered I can
certainly try to help.

KE4TEW took time from dealing drugs and bribing Riley and posted the the following lies:

From the Hillsborough County Court Records:

First Name: JAMES
Middle Name: WILLIAM
Last Name: DALE
Date of Birth: 01/01/1941
Race: White
Sex: Male
Height: 6'00"
Hair:
Eye Color:
--------------- Detail Charges Found ---------------
State: FLHLS
Case #: 97-CF-004272
County Name: HillsboroO
Description: POSS OF MARIJUANA W/INTENT TO
Class: FELONY FIRST DEGREE
Statute:
File Date: 02/19/1997

>> LOL Write your
>> letters, felon and I can prove you are, unlike your dreams of me being a felon.
>> Turn it over to the NSC. They might appoint a special investigator.

First Name: JAMES
Middle Name: WILLIAM
Last Name: DALE
Date of Birth: 01/01/1941
Race: White
Sex: Male
Height: 6'00"
Hair:
Eye Color:
--------------- Detail Charges Found ---------------
State: FLHLS
Case #: 97-CF-004272
County Name: HillsboroO
Description: POSS OF MARIJUANA W/INTENT TO
Class: FELONY FIRST DEGREE
Statute:

File Date: 02/19/1997

You are a convicted FELON, MUHAHAHAHAHA

And why didn't you show up at my door, you mealy-mouthed, yellow
son of a bitch?

> 
> Wasn't he called Grimmee or something? They even had a rap song about
> him. He used to make threats to kill people with a .45 pistol.

yes people would make fun of james carter then KE4CRM (pronounced
crummy)
james would go crazy when people would get him fired up, but after
many years of people jerking him, he finally listened to the other
users of the repeater when they had told him soooooo many times to
ignore the jammers and they will go away. finally he listened. now jim
doesnot give the jammers anything. they dont bother him much. one
jammer that has been on for years is "squeaky" he still tries jim
sometimes. the guy that made songs about jim is cedric, but i dont
know his last name or callsign, i have heard of the songs, some names
i remember are 640sucks (a take off of a rap song) another is
moproblems (a takeoff of the mo money mo problems song) theway (take
off of a eminem song, mentions coolaid, more about that in a bit). i
think they got played alot in 1999-2000 time line. jim carter changed
his callsign at some point to WA8JSC. one of jim carters worst
jammers, michael callanan has now taken the call KE4CRM (how about
that! the jammer took the old call of the guy he jammed) michael
callanans old call was KD4YOQ. callanan nolonger lives in the tampa
bay area, QRZ shows callanan now lives in newyork, that is if you look
up the call KE4CRM. another "crummy" jammer was a "steven f stout" or
"steve stout" now and then this steven stout guy will jam the
repeater, because from time to time someone will point out a type of
jamming as that of steven stout. stout has a criminal record also.
stout still lives in florida, i think his criminal record can be found
on the usenet by looking up his exact name in quotations. steven stout
never got a ham license, he likes radios but was not smart enough to
actually take the test. he was also an accomplice of michael callanan,
they cause all kinds of trouble when they get together, stout
considers himself a businessman, he has a website www.stevenstout.com
but it has been off line for a while now. "his saying on the main page
was "you had better check your financial books, because i think you
owe me money" stout was also associated with a group of guys that
started the site www.coldsex.com wich i think also comes up under a
usenet search that was part of a junk email someone got and posted to
the usenet. (this is just search information for the newsgroups).

this new KG4LEG guy is a real piece of work, (atleast jim wanted to
fit in with the group when people werent jerking him) this "coy roy"
guy doesnot even want to fit in, the repeater has been upside down for
5 days now! he just wont stop, no matter how much people try to get

him to fit in he wont. hes just a "mental midget" as some have called him. he talks to himself, he jams people, accuses people of using profanity with him, when no one did. one ham did some research on him, claims that KG4LEG calls the belleair bluffs police quite abit whenever people go driving buy his house, one ham had a CB expierence with roy 4 months ago, this ham decided to pay roy a visit, all he wanted to do was talk to roy in person, but roy called the police, roys wife told the police that he was threating them with a hand gun, and that got alot of heat on this particular ham, but when it was all said and done, this ham never had a gun, and the cops finally realized that. this morning roy was saying the "PUNK BOY" and "FAG BOY" frazes quite a bit to anyone, he was threating people and keying over them. numerous people have contacted the FCC, noone has said they FCC said they would do anything about ti. RON the repeater owner has said he has sent KG4LEG a letter stating roy must stop using the repeater, but roy claims he wont stop unless the FCC tells him, wich we all know will likely not happen. thats the update today.

10 meters is quite dependent on the status of the sunspot cycle. When the
solar flux is good, the band is indeed heavily used but when the flux is
down, it won't support long distance communications.

That's all you can do.

It has come to my attention that you are DEAD. Your past posts
show that you have a total lack of brain activity. Maybe you
should have your family arrange for your funeral and let them
have some closure.

> Let's revisit your original post, recorded on Google

Fuckhead Lee exhibits his hypocrisy, since he's the Google Queen
in <8474570164@houston-hunks.com>:
"Ah, I see that you are reposting old stuff by means of which
you long
ago exhibited your profound ignorance"

> as Message-ID: <8C71YHSI37921.3957175926@anonymous.poster>. In it you said:
>
> "If you use the formula correctly, which maybe those coke-bottle

>
> "Let's say the SWR is 3:1 and figure the loss:
>
> "-10 log ((3-1)/(3+1))= approximately 3dB loss"
>
> You clearly believed the formula was always correct, <Stupid Lee's lack of reading comprehension>

My example is from the textbook, STUPID.

Wheeler direct quote: "This paper is the basis for the textbook formula."

Yet, you didn't bother to actually GET the textbook and see what it says in it,nor I would say, even bother to read the paper, nor as per usual, did you cite anything that refutes the formula in question. But not backing up what you say is your standard operating procedure, isn't it, backpedal Boy?

>
> Do you see

I see you backpedaling and "creative editing/interpreting" Wheeler's post, which poves that the formula IS correct. Your myopic view and overbloated ego prevents you from seeing that you have been made a fool of as usual. Wheeler's e-mail says that the formula is correct. Why else would he include it in a college textbook?

<lame shouting>

Now, now, don't get so upset, Backpedal Boy, you'll get your panties in a twist.

> :
> : More unmarked deletions, hiding your stupidity?
>
> I see you are the one leaving things out on purpose.

I did? I am the one who put back what you purposely left out since it didn't support your position, as ignorant as it always is, anyways.

> It won't work,
> SWR Boy.

Now you whine and cry when your own "tactics" are used against you, Backpedal BOY?
God what a thickheaded old crybaby you are. Maybe you should have your wife give you one of those enemas so you can clear your head.

> : ignorance.
>
> I already put it back, because you proved my point with it.

You did put it back in your PREVIOUS post I am following up to,
but you edited it to suit you before. I proved that you are a
goddamned imbecile, but that really didn't take much effort on
my part, when you do the work for me.

> :
> : Guessing is about the extent of all you can do. Even when the
> : textbook author proves the formula is correct, you swear up and
> : down he is wrong.
> : And....
> :
> : Yet you said, "transmission line loss and SWR are not directly

>
> And I stand by that assertion, SWR Boy.

You probably think the Earth is flat as well... To match your
skull.

> :
> : Wrong again. The .pdf file proves the formula is correct. And

> : you argue that the author is incorrect, even after he says the
>
> The pdf file only proves <backpedaling>

The pdf file proves the formula is correct or was it too "heavy"
for you, a special education student, to comprehend?
And you still didn't address why you thought an Alabama ARES
website was the one that dealt with WV ARES.
--
Stupid Lee (Stagger Lee@ houston-hunks.com) provides yet another
example of his idiocy in
<way.way.beyond.woger@houston-hunks.com>:
"That's because transmission line loss and SWR are not directly
related."

# 4284. NW7US Propagation Update: 18-XI-2003

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-18 16:57:09 UTC
From: nw7us@hfradio.removethispart.org
Message-ID: <Dbsub.5299$yn.4829@news.randori.com>
Source record: 61254
Cross-posted to: alt.ham-radio.hf,alt.ham-radio.ssb,alt.ham-radio.vhf-uhf,rec.radio.amateur,rec.radio.amateur.dx,rec.radio.amateur.misc,rec.radio.shortwave

Old solar sunspot region 486 (now numbered 506?) is rotating back into view on the solar disk. At 1011Z 18-XI-2003, it produced an M4.5 flare, showing that it will play a significant role in space weather over the next week. Region 486 was the origin of the historic X28 flare of 4-XI-2003.

The other giant sunspot groups 493, 487 and 488 are also coming into view as they rotate from around the far side of the sun. Remember, these groups were the origin of many M- and X-class flares during the end of October and the beginning of November 2003. Do they hold enough punch to continue the strong flare activity we saw before? It does appear that they are complex enough to continue producting moderate flares, as we are seeing quite strong activity on the eastern solar limb.

Region 501 continues to have a structure that is capable of additional M-class flares. Already, today, this group produced 3 M-class flares, and the forth seems to be associated with the old, returning region 486. Sunspot region 501 will remain with us for the rest of the week.

At the same time, the large coronal hole that has continued to influence the geomagnetic activity is moving toward the edge of the sun, and will rotate out of view soon. The solar wind speed is slightly decreasing as a result. The orientation of the Interplanetary Magnetic Field is now mostly northward in its orientation (Bz is positive), so this has helped quite the geomagnetic activity, but not by much.

Speaking of coronal holes and coronal mass ejections: A CME was detected from a flare from region 501. This CME will at least partially impact Earth in the next 24 to 36 hours. This will elevate the already disturbed geomagnetic activity.

High Frequency propagation is expected to be fair to good for the next 12 hours or so. The slight lull in the geomagnetic activity has helped overall conditions, and there is an increase in the 10.7-cm flux level. This is causing a slight improvement over most low- to mid-latitude paths. But, conditions will become rough as we see an increase in X-ray flare activity as well as the arrival of new CMEs. HF propagation will be poor over the high-latitude regions (there is a chance of returning proton-event causing X-ray flares from the old regions now rotating into view), and poor to fair over the mid- and low-latitude paths.

The highest frequencies will have short and weak openings, with the strongest being on paths between north and south stations. The middle frequencies will be strong and reliable for the next 12 to 24 hours, but will experience degradation with the return of the flaring and geomagnetic activity. Low frequency propagation will be fair for the next 12 hours, then degrading with increased geomagnetic activity and flares.

X-ray flares cause short-term radio blackouts on the sunlit side of the Earth that can last mere minutes (with weaker flares) to several hours (with major flares). CMEs can cause geomagnetic storms, which cause the ionosphere to recombine (causing the ionosphere to lose its ionization). This causes the maxiumum usable frequencies to fall as much as 50% of normal. Having both X-ray flares along with geomagnetic storms can close HF down completely.

I will continue to monitor solar weather, and will post updates as events warrent. A full discussion is on-going at http://hfradio.org/forums/ - and live data is organized for your browsing at http://prop.hfradio.org/

# 4287. Why K8CPA isn't listed on QRZ.com anymore...

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-18 18:49:59 UTC
From: k8cpa@arrl.net
Message-ID: <676ce33.0311181049.7bacbb5@posting.google.com>
Source record: 61257
Cross-posted to: rec.radio.cb,rec.radio.amateur.misc

greetings...

before any crazy rumors get started.

I DID NOT lose my license.

the reason i am not listed on QRZ.com, because I told the owner of
that site, that i wanted my callsign removed. without getting into
alot of detail, I posted a reply to a thread in one of his forums and
the editor did not like it's content. Well, in my opinion, that is
censorship and he locked me out of his server, and that prevented me
from updating my information on his site. and so, I basically decided
that if I couldn't at least edit my info then, i did not want my
callsign listed on his callsign server. seems reasonable to me. He's
not the *only* source of callsign information.

other places to find my info:

http://hamcall.net/call <--- buckmaster's site

http://gullfoss2.fcc.gov/cgi-bin/ws.exe/genmen/uls/call_res.hts?db_id=19&rows=&callsign=K8
CPA
<--- fcc's database.

so, for all purposes... I am a legit licensed ham...

remember, QRZ.COM is a privatly owned service and if you don't fit
into thier image of a "perfect" ham... (is there such a thing?)
they'll blackball you and lock you out of thier system... to heck with
them... i don't need thier 2nd rate server anyhow...

Source record: 61258
Cross-posted to: rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio.swap

ok, heres an update, i have been all over the net tracking down info
on this cedric jammer guy, got lots of info now..
his real name is cedric harris
he has a email address of coolaidcb13@hotmail.com
he has a callsign KF4ZCG
he has several websites (one of wich has some anti 146.640 repeater
songs)
http://geocities.com/kf4zcg/ (current site)
http://www.angelfire.com/on2/rifleman (older site and not up)

his CB information is

Coolaid Kid (213)
Tampa Florida
Former Host of the 27.115 Beer Break

QRZ shows cedric's callsign and address to be

KF4ZCG Lookups: 1101 (looked up on 11/17/03)
Cedric C Harris
2119 29 Ave N
Saint Petersburg FL 33713
USA

Hi all, Thanks for looking me up. I am 18 years old, I have been into
ham radio since 1998 and I have been into electronics for over a
decade now. I am usually on 2,10,15, or 40 meters. I talk everywhere
though. Seeya on the air.
And don't forget to check into the Sparc Nightly Net on 147.060 at
6:30PM!
73 Cedric KF4ZCG

finally kg4leg has been at it again today, N0JAM shannon (calls it the
"fell sorry for me net")
kg4leg also hates KF4GAH (and likewise) they apparently rant back and
forth on CB. kg4leg was rebroadcasting a spot on cb over the 146.640
repeater when KF4GAH was yelling at him over the CB last night

will keep the post updated for archiving purposes

It's spelled T-H-E-I-R, meaning belonging to one's self.

Other similar sounding words are:
THERE, not here, but there.
THEY'RE a contraction of "THEY ARE".

BOY! How much you THINK you know! It gets used
a LOT! And some of it is in a "language" you are unlikely to
understand----you know, them pesky "dots and dashes" in addition to SSB, AM
and FM.

Again, it STILL shows how much you know about 10 meters. There are lots of
operators that have regular QSOs on 10 whether the "skip" is runnning or
not. Many groups gather on various frequencies for nightly chats. These
chat groups do so at ranges of 5-50 miles--sometimes more. We are NOT
always looking from
truckers. They are not supposed to be there anyhow.
But you can be sure of one thing: sources tell me that
there are more of them fixin' to get a "surprise". LOL!
J

Also "it's content" should be "its content." But since this isn't a
spelling NG, I won't mention it. (Is it egotistical to use a big "I"?)

Okay.... I'll take a stab at this one..... Who the hell said it's required to be long distance to be useful??

I know personally of some people around here in the Lower Peninsula who on a regular basis communicate on 10 meters and one is near Midland and the other is near Traverse City. And yes, these are pcta extra class licensee's. Guesstimation of around 50-75 miles with 100-200 watts.......

It's not necessarily the quantity of the QSO, as much as the QUALITY of the QSO in my book. If I can have a really enjoyable conversation with someone, even to the level of earning the ragchew award, and to where I learn about that person and their likes, dislikes, hobbies and interests and so on, that to me is the most rewarding conversation.

Hello,

I bought a pair of above FRS in US and using it in an Asian country.
Catalogue says it can be used for 6 miles but when I checked the range
it was not more than a mile. Has anyone used a 6 mile range FRS and
what is the actual range that works. Are these manufacturer’s
lying us or have I got something messed-up.

Thanks,
Karl

# 4303. FA: ATV Video Overlay w/ PC keyboard interface

The PIC STV5730A on screen display project board provides a simple platform for text over video applications. It is ideal for creating on screen displays for ATV applications such as callsign generation.

The unit offered for auction is a demo unit. There is some minor cosmetic damage to the enclosure.

Hello !
I'm looking for any circuit to control my yaesu FT-857
I don't want to buy the CAT system box, I want to build
the interface.
The main purpose is to control the radio with the logging
software I use (DX4win and CT).
If you have the circuit or know about any web page where
it might be please send me an e-mail.
I've search a litle on the web but mostly I find are
advertisements about radios with CAT system, not the interface
wiring !

Thanks !

# 4307. .5W or 5.5W?

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-19 16:15:21 UTC
From: achilles03@hotmail.com
Message-ID: <fef44ceb.0311190815.3e83bfb7@posting.google.com>
Source record: 61277

I'm sending a IC-V8 (2m) up on a high altitude balloon, and was debating on what power setting to use. Ideally, I'd go with the higher power setting (5.5W), but due to the cold temperatures that are encountered (even with insulation) and limited battery life (even with a higher capacity battery), going with .5W is more reliable from a battery life standpoint. Also, I'm using an audio sound module (not packet radio) to relay GPS information back.

My question is: can I get clear reception using the .5W power setting, even when the balloon is, say, 75 miles away at an altitude of 20 miles?

Thanks in advance!
Dave

Check out 14.313 USB just about any weekend during daylight hours.

> CQ no kids, lids or space cadets......

The *original* w2-y has been dead for over 36 Years.

Amazing how things NEVER EVER EVER change
on ham radio. Even their brand of "humor" is just as lame and
pathetic as it was 3 Decades ago.

The only REAL spark of potential inspiration to happen to ham radio was the
late
WA4D. (SK) Now there was a Ham Radio Messiah if there
ever was one !!!!! Of course, just like the other guy, he was
nailed to a tree by the bluebloods and stinky cheeses at
the ARRL, the Sanhedrin of Ham Radio. I count myself as very fortunate
having worked
ole Mike WA4D before he passed on. I even have one of his VERY
COLLECTABLE signed and autographed QSL Cards.
The famous QSL where he was standing outside the Laurel Md
FCC Monitoring station with a flag in hand and a shit-eating
grin on his face. That card is on my radio room wall in a brass and glass
picture frame with a light over it. It's right alongside my autographed
8 by 10 Photo of Bill and Hillary which I rcvd at a luncheon I was
invited to.

Is this World f-cked up or what??

The materials often say something like "up to 6 miles, depending on
terrain and conditions."

> it was not more than a mile. Has anyone used a 6 mile range FRS and

I would say that you are getting typical distance from the radios.

> what is the actual range that works. Are these manufacturer’s
> lying us or have I got something messed-up.

I have gotten longer range on FRS, but I was on a filled in lake bed that
was flat for a few hundred thousand acres. I didn't go out 5 or 6 miles to
test it, but I would guess the range might extend that far in that
terrain. You have not got somethinge messed up, and you are getting typical
distance for the radios in normal terrain and conditions.

# 4310. Ham Radio Deluxe FREEWARE CAT/Mapping/PSK31/Sat Tracking

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-19 18:51:40 UTC
From: igoruberwald@home.nl
Message-ID: <e9b53b2a.0311191051.5899d169@posting.google.com>
Source record: 61280

Hi all,

Simon Brown HB9DRV and I, have now finished beta testing
on Ham Radio Deluxe and release v1.0 is available as of now from:

http://www.hb9drv.ch

Rigs supported (at the moment) are:

Ten-Tec: Argonaut 516,
Yaesu: FT-100,FT-1000MP, FT-1000MP, FT-817, FT-847,
FT-857, FT-897,
ICOM: IC-703 IC-706, IC-706MkII, IC-706MkIIG, IC-718, IC-735,
IC-7400, IC-746, IC-746Pro, IC-756, IC-756Pro, IC-756ProII, IC-775DSP,
IC-910H,
Elecraft K2,
Kenwood TS-2000, TS-450S,TS-570, TS-580, TS-690S, TS-850,
TS-870, TS-950, TS-50, TS-60, TS-140

You will find more info about this software on Simon's site

The Ham Radio Deluxe suite of programs contains the following
components:

Ham Radio Deluxe - a CAT control program for your radio
PSK31 Deluxe - a sophisticated PSK31 program which includes
SuperBrowser.
SuperBrowser allows you to monitor up to 40 (!) QSOs at a time - the
main
restriction being the available processor's speed.
Mapper - an amateur radio mapping program which can not only be used
for
making your own maps, but which can capture and display Maidenhead
Locator
info from the PSK31 Deluxe screen.

Ham Radio Deluxe also supports speech announcements and alarms, but
you will
have to have Microsoft's TTS files installed on your computer. You
will need
to visit the Microsoft website to download and install a total of
about 8MB
(in two files) for this option if the files are not already installed.
The
URLs are:

http://www.microsoft.com/reader/downloads/pc.asp for the Microsoft
Reader

and

http://www.microsoft.com/reader/downloads/tts.asp for the
Text-to-speech
module

We advise the use of WinXP or Win2000, but many of our beta-testers
are
using Win98 or Win98se, and there's one poor benighted soul using
Win95 (NOT
recommended!)

Anyone wanting to use this software is invited to join the Ham Radio
Deluxe
discussion group at http://groups.yahoo.com/group/ham-radio-deluxe/
where
you will find a friendly and helpful bunch of people to help you with
any
problems. The group is moderated, and querulants and other sad
individuals
are kept in check - only happy smiling faces are permitted here,
y'know ;-)

145, Pete PH1PH - G7ECN for the Ham Radio Deluxe Development Team

Hello,

I'm looking for information, cabling, software, and other materials to program the Motorola T5600 desktop controller. If you could post/forward any help or information I would really appreciate it.

Thanks, Tom

With no obstructions, .5 watts will work as good as 5.5 watts.

> any help or information I would really appreciate it.

Your best starting spot: Motorola's parts department, 1800-422-4210. Best to start with Parts Identification so you can pin down the correct documentation for your unit.

Fair warning: The RSS (Radio Service Software) packages can be costly. The one for the T5600 could run anywhere from $75 to $300, depending on how Motorola wanted to price it.

Happy hunting.

I have a Echolink WB2REM interface with encloser and I will include all cables.It is now setup and in use,but I am going to part with it.I will sell it complete for $55.00 shipped to your door.
I don't use it anymore as it sits hooked to my computer and radio.So here is a great working setup ready to go.Email me if interested.

Amateur Radio Newsline™ Report 1370 - November 14, 2003

Amateur Radio Newsline report number 1370 with a release date of Friday, November 14, 2003 to follow in 5-4-3-2-1.

The following is a Q-S-T.

Internationally sponsored ham radio training begins in Albania, UOSat-14 goes QRT for good and ARISS honors the late Roy Neal, K6DUE, with an on the air -- space to ground event. The details on Amateur Radio Newsline report number 1370 coming your way right now.

(Billboard Cart Here)

**

BREAKING NEWS: AUSTRALIA TO BE CODE FREE

The Australian Communications Authority has announced to QNEWS that as of January First 2004 CW will no longer be a requirement for Amateurs to operate on the HF bands. From Monday November 17th, the ACA website will have the press release under the signature of Dr. Bob Horton. Full details on next weeks Amateur Radio Newsline report. (Q-News)

**

RADIO EDUCATION: AMATEUR RADIO PROGRAM OPENS IN ALBANIA

We told you a few weeks ago that it was going to happen and now it has. Ham radio training is now available in Albania. Jeramy Boot, G4NJH, in the U.K. takes an in-depth look at the new internationally sponsored training program:

--

A unique amateur radio program started in Tirana, Albania the 9th of November. Thirty-four third and fourth-year university students began a five-week amateur radio course using RSGB study material as the reference books.

The course will culminate in CEPT license examinations. It is being run in cooperation with Mr. Spartak Poci, the Albanian Minister of Telecommunications, and the Polytechnic University of Tirana.

A unique part of the program is the way in which amateur radio is being integrated into the regular university courses. The course will not only teach amateur radio up to the RAE Full-license standard, but also the role of amateur radio in society, QSL'ing practices and successful Dxpeditioning.

During the five-week period, ZA1A will be active on many bands and modes while demonstrating amateur radio to local telecom and education administrators, as well as to the students. Multiple locations will be used and several stations may be active at the same time. After the course, all the donated equipment will serve the amateur community.

Jeramy Boot, G4NJH, in Nottingham, the U.K.
--

This unique, one-of-a-kind ham radio training program is supported by Region 1 of the International Amateur Radio Union. Additional assistance comes from several national ham radio societies, the Northern California D-X Foundation, Vertex Standard, Fluidmotion Corporation, Malev Airlines and the Rogner Europark Hotel in Tirana Albania. (RSGB, OH2BH)

**

RESTRUCTURING: SWEDEN MAY GO CODEFREE

Sweden could be next nation to drop the Morse requirement for ham radio licensing and end C-W testing.

The November issue of the Swedish national amateur radio society's magazine, QTC, says -- and we quote: "Soon - very soon - the requirement for knowledge of C-W for High Frequency band access will be dropped for the country's would-be amateurs and current Class 2 amateurs".

SM0SMK is the President of the Swedish national society. He says that they hope the Morse code test requirement will be removed at the end of the year. (GB2RS)

**

HAM RADIO IN SPACE: OSCAR 14 GOES SILENT

One of ham radios most popular emergency communications Easy Sats has gone Q-R-T. This with word from the Surrey Space Center that U-Oh-Sat Oscar 14 has finally reached the end of its mission after an amazing 14 years in day to day service.

Launched in January of 1990, U-Oh-14 was the first 9.6 kilobit per second amateur digital communications satellite. It literally pioneered the packet satellite or PacSat concept.

After about 14 months on-orbit, U-Oh-14 was switched to commercial frequencies for humanitarian service by an organization called Satelife. It was used by them until 1997 when it was returned to Amateur Radio service and configured as an F-M repeater in space.

A failure of one of the cells of its on-board battery supply is keeping the entire pack from recharging from the satellites solar array. This causes the transmitter to shut down shortly after it is commanded on. This situation lead to the decision by controllers to terminate the

micro satellites mission after more than 72,000 orbits of the planet. (RSGB)

**

RADIO HONORS: ARISS TO CELEBRATE THE LEGACY OF ROY NEAL, K6DUE

The Amateur Radio on the International Space Station team will be honoring the memory and the legacy of the late Roy Neal, K6DUE. This, with an operating event involving the crew on the orbiting outpost and hams on the ground. Amateur Radio Newsline's Norm Seeley is here with the details:

--

In a joint release, Frank Bauer, KA3HDO and Sergej Samburov, RV3DR of the ARISS International team say that the event is being held to commemorate Roy Neal's vision and dedication. This, in the development of manned Amateur Radio space communications.

And as a celebration of Roy's contributions ARISS has requested that the current I-S-S crew take to the airwaves the weekend of November 29th and 30th to communicate with as many ground based amateur radio operators as they can. After the initial two days, the operation will continue through the month of December using both voice and packet.

Ham radio from the International Space Station signals will be on the usual frequencies. These are 145.80 MHz as the worldwide voice and packet downlink. That's where you listen.

The worldwide packet radio uplink channel is 145.99 MHz. 144.49 MHz is the voice uplink for the America's and the Pacific while 145.20 MHz is where to call if you are in Europe, Central Asia and Africa.

Roy Neal, K6DUE, died last August 15th due to complications following heart valve replacement surgery. He is very much missed by everyone in the world wide ham radio community especially by us here it the Amateur Radio Newsline where he was a friend and colleague.

The full text of the ARISS International release about this special operation commemorating Roy Neal's contributions to manned ham radio in space is now at our website. That URL is www.arnewsline.org. Scroll down to the new "This Just In" area and you will find it there.

For the Amateur Radio Newsline, I'm Norm Seeley, KI7UP.

--

According to Bauer and Samburov hams making contact with the Roy Neal Commemorative Operation will be eligible for a special certificate. More ham radio in space news later on in this weeks report. (ARISS)

**

Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world including the W9EAR repeater of the EARS Repeater Network serving Indiana, Kentucky and Illinois.

(5 sec pause here)

**
AN ARNEWSLINE(tm) EDITORIAL: AN ANONYMOUS NOTES OR E-MAIL PLEASE

I'm Bill Pasternak, WA6ITF, with a short editorial comment. Actually, its more of a reminder that the Amateur Radio Newsline does not accept anonymous letters and e-mail as valid information or story leads.

Every so often, a letter or e-mail will arrive making all sorts of claims. It might deal will allegations that a ham radio test session is corrupt, or identifying someone as the purported jammer of a net or that a ham is doing business over a local repeater. This past week we received two such notes. One claimed that a repeater was discriminating against a group of individuals. The other claimed corruption in the management of a ham radio convention. Both had something in common -- they were unsigned. And here's our policy in dealing with unsigned correspondence. Ready?

(Sound of actual letters being torn up and toss in the trash basket.)

That's right, you just heard me rip it up and toss it in the garbage can. And the reason is simple. If the person sending the letter or the e-mail does not have the courage to sign it, then the chances are that he or she is attempting to use us and you in a personal vendetta. And friends, we are not going to let ourselves or you to be used in someone's private war. That's been our policy since our days as the Westlink Radio Network and it is still our policy today.

The bottom line. If you are going to send us information you must provide identification and be ready to take responsibility for your words and actions. I you are not willing to do so, please save us the time and effort of doing this -- and tossing it in the trash.

This has been an infrequent Amateur Radio Newsline editorial. In Los Angeles, I'm Bill Pasternak, WA6ITF. (ARNewsline(tm))

**

ENFORCEMENT: ALLEGED TOWER UNBOLTER CAUGHT

A follow-up to a story we aired two weeks ago about a man trying to unbolt power transmission towers in three western states. He has now been captured.

According to news reports, the suspect is identified as Michael Poulin. He claims that his actions illustrate how vulnerable the power grid might be to acts of terrorism. At airtime, charges against him are pending. (Published news reports)

**

ENFORCEMENT: IRLP HARASSMENT

A pair of mid-West hams are being asked to explain their actions their on the air activities. The FCC's Daryl Duckworth, NN0W, tells us who and why:

--

Duckworth: "Two Oklahoma amateurs; Johnny Adams, KD5QJG, of Dell City and Jack Stokes, KE5KR, of Oklahoma City have been queried regarding complaints of deliberate interference and harassment of repeater users on W5QO, 144.650 and 145.250 MHz."

--

The FCC says that at the time the incident occurred, the W5QO repeater was functioning as an IRLP node. Adams and Stokes were given 20 days from the day that they received the FCC's letter to answer the charges. They were also warned that failure to respond could result in the revocation of Amateur station license and suspension of operator privileges. (FCC, RAIN)

**

ENFORCEMENT: HEY YOU LEFT THE RADIO ON

The FCC also wants to know why a ham may have walked away from his car with his rig running as a cross band repeater. Again, the FCC's Daryl Duckworth, NN0V:

--

Duckworth: "A complaint of two hours of interference on September 16th, coming from an amateur transceiver unit, in a car, unidentified, unattended, and operating in crossband mode has prompted the Enforcement Bureau to inquire of the vehicle's owner, KG6QKR, Angel Carballo, of Freemont California. The vehicles was located at Hamilton and Bascon Avenue's in San Jose (California) at the time of the interference to 145.23 and 146.94 MHz."

--

Like Adams and Stokes, Carballo was also given 20 days from the date he received the FCC's letter to file a response. (FCC, RAIN)

**

RADIO LAW: A CLARIFICATION ON EQUIPMENT SEIZURES

Phil Kane, K2ASP, says in the CGC Communicator that the FCC does not confiscate equipment.

Kane, now an attorney in Oregon is the retired District Director of the FCC in San Francisco California. He says that he served many times as an on-scene supervisor during events such as the recent raid on an unlicensed broadcaster where equipment was taken. According to Kane,

seizures are made by the U.S. Marshal Service executing an order of the Federal District Court. Any items taken are held pending court action of forfeiture of the equipment to the Government.

According to Kane, the FCC agents on scene are there only as technical experts. They identify to the Marshals what equipment falls under the purview of the seizure warrant. (CGC)

**

RADIO RULES: THE FEDS ON FRS

Federal government entities have been authorized to purchase and operate radios certified by the FCC in the Family Radio Service. This, according to the May 2003 Manual of Regulations and Procedures for Federal Radio Frequency Management.

The manual says that pursuant to Part 95 Subpart B of the FCC Rules and Regulations, government users will be accorded the same privileges as non-federal users. Also, since FRS users must share each channel and no user is assured protection from interference caused by another authorized user, federal entities may not purchase and operate F-R-S radios for planned communications operations that safeguard human life or property.

The Manual of Regulations and Procedures for Federal Radio Frequency Management is a great publication that has a ton of useful information. The only drawback is that it costs $342.00 new. However it is available for viewing and download, chapter by chapter, at www.ntia.doc.gov/osmhome/redbook/redbook.html (CGC)

**

HAM EDUCATION: NEW ON-LINE HELP FOR INSTRUCTORS

The American Radio Relay League's Field and Educational Services branch has announced a new resource for active Volunteer Instructors. Titled the Online Instructor Primer, it's a new compilation by Linda Mullally, KB1HSV, that's jam-packed with helpful tips, links, and tutorials sure to help instructors eager to try new ideas and approaches. More information about it is at the ARRL website. Just take the link to www.arrl.org/FandES/ead/instructor/oip (ARRL)

**

NAMES IN THE NEWS: PATRIOT NAME CHANGE

Turning to this weeks names in the news. Word that the Patriot DX Association has changed its name to the New England DXCC with a new mission. That of fostering participation in DX'ing and the DXCC program.

The group has also announced the creation of a new operating event called the N-E-D-X-C-C Challenge. According to an October 27th press

release the purpose of the Challenge is to stimulate on-the-air operating activity among club members to make contact with many DXCC countries as possible during the prescribed activity periods. More information is on the web at www.nedxcc.org (Via e-mail)

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

EMERGING TECHNOLOGY: SOUND OF A BLACK HOLE

From the science page this question. Did you know that the voice of a black hole is a deep, deep bass? In fact, its 57 octaves below middle C. It is and Jim Meachen, ZL2BHF, has more:

--

The Chandra X-ray Observatory has picked up sound waves for the first time from a cluster of galaxies 250 million light years away. Astronomers at the Institute of Astronomy in Cambridge, England, discovered the sound waves while analyzing the Chandra images of the Perseus cluster. This is an immense grouping of galaxies held in formation by the powerful tug of a super massive black hole.

Andy Fabian is a professor at the Institute of Astronomy. He says that a close study of the fine detail collected by Chandra shows ripples in the X-ray pattern that are caused by sound waves excited by the energy from the black hole.

Fabiam says that the sound produced by the black hole is a B flat, the same pitch as a key near middle C on the piano. But the song of the Presses Black Hole is 57 octaves below that middle C. This is a tone or frequency more than a million, billion times deeper than the limits of the human ear,. Fabian says that makes it the lowest note known in the universe.

For the Amateur Radio Newsline I'm Jim Meachen, ZL2BHF, in New Zealand.

--

Scientists expect more insight on this as the experiments progress. (Science Today)

**

EMERGING TECHNOLOGY: NEW FRACTILE ANTENNA DESIGN

Engineers at Pennsylvania State have developed innovative design methods for a new class of antennas. One composed of an array of fractal-shaped tiles that offer anywhere from a 4 to 1 to 8 to 1 improvement in bandwidth compared to their conventional counterparts.

According to Space Daily, the new broadband antennas are composed of irregular but self-similar, repeated fractal-shaped unit tiles called "fractiles." These "fractiles" cover an entire plane without any gaps or overlaps.

While fractal concepts have been used previously in antenna design, the Penn State research team are the first to introduce a design approach for broadband phased array antenna systems. One that combines aspects of tiling theory with fractal geometry. (ANS, Space Daily)

HAM RADIO IN SPACE: AMSAT UK DONATES TO LAUNCH FUNDS

AMSAT-UK is funding the development of two new amateur radio satellites by donating œ10,000 to each of two projects in the USA and Germany. In accordance with their constitution, at their meeting on Saturday October 25th, AMSAT UK decided to make an immediate donation of œ10,000 to the AMSAT North America's Project Echo Launch Campaign Fund.

Also at the meeting AMSAT U-K decided to earmark another œ10,000 for transfer to AMSAT Germany to support the Phase 3 Express project. This, when a suitable component for funding can be identified.

Project Echo satellite is due to be launched next March 31st. The Phase 3 E Express ham satellite is likely to get a ride to orbit in the 2005 to 2006 time frame. (ANS)

**

BEACON NEWS: UK PROP BEACONS BACK ON

If you are a microwave D-X'er, listen up. This one is for you. It comes from the United Kingdom and says that two of that nations highest frequency beacons are back in full time operation.

Both are part of the South Coast microwave beacon complex. GB3SCX operates on 10 GHz and GB3SCK on 24 Ghz. The two units are again operational following a major rebuild. Both have had their output power increased, raising them at least 10 dB above their previous levels. And there's more.

GB3SCK has been retuned to transmit on 24,048.905 MHz in order to comply with the new 24 GHz bandplan, which will come into force at the beginning of 2004. Also, the GB3SCC which is on 5760.905 MHz has had its keying duty cycle adjusted. It now transmits callsign and location details, followed by plain carrier for a total of 45 seconds. It then stops transmitting for 15 seconds to permit cooling before resuming its operation. Reception reports on any of these beacons go to John Fell, G0API, at his Callbook address. (GB2RS)

**

DX

In D-X, MW0USK reports over QRZ.com that M1DAZ, who is on active duty with the British Forces Broadcast Services in Iraq, has obtained official authority to operate with the callsign YI9DAZ. Darran will be active around the bands for the next couple of weeks using a Yaesu FT-100 and Atas aerial from the Southern part of the country. Most of his operation will be on P-S-K 31 so that he does not disturb his room mate who is the presenter of the early morning radio show. QSL direct to M1DAZ at his home address. (qrz.com)

F6BUM will be active on CW, SSB and RTTY from various regions of Peru. This, between the 5th of November and the 5th of December. He will be using the callsign OA, followed by a district number, stroke F6BUM. (GB2RS)

Also, three operators from Japan will be active from Kathmandu, Nepal, between the 16th and 22nd of November. The callsigns will be 9N7AU, 9N7LN and 9N7SZ. They will operate on 40 to 6 metres using two HF rigs and a 6-metre rig. (GB2RS)

And, a VHF DXpedition to La Palma in Square IL18, should be active through November 19th. This, with DJ6JJ and DL1EJA operating during the ARRL EME Contest and scatter during the Leonids meteor shower. Their station is reportedly using use high power to four 12-element Yagis with full elevation control. For all of these operations please QSL as directed on the air. (GB2RS)

**

THAT FINAL ITEM: THE TECH SIDE OF THE NYC MARATHON

And finally this week a look at two other ham radio aspect of the New York City Marathon. The way hams organize and the technology that they use. Here's Henry Feinberg, K2SSQ:

--
Last week Communications Coordinator Steve Mendelsohn, W2ML, told us that it takes 411 radio amateurs to keep the New York City Marathon moving along. This week W2ML says that it also takes a lot of well organized ham radio networks to keep the messages flowing:

--

Audio only. Hear the newscast in mp3 at www.arnewsline.org

--

According to Mendelsohn, ham radio communicators are aided by a lot of modern technology. Its science that literally gives them a leg up on the contestants:

--

Audio only. Hear the newscast in mp3 at www.arnewsline.org

--

And this year ham radio expanded the use of its own kind of digital positioning technology:

--

Audio only. Hear the newscast in mp3 at www.arnewsline.org

--

According to Mendelsohn, it's human beings -- trained ham radio communicators that makes for a smooth race.

In New York, I'm Henry Feinberg, K2SSQ, for the Amateur Radio Newsline.

--

Next week, how it all gets put together. Please be with us. (ARNewsline)

**

NEWSCAST CLOSE

With thanks to Alan Labs, AMSAT, the ARRL, the CGC Communicator, CQ Magazine, the FCC, the Ohio Penn DX Bulletin, Radio Netherlands, Rain, the RSGB and Australia's Q-News, that's all from the Amateur Radio Newsline(tm). Our e-mail address is newsline @arnewsline.org. More information is available at Amateur Radio Newsline's(tm) only official website located at www.arnewsline.org. You can also write to us or support us at Amateur Radio Newsline(tm), P.O. Box 660937, Arcadia, California 91066.

For now, with Bill Pasternak, WA6ITF, at the editors desk, I'm Don Wilbanks, AE5DW, saying 73 and we thank you for listening." Amateur Radio Newsline(tm) is Copyright 2003. All rights reserved.

# 4326. NW7US Propagation Update: 20-XI-2003

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-20 16:14:09 UTC
From: nw7us@hfradio.removethispart.org
Message-ID: <iL5vb.699$QF5.105@news.randori.com>
Source record: 61346
Cross-posted to: alt.ham-radio.hf,alt.ham-radio.ssb,alt.ham-radio.vhf-uhf,rec.radio.amateur,rec.radio.amateur.dx,rec.radio.amateur.misc,rec.radio.shortwave

A severe geomagnetic storm is in progress at this time. As I write this bulletin, the planetary K index (Kp) is at 7. The Aurora Index is at 10 (maximum). The Bz (horizontal component of the Interplanetary Magnetic Field) is strongly negative (oriented southward), at -55.1 nanoTeslas. This stormy geomagnetic activity is causing strong ionospheric recombination, decreasing the maximum usable frequencies on all radio link paths. HF propagation at all latitudes is poor.

This geomagnetic storm is a result of the arrival and passage of a coronal hole mass ejection from 18-XI-2003. The solar wind speed increased from 430 km per second to 750 km per second, with a very strongly negative horizontal IMF component. Whenever the Bz is negative (whenever the horizontal IMF component is oriented southward), the IMF combines with the magnetosphere in such a way as to create geomagnetic disturbances and ionospheric storms. Aurora is also a typical result of such interaction.

This geomagnetic storm is expected to continue through the end of 20-XI-2003. Additional CME arrivals may continue to keep the geomagnetic activity high.

At 0747Z, 20-XI-2003, a flare peaked at M9.6, further causing degradation of the HF propagation, on the sunlit area of the Earth. Continued C, M, and possible X flares are possible today and for the next week. The major sunspot groups from the end of October and the beginning of November have and are returning into view, increasing solar activity.

Today's HF propagation outlook is poor. While the 10.7-cm flux is climbing, the continued geomagnetic storm will significantly degrade higher frequency propagation. The moderate to major flare activity expected will also degrade mid-HF frequencies. Nighttime propagation on low to mid HF frequencies will also suffer, as the E-layer will be significantly recombined, decreasing its MUF.

VHF propagation via Aurora, Aurora-E, and Trans-equitorial propagation (TEP) will be fair to good. I welcome reports, if any, of your success on VHF during this period.

More information as events warrent will be posted in follow-up bulletins. Live information is on-going at http://prop.hfradio.org/ and a discussion is at http://hfradio.org/forums/

A severe geomagnetic storm (G4) is in progress due to the
arrival of coronal hole mass ejections related to the
returning sunspot group 484, now numbered 501. Some
reporting stations show a K index of 9. The current
planetary K index (Kp) is 8 and the Aurora index is 10.
This is expected to possibly increase to a Kp of 9,
a geomagnetic storm level G5, through the day. HF
conditions are poor. MW conditions are poor.

Visual Aurora is possible today at low-latitudes.
Aurora-mode propagation (Au and Au-Es) is possible and is
already reported. Visual Aurora is occurring now in night
regions, and is possible to occur tonight during darkness
in the Western Hemisphere (e.g., North America).

More information as events warrent will be posted in follow-up
bulletins. Live information is on-going at
http://prop.hfradio.org/ and a discussion is at
http://hfradio.org/forums/

A new version of APRSPoint is available. It incorporates a lot of new changes and enhancements and works with both MapPoint 2002 and 2004. MapPoint 2004 was just released by Microsoft and is available as part of the package. It contains lots of new additional map data for North America and Europe. You are welcome to visit http://www.aprspoint.com/ for details. Thanks.

Right now (nov 20 20:50 zulu) on 28.085 I hear CB like comms (AM).
Sounds as
crowded as a regular legal CB channel. None of it really copyable, with
all the
power mics and ratchet-jaw lingo. QTH in NNJ, nothing over S3.

# 4335. Order your radio amateur callsign engraved on 24k gold electroplated badge

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-20 23:36:47 UTC
From: Thierry <Thierry>, see http: //www.astrosurf.com/lombry/;
Message-ID: <3fbd5010_1@news.vo.lu>
Source record: 61355

Hi,

Note that all addresses are secure people, there is no virus or spam in this email.
You received this mail only once to prevent any abuse.

Since 2002 the company Westid gave up the business of engraving amateur radio callsign on 24k gold electroplated badge.

Good news ! I have found a new US company that has accepted to start again the business but...
to initiate this deal I need to find 15 hams to create the first master at a reasonnable price.

The first 15 badges are $99 + $15 for charge worldwide. I hope that for the next I can reduce the price below $70...
Without these 15 first, there is no way to engrave these callsigns as displayed in the link.

Please inform your hams friends, individuals or clubs if they are interested in this deal.
I gather the 15 first orders. Once reached the concerned US company will ensure the service continuity.
I do not take any fee or copyright in this business.

Check at http://www.astrosurf.com/lombry/qsl-badge.htm if you are interested in.

2 hams have already accepted the deal and have reserved their badge (firm order), should you the next one ?

Thanks in advance.

Best 73's

Thierry
ON4SKY

NB. If I do not find these 15 hams, I still have a second option (to confirm), but probably not of the same quality and with a less service.

# 4343. Re: KG4LEG new jammer in tampa bay on 146.640 N9EE wide area repeater

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-21 01:08:33 UTC
From: jackofalltrades2001@hotmail.com
Message-ID: <b6ef7950.0311201708.34dfdbf9@posting.google.com>
Source record: 61363
Cross-posted to: rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio.swap

KG4LEG was given a letter from ron, N9EE stated that coy roy has been kicked off the repeater. coy roy has been on a little less now in day 8 or 9 since his first sighting on 146.640. KF4GAH was talking about roys situation more today, he added that coy roys wife actually sits with coy roy and coaches him on how to piss people off.

we could also take this as a time to promote the 146.640 repeater.

the 146.640 group has a website,
www.the64machine.org
640 has echolink too
the group meets the first saturday of each month at the NPR N.P.R new port richey HOOTERS on the water.
repeater is up 1175 feet on the channel 10 tv broadcasat tower in holiday floida in the holiday lake estates subdivision.
other repeaters on the tower are 147.150, 444.425, and various commercial.
the tower site is maintained by WB8ONY wb8ony@arrl.net
www.qrz.com shows his information to be

WB8ONY Lookups: 194
Michael W Whitmore
1820 Solar Dr
Holiday FL 34691
USA

i once asked him if he could donate some space on the tower for a very small repeater, he said there was no room, and the tower is WAY OVERCROWDED as it is. several months later ron N9EE got a new GMRS repeater up on that tower, i think it is 462.650 not 100% sure. HMMMMMMM, can you say POLITICS? ron has political ham radio muscle, me? not.

other people who frequent the 146.640 repeater
N9EE (ownwer)
N0JAM shannon pleasant guy
WD4PZD/W4PZD pappy, very nice older guy talks often.
KG4COQ don one of the most wellknown hams on the repeater, always willing to help someone out, he organizes get togethers in J.B Starkey park in pasco county. DON is also known as "twinkle toes" and "the voice of weekie watchee"
KG4ORS red great guy, doesnot get on the repeater much but a good guy to talk to about the military.
WA8JSC/KE4CRM jim nice guy to talk to, he also will help anyone who needs it.

KA3YAE
KF4IQH jim talks about scanners, mabe ran a scanner net?
KG4LEG "mental midget" enuf said.
K4XS bill.
KF4EVJ kevin, talks alot about working for the phone company
KU4QO mike
N4WWX lives in sarasota

And YOU can help! Get out there and listen on the road.
Get the tag # of the tractor (not of the trailer), date, time,
highway, milepost or exit number. Send this info to rholling@fcc.gov .
Make a difference: this is how those
other truckers got warned--individual hams who quietly
listened and accurately reported the above data. RH will
then respond IF, again, the info is accurate. Each ham
can make a difference and stop that "tan-fer thar, drivah,
ah know you rah't, fer-tan thar SQUEAK!!" If we don't, we will eventually
hear them beeping and squeaking their
way along on 17 Meters.

The way to "trap" a driver is to quietly cruise along. Do NOT talk to them
or get into an argument! Simply overtake a trucker who *may* be operating
on 28.085 AM. As you pass, or he passes you, he may be curious
about "them 'funny antenners' thar" and comment to you
about it (or other truckers). It is then you copy down the
tag # on the FRONT of the tractor, the DOT # (this confirms the identity of
the truck), the direction of travel and milepost (or exit), date and time.
Also the company name. Send it in! Done correctly, the "man" will send out
a warning notice to the company holding THEM responsible for their drivers'
actions. It is legal and enforc-able.

Man, that's sick. If you don't like Bush, that's certainly your right. But leave Jessica out of it. She has no more say in national politics than you do. She's just a kid who enlisted and very much ended up in the wrong place at the wrong time. That happens in these conflicts. Don't increase her suffering by belittling her now.

So what does HORE spell?
Are you trying to spell the word Whore?
Close enough for people of limited intelligence I guess.
But it sounds more like a loser grasping for straws in the absence of valid issues.

I'm working on tracing the lineage of the aircraft command sets
and request your help.
I'm seeking any information on sets SCR-AA-183 through SCR-AE-183,
inclusive. Photographs of equipment nomenclature tags, manuals,
stampings and markings, anything at all would be helpful.

I'd be glad to pay for copying, photo processing, or anything like that.
If you have a manual, I would only need the pages from the cover
through the description of the set, plus a schematic.
Anything at all would be helpful, even just "The manual
says this set is contract and date so-n-so."

I'm also seeking transmitter coil sets for the SCR-AF-183
by Western Electric. They must be marked for SCR-AF-183,
since coils for other variations do not fit this set.
They are coil set C-200, C-201 and C-182.
I have lots of trading material.

Also need information from the manuals for transmitters
GF (no number), GF-1 and GF-10,
and receivers RU (no number) and RU-1 through -3 inclusive.

Thanks very much,
73 Dave AB5S

I went out on that one, but it was too late in the evening.
Apparently the best time is not much after local sunset.

I'm glad I finally saw one, but it sure felt wierd looking at the northern
lights, in the south!

Poor obcessed Georgie-girl Busch WA3MOJ. He simply cannot have a civil
conversation. Ever. He has to push his perverted gay agenda all the
time.

Amplifiers are not illegal. Certain uses of certain equipment may be
considered illegal.

Georgie-girl's use of a computer in a public newsgroup should be
considered illegal!

Great idea, Jerry! Pile Riley's desk full with all sorts of false reports so he won't believe any of you!

*may*?? You better be damned certain when you file a report! Entrapment is also a crime, goodbuddy.

# 4357. QEI INC. QUINDAR RADIO UNIT TELEMETRY QUESTION got from hamfest

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-22 04:19:02 UTC
From: jackofalltrades2001@hotmail.com
Message-ID: <b6ef7950.0311212019.3946fd83@posting.google.com>
Source record: 61377
Cross-posted to: rec.radio.amateur.misc,rec.radio.swap

several years ago i found an interesting looking radio at a hamfest,
it looks like a factory modified GE MPI, on the front, where you would
normally see the General electric name plate is a plate that says "QEI
quindar"
on the back it says
QEI INC.
A0-057081-104 REV A
154.46375
NO SCRAM 60 fadem rd springfield NJ 07081

it has a longer than normal battery compartment, and its battery pack
is a shell that takes a standard 9volt batt.

below the QEI quindar nameplate on the bottom, there is a row of thumb
wheel switches 4 individual on the left, and 1 on the right any of
them can be thumbed to any number, i suspect this is a system address
setting for an electric company.
on the top of the radio there are 2 multi position rotary switches on
top, kind of like a channel selector, but not. these have words at
every position
some of the positions are,
pos.
1 = prop on
2 = 1 on
3 = 1 off
4 = 2 on
5 = 2 off
6 = 1-4 on
7 = 1-4 off
8 = 1-2 on
9 = 1-2 off
10 = erase
11 = 3 on
12 = prop off
13 = 4 on
14 = 4 off
15 = 1-3 on
16 = 1-3 off

my question is, i am interested in fooling my florida power/progress
energy load management box into turning things on or off momentarly,
to see this thing work properly.

this is the same frequency that florida power/progress energy uses and has the same data sound, i just dont think i have the right address settings on the front.

other than answering that question does anyone know what the settings on the top do?

Man, that's sick. If you don't like Bush, that's certainly your right. But leave Jessica out of it. She has no more say in national politics than you do. She's just a kid who enlisted and very much ended up in the wrong place at the wrong time. That happens in these conflicts. Don't increase her suffering by belittling her now.

Dwight Stewart (W5NET)

# 4362. NW7US Propagation Update: 22-XI-2003

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-22 15:04:08 UTC
From: nw7us@hfradio.removethispart.org
Message-ID: <FVKvb.3182$x07.2320@news.randori.com>
Source record: 61382
Cross-posted to: alt.ham-radio.hf,alt.ham-radio.ssb,alt.ham-radio.vhf-uhf,rec.radio.amateur,rec.radio.amateur.dx,rec.radio.amateur.misc,rec.radio.shortwave

Howdy,

The high geomagnetic activity that occurred during the passage of the coronal hole mass ejection (CME) from 18-XI-2003 has decreased, and remained at low levels for the last few reporting periods. At the same time, the 10.7-cm flux is greater than 170. Solar wind speed at the time of this writing is just over 550 km per second, with a slightly negative interplanetary magnetic field horizontal component orientation (the Bz is -2.8 nT). This has led to fair HF signal propagation, with normal propagation conditions over low-latitude paths, fair propagation over mid-latitude paths, and fair to poor propagation over high-latitude paths.

The coronal mass ejection observed in association with the M9-class flare of 20-XI-2003 is likely to glance the Earth's magnetosphere during the later half of 22-XI-2003 UTC. This CME should combine with an anticipated high coronal hole solar wind stream to produce further minor storm activity. The expected elevated solar wind speed is a result of a coronal hole that is now in a position where it is spewing plasma directly into the Earth's direction. The combination of the higher solar wind speed and the glancing of the arriving CME will lead to active to minor storm levels from late 22-XI-2003 UTC and into 23-XI-2003 UTC. There is a slight chance of the geomagnetic field to reach major storm levels at some latitudes during this weekend.

The 10.7-cm flux levels are expected to continue to rise slightly to a maximum of about 200 over the next day or so. The >10MeV proton flux levels have been remaining moderate. According to the POSE observations at the time of writing this bulletin, however, there is a very little polar cap proton presence. When very energetic protons (>10 MeV) produced by processes at the sun and interplanetary space arrive at Earth and enter the atmosphere over the polar regions, ionization is greatly enhanced at altitudes below 100 km. Ionization at these low altitudes is particularly effective in absorbing HF radio signals and can render HF communications impossible throughout the polar regions. Since we are not seeing significant wide-spread proton activity right now over the poles, E-layer ionization is mostly normal at these high latitudes.

The big sunspot groups from late October and early November, now numbered 501, 507, and 508, are quite a bit smaller this time around. However, they do have enough magnetic complexity to produce M-class flares. There is a sixty percent chance of an M-class flare, and a fifteen percent chance of an X-class flare. Most of the flares expected will be in the C-class range. This will mostly impact the lower frequencies on the sunlit side of the Earth.

HF propagation conditions will continue to be fair to normal for most of today (22-XI-2003 UTC), but will slightly degrade late in the day and into Sunday. Late Sunday, conditions may improve slightly, and then by Monday should again be mostly normal over all latitudes except for some degradation over the poles.

VHF propagation is expected to be quiet with very slight chance of any Auroral. However, there might be a slight chance of some F-layer openings, and of transequatorial propagation during the afternoon and evening hours local time. There have been some reports of Sporadic-E, but openings are expected to be rare.

More information as events warrant will be posted in follow-up bulletins. Live information is on-going at http://prop.hfradio.org/ and a discussion is at http://hfradio.org/forums/

I find this all 2-B rather curious.

There are 28,913 Hams in the Hudson Division. (ARRL census)

Of these 28,913 only a paltry 3,403 bothered
to vote in this election.

Am I missing something here or is this really
worth giving two shi+s about..?

I don't believe you need to build a level converter -- you just need to wire up a cable to connect your PC's RS232 port to your FT-857. The pin-outs are given in your FT-857 manual.

73,

Dave, AA6YQ

heres an example of the saturday night traders net that 146.640 has.
it is an elcelent place to buy and sell items, and is quite popular
with the checkins..

Hello All:
Here is the listing for November 22, 2003

Jim WA8JSC has a 20 Ft Pushup Pole with a 10 Ft Mast Pipe, Radio Shack
Rotor and 2 Two Element Quads for 2 Meters. All for $75.00.
Contact: 64 Repeater

Don W4TQL is looking for a TS-180 tuner for an Icom 706M2G.
Contact: 352-854-3327

Ev W4IMU is looking for an HF Vertical Antenna that covers 10 - 80
Meters.
Contact: epowell@tampbay.rr.com

Phil W4AIG is looking for a Rotor for VHF.
Contact:philipvelderssr@juno.com

Jay W0JAY has a Separation cable for an Icom 207H. Make Offer.
Contact: w0jay@cs.com

Loren W9LBW has a Dentron GLA-1000B HF Amp. Covers 10-80 Meters.
500-600 Watts output. $250.00
Contact: w9lbw@tampbay.rr.com

Shannon N0JAM has a Radio Shack 30' Pushup Pole and 50' of 9913 Coax.
Both for $30.00 or trade for a Base Scanner.
Contact: n0jam@hotmail.com

Pete KA1WBE is looking for a Kenwood TS-820 for parts.
Contact: ka1wbe@hotmail.com

73 to All
Bobby
KE4YFJ

Check out the Official 64 Repeater Web Site. www.the64machine.org
Dont forget to Vote on the start time of the Traders Net on the web
site.

Amateur Radio Newsline™ Report 1371 - November 21, 2003

Amateur Radio Newsline report number 1371 with a release date of Friday, November 21, 2003 to follow in 5-4-3-2-1.

The following is a Q-S-T. Australia says goodbye to the Morse code and the FCC says hello to a new way to regulate interference. Find out the details on Amateur Radio Newsline report number 1371 coming your way right now.

(Billboard Cart Here)

**

RESTRUCTURING: AUSTRALIA GOES CODE FREE

Australia is joining the no-code revolution. Q-News Graham Kemp, VK4BB is down-under with the details:

--

The Australian Communications Authority (ACA) is reviewing regulatory and licensing arrangements for the amateur service. A discussion paper was released in August 2003, and public meetings were held in 10 cities around Australia. As a result of this extensive public consultation process, the ACA has decided to discontinue the Morse code proficiency requirement for the amateur service.

Background: Article 25 of the Radio Regulations of the International Telecommunication Union sets out the international arrangements for the amateur service.

The World Radiocommunication Conference (WRC) held from 9 June to 4 July 2003 in Geneva fundamentally changed Article 25. The changes to Article 25 have provided the ACA with an opportunity to review and simplify the current regulatory and licensing arrangements for the amateur service. In August 2003 the ACA released a discussion paper that looked at the changes made to Article 25, as well as exploring future options for the amateur service in Australia.
Morse code proficiency requirement to be removed As a result of an extensive public consultation process, the ACA has decided to discontinue the Morse code proficiency requirement for the amateur service. This decision was made considering public comments at the meetings and initial analysis of submissions to the discussion paper.

The ACA will make interim changes to legislative instruments which will immediately allow access to privileges previously available only to those satisfying Morse code proficiency requirements. The ACA is in the

process of amending the amateur radio licence conditions specified in the Radiocommunications Licence Conditions (Amateur Licence) Determination No. 1 of 1997 to reflect this decision. The amendments will give holders of Intermediate and Limited Amateur licences access to the same frequency bands as Unrestricted Amateur licensees; and holders of the Novice Limited Amateur licence access to the same frequency bands as Novice licensees.

The interim arrangements are expected to come into force on 1 January 2004.

I'm Graham Kemp, VK4BB, of Q-News Australia for the Amateur Radio Newsline.

--

More on this in future Amateur Radio Newsline reports. (Q-News: Note: Print version is expanded from audio report)

**

RADIO LAW: FCC LOOKING AT NEW INTERFERENCE STANDARD

Turning to regulatory news here at home, word that the FCC is looking at another way of determining what it calls acceptable interference levels. Termed "interference temperature," the Commission says that this is a new model for addressing interference that takes into account the actual cumulative R-F energy from transmissions of spectrum-based devices. It would also set a maximum cap on the aggregate of these transmissions.

To test the potential usefulness and applicability of this approach the agency has issued a Notice of Proposed Rulemaking. FCC docket item 03-289 seeks comment on various technical rules that would establish procedures and use the interference temperature model on a limited basis in the 6525 to 6700 MHz and portions of the 12.75 to 13.25 GHz bands.

According to the FCC, the "interference temperature" approach may facilitate more intensive use of the radio spectrum, creating the opportunities for new services and improving the predictability of any interference to existing services. The current approach for managing interference focuses on specifying and limiting the transmit powers of individual spectrum based devices. What impact the adoption of an "interference temperature" standard might have on Amateur Radio operations has yet to be determined. (CGC Communicator, ARNewsline(tm), other published reports)

**

REGULATORY NEWS: FCC APPROVES WIRELESS INTERNET IN HAM SPACE BAND

The FCC has turned down an ARRL request to keep so-called wireless Internet connections out of the 5.650 to 5.670 Gigahertz to avoid interference with the Amateur Satellite Service. This, as the regulatory agency makes another 255 MHz of spectrum available for Wi Fi use. Bill

Pasternak, WA6ITF, reports:

--

In a Report and Order in ET Docket 03-122 released on November 18th, the FCC says it was taking action to alleviate crowding in existing wireless Internet allocations. Also, that it wanted to align wireless Internet connectivity here in the United States with the rest of the world.

Amateur Radio has a secondary allocation from 5.650 to 5.925 Gigahertz. That includes a 20 Megahertz wide satellite downlink segment from 5.830 to 5.850 Gigahertz.

An ARRL Bulletin says that back in September the League expressed concerns about the potential for interference from these wireless devices to Amateur Radio space operations. But in releasing its decision, the FCC says that its dynamic frequency selection and transmitter power control requirements should be adequate to protect amateur operations. This, even though the FCC admits that they are not specifically designed to do so.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF, in Los Angeles.

--

In rendering its decision the FCC said that it was not persuaded that it should either add to or modify its proposed rules as requested by ARRL. The Federal government itself is the primary user of the entire band. (ARRL Bulletin, FCC)

**

RADIO LAW: FCC COMMISSIONER'S OFFICE CLARIFIES HER "BROADBAND NIRVANA" REMARKS

The office of FCC Commissioner Kathleen Abernathy has expressed regrets that her remarks in a September speech may have failed to make her concerns about potential interference from Broadband over Power Line sufficiently clear. Responding to complaints from the ARRL and individual amateurs, Abernathy's Senior Legal Adviser Matthew A. Brill said that her office is sorry that the Commissioner's remarks may have been interpreted as suggesting an absence of concern over harmful interference.

The ARRL Letter says Brill has assured the League that ensuring that B-P-L and all new technologies avoids causing harmful interference to licensed R-F users is important to Abernathy. Brill termed it as a bedrock position for the Commissioner.

Last September 22nd, in a speech to the United Powerline Council's annual conference Abernathy expressed personal enthusiasm for B-P-L calling it a Broadband nirvana. That position was quickly challenged by the ARRL and others in the ham radio community. (ARRL)

**
BREAKING NEWS: EARTH HIT BY SEVERE GEOMAGNETIC STORM

A severe G-4 class geomagnetic storm is in progress as we go to air. This, due to the arrival of coronal hole mass ejections related to the returning sunspot group 484, now numbered 501 astronomers.

Thomas Hood, N-W-7-U-S, is the Propagation Editor for C-Q Magazine. In a November 20th posting to the V-H-F Reflector, Hood says that some reporting stations show a K index of 9. The current planetary K index is 8 and the Aurora index is 10. This means that there could be visual Aurora is possible at low-latitudes.

What does this mean to ham radio operations? During the storm HF conditions are poor. So will those on the Medium Wave broadcast bands. But in the world of 50 Mhz and above anything could happen and usually does. Keep your ears open, your radio on and enjoy it while you can.

Now long will this geomagnetic storm last and are more sunspots on the way? Ongoing information is in cyberspace at http://prop.hfradio.org and on the W6YX VHF Reflector.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF. (VHF REflector)

**

ENFORCEMENT: HAM ACCUSED IN WISCONSIN INTERFERENCE CASE

A peason described by authorities as a Wisconsin ham has been arrested and charged with some high tech interference to public service communications. Amateur Radio Newsline's Bruce Tennent, K6PZW, has the rest of the story:

--

The Wisconsin State Journal reports that a ham radio operator is being accused of interfering with emergency radio channels in the city of Madison over the past nine months. According to the Journal, authorities charge that twenty-five year old Rajib K. Mitra, a University of Wisconsin Madison student, may have broadcast audio from pornographic movies over the Madison Police Department airwaves.

The news article describes Mitra is a ham radio operator with a degree in computer science. He was arrested Thursday November 13th after police showed up at his apartment with a search warrant looking for radio and

computer equipment and pornographic audio.

According to a Madison police spokesperson, the interference usually left the radio system dead for stretches from a few seconds to about 20 minutes but never on a regular schedule. Al Schwoegler, the Madison Communication Operations Supervisor said that this intermittant operation added to the difficulty of tracking the source.

The interference came at times when police were dispatched on calls. Authorities believe that the person jamming may have monitored police radio traffic.

Helping to track down Mitra was Ralph Pellegrini. The newspaper article identified Pellegrini is a ham operator and technician for Sprint PCS who assisted police. Authorities approached Pellegrini for assistance when they thought the interference might be coming from a Sprint cellular tower. Pellegrini in turn gave a lot of credit for Mitra's capture to those he termed as the Madison radio guys. He notes that they were able to hunt down Mitra in a city R-F environment that's pretty bad.

Mitra was in the Dane County Wisconson jail as of Friday November 14th. He has been tentatively charged with 16 felony counts of computer crimes and could also face federal charges, according to Madison police.

For the Amateur Radio newsline, I'm Bruce Tennant, K6PZW, reporting.

--

Authorities hope that Mitra's arrest will end months of frustrating interference to their radio communications system. The complete story is on-line at http://www.madison.com/wisconsinstatejournal/local/61321.php (Wisconsin State Journal, QRZ.com, others)

**

ENFORCEMENT: SKYWARN INTERFERENCE

The FCC has told an Indiana ham that he is to stay off of a 2 meter repeater dedicated to emergency alerting operations. This, in a letter to Christopher Smith, KC9CAU, of South Bend.

In the note, the agency says that it has received a complaint about Smith's on the air operation on a repeater system participating in the St. Joseph County Skywarn system. The complaint alleges deliberate interference and harassment to the repeater and refusal to refrain from attempting communications on that system.

The FCC's letter tells Smith that it expects him to abide by any demand that he stay off the repeater, as well as any other repeater where such request is made by a repeater control operator or the system licensee. Smith was given the customary 20 days from the date of the FCC's letter to reply. (FCC)

**

ENFORCEMENT: ECHOLINK EXPLANATION SOUGHT

A Florida ham has some explaining to do for comments made over a linked repeater system. The FCC's Daryl Duckworth, NN0W, explains:

--

Duckworth: "An inquiry went to WA3QCV, Timothy Horvath, of Flagler Beeach, Florida, concerning operation on two repeaters: WB2IXR at 157.015 Mhz and KG4IDD at 145.47 Mhz that are linked through the Echolink system. The inquiry involves alleged threats and obscene language."

--

The FCC also gave Horvath 20 days from the date of its letter for him to respond. (FCC)

**

RADIO LAW: ANTI-PIRACT BROADCAST FLAG APPROVED

The government has approved a new anti-piracy system that will theoretically make it harder for computer users to illegally distribute digital TV programs on the Internet. This, with the goal is to speed the transition to higher quality digital broadcasts and ensure such programming remains free.

The five-member FCC voted unanimously to allow a "broadcast flag" to be added to digital programming to block broader distribution on the Internet on November 4th. Broadcasters and the movie industry had urged the Federal Communications Commission to take such action, while consumer groups said it will force some people to purchase new electronics. (FCC, others)

**

ON THE MOVE: HF NET RELOCATING TO IRLP

Call it a sign of the times we live in. This as Tom Mc Glinn, KO6HA, reports over QRZ.com website on big change for a long established high frequency net that's taking to a different way to communicate.

Mc Glinn says that due to the urban lifestyle of many of the members of the USS Hornet Amateur Radio Club, the group has decided to move its weekly Net from 80 Meters to repeaters that are interconnected using I-R-L-P. That's the Internet Radio Linking Project which permits the world wide interconnecting of repeaters over the World Wide Web.

According to Mc Glinn, the net has been conducting tests and they have worked out most of the bugs involved with such a move. Once completed, the U-S-S Hornet Net will hold the weekly gathering in the San Francisco Bay Area using the facilities of the 147.210 repeater in near-by Oakland. Those outside the area we will be linked in using the I-R-L-P

Western Reflector.

Mc Glinn adds that anyone on the planet who has I-R-L-P access to link to the Western Reflector Subchannel 1, node 9251, on Mondays at 2030 Pacific time is invited to check in on the Net. He says that you do not need to be a member of the club to take part. (QRZ.com)

**

CONFERENCES: CSVHFS IN ONTARIO CANADA NEXT JULY

The Ontario VHF Association and the Toronto VHF Society will be hosting the 38th annual Central States VHF Society Conference. The dates are July 22nd to the 25th at the Delta Meadowvale Resort and Conference Center in Mississauga, Ontario, Canada.

2004 marks only the second time that this conference has been held outside of the USA. More information and a registration form will be available shortly in cyberspace at www.csvhfs.org and www.ovhfa.com (VHF REflector)

**

HAMVENTION 2004: AWARD NOMINATING PERIOD OPENS

Meantime, the planners of Hamvention 2004 say that the nominating period is now open for its Radio Amateur of the Year, Technical Excellence and Special Achievement awards program. The Radio Amateur of the Year is described as that special person who has made a long term commitment to the advancement of amateur radio. A well-rounded individual who has contributed most of his or her lifetime to our hobby in some very outstanding way.

A nominee for the Technical Excellence award should be a person who has made an outstanding technical advancement in the field of amateur radio. Something like a revolutionary new equipment design or mode of operation that has impacted positively on the day to day operation of many hams.

Last but by no means least, a nominee for the Hamvention's Special Achievement is the kind of special person who has made an outstanding contribution to the advancement of amateur radio. This award is usually given to a respected amateur who spearheaded a single significant project.

Documentation is beneficial. Magazine articles, newsletters, newspaper clippings, videos, etc. will better inform the Awards Committee of your candidate's accomplishments. All materials become the property of the Hamvention and cannot be returned.

The nomination deadline is January 31 2004. You can fill out the on-line form found at www.hamvention.org by clicking your mouse on the words award nominations. Printed nominations go to the Awards Committee, Hamvention 2004, PO Box 964, Dayton Ohio, 45401.

And oh yes. The deadline for all submissions is January 31st, 2004 (Dayton Hamvention)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

NAMES IN THE NEWS: KB2GSD VS. WJMK - PART 2

A follow up to an earlier story involving retired CBS newsman Walter Cronkite, KB2GSD, and a Florida television production company that he says misled him and tarnished his reputation. This, when it persuaded him to appear in videos that promoted prescription drugs and other products.

The company, WJMK, filed suit last September after Cronkite tried to end a contract he had signed to appear as the host of a series of videos, including some called American Medical Review. In their legal brief responding to the WJMK action, Cronkite's lawyers say WJMK had assured him that the videos would be educational and would not promote corporate products. These are claims that his lawyers say Cronkite subsequently learned were false.

An attorney representing W-J-M-K, says that Cronkite's charges had no merit and that Cronkite's lawyers were trying to disparage the other side in the media. Meantime, KB2GSD has filed a counter claim seeking $25 million in damages from WJMK. (Published news reports)

NAMES IN THE NEWS: LONG TO AMSAT JOURNAL

Ed Long, WA4SWJ, is the new Editor in Chief of the AMSAT Journal. A licensed amateur since 1970, Ed holds a BSEE from West Virginia University and an MBA from Duke. He is currently employed by SPX Process Equipment in Delavan, Wisconsin. He can be reached by e-mail to wa4swj@amsat.org (AMSAT-NA)

**

EMERGING TECHNOLOGY: SAFETYCAST BROADCAST TO YOUR CAR

Police or fire engines may soon be able to override the radio in your car. This, as Jacksonville Florida based SafetyCast announces that it will soon test a new mobile alert system. One that will allow a police officer or ambulance driver to take over a car radio within a distance of about 1000 feet and broadcast a brief alert tone and warning message.

Emergency services officials are praising the development. They claim that there is a warning crisis because motorists in today's sound-proofed vehicles can't hear sirens, or just aren't paying attention.

But the CGC Communicator reports hearing from one engineer who's worried about the Special Temporary Authority the FCC gave for the trial. He says his studios and E-A-S receivers are located 100 feet from a highway and one block from a hospital. He feels that SafetyCast might jam an Emergency Alert System messages that are coming in. (CGC Communicator)

**

SPACE: FRENCH AND RUSSIAN LAUNCH ACCORD

France and Russia approved an accord intended to pave the way for the eventual launch of Russian rockets from a French launch pad in South America. The agreement, signed on November 11th is the first of its kind between Russia and a European Union country and is a step toward the launch of Russian Soyuz-ST rockets from the E-S-A Kourou launch pad in French Guyana. Most ham radio satellites are orbited from the Kourou facility. (Published reports)

**

INTERNATIONAL - HOLLAND: RADIO NETHERLANDS BROADCAST CHANGE

Radio Netherlands says that its shifting the frequency of its Dutch language transmission to the Far East, East and Southeast Asia at 1300 U-T-C. This broadcast can now be heard on 7 point 380 MHz. The reason for the change is to avoid interference to the transmission. (Media Network)

**

DX

In D-X, word that ON4LAC, is active portable 3B8 from Marutius through November 23rd. His activity has been mainly on 20 and 15 meters using SSB and PSK, but is expected to be on RTTY as well. He will leave Msrutius and head to Reunion Island to be active as FR5 stroke ON4LAC during the period of November 26th and December 15th. After this activity, he will head back to Mauritius and will be active again between December 17th and 27th. QSL direct to his home callsign. (OPDX)

Also, K5LB has announced that he will be going to Swaziland next March and is looking for several operators to tag along. His plans include a trip through the Kruger Game Park. If interested, contact him at frosty1@pdq.net (OPDX)

**

THAT FINAL ITEM: VOLUNTEERISM AND THE NYC MARATHON

For the last two weeks New York City Marathon Communications Coordinator Steve Mendelsohn, W2ML, has been sharing with us the behind the scenes

story of how 411 hams move the race along. In our final part in this series Henry Feinberg, K2SSQ, takes a look at the volunteers that make it all hapen:

--

The ham radio communications effort for the New York City Marathon is volunteer driven. And, as with any event, volunteers do come and go. We asked the lead volunteer, Steve Merndelsohn, W2ML, to explain how this situation gets covered:

--
Audio only. Hear the newscast in mp3 at www.arnewsline.org
--

It's primerally the local clubs that supply the volunteer ham radio communicators. W2ML says that he has a special way of introducing them to what Marathon communications is all about:

--
Audio only. Hear the newscast in mp3 at www.arnewsline.org
--

And speaking about volunteers, we asked Steve what about his own role in all this. How much of his life does he devote to setting up this all volunteer communications effort? His answer may astound you:

--
Audio only. Hear the newscast in mp3 at www.arnewsline.org
--

And there you have it. An insiders look at the massive all volunteer ham radio communications network that literally runs the New York City Marathon. It's a view that only someone who has been there every year since Amateur Radio has been involved, can give.

For the Amateur Radio Newsline, I'm Henry Feinberg, K2SSQ

--

Our thanks to Steve Mendelsohn, W2ML, for sharing his experiences with us, and with you.

**

NEWSCAST CLOSE

With thanks to Alan Labs, AMSAT, the ARRL, the CGC Communicator, CQ Magazine, the FCC, the Ohio Penn DX Bulletin, Radio Netherlands, Rain, the RSGB and Australia's Q-News, that's all from the Amateur Radio Newsline(tm). Our e-mail address is newsline @arnewsline.org. More information is available at Amateur Radio Newsline's(tm) only official website located at www.arnewsline.org. You can also write to us or support us at Amateur Radio Newsline(tm), P.O. Box 660937, Arcadia, California 91066.

For now, with Bill Pasternak, WA6ITF, at the editors desk, I'm Don Wilbanks, AE5DW, saying Happy Thanksgiving, 73 and we thank you for listening." Amateur Radio Newsline(tm) is Copyright 2003. All rights reserved.

# 4383. NW7US Updated Forecast for CQ WW CW weekend

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-23 17:29:00 UTC
From: nw7us@hfradio.removethispart.org
Message-ID: <t76wb.5367$x07.3781@news.randori.com>
Source record: 61303
Cross-posted to: alt.ham-radio.hf,alt.ham-radio.ssb,alt.ham-radio.vhf-uhf,rec.radio.amateur,rec.radio.amateur.dx,rec.radio.amateur.misc,rec.radio.shortwave

Here is my updated predictions for the CQ WW CW contest weekend (29-XI-2003 UTC and 30-XI-2003 UTC):

The solar activity that took us by surprise during the end of October and beginning of November 2003 has me revising my outlook for the CQ WW CW contest period of November 29 and 30. I am now expecting conditions to be slightly degraded compared to the forecast conditions published in the CQ Magazine. ( See my latest "Last Minute Forecast" chart at http://prop.hfradio.org/ )

Using the 27-day solar cycle as a guide, we are looking at Above Normal on day one, to High Normal conditions on day two of the contest weekend. Low- and mid-latitude paths will be good, while high-latitude and polar paths will be fair.

The predictions right now call for the planetary A index (Ap) to be 10 on 28-XI-2003 and 29-XI-2003, and 15 on 29-XI-2003. (Some predictions called for the Ap to remain at 15 for both contest days, making day one only High-normal conditions). The 10.7-cm Flux is predicted to be at least 165 to 180 on 28-XI-2003 and 29-XI-2003. On 30-XI-2003, the flux is expected to fall to about 160. A maximum planetary K index (Kp) of 3 is expected for both days.

Polar geomagnetic forecasts are calling for unsettled conditions for trans-polar and high-latitude propagation paths. This will make over-the-pole contacts more challenging.

Will solar flares play havouc on the bands during the daylight hours during the contest? The sunspot regions, 507 and 508, pose the most risk for flare activity. Both have beta-gamma magnetic configurations. Old sunspot region 498 is expected to return from around the sun on day one, but will still be on the very edge. It is predicted to have a beta configuration, so 498's flare risk is low.

A note about magnetic configurations of sunspot groups: Sunspots classed as "beta" groups are simple bipolar regions. "Beta-gamma" sunspot groups are more complex and

consist of an irregular mixture of magnetic polarities.
The "delta" magnetic configuration only occurs when two
closely-spaced, opposite polarity umbrae appear within a
single penumbra. This characteristic implies that magnetic
field gradients are high and that respectable levels of
magnetic shear may exist around the two opposite polarity
umbral spots. Sunspot regions that possess the "delta"
configuration are the most potentially volatile and
flare-prone active regions. Some of the most powerful
solar flares in recorded history (including the rare
white-light flares) have issued forth from complex sunspot
regions containing magnetic delta configurations.
The most complex magnetic configurations of sunspot groups
is known as a beta-gamma-delta magnetic configuration.
( More information:
http://sidc.oma.be/edu/classification.html ) I expect that
there will be minor flare activity from these regions
over the contest weekend. This will impact the highest
bands (10 to 15 meters).

Therefore, I expect that the higher bands will be poor
to good, depending on the path: Trans-equitorial paths
(N/S) will be the best, while polar paths will be the
worst. The middle HF bands will be good over most paths.
The low HF bands and the MW band will fair nicely, since
the backgound X-ray levels are expected to be in the
B-class range, and very little geomagnetic activity is
expected.

Those operating in low-latitudes will have the best
propagation into most areas of the world. All stations
will have a slight challenge for any over-the-pole
paths. Mid-latitude stations should otherwise have
good conditions, while high-latitude stations will have
fewer higher frequency openings.

I'll be watching things closely, and will update my
predictions if warrented. You can find the latest
version at http://prop.hfradio.org/

Happy DXing!

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 16th/November, through Sunday, 23rd/November there were 229 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4W, 4X, 5A, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9V, 9X, 9Y, A2, A3, A4, A5, A6, A7, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, D6, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J3, J6, J8, JA, JD/m, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH5, KH6, KH8, KH9, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OY, OZ, P4, PA, PJ2, PJ7, PY, PZ, S2, S5, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T5, T7, T9, TA, TF, TG, TI, TJ, TK, TL, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V5, V6, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations. As always, you never know - "Work First Worry Later" (WFWL).

4U1U, UNITED NATIONS HQ. Operators Ray/W2RE, Frank/W2IX and Seppo/OH1VR are expected to be active from 4U1UN beginning November 29th during the CQWW DX CW Contest. They are tentatively scheduled to be active for about 10-12 hours. Activity will be on 80-10 meters, if possible, 160 meters. ADDED NOTE. PLEASE beware that there has been some PIRATE activity over

the past week. Activity for 4U1UN is usually announced before an operation takes place.

6Y, JAMAICA. Kevin, WN9O, informs OPDX that Mike/WO9Z, Don/W9IU and himself will be active as 6Y5/homecall from February 28th to March 14th. Activity will be on 160-10 meters, including the WARC bands. The group will also be active as 6Y8Z during the ARRL SSB Contest. QSL via W9IU (direct).

6Y, JAMAICA. Art/N3DXX and Steve/KN5H will be active as 6Y6X in the CQ World Wide DX CW Contest (November 29-30th) as Multi-2 entry. QSL via KN5H.

9M4, WEST MALAYSIA. Champ, E21EIC, reports that he will not be active from Thailand in the CQWW CW Contest as first announced, but he will join the team of operators HS0ZDZ, 9M2/G3TMA, VK8AV, 9V1UV and possibly others as 9M4JB for the contest. Operating class will be Multi/(something). QSL via E21EIC. ADDED NOTE. Also, look for special event station 9M4SEA to be active from the 31st annual South East Asia Net Convention (SEANET) in Johor Bahru, Malaysia, November 27-30th. QSL via E21EIC. Visit the Web page for more details at: http://www.seanet2003.com

9N, NEPAL. Janusz, SP9FIH, is active as 9N7WE from Kathmandu until December 6th. He informs OPDX that his suggested frequencies are: 7073 or 7056, 14195, 18145 and 21295 kHz plus/minus QRM. Janusz also mentions a good time for USA is on 20 meters between 1200-1400z. For EU, on 40 meters between 2200-0000z. Also, he will try to look for the US on 40 meters, split about 1300z. QSL via SP9FIH.

9Y4, TRINDAD AND TOBAGO. Babs/DL7AFS and Lot/DJ7ZG will be active as 9Y4/DL7AFS and 9Y4/DJ7ZG now through December 6th from Tobago Island (IOTA: SA-009). They will be active on the usual DX frequencies (80-6 meters), mainly on SSB, RTTY and PSK. QSL via DL7AFS (direct to: Baerbel Linge, Eichwaldstrasse 86, D-34123 Kassel, Germany) or via the DARC Bureau. For more details, please visit the Web page at: http:\\www.qsl.net\dl7afs

BQ9P STORY. Yuki, JI6KVR, informs OPDX that the release of the BQ9P Pratas Island DXpedition Story is now updated on the BQ9P Web site at: http://www3.ocn.ne.jp/~iota/newpage64.htm

C56, THE GAMBIA. Andy, G0VUH, will be active as C56/G0VUH from January 16-30th. He is expected to be on every day and during the nights on all bands. He will have a big beam from 20-10 meters and two verticals that are combined for 80 meters. QSL via the home callsign G0VUH.

CX, URUGUAY. Raul, CX7BY, in Montevideo, plans to be active in the CQWW DX CW Contest as a Single-Op/Single Band (20m)/High Power entry. QSL via CBA.

DX HOLIDAY DINNER. Floyd, N5FG, informs OPDX and its reader: "Holiday Greetings to you and your family. This year's Magnolia DX Association DX Dinner will be held on Saturday, December 6th at Montana's in Gulfport.

Montana's is on Airport Road (off 49 toward the airport.. just south of I-10). It will start PROMPTLY at 6 P. M. (Please be on time) This year's program will be the PZ5A 'GOPACK' operation for the CQ WW SSB Test. We WILL have some GREAT DOOR PRIZES for the raffle tickets, and, of course, MY usual "interesting door prizes". For those that are not familiar with Montana's, they have a LARGE buffet with plenty of "meat items " and veggies as well as seafood, including shrimp etofee. The price this year will be same as last year-- 15.00 USD and that includes your meal, tax, and tip and drink, as well as the entertainment. If you can attend, please send me your check for 15.00 USD for each attendee in your party. Please send this in as soon as possible, as I need to give a guarantee.. THANKS I hope everyone that came last year to the DX Day will return and bring a friend and those that have not been to a DX Dinner lately, I hope you will be able to attend this great evening of DXers talking DX. Look forward to hearing from you real soon. THANKS! 73/DX Floyd, N5FG"

EY8, TAJIKISTAN (160m/Contest Op). Nodir, EY8MM, reports that he is planning to operate 160 meters the night before CQWW CW Contest and the morning after the contest (0000 until his sunrise). He will use a Delta vertical on 55m tower. Skeds are welcome via E-mail at:
nmt@at-communication.com
Nodir states, "Unfortunately no 160m in the contest itself because I am planning SO SB 80m entry (vertical quad North to South and another quad East-West)."

HC8, GALAPAGOS ISLANDS. Jon, N0JK, states, "The HC8N station will be active on 160m November 24th through December 1st. I plan to be active in the evenings from local sunset at 0000 utc to European sunrise, and again in the morning 1100 - 1200 utc, plus all night in the WW CW. K5KA installed a sloping dipole last year that appears to have about 5 dB gain over the existing 1/4 wave vertical to Europe. We plan to install a second sloping dipole to improve the signal to the far East and Japan."

HH2, HAITI. Craig, AH8DX, will be active as HH2/AH8DX in the ARRL DX Phone Contest as a Single-Op/All Band/Low Power entry. QSL via AH8DX (QRZ.com address).

HZ, SAUDI ARABIA. Tom, SM0CXU, will be active as HZ1AB in the CQ World Wide DX CW Contest (November 29-30th) as Single-Op/Single Band (15m) entry. QSL via K8PYD.

IOTA NEWS.....
AF-051. Leo, 3XY1L, will try to be active as 3XY1L/p from Rooma Island on November 30th. It will be a one day operation only on 10 meters between 1100-1600z.

NA-027. Len/VE9MY and Linda/VE9GLF will again be active from Newfoundland (CIsA NF-001 for the Canadian Islands Award) between now and December 1st. Look for them on the usual IOTA/Island and DX frequencies.

SA-086. (Update) The Atacama Desert DX Group that will be on the air as 3G2D from Damas Island IOTA (DICE ICE-201) will also activate the lighthouse (LH 0029) between November 26-28th. Activity will be 160-6 meters with 3 stations. QSL Manager is CA2WUI: P.O.Box, 1037 La Serena, Chile.

J3, GRENADA. Paul, J37KF, will be active in the CQ World Wide DX CW Contest (November 29-30th). Entry class is not known. QSL direct to address on QRZ.com.

J6, ST. LUCIA (Op Needed!). The J6DX team is looking for an additional opetor for their 2004 trip. This is a two week vacation style trip for the WPX RTTY (M/S) and ARRL CW (M/M) contests. The scheduled dates are February 11-25th. If you are interested in accompanying them, please contact Scott N9AG/J68AS for more information at: scottal@erinet.com

KH8, AMERICAN SAMOA. Lee, KH6BZF, sent out the following press release on November 20th: "Amateur Radio continues to grow with new Amateur Radio associations ready to join the IARU-International Amateur Radio Union. On November 4th, 2003, a formal meeting of the new 'American Samoa Amateur Radio Association' (ASARA) was held. Larry Gandy, AH8LG, was elected president of ASARA. Ms. Uti Gandy, KH6FO, was elected Secretary/ Treasurer and Lee R. Wical, KH6BZF, was made the liaison officer. All the members present at the founding meeting voted to apply for membership in Region III of IARU. The growth of Amateur Radio in central Pacific and the size of IARU will support the future of Amateur Radio World wide. Amateur Radio operators World-Wide should welcome the entry of ASARA into Region III of IARU..... JOHN, K1ER, Adviser ASARA"

LX, LUXEMBOURG. Les, G3VQO, will be active as LX/G3VQO in the CQWW DX CW Contest as a Single-Op/All Band/Low Power entry. On November 28th, look for Les to be active in the evening on 30 meters (10.1 MHz). QSLs are 100% via bureau or eQSL.

NJDXA OFFICERS FOR 2003-2004. The North Jersey DX Association (NJDXA) is pleased to announce the elected officers for 2003-2004:
President Rich Gelber, K2WR
Vice-President Steve Adell, KF2TI
Secretary Steve Saposnick, KB2ENF
Treasurer Gene Ingraham III, N2BIM

NP4, PUERTO RICO. Felipe, NP4Z, will be active in the CQ World Wide DX CW Contest (November 29-30th) as Single-Op QRP from on top of 4,000 ft mountain using 55 ft verticals and wires. QSL via WC4E.

QSL INFO AND NEWS.....
George, KP2/K2ZZ, reports that his new QSL Manager is W1QJ. George is very active from U.S. Virgin Island mainly on HF. He was heard this past week on 10 meters (28410 kHz) after 2130z.

Were you one of the lucky ones to work KH7U/KH5 from Palmyra Island this past weekend? QSL via the KH6 Bureau or direct to KH7U. Kimo/KH7U and Pat/NH6UY were on the island to perform their annual maintenance on the island's electronic equipment, for the Nature Conservancy. They

are expected to be on the island until November 24th.

R1, SOUTH SHETLAND ISLANDS. By the time you read this, Oleg, UA1PBA, should have arrived at the research base Bellingshausen on King George Island. Oleg is expected ti be here for about 1 1/2 years. He will be active as R1ANF.

RS0, ASIATIC RUSSIA. Vlad, UA0FZ, will be active as RS0F in the CQWW DX CW Contest as a Single-Op/All Band/High Power entry from Zone 19. QSL via W3HNK.

SOUND BITE NEEDED. Glenn, K2FF, reports, "As you know K2FF (PZ5FF), KD5CQT (PZ5CQ), and W5UE (PZ5UE) spent a week in Suriname in October and also activated PZ5A in the CQWW SSB Contest. Well, when we got back home we realized that we got everyone on tape EXCEPT Randy - PZ5UE. So, what we are looking for is the possibility that anyone anywhere out there worldwide might have captured a piece of PZ5UE's CW operating on tape (i.e., cassette, DVD, wav file, etc). We are trying to incorporate it along with the others into an official presentation scheduled for early December. So, does anyone have PZ5UE (CW) captured on tape?" If so, please contact Glenn, K2FF, at: K2FF@aol.com
Also, visit the Web page at: http://www.mdxa.org/pz_2003.html

SU9, EGYPT. Tom, N9NC, will be active as SU9NC during the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/All Band/Low Power entry. QSL via OM2SA.

SV5, DODECANESE. Stathis, SV1DKL (very soon SV5DKL), informs OPDX that he will participate in the CQWW DX CW Contest as SV5RDS and as a Single-Op/ Single Band (40m)/High Power entry from the Dodecanese Radio Society. The antenna system to be used is 4 x half-wave slopers. He will also use a Kenwood TS-870S, a HF linear amp and complete logistics support. QSL SV5RDS via the bureau.

T32, EAST KIRIBATI. Operators Larry/N2WW, Bill/K0MP, Barry/N0KV, Greg/W0ZA, Tim/N0ZM, Paul/NO0T, Cheryl/N0WBV and John/KT0F will be active on Christmas Island (OC-024) from November 24th through December 8th. This will include a Multi-2 entry in the CQWW DX CW Contest as T32WW. Outside the contest, operators will use the own individual T32 callsign. Look for the following callsigns: T32KV - Operator Barry/N0KV. QSL via CBA.
T32MP - Operator Bill/K0MP. QSL via N0KV.
T32N - Operator Paul/NO0T. QSL via CBA.
T32TF - Operator John/KT0F. QSL via CBA.
T32WW - Operator Larry/N2WW. QSL via N0KV.
T32YL - Operator Cheryl/N0WBV. QSL via KT0F.
T32ZA - Operator Greg/W0ZA. QSL via CBA.
T32ZM - Operator Tim/N0ZM. QSL via CBA.

TO4, EUROPA. By the time you read this, the TO4E team should have arrived at Europa by the way of the Navy boat "La Grandiere". They should also be active and are expected to be on the air until December 15th. Plans are to have three stations on the air and their activity will include

the CQWW DX CW Contest (as TO4WW). BAD NEWS for YL chasers. It was announced this past week that they will NOT have a YL operator with them as first announced. LAST MINUTE UPDATE: Before going to print, Rafik, F5CQ, Co-organizer Europa 2003, sent out a press release that the team would not unload the equipment until the end of the morning on Monday because of the high tide. He believes they will not be on the air until Tuesday morning. Remember, the TO5E Europa Web page is at: http://europa2003.free.fr/

TS7, TUNISIA (IOTA Op). A very large international team of operators are now active as TS7N from Kerkennah Island (AF-073) until December 1st. With 20 operators and 5 stations active, look for activity is to be on all bands 160-6 meters CW/SSB/RTTY/PSK31. They also plan to be an entry in the CQWW DX CW Contest as a Multi-2 class. QSL via DL9USA. For more details, please visit their Web page at: http://ts7n.tk

VK9L & VK9N, LORD HOWE AND NORFOLK ISLANDS. Babs/DL7AFS and Lot/DJ7ZG will be active from Lord Howe Island, February 16-27th, and from Norfolk Island, February 29th through March 13th. The callsigns will be announced later. Activity will be on 80-6 meters on SSB, RTTY and PSK. QSL via DL7AFS (direct to: Baerbel Linge, Eichwaldstrasse 86, D-34123 Kassel, Germany) or via the DARC Bureau. For more details, please visit the Web page at: http:\\www.qsl.net\dl7afs

VP9, BERMUDA. Paul, K1XM, will be active as VP9I in the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/All Band/Low Power entry. QSL via KQ1F.

XV, VIETNAM (Correction to OPDX.635/Update). Kunihiko, JE7IDA, informs OPDX that it is not he that will be active as XV2NA in the CQWW DX CW Contest but Naoki, JE7RJZ. However, Kunihiko is the QSL Manager. Naoki will be staying in Ho Chi Minh for his job from from November 27th to December 1st. He is a journalist of a local Japanese TV station. Kunihiko told OPDX that Naoki may be active as XV2NA only during the CQWW CW Contest period, November 29-30th because of his job. QSL via JE7IDA, bureau or direct.

YB0, INDONESIA. Pri, YB0ECT, will participate in the CQWW DX CW Contest as a Single-Op/All Band/Low Power entry. QSLs for YB0ECT are via K5ZE ONLY.

ZD8, ASCENSION ISLAND. Jim, N6TJ, will once agin be active as ZD8Z from here between now and December 2nd. He will also take part in the CQWW DX CW Contest as a Single-Op/All Band entry. QSL via VE3HO direct.

You will find an article that might be of interest to you at the ARRL website. It is called "Everything You Ever Wanted to Know About Computer Interfacing" and is available in PDF.

There is an interface board that can be used for Yaesu, and if you want to buy one it is available from FAR circuits on the web.

I am not familiar with your model of Yaesu, so I don't know if you can hard wire it as suggested or not.

I do know that the interface in this article is easy and cheap to build. I used the interface described in the article for my Kenwood TS-440 with grear results.

If you cannot find the article, or if you are not a member I can send you the file as an email attachment if you like. It is about 1.5 meg.

73, Howard

## 4400. Rf computer routers

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-24 13:24:42 UTC

Greetings

I realise this news group is not really the place for this question. But as amateurs we have a knowledge of rf. So....

My question is this....does anyone know of any websites which discuss rf routers, from an rf point of view?

For example is the transmitter on the circuit board inside the computer or laptop. or is it in a separate external box.

Are they using 2.4 ghz and 5.x ghz?

Larry

Hi Dave

My congratulation on your project.

Can you tell me is this balloon going to return or is it a one time event.
I would go for low power, the lower the better.

> My question is this....does anyone know of any websites which discuss rf
> routers, from an rf point of view?
>
> For example is the transmitter on the circuit board inside the computer or
> laptop. or is it in a separate external box.

All the ones I've seen are self-contained, with fixed-mounted
antennas.

> Are they using 2.4 ghz and 5.x ghz?

I know that 802.11b uses 2.4, and I seem to recall that 802.11g
uses 5, but I'm not 100% certain. Perhaps someone else?

As an aside: My take on any type of wireless networking is that it
is inherently insecure. WEP can be cracked in a matter of hours with the
right tools.

If you must use wireless, use it with a VPN tunnel to your LAN.

# 4403. Radio Shack® policy invites Identity Theft

Newsgroup: rec.radio.amateur.misc
Date: 2003-11-24 21:04:28 UTC
From: Gnarlodious <gnarlodiousNULL@VOID.invalid.yahoo.com>
Message-ID: <BBE7C07D.2D264%gnarlodiousNULL@VOID.invalid.yahoo.com>

I was flabbergasted at what happened today at a local Radio Shack store.

I was waiting in line with several others while the cashier interrogated a customer.

1) Name, first and last
2) Telephone number
3) Address
4) Social security number

I interrupted his reciting his SS number, demanding loudly why the cashier needed to collect this information in public. The cashier, who also is the store owner got angry and told me it is Radio Shack policy to collect this information as part of the "Contract" between seller and purchaser. I turned to the line of waiting customers and began lecturing about invasion of privacy and identity theft. The owner started yelling about how I had to leave immediately or he would call the police. So I left.

Please register your dismay at your local Radio Shack store at this policy which is an invasion of privacy and invites crime. Do not participate in this "Marketing Strategy" which only serves to desensitize consumers as to their personal rights.

Thank you & 73

Assuming you have a line-of-sight path to the balloon, you can use the free space path loss equation to determine your path loss.

At an altitude of 20 miles and 75 miles downrange, the distance to the balloon will be 77.62 miles. At 146 MHz, the path loss will be 117.6 dB. Assuming antennas with "zero" dBi gain at both ends of the circuit, the signal provided to your ground receiver will be as follows:

A 5.5 watt transmitter will result in 21.64 uV at the receiver.

A 0.5 watt transmitter will result in 6.52 uV at the receiver.

Considering the 10-year license term:

How many of those 28,913 hams are still alive?

How many are still active?

And most importantly, how many are ARRL members (only ones who can vote)?

> What was the jammer-to-check in ratio?

i wasnot listening during, but i listened later, normally the jammers dont mess with the traders net, later i didnot hear any talk about the jammers.

HERES A KG4LEG UPDATE. 11/23/03
since ron has kicked him off, and lots of hams are ignoring KG4LEG, it has reduced LEG to making stupid agitating comments to himself on the repeater, or talking to himself on the repeater about the fun he had with his wife drinking and dancing. i think he had a brief spat with jim carter WA8JSC but it was quickly diffused. LEG has had some blow ups, but the ammount of commotion he is causing is getting a little less. thats your KG4LEG news update :)

another very popular net is the "FRIDAY NIGHT INFORMAL NET" run by don KG4COQ
don does an excelent job with that net, and it often runs 2-3 hours starting at 9PM. it is not uncommon to see 20-30 checkins, and i have even heard him get 50+ checkins in one net.

on sunday nights we have the "SUNDAY NIGHT TRIVIA NET" 9pm run by shannon N0JAM (or his wife sometimes) this net is extremely popular, and i would encourage anyone that wants to get a high participation net going, to do a trivia net. it lasts an hour, and often people wish it would continue longer than 1 hour. the trivia questions range from trivial pursuit card questions, to trivia that people have dug up in various places.

and of course ron N9EE runs code practice at 9am and 7pm each day for those wanting to further thier knowlege of code.

Entity Ralph Mowery spoke thus:

>> If the person was signing up for a wireless phone account they do require
>> the SSN.
>>
> If they did require the SSN I would go with another service.
My point exactly, and especially in public. If they require a SSN they
should have the customer fill out a form in writing rather than announce to
everyone present.

> it used to be against the law to require you
> to give out your ssn.
Last time I renewed my driver's license it didn't have my SSN on it like the
previous one did. They explained that it was now a state law for security of
the individual.

If they did require the SSN I would go with another service. I am not sure
of the law now, but if it was not for some US Government form (mostly for
taxes but it could be others) , it used to be against the law to require you
to give out your ssn.

They did not ask me for anything yesterday on a $ 20 purchase. If places have a good warrenty service like a battery I purchased from autozone a few years ago it would be ok. The battery in my car went dead and I got a new one. Did not think it was covered as I had forgotten how long I had had it. They asked for my name and telephone number. The computer popped up that the battery still had a year to go on the warrenty and they saved me about $ 10. Not much money but very nice of them . I will go back to that store as much as I can for car parts just for that reason.

You must not live in the US. Here, any financial institution, credit
card issuer, lending institution, credit clearing house has *either*
your SS#, OR a taxpayer Identification number. If you buy and or sell
stocks it is also required. Your SS# is widely and legally used by
quite a few organizations.

It can be either.

> Are they using 2.4 ghz and 5.x ghz?

Wireless LAN equipment uses 2.4GHz (802.11b and .11g) and 5.2GHZ (802.11a). Some of the older (pre 802.11) equipment uses 915MHz. There are both internal and external versions - with external versions usually connecting via USB.

Amateur packet radio typically uses HF (below 30 MHz), 6m (52MHz), 2m (145MHz), 125cm (219 or 223 MHz), 70cm (431 or 439 MHz in my region), 33cm (915MHz) or 23cm (1297MHz) - and higher frequency bands are possible. These uses are usually with external interfaces directly to radio transmitting equipment (also external), connecting to the computer via a serial port. There are some internal models. Use of this type of equipment requires a license. Usually these aren't stand-alone "routers."

Congratulations, and welcome aboard!

You have a keyer, do you have a set of paddles? Or is your keyer a
combination keyer & paddles in one unit?

That HW-8 is a tried-and-true rig, as you will no doubt find out. I've
had all three in that line (HW-7, -8 and -9). The HW-8 was produced by
the thousands back in Heathkit's heyday -- I'd bet it's well into the
top 10 of all-time best-sellers in their family. Too bad they're no
longer in the ham radio market. <sigh>

Since you're only talking about a few watts of power, you really don't
need much in the way of a dummy load. A 1-watt 50-ohm resistor is about
all you need!

Visit www.amqrp.org -- that's the site of the American QRP Club, a
merger of the NJQRP and NorCal groups. You'll find a wealth of
information there on all facets of QRP operation. Covers little

homebrew stuff to the modern rigs like the Yaesu FT-817 and Elecraft K2.
Just about everything you'll need to know is there for the browsing.

Enjoy!

Also check the AC6V.com web site. Rod's got a lot of links on that
site, well worth making it onto your favorites list.

And if the program you choose doesn't run properly in Windows XP:
right-click the shortcut and select Properties; click the Compatibility
tab; and select an emulation mode that will support the program. That's
a new feature in XP, which you'll no doubt find handy.

Even still they should give the person the opportunity to write that down as opposed to speaking out loud.

I think, because of credit checks, they need that for certain things like cell phones, satellite dish service, and any credit card sign-ups. But again, there should be some way that this could either be written down by the customer and also the sales rep should have some way of either calling the information in, in a way to protect privacy, such as keying the social security number via touch-tone pad.

I used to support Rat Shack but since they have gone the way of only computers, cell phones and satellite dishes and barely anything close to radio anymore, I probably won't be shopping there much anymore......

If you have a major credit card there should be no need for a SSN. If you qualify for a MasterCard or Visa, you sure as hell should qualify to buy a satellite dish or a cell phone.

>
>I used to support Rat Shack but since they have gone the way of only
>computers, cell phones and satellite dishes and barely anything close to
>radio anymore, I probably won't be shopping there much anymore......

The demise of Radio Shack and it's transition to just another mass-merchandise consumer electronics store is one of the saddest stories in American retail for us radio enthusiasts.

Remember when Radio Shack employees actually KNEW something about the products they sold? Back when you could go in and say "I want to put up a base CB antenna....what's the best way to do it and what do I need?", and they would actually know the answers?

Remember when you were a kid and wanted to learn about electronics? Radio Shack had a whole line of P-BOX kits to choose from. You could build radios, small transmitters, motors, etc. And when you were ready to engineer your own project from scratch, Radio Shack carried a full line of electronic components and books to show you how to do it.

Sadly, like everything else in this country, all that matters is the almighty corporate dollar. The suits decided they could bring in more bucks by shutting out the hobbyists and selling satellite dishes and cell phones instead. They could increase those stock dividends by hiring minimum wage flunkies, rather than experienced personnel. A few more cents were wrung out by dropping Radio Shack's unique line of merchandise (Archer, Nova, Tandy, Micronta, Clarinette, Realistic, etc.) and simply selling the same national brands that everyone else does.

The Radio Shack of today is simply a smaller, less efficient, overpriced version of Best Buy or Circuit City. Few original products, nothing for the

electronics enthusiast, and salespeople who would have a problem replacing a blown fuse in a power cord.

Sad indeed.

Yeah, your SSN was not allowed to be an identification number. But now, your government looks at you a bit differently, and that string of digits has become your Taxpayer Identification Number. Pay up, sucker.

Yes, at one time, it had become illegal to require the SSN on certain documents. But life has changed. Beginning to sound like the "666 - Mark of the Beast" If you don't show it, NO DEAL! According to scripture, you won't be able to even buy food with out it. Hmmmmm. Interesting concept. I'm not a very religious person, but it all sure seems to be coming together. Maybe they of history had the 666 part wrong, but their vision may have been on the mark as it were. Very interesting indeed.

I've seen R.S. people ask the person to write their SSN on a slip of paper when applying for things as well. A more subtle way of doing it so it isn't blurted out. What "I" detest is when going to some government offices, they keep you in the open and do just the same as most accuse RS of doing. You'd think the Govt of all people, would be more inclined to honor privacy and security. They want to know your SSN, your purpose for the visit, etc. It is no one else's business what you're there for. G.W.

Greetings,
I have been working on my CW for a while... getting ready to test next month, and I'm concerned that I may not pass it just yet.

My question is, are there any restrictions on how you copy the code while testing? Example, lets say that I just can't decipher the letters quick enough in my head, and it is quicker for me to scribble dots and dashes on paper and then go back and xlate them. Other than dirty looks, would the VE's have any objections to this method?

Any input is more than welcome... Thanks.

Jim

Probably thinks they're responsible for the demise of 73 magazine...

even tho Wayne's traditional subjects (keeping call sign when moving, etc.) pretty much have all been addressed and even Wayne at the end was stuck for editorials for amateur radio - resorting to pushing quack medicine and other crap..

Should point out that other companies fill the parts need a heckuva lot better than radio shack ever did and the operate over the network or 800 numbers w/o the need for 17000 or whatever it is today "stores" in the high rent district of malls.

The sad thing was Tandy getting its mitts on Allied Radio.

But then it was still weird moving to Melbourne, FL in 1980 and finding there was still a Lafayette Radio store here (space now occupied by DRS Optronics).

Roger is, if nothing else, tenacious. He gets knocked awry time after time and stupidly comes back for more.

Remember way back when.when your parents could buy those inflatable punching dummies that stood about three feet tall? Remember? They had a lead weight in the base of the thing so that no matter how hard you punched it, the dummy would topple over and spring right back up for more abuse? You could strike it hundreds of times and it would plunge backwards, but the thing would bounce right back up, ready for further maltreatment

Remember that the dummy had an idiotic looking face painted on it...a cartoon face with an insipid grin?

I don't believe these toys are obtainable these days, however with Roger Wiseman as a punching bag, who needs one?

Yeah... you are right for a normal cash sale. But as the message stated, certain transactions do require the social sec. number. Just don't ever buy anything that requires one I guess.

As a *former* ARRL VE, I am familiar with this discussion. The last clarification that I recall was that it was up to the disgression of the particular VE team whether or not to permit this technique.

Personally, I would not permit it. Writing down dots and dashes, and then translating them at your leisure, does not demonstrate the ability to copy at 5 wpm.

Things like this, as well as multiple-choice code tests, and allowing people to re-take written tests 2 or 3 times in one session until they pass, have made a mockery of the whole process.

Note that since the change to 5wpm for all classes of license, the VECs no
longer use multiple choice code tests. They are now all fill in the blank
type.

As one other poster responded, check with the VE team that will be administering your test.

However this approach is a bad idea. Under the stress of the test, you may get caught up in writing the dots & dashes for one letter and miss what follows.

Also you should not be "deciphering" the letters in your head. Your training method should be creating a reflex. You should hear the sound and write the letter without having to think at all.

What training approach are you using? Did you memorize the dots & dashes (a very bad training method by the way)? Please describe what you are currently using and I'll send you some tips to improve on that so you don't have to worry about dots & dashes. How much time per day are you practicing?

However, a private company CAN deny you their services for any reason
not specified under equal opportunity laws. You don't HAVE to give them
the SSAN, they don't HAVE to give you a cell phone.

Hello Hans,

Back in the DX frame again and QSLing is one of the hazards. I paper QSL 100% but also upload all my logs to LoTW and eQSL hoping to ease the burden. It isn't helping as I get about a dozen in the mail every day. Just took delivery of 3,000 cards and have shipped out about 500 in a week so probably will need more.

JA's are chronic QSL'ers but hey, they must need the paper or they wouldn't be sending them.

Printing QSL's in JA must be a lucrative endeavor. Those guys sure do send
a lot of cards.

And MOST coincidentally, while I'm sitting here reading this, I faintly hear
an OK1R-something calling you on 160, around 1825.45 or so. Would love to
bag 9V1 on 160, but my inverted-L ain't gonna make the trip (even if I could
hear you which I can't!).

I faintly hear an OK1R-something calling you on 160, around 1825.45 or so.
Would love to
bag 9V1 on 160, but my inverted-L ain't gonna make the trip (even if I could
hear you which I can't!).

---

Hans,

Worked him and a bunch of other EU's on 160m, the ONLY band!!! Here two
months on the air and have 44 DXCC on Top Band.

The way I had originally learned it was by sending... I think this was a bad idea, as like you said, I hear dots and dashes instead of the letters. I've been practicing using morse cat to send 5 minutes and copy it. But I find myself trying to count how many dits and dahs I heard and then I miss the next letter too.

Oh well... practice, practice, practice.

Thanks for the input.

Michael A, yours seems as old as mine. I lost my wallet with the SS
card in Myrtle Beach when I was a teenager...1969-ish. It showed up in
the mailbox about a year later with the card and the 12 dollars still
there, sent from one of the shops on the strip.
I proceeded to lose it again and never got a replacement but I still
have the old mailer with the substitute card attached.
When I opened a bank account at one bank they refused to accept this as
'official' and obliged me to present a copy of a tax return with the number.
Another bank requested no evidence.
Duh-wuh, talk about high security.
I'm sure matching a SS to to a name may facilitate a clown bent on
identity theft but you can go to any number of legit sites on the
internet and match names and SS numbers, do a scam, and be gone. It
would be silly to work so hard to do this while standing in line at
Radio Shack or the DMV.
I agree that the SS numbering system is grossly abused...for that same
reason your number is hardly a guarded secret anymore. I get the annual
mailings at my address for a guy who lived here a decade ago that show
all his retirement perks, ss-number, et al.
Its laughable that someone could be offended by revealing this 'secret
number' but at the same time there's no reason that anyone like RS
should 'need' it.
The secret system is kaput. Just give 'em a number so they can fill in
the fields on their screen. Thats all they really want.

"Wayne Green" is what you do when you have to
go to the ER at 9 PM and wait in line 2 hours in
a chair to be seen by Dr. WhatsaMatter Fo Uinstien....

"George Noorey" is the nic for George the X-Ray
Tech who blasts you with the rads from the Crooke's
Tube at 120Kv from behind a lead screen. (..rey-ray...get it?)

(Being a paid EMT myself I can appreciate the story that
follows, lifted from my other favorite Ng of alt .tasteless
Medical humor is always entertaining. Enjoy the read
while waiting 4 tonight's show. Wayne G zbtw is a rather
amusing...if not eccentric guest. A good listen as I get to
run night duty crew as I type this evening)

Subject: Re: Screaming nutsack agony - long and pointless

<leering@yermom.com> wrote in message news:18tjpvsd5699rkk6fskarr151tpef5tg26@4ax.com... For the edification of all, a description of my recent experience with epididymitis.

First, the background. I was working at an indescribably horrible, stressful job, made worse by the fact that boss gave not one steaming shite about the customers. Or his employees' health, as it turned out. The choad came in to work with some contagious disease, despite the fact that he's (1) salaried and (b) insured, whereas the rest of us were neither.

Of course, stress weakens one's immune response, and I'd been more stressed than ever before due to the shitty pay, hours, and working conditions. So, when I started pissing laser beams 2 days later, I wasn't exactly surprised. Unable to afford a doc, I took refuge in cranberry juice. It helped, briefly, but the infection recurred. And recurred again. And again. And again.

Then it got ambitious. In the meantime, I had quit my job.

Early in the morning of 6 October, I woke up in a cold sweat, with the feeling that things were not as they should be down in my dangly bits. I gently prodded about, and encountered my left testicle, which instantly and savagely attacked my central nervous system.

15 minutes later, I managed to uncurl from the defensive fetal posture enough to turn on the bedside lamp. The swimmer factory had ballooned to 4 times its normal size (that is, twice as long, twice as thick), and was rock hard.

Now, about the pain: imagine having your sack ripped open with a carrot peeler, stuffed to the bursting point with white-hot coals, stapled back together, then thwacked with a sledgehammer. Feel free to shudder and cringe as you see fit. Or jerk off in ecstacy. Whichever.

The next 5 days are still sort of blurry. All I can really remember is endless repetitions of cranberry juice, hot baths, and ice packs, with occasional crawls to the toilet for more frickin' laser beams shooting out of my frickin' penis, along with shreds of matter about which I don't want to ponder too deeply.

Finally, the morning of the 11th, things came to a head (PDI). Stagger to the bathroom with a painfully full bladder, gingerly drop my briefs, aim, and...

*squirt*

Not good.

I don't have a car, just a motorcycle. The very thought of climbing on the beast made me all twitchy and sweaty; shit, I couldn't even walk without grinding my teeth. So, it came down to a choice between going

out back with the shotgun, or calling the medics. Not trusting my aim, and having other obligations, I made the call.

10 minutes later, the first crew arrived. I had managed to put on a pair of swim trunks and a t-shirt, and flip-flops. Add to this the fact that I hadn't shaved in nearly a week. Must've been an amusing sight. The medics wired me up, stuck an IV in me (my first ever, weeee!), and asked exactly what was going on. When I described the symptoms, the chief shook his head and said, "Man, you don't want to wait on something like that. You gotta look after the boys!" We talked about the possibility of torsion, and decided that I needed to go to hospital RFN. (right f-n now)

Side note: ambulances do not have cushy, comfy rides. I felt every crack in the pavement. The EMTs, to their credit, did a good job once we got to the Halls Of Screaming Torment, getting me up to 1st on triage. "It's a guy thing," they told the triage nurse. Of course we had arrived right at shift change, so things slowed down quite a bit. I went through the paperwork bullshite, embarassedly explaining that I was flat broke and had no insurance "Don't worry about that," they said. Ha.

Whilst waiting to be poked and prodded, I wondered about the large proportion of old creepers hanging about. I overheard the resident discussing one's stroke symptoms, a few chest pains, and a few diff breathers. And I wondered... why fucking bother, when they'll be dead within a year anyway?

Eventually, someone came to me with a cup and pointed me to the bathroom. Sweet relief at last, I offloaded about a gallon of dark brownish-orange urine. When I handed the cup to the tech, he did a classic double-take and said, "Thanks, Mr Fitzpatrick, go have a seat and we'll get some water to you."

That was the best water I've ever tasted. Being on the edge of collapse due to dehydration may have had something to do with it.

Some hazy time later, a spectacularly hot transport chick came up and wheeled me back to a bed. Of course, the first really fine woman I've seen in this festering shite-hole of a state (Arizona), and I'm looking like a Skid Row reject...

Then the doc came by, introduced himself, apologized for the delay, and asked for a quick visual. I showed, he blinked and nodded, and said he'd be right back. Then the nurz strolled in and asked how the pain rated. I said "If 1 is a mosquito bite, and 10 is grabbing a butcher knife to cut the damn thing off, we're at about 8." She said she'd get me a painkiller and anti-nausea med.

ObDefinitelyNotT: Dilaudid. Without a doubt, that is the best high I've ever had. It wasn't a numb or detached feeling at all, which I thought was strange, as it's a form of morphine. As the wondrous elixir flowed up my arm and out from my chest, it was like every bit

of my body suddenly woke up, stretched, and said good morning. Then the wave hit the affected area, and the pain just... went away. It felt like a warm bath of anaesthetic oil over all the nerve endings. Pure bliss. I asked the nurz if I could get a siz-pack of that to go. She laughed and comfirmed my opinion. Good shit. Then came the anti-nausea stuff. Very thoughtful, as one of the side effects of testicular pain is nausea.

Then the doc came back, and said he wanted an ultrasound. I've seen that done, and it looked very pressure-ific. I must have turned pale, for he said they'd give me another dose of Dilaudid if I needed it afterward.

I needed it afterward.

The ultrasound tech was a good guy, very understanding and patient, but there's only so much he can do without pressing. Damn him, he kept cracking jokes, which made me laugh, which made me hurt... oh well.

The blood flow was fine, so no torsion. At that point, I was actually hoping the blasted thing was dead, so they would just take it out and let me recover. No such luck.

More Dilaudid, a diagnosis of acute (no shit) epididymitis, and 2 prescriptions later, I was on my feet, 4 miles from home, with no money, and no one to call for a pickup.

Did I mention the flip-flops?

That's how I got home. If not for the drugs, I never would have made it.

So. 2 hours later, I staggered back into my house, grabbed the checkbook, put on my sneakers, and staggered over to CVS, which by some minor miracle is right next door. Picked up my prescriptions for Levaquin and Vicodin, got home and put my entire Monty Python's Flying Circus DVD set up on eBay to cover the check, and sacked out.

The Vicodin didn't do shite for the pain, BTW. I'd used it before, to good effect, but not this time.

1 week later, the infection was gone, but the swelling remains to this day. It's gone down some, but riding the motosickle is still uncomfortable. Advil takes care of that. According to everything I've read, it could be *months* before it's back to normal. I oughta take a pic and put it up on abpt.

Let this tale be a warning to ye gents: when something's amiss Down There, FIX IT. Or suffer untold agony and embarrassment, if that's your thing. Cheers, Coinneach Fitzpatrick

---

ObT: I've been eating nothing but vindaloo curries lately, and consequently shitting napalm and farting mustard gas. My ass feels like a White Sands test range, complete with little pools of glass and chattering Geiger counters. With a lifetime to harden themselves against this sort of pain, I'm surprised that the Indians haven't killed us all. Once you get used to squirting live thermite out your bunghole, I can't imagine that facing bullets is particularly daunting.

Cheers, Matt

It was more of an issue of if someone is so "evasive" about something like a social security number and offended by being asked for one, that they should avoid any transaction requires one for the transaction!

Have u tried Farnsworth method -- 12 WPM for characters and overall 5 WPM
spacing -- makes it hard to count the dits and dahs.
And here in San Diego -- the Farnsworth method is used for the tests. See

keep in mind Mr Pack that the respondents to
this thread are comming from ham radio related
ng's. Ever been to a hamfest? Sorta like going to
an auto junkyard. Overweight, smelly old white
men walking around smoking cigars with 4 day old
stubble on their chins and wearing clothes that
were last in style in 1978. You can't blame them
for it going right-over-their-heads as all that matters
to them is their stupid ham radio and the closest
auto route to the Burger King or Mc Donalds.
Only people who are worse than them are the
model train scow crowd who are just as bad
and also in a class all their own.

Wouldn't it be great if JUST ONCE he would just stop and say, "What a load of crap!"

I doubt we'll ever hear it, though.

I think Noory must be worried that if he challenges anyone that he will have a difficult time booking guests for the show. After all, like you say -- he is no Art Bell.

Looks like a typo when the "t" key didn't register, dickhead.
What are these:

�Deeppest� Roger strikes again.

�Dodgeing�. Is he talking about a car?

�Staedy� Steady?

�Linme� Transmission line?

�Getr� Nobody knows.

�Experieince� Wogie is good, ain�t he?

�Appropiate� What kind of opiate?

�Laywer� Lay what?

�Experience� What?

�Visitpors� You never have any, ergo you don�t know how to spell it.

�It's "complaintant," you sniveling weasel.� (Roger Wiseman on spelling complainant.)

�Irreevant� Good going, Wogie.

�Forwared� Forward HO!

�Glady� Glad Bags?

�Neighborhod� It�s a wonderful day in Wogie�s neighborhood.

�Mena� Mean? What you mean, Wogie?

�Notr� Not?

�Sassifyed� ALA Rolling Stones�No Sassifaction..

�Fantasises� That is �fantasizes�, Wussman.

�Illarate� West BY GOD Virginny!

�Reveresed� Must be one of those off-brand keyboards.

�Soem��as in Some? What a losser.

�VIRIN��What Wogie was before he met the Lavender Lads.

�Minisule��he mussa meant miniscule. Like his IQ.

�Champoin��Whassup, Wiseman? No dictionaries in the mental ward?

"Anoinymous"...a cross between anonymous and annoying?

�Acident� Roger�s mom got preggers by accident.

�Alreaedy� Alright, already!

�Amouints� Roger amounts to nothing.

�Aposterphe� This guy is a hoot, ain�t he?

"Basios"...word Woger uses when he gets neeeerrrrvous.
"Behing"...a cross between being and behind?

�Coiward� As in peeking from behind his mommy�s curtains.
"Feamle"...I think he meant female.
"Losser"...only loser Roger can do it better.
"Ignroant"...typical, considering the source.
"Sluprs"...only Rogie knows what this means.
"Travelled"...a Rogerism, replete with ignorance.
"Postss"...pssst...Roger..that should be Posts.
"Defgenerate"...well, it's Roger's word...
"Faity"...he meant to say Fairy, but you know Roger.

�Ghet� Get a load of Curtain Boy!
"Distribiution"...Roger likes using phonics.
"Biotch"...he meant Bitch, but his phonics took over again.
"Methjadone"...a West Virginia substitute for Heroin.
"Sumbliminal"...one of Roger's favorites.
"Recepticle"...either of Roger's moist cavaties.
"Cociane"...a West Virginia drug of choice?
"Tiome"...Roger meant to say Time...but his fingers were numb.
"Beraking"...no definition. Could mean 'beraking' the leaves,
"Amny"...he meant 'any',
"Nlay"...a town in Maylaysia? Vermont?
"Al;ong"...only Wussman knows what this means.
"Becasu"...well, becasu Roger is not the brightest bulb on the tree.
"Seperation". Why? Because Roger cannot "seperate" from his mommie!
�Sisnce� He meant Since, but his pudgy little fingers slipped off the keys.
"gnetically" What?
"provce" (prove?)
"Piuzza" (West Virginia Pizza)
"Schol" (school?)
"strill" (still?)
�shoitgun� 12 ga or 20 ga?
"Snoip" (How they spell �snip� in Glen Dale)
"Maturbater". Wiseman does it all the time, he just can�t spell it.(leaves a sticky residue on his right hand)
